#	ARTICLE	IF	CITATIONS
1	Chronic care model in the diabetes pay-for-performance program in Taiwan: Benefits, challenges and future directions. <i>World Journal of Diabetes</i> , 2021, 12, 578-589.	3.5	9
2	Risk-adjusted rates between hospitals for adverse outcomes of very-low-birth-weight infants. <i>Journal of the Formosan Medical Association</i> , 2021, 120, 1855-1862.	1.7	5
3	Does public report card matter? A 10-year interrupted time series analysis on total knee replacement. <i>European Journal of Public Health</i> , 2020, 30, 4-9.	0.3	1
4	The effects of a schizophrenia pay-for-performance program on patient outcomes in Taiwan. <i>Health Services Research</i> , 2019, 54, 1119-1125.	2.0	6
5	The effect of a hepatitis pay-for-performance program on outcomes of patients undergoing antiviral therapy. <i>European Journal of Public Health</i> , 2017, 27, 955-960.	0.3	4
6	Patient- and Hospital-Level Determinants of Rehabilitation for In-Patient Stroke Care. <i>Medicine (United States)</i> , 2017, 96, 100-108.	1.0	5
7	Participating physician preferences regarding a pay-for-performance incentive design: a discrete choice experiment. <i>International Journal for Quality in Health Care</i> , 2016, 28, 40-46.	1.8	10
8	The relationship between survival after out-of-hospital cardiac arrest and process measures for emergency medical service ambulance team performance. <i>Resuscitation</i> , 2015, 97, 55-60.	3.0	10
9	Measuring Preferences for a Diabetes Pay-for-Performance for Patient (P4P4P) Program using a Discrete Choice Experiment. <i>Value in Health</i> , 2015, 18, 578-586.	0.3	5
10	Exploring and Comparing the Characteristics of Nonlatent and Latent Composite Scores. <i>Medical Decision Making</i> , 2012, 32, 132-144.	2.4	12
11	The use of statistical process control (risk-adjusted CUSUM, risk-adjusted RSPRT and CRAM with) the EMS system. <i>Journal of Evaluation in Clinical Practice</i> , 2011, 17, 71-77.	1.8	17
12	The Unintended Consequence of Diabetes Mellitus Pay-for-Performance (P4P) Program in Taiwan: Are Patients with More Comorbidities or More Severe Conditions Likely to Be Excluded from the P4P Program?. <i>Health Services Research</i> , 2011, 46, 47-60.	2.0	76
13	Using discrete choice experiment to elicit doctors' preferences for the report card design of diabetes care in Taiwan – a pilot study. <i>Journal of Evaluation in Clinical Practice</i> , 2010, 16, 14-20.	1.8	11
14	Statistical process control as a tool for controlling operating room performance: retrospective analysis and benchmarking. <i>Journal of Evaluation in Clinical Practice</i> , 2010, 16, 905-910.	1.8	12
