

Jie Mi

List of Publications by Citations

Source: <https://exaly.com/author-pdf/7482797/jie-mi-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
34	Prevalence and behavioral risk factors of overweight and obesity among children aged 2-18 in Beijing, China. <i>Pediatric Obesity</i> , 2010 , 5, 383-9		115
33	Associations of six single nucleotide polymorphisms in obesity-related genes with BMI and risk of obesity in Chinese children. <i>Diabetes</i> , 2010 , 59, 3085-9	0.9	88
32	Insulin resistance determined by Homeostasis Model Assessment (HOMA) and associations with metabolic syndrome among Chinese children and teenagers. <i>Diabetology and Metabolic Syndrome</i> , 2013 , 5, 71	5.6	80
31	Childhood obesity affects adult metabolic syndrome and diabetes. <i>Endocrine</i> , 2015 , 50, 87-92	4	75
30	Association between childhood obesity and metabolic syndrome: evidence from a large sample of Chinese children and adolescents. <i>PLoS ONE</i> , 2012 , 7, e47380	3.7	58
29	Waist circumference reference values for screening cardiovascular risk factors in Chinese children and adolescents. <i>Biomedical and Environmental Sciences</i> , 2010 , 23, 21-31	1.1	45
28	Childhood retinol-binding protein 4 (RBP4) levels predicting the 10-year risk of insulin resistance and metabolic syndrome: the BCAMS study. <i>Cardiovascular Diabetology</i> , 2018 , 17, 69	8.7	29
27	Bone mineral density reference standards for Chinese children aged 3-18: cross-sectional results of the 2013-2015 China Child and Adolescent Cardiovascular Health (CCACH) Study. <i>BMJ Open</i> , 2017 , 7, e014542	3	19
26	Skeletal muscle reference for Chinese children and adolescents. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2019 , 10, 155-164	10.3	19
25	Common genetic variants associated with lipid profiles in a Chinese pediatric population. <i>Human Genetics</i> , 2013 , 132, 1275-85	6.3	17
24	Abnormal Metabolic Phenotypes Among Urban Chinese Children: Epidemiology and the Impact of DXA-Measured Body Composition. <i>Obesity</i> , 2019 , 27, 837-844	8	16
23	Performance of 4 definitions of childhood elevated blood pressure in predicting subclinical cardiovascular outcomes in adulthood. <i>Journal of Clinical Hypertension</i> , 2018 , 20, 508-514	2.3	16
22	Cardiovascular health in urban Chinese children and adolescents. <i>Annals of Medicine</i> , 2019 , 51, 88-96	1.5	13
21	Abdominal visceral and subcutaneous adipose tissues in association with cardiometabolic risk in children and adolescents: the China Child and Adolescent Cardiovascular Health (CCACH) study. <i>BMJ Open Diabetes Research and Care</i> , 2019 , 7, e000824	4.5	12
20	An obesity genetic risk score predicts risk of insulin resistance among Chinese children. <i>Endocrine</i> , 2014 , 47, 825-32	4	11
19	Gene-gene interactions and associations of six hypertension related single nucleotide polymorphisms with obesity risk in a Chinese children population. <i>Gene</i> , 2018 , 679, 320-327	3.8	11
18	Performance of gender- and age-specific cut-points versus NCEP pediatric cutpoints in dyslipidemia screening among Chinese children. <i>Atherosclerosis</i> , 2019 , 280, 37-44	3.1	10

17	Waist-to-height ratio as a screening tool for cardiometabolic risk in children and adolescents: a nationwide cross-sectional study in China. <i>BMJ Open</i> , 2020 , 10, e037040	3	9
16	Adequate 25-hydroxyvitamin D levels are inversely associated with various cardiometabolic risk factors in Chinese children, especially obese children. <i>BMJ Open Diabetes Research and Care</i> , 2020 , 8,	4.5	9
15	Widespread vitamin D deficiency and its sex-specific association with adiposity in Chinese children and adolescents. <i>Nutrition</i> , 2020 , 71, 110646	4.8	9
14	Regional Adipose Compartments Confer Different Cardiometabolic Risk in Children and Adolescents:: The China Child and Adolescent Cardiovascular Health Study. <i>Mayo Clinic Proceedings</i> , 2019 , 94, 1974-1982	6.4	7
13	Gene Affects Adipogenesis and Alters the Transcriptome Profile of Human Adipose-Derived Mesenchymal Stem Cells. <i>International Journal of Endocrinology</i> , 2019 , 2019, 9145452	2.7	4
12	Associations of Two Obesity-Related Single-Nucleotide Polymorphisms with Adiponectin in Chinese Children. <i>International Journal of Endocrinology</i> , 2017 , 2017, 6437542	2.7	4
11	Nomograms for incident risk of post-partum type 2 diabetes in Chinese women with prior gestational diabetes mellitus. <i>Clinical Endocrinology</i> , 2019 , 90, 417-424	3.4	4
10	High BMI with Adequate Lean Mass Is Not Associated with Cardiometabolic Risk Factors in Children and Adolescents. <i>Journal of Nutrition</i> , 2021 , 151, 1213-1221	4.1	4
9	Noncommunicable chronic disease prevention should start from childhood. <i>Pediatric Investigation</i> , 2021 , 5, 3-5	1.3	3
8	Adipose Tissue Mediates Associations of Birth Weight with Glucose Metabolism Disorders in Children. <i>Obesity</i> , 2019 , 27, 746-755	8	3
7	Reference centiles for evaluating total body fat development and fat distribution by dual-energy x-ray absorptiometry among children and adolescents aged 3-18 years. <i>Clinical Nutrition</i> , 2021 , 40, 1289-1295	5.9	3
6	Childhood Hyperlipidemia and its Association with Early Growth Among Full-Term-Born Children at 5 to 6 Years of Age in China. <i>Obesity</i> , 2020 , 28, 1526-1535	8	2
5	The impact of body weight trajectory from childhood on chronic inflammation in adulthood: The Bogalusa Heart Study. <i>Pediatric Investigation</i> , 2021 , 5, 21-27	1.3	1
4	Childhood adiposity, adult adiposity, and bone health. <i>Pediatric Investigation</i> , 2021 , 5, 6-11	1.3	1
3	Coding Variants are Relevant to the Expression of Obesity-Related Genes for Pediatric Adiposity. <i>Obesity</i> , 2021 , 29, 194-203	8	0
2	Characteristics of pediatric inpatients with primary and secondary hypertension. <i>Pediatric Investigation</i> , 2021 , 5, 28-32	1.3	0
1	Vitamin D Trajectories and Cardiometabolic Risk Factors During Childhood: A Large Population-Based Prospective Cohort Study.. <i>Frontiers in Cardiovascular Medicine</i> , 2022 , 9, 836376	5.4	0
