#	ARTICLE	IF	CITATIONS
1	Effectiveness of telemonitoring integrated into existing clinical services on hospital admission for exacerbation of chronic obstructive pulmonary disease: researcher blind, multicentre, randomised controlled trial. <i>BMJ, The</i> , 2013, 347, f6070-f6070.	3.0	253
2	Mapping the EORTC QLQ C-30 onto the EQ-5D Instrument: The Potential to Estimate QALYs without Generic Preference Data. <i>Value in Health</i> , 2009, 12, 167-171.	0.1	109
3	Health, education and time preference. <i>Health Economics (United Kingdom)</i> , 2011, 20, 917-929.	0.8	89
4	Estimating time preferences for health using discrete choice experiments. <i>Social Science and Medicine</i> , 2001, 52, 1459-1470.	1.8	80
5	Using conjoint analysis to establish consumer preferences for fruit and vegetables. <i>British Food Journal</i> , 1996, 98, 5-12.	1.6	75
6	Valuing future private and social benefits: The discounted utility model versus hyperbolic discounting models. <i>Journal of Economic Psychology</i> , 2000, 21, 191-205.	1.1	69
7	Constant and decreasing timing aversion for saving lives. <i>Social Science and Medicine</i> , 1997, 45, 1653-1659.	1.8	67
8	Negative and zero time preference for health. , 2000, 9, 171-175.		63
9	Efficacy and Cost of an Exercise Program for Functionally Impaired Older Patients With Heart Failure. <i>Circulation: Heart Failure</i> , 2012, 5, 209-216.	1.6	57
10	Establishing Patient Preferences for Blood Transfusion Support: An Application of Conjoint Analysis. <i>Journal of Health Services Research and Policy</i> , 1998, 3, 70-76.	0.8	54
11	Head and neck cancer assessment by flexible endoscopy and telemedicine. <i>Journal of Telemedicine and Telecare</i> , 2009, 15, 118-121.	1.4	50
12	A comparison of the discounted utility model and hyperbolic discounting models in the case of social and private intertemporal preferences for health. <i>Journal of Economic Behavior and Organization</i> , 2002, 49, 79-96.	1.0	46
13	Saving future lives. A comparison of three discounting models. , 1997, 6, 341-350.		44
14	The role of time and risk preferences in adherence to physician advice on health behavior change. <i>European Journal of Health Economics</i> , 2017, 18, 373-386.	1.4	44
15	Intergenerational transfer of time and risk preferences. <i>Journal of Economic Psychology</i> , 2015, 49, 187-204.	1.1	41
16	Telemonitoring for chronic obstructive pulmonary disease: a cost and cost-utility analysis of a randomised controlled trial. <i>Journal of Telemedicine and Telecare</i> , 2015, 21, 108-118.	1.4	37
17	Improving the Quality of Dentistry (IQuaD): a cluster factorial randomised controlled trial comparing the effectiveness and cost-benefit of oral hygiene advice and/or periodontal instrumentation with routine care for the prevention and management of periodontal disease in dentate adults attending dental primary care. <i>Health Technology Assessment</i> , 2018, 22, 1-144.	1.3	37
18	Is risk attitude outcome specific within the health domain?. <i>Journal of Health Economics</i> , 2008, 27, 706-717.	1.3	36

#	ARTICLE	IF	CITATIONS
19	Specification of the Utility Function in Discrete Choice Experiments. <i>Value in Health</i> , 2014, 17, 297-301.	0.1	33
20	Decision making heuristics and the elicitation of preferences: being fast and frugal about the future. <i>Health Economics (United Kingdom)</i> , 2002, 11, 655-658.	0.8	32
21	Access to specialist cancer care: is it equitable?. <i>British Journal of Cancer</i> , 2002, 87, 1221-1226.	2.9	29
22	Doctorâ€™patient differences in risk and time preferences: A field experiment. <i>Journal of Health Economics</i> , 2016, 50, 171-182.	1.3	29
23	The impact of a telemetric chronic obstructive pulmonary disease monitoring service: randomised controlled trial with economic evaluation and nested qualitative study. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2009, 18, 233-235.	2.5	27
24	Time preference bias in time trade-off. <i>European Journal of Health Economics</i> , 2005, 6, 107-111.	1.4	26
25	The use of global positional satellite location in dementia: a feasibility study for a randomised controlled trial. <i>BMC Psychiatry</i> , 2014, 14, 160.	1.1	26
26	Descriptive validity of alternative intertemporal models for health outcomes: an axiomatic test. <i>Health Economics (United Kingdom)</i> , 2011, 20, 770-782.	0.8	25
27	Convergent validity between a discrete choice experiment and a direct, open-ended method: Comparison of preferred attribute levels and willingness to pay estimates. <i>Social Science and Medicine</i> , 2008, 67, 2043-2050.	1.8	24
28	Extrinsic Goals and Time Tradeoff. <i>Medical Decision Making</i> , 2007, 27, 406-413.	1.2	22
29	Game of Stones: feasibility randomised controlled trial of how to engage men with obesity in text message and incentive interventions for weight loss. <i>BMJ Open</i> , 2020, 10, e032653.	0.8	22
30	Do People Value Their Own Future Health Differently from Others' Future Health?. <i>Medical Decision Making</i> , 1999, 19, 466-472.	1.2	21
31	Repeated follow-up as a method for reducing non-trading behaviour in discrete choice experiments. <i>Social Science and Medicine</i> , 2004, 58, 2211-2218.	1.8	21
32	A review of studies assessing the costs and consequences of interventions to reduce mother-to-child HIV transmission in sub-Saharan Africa. <i>Aids</i> , 2003, 17, 1045-1052.	1.0	20
33	Eliciting individual preferences for health care: a case study of perinatal care. <i>Health Expectations</i> , 2010, 13, 4-12.	1.1	19
34	IQuaD dental trial; improving the quality of dentistry: a multicentre randomised controlled trial comparing oral hygiene advice and periodontal instrumentation for the prevention and management of periodontal disease in dentate adults attending dental primary care. <i>BMC Oral Health</i> , 2013, 13, 58.	0.8	18
35	Risk-based, 6-monthly and 24-monthly dental check-ups for adults: the INTERVAL three-arm RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-138.	1.3	18
36	quit4u: the effectiveness of combining behavioural support, pharmacotherapy and financial incentives to support smoking cessation. <i>Health Education Research</i> , 2015, 30, 121-133.	1.0	17

#	ARTICLE	IF	CITATIONS
37	INTERVAL (investigation of NICE technologies for enabling risk-variable-adjusted-length) dental recalls trial: a multicentre randomised controlled trial investigating the best dental recall interval for optimum, cost-effective maintenance of oral health in dentate adults attending dental primary care. <i>BMC Oral Health</i> , 2018, 18, 135.	0.8	14
38	Application of a discrete choice experiment approach to support the design of a hepatitis C testing service in primary care. <i>International Journal of Drug Policy</i> , 2019, 65, 1-7.	1.6	14
39	Comparison of two methods of eliciting time preference for future health states. <i>Social Science and Medicine</i> , 2008, 67, 883-889.	1.8	13
40	Achieving Good Outcomes for Asthma Living (GOAL): mixed methods feasibility and pilot cluster randomised controlled trial of a practical intervention for eliciting, setting and achieving goals for adults with asthma. <i>Trials</i> , 2016, 17, 584.	0.7	13
41	Costs and benefits of tele-endoscopy clinics in a remote location. <i>Journal of Telemedicine and Telecare</i> , 2010, 16, 89-94.	1.4	12
42	The impact of quality and accessibility of primary care on emergency admissions for a range of chronic ambulatory care sensitive conditions (ACSCs) in Scotland: longitudinal analysis. <i>BMC Family Practice</i> , 2019, 20, 32.	2.9	11
43	Selective Caries Removal in Permanent Teeth (SCRiPT) for the treatment of deep carious lesions: a randomised controlled clinical trial in primary care. <i>BMC Oral Health</i> , 2021, 21, 336.	0.8	11
44	Goal-setting intervention in patients with active asthma: protocol for a pilot cluster-randomised controlled trial. <i>Trials</i> , 2013, 14, 289.	0.7	9
45	Always looking on the bright side of life? Exploring optimism and health in three UK post-industrial urban settings. <i>Journal of Public Health</i> , 2015, 37, 389-397.	1.0	9
46	Examining the effectiveness of different dental recall strategies on maintenance of optimum oral health: the INTERVAL dental recalls randomised controlled trial. <i>British Dental Journal</i> , 2021, 230, 236-243.	0.3	9
47	Comparing levels of social capital in three northern post-industrial UK cities. <i>Public Health</i> , 2015, 129, 629-638.	1.4	8
48	Cost-effectiveness of non-consensus double reading. <i>Breast</i> , 1998, 7, 243-246.	0.9	7
49	The efficient organization of blood donation: what determines the number of donors and donations?. <i>Transfusion Medicine</i> , 2000, 10, 5-11.	0.5	7
50	Predicting attendance for breast screening using routinely collected data. <i>Health Care Management Science</i> , 2003, 6, 229-236.	1.5	7
51	The migration of UK trained GPs to Australia: Does risk attitude matter?. <i>Health Policy</i> , 2019, 123, 1093-1099.	1.4	7
52	THE ROLE OF TIME PREFERENCES IN THE INTERGENERATIONAL TRANSFER OF SMOKING. <i>Health Economics (United Kingdom)</i> , 2014, 23, 1493-1501.	0.8	6
53	Valuing food safety improvements using willingness to pay. <i>Applied Health Economics and Health Policy</i> , 2003, 2, 99-107.	1.0	6
54	Pulpotomy for the Management of Irreversible Pulpitis in Mature Teeth (PIP): a feasibility study. <i>Pilot and Feasibility Studies</i> , 2022, 8, 77.	0.5	6

#	ARTICLE	IF	CITATIONS
55	The efficient organization of blood donation. , 1998, 7, 455-463.		5
56	Is risk attitude really specific within the health context domain? Further evidence from an Italian survey using probability equivalent technique and face-to-face interviews. Health, Risk and Society, 2012, 14, 655-666.	0.9	5
57	The Value of Preventative Dental Care: A Discrete-Choice Experiment. Journal of Dental Research, 2021, 100, 723-730.	2.5	5
58	A comparison of professional and private time preferences of General Practitioners. Social Science and Medicine, 2019, 222, 256-264.	1.8	4
59	Examining the impact of oral hygiene advice and/or scale and polish on periodontal disease: the IQaD cluster factorial randomised controlled trial. British Dental Journal, 2021, 230, 229-235.	0.3	4
60	Text messaging and financial incentives to encourage weight loss in men with obesity: the Game of Stones feasibility RCT. Public Health Research, 2020, 8, 1-224.	0.5	4
61	Economic analysis of outreach assessment clinics in breast screening programmes. , 1999, 14, 57-67.		3
62	Does supplementary prenatal nursing and home visitation reduce healthcare costs in the year after childbirth?. Journal of Advanced Nursing, 2006, 56, 657-668.	1.5	3
63	Comparing time and risk preferences across three post-industrial UK cities. Social Science and Medicine, 2015, 140, 54-61.	1.8	3
64	Recruiting men from across the socioeconomic spectrum via GP registers and community outreach to a weight management feasibility randomised controlled trial. BMC Medical Research Methodology, 2020, 20, 249.	1.4	3
65	UK general population willingness to pay for scale and polish, and detailed and personalized oral hygiene advice. Community Dentistry and Oral Epidemiology, 2022, 50, 233-242.	0.9	3
66	Methods for Eliciting Time Preferences Over Future Health Events. , 0, , 41-58.		2
67	Feasibility of mobile provision of health services: a study of child monitoring centres in The Netherlands. , 1998, 13, 244-254.		1
68	Psychological correlates of free colorectal cancer screening uptake in a Scottish sample: a cross-sectional observational study. BMJ Open, 2022, 12, e042210.	0.8	1
69	Is time preference and present bias associated with the decision to start, quit or maintain physical activity over time?. Zeitschrift Fur Gesundheitswissenschaften, 2022, 30, 587-597.	0.8	0
