#	ARTICLE	IF	CITATIONS
1	The clinical significance of ultra-high D-dimer levels. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2022, 10, 8-13.	1.6	15
2	Editor's Choice â€œ European Society for Vascular Surgery (ESVS) 2022 Clinical Practice Guidelines on the Management of Chronic Venous Disease of the Lower Limbs. <i>European Journal of Vascular and Endovascular Surgery</i> , 2022, 63, 184-267.	1.5	253
3	Outcomes of popliteal stent-graft placement at the artery hinge point for popliteal artery aneurysm. <i>Annals of Vascular Surgery</i> , 2022, , .	0.9	4
4	Effects of standing on leg volume â€œ not all people respond equally. <i>Vasa - European Journal of Vascular Medicine</i> , 2022, 51, 61-61.	1.4	0
5	The American Venous Forum, American Vein and Lymphatic Society and the Society for Vascular Medicine expert opinion consensus on lymphedema diagnosis and treatment. <i>Phlebology</i> , 2022, 37, 252-266.	1.2	23
6	Defining the role of risk stratification and duplex ultrasound in the diagnosis of acute lower extremity deep vein thrombosis. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2022, 10, 1021-1027.	1.6	1
7	Multifactorial Effects of COVID-19: A Review of Published Autopsy Reports. <i>Covid</i> , 2022, 2, 553-568.	1.5	1
8	Extended anticoagulation for venous thromboembolism: A survey of the American Venous Forum and the European Venous Forum. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2022, 10, 1012-1020.e3.	1.6	1
9	TERAPIA DE COMPRESIÃ“N POSTERIOR AL TRATAMIENTO INVASIVO DE VENAS SUPERFICIALES DE LAS EXTREMIDADES INFERIORES. , 2022, 20, 13-27.		0
10	Interface pressure changes under compression bandages during period of wearing. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 971-976.	1.6	6
11	Rapidly Expanding Renal Artery Aneurysm Open Repair: A Case Report. <i>Vascular and Endovascular Surgery</i> , 2021, 55, 286-289.	0.7	0
12	Management and treatment outcomes of patients undergoing endovenous ablation are significantly different between Intersocietal Accreditation Commission-accredited and nonaccredited vein centers. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 346-351.	1.6	1
13	Targeted gene expression analysis of human deep veins. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 770-780.e7.	1.6	2
14	The 2021 American Venous Forum Day of Innovation and Science (Virtual) â€œEducation and scientific writing in venous and lymphatic diseaseâ€• <i>JVS Vascular Science</i> , 2021, 2, 70-71.	1.1	0
15	Automated testing may make peripheral artery disease screening more attractive. <i>Journal of Vascular Surgery</i> , 2021, 73, 661.	1.1	0
16	Toe pressure may be able to identify peripheral artery disease in patients with normal ankle-brachial index. <i>Journal of Vascular Surgery</i> , 2021, 73, 650-651.	1.1	0
17	The Change of Venous Wall Tension During Prolonged Load of Physiologic Hydrostatic Pressure: A Pilot Ex Vivo Study. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 548-549.	1.6	0
18	The Impact of COVID-19 on Vascular Surgery Practice: A Systematic Review. <i>Vascular and Endovascular Surgery</i> , 2021, 55, 601-611.	0.7	2

#	ARTICLE	IF	CITATIONS
19	The Symptoms-Varices-Pathophysiology classification of pelvic venous disorders: A report of the American Vein & Lymphatic Society International Working Group on Pelvic Venous Disorders. <i>Phlebology</i> , 2021, 36, 342-360.	1.2	19
20	The New Virus Tells the Old Story. <i>European Journal of Vascular and Endovascular Surgery</i> , 2021, 61, 635.	1.5	0
21	The Symptoms-Varices-Pathophysiology classification of pelvic venous disorders: A report of the American Vein & Lymphatic Society International Working Group on Pelvic Venous Disorders. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 568-584.	1.6	74
22	Blood flow from competent tributaries is likely contributor to distally increasing reflux volume in incompetent great saphenous vein. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, , .	1.6	2
23	A systematic review on the treatment of nonhealing venous ulcers following successful elimination of superficial venous reflux. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 1071-1076.e1.	1.6	6
24	The Effect of Patient Oral Intake Status on Abdominal Aortic Ultrasound Visualization. <i>Annals of Vascular Surgery</i> , 2021, 74, 204-208.	0.9	0
25	Comparison of three pressure monitors used to measure interface pressure under compression bandages. <i>Phlebology</i> , 2020, 35, 262-267.	1.2	4
26	Evaluation of machine learning methodology for the prediction of healthcare resource utilization and healthcare costs in patients with critical limb ischemia“is preventive and personalized approach on the horizon?. <i>EPMA Journal</i> , 2020, 11, 53-64.	6.1	14
27	The immediate effect of physical activity on ultrasound-derived venous reflux parameters. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 640-645.	1.6	4
28	Even the best guess is not as good as a measurement. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 840.	1.6	0
29	It is time for population-based data on lower extremity edema. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 860.	1.6	0
30	Response to letter to editor regarding: “Risks and contraindications of medical compression treatment “ a critical reappraisal. An international consensus statement PHLEB-19-150.R1“ <i>Phlebology</i> , 2020, 35, 838-839.	1.2	2
31	Skin manifestations of COVID-19 resembling acute limb ischemia. <i>Journal of Vascular Surgery Cases and Innovative Techniques</i> , 2020, 6, 514-515.	0.6	6
32	Venous reflux in the great saphenous vein is driven by a suction force provided by the calf muscle pump in the compression“decompression maneuver. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 9, 1282-1290.	1.6	4
33	The 2020 Update of the CEAP Classification: What is New?. <i>European Journal of Vascular and Endovascular Surgery</i> , 2020, 59, 859-860.	1.5	10
34	Anatomical Extent of Venous Reflux. <i>Cardiology and Therapy</i> , 2020, 9, 215-218.	2.6	5
35	Risks and contraindications of medical compression treatment “ A critical reappraisal. An international consensus statement. <i>Phlebology</i> , 2020, 35, 447-460.	1.2	68
36	Reflux volume is determined by ejected blood volume from the calf venous reservoir. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 1090-1096.	1.6	4

#	ARTICLE	IF	CITATIONS
37	The 2020 appropriate use criteria for chronic lower extremity venous disease of the American Venous Forum, the Society for Vascular Surgery, the American Vein and Lymphatic Society, and the Society of Interventional Radiology. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 505-525.e4.	1.6	80
38	Reply. <i>Journal of Vascular Surgery</i> , 2020, 71, 2183-2184.	1.1	0
39	Reflux Volume Increases Caudally From saphenofemoral Junction to the Distal Leg. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 316.	1.6	0
40	Outcomes of Inferior Vena Cava Filter Placement in Patients With Perceived Contraindications to Anticoagulation. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 311.	1.6	1
41	Cystic adventitial disease of the popliteal artery presenting with features of entrapment syndrome. <i>Journal of Vascular Surgery Cases and Innovative Techniques</i> , 2020, 6, 75-79.	0.6	4
42	The 2020 update of the CEAP classification system and reporting standards. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 342-352.	1.6	373
43	Advanced Stages of Chronic Venous Disease: Evolution of Surgical Techniques and Advantages of Associated Medical Treatment. <i>Advances in Therapy</i> , 2020, 37, 6-12.	2.9	6
44	Biases of Villalta scale in classifying post-thrombotic syndrome in patients with pre-existing chronic venous disease. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 1025-1030.	1.6	9
45	What is new in the 2020 update of the CEAP classification?. <i>International Angiology</i> , 2020, 39, 443-444.	0.9	5
46	Physical principles of venous hemodynamics and its mathematical modeling. <i>Journal of Theoretical and Applied Vascular Research</i> , 2020, 5, .	0.0	0
47	Lymphedema: A Practical Approach and Clinical Update. <i>Wounds</i> , 2020, 32, 86-92.	0.5	4
48	Shear rate is a better marker of symptomatic ischemic cerebrovascular events than velocity or diameter in severe carotid artery stenosis. <i>Journal of Vascular Surgery</i> , 2019, 69, 448-452.	1.1	9
49	Gravity force is not a sole explanation of reflux flow in incompetent great saphenous vein. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2019, 7, 693-698.	1.6	8
50	Fasting Before Duplex Ultrasound Scan of Abdominal Aorta Is Unnecessary: Comparison of the Results of a Pilot Randomized Blind Study and a Retrospective Cohort. <i>Journal of Vascular Surgery</i> , 2019, 70, e66-e67.	1.1	0
51	Reply. <i>Journal of Vascular Surgery</i> , 2019, 70, 1724-1725.	1.1	0
52	Global guidelines trends and controversies in lower limb venous and lymphatic disease. <i>Phlebology</i> , 2019, 34, 4-66.	1.2	51
53	PC008. Fasting Before Duplex Ultrasound Scan of Abdominal Aorta Is Unnecessary: Comparison of the Results of a Pilot Randomized Blind Study and a Retrospective Cohort. <i>Journal of Vascular Surgery</i> , 2019, 69, e205-e206.	1.1	0
54	Venous Reflux Changes After Physical Exercise. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2019, 7, 291.	1.6	0

#	ARTICLE	IF	CITATIONS
55	Invited commentary. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2019, 7, 246.	1.6	0
56	Low Interface Pressure Provides Major Part of Hemodynamic Response to Compression Therapy. European Journal of Vascular and Endovascular Surgery, 2019, 57, 708.	1.5	1
57	A case of symptomatic extracranial internal carotid artery aneurysm. Journal of Vascular Surgery, 2019, 70, 1673-1674.	1.1	7
58	PC184. Management of Patients Undergoing Endovenous Ablation Procedures and Treatment Outcomes Are Significantly Different in Intersocietal Accreditation Commission-Accredited and Not Accredited Vein Centers. Journal of Vascular Surgery, 2019, 69, e254-e255.	1.1	0
59	FJVIS 12. Outcomes of Popliteal Stent Placement Crossing Versus Not Crossing the Artery Hinge Point. Journal of Vascular Surgery, 2019, 70, e190-e191.	1.1	0
60	Compression therapy after invasive treatment of superficial veins of the lower extremities: Clinical practice guidelines of the American Venous Forum, Society for Vascular Surgery, American College of Phlebology, Society for Vascular Medicine, and International Union of Phlebology. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2019, 7, 17-28.	1.6	59
61	The contemporary hybrid operative procedure for incapacitating post-thrombotic iliofemoral and vena caval obstruction improves procedural outcomes. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2019, 7, 65-73.	1.6	4
62	Timing of Hospital-acquired Venous Thromboembolism and Its Relationship with Venous Thromboembolism Prevention Measures in Immobile Patients. Annals of Vascular Surgery, 2019, 56, 24-28.	0.9	3
63	D-Dimer Level and Location of the Deep Venous Thrombosis. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2018, 6, 293.	1.6	2
64	Optimal Compression Therapy and Wound Care for Venous Ulcers. Surgical Clinics of North America, 2018, 98, 349-360.	1.5	11
65	Use of Villalta Score for Defining Post-Thrombotic Disease May Lead to False-Positive Diagnosis in 42% of Patients With Primary Chronic Venous Disease. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2018, 6, 291.	1.6	5
66	Postoperative complications after lower extremity arterial bypass increase the risk of new deep venous thrombosis. Phlebology, 2018, 33, 558-566.	1.2	8
67	Venous disease patient registries available in the United States. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2018, 6, 118-125.	1.6	10
68	Diagnostic Imaging for Veins. , 2018, , 37-49.		0
69	Hemodynamics of venous valve pairing and implications on helical flow. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2018, 6, 517-522.e1.	1.6	9
70	Invited commentary. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 95.	1.6	2
71	The Structure of Venous Thrombus Depends on Blood Flow: Insights From Animal Models. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 145-146.	1.6	1
72	Deep Venous Thrombosis After Lower Extremity Arterial Bypass is Associated with Higher Risk for Postoperative Complications. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 170.	1.6	0

#	ARTICLE	IF	CITATIONS
73	Invited commentary. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 86-87.	1.6	0
74	Invited commentary. Journal of Vascular Surgery, 2017, 65, 529.	1.1	0
75	Cilostazol May Improve Maturation Rates and Durability of Vascular Access for Hemodialysis. Vascular and Endovascular Surgery, 2017, 51, 120-124.	0.7	5
76	Proposal for a national coverage determination for the treatment of varicose veins and venous disease due to disparate Centers for Medicare and Medicaid Services local coverage determination policies. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 453-459.	1.6	6
77	Practice patterns of endovenous ablation therapy for the treatment of venous reflux disease. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 75-81.e1.	1.6	4
78	The Technical Evolution and Procedural Outcomes of the Contemporary Hybrid Operative Procedure for Incapacitating Post-Thrombotic Iliofemoral and Inferior Vena Caval Obstruction. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 150.	1.6	0
79	Patient-centered outcomes of a dual action pneumatic compression device in comparison to compression stockings for patients with chronic venous disease. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 699-706.e1.	1.6	14
80	Reply. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2017, 5, 474.	1.6	0
81	Why Vascular Medicine Belongs With Vascular Surgery: Advantages to the Integration of Vascular Medicine and Vascular Surgery Services. Journal of Vascular Surgery, 2017, 66, e39.	1.1	0
82	Program requirements for fellowship education in venous and lymphatic medicine. Phlebology, 2017, 32, 459-473.	1.2	2
83	Cost-Effectiveness Analysis of Initial Treatment Strategies for Nonembolic Acute Limb Ischemia Using Real-World Data. Annals of Vascular Surgery, 2017, 39, 276-283.	0.9	8
84	Risk Assessment in Venous ThromboEmbolic. Journal of Theoretical and Applied Vascular Research, 2017, 1, 81-94.	0.0	0
85	A novel native collagen dressing with advantageous properties to promote physiological wound healing. Journal of Wound Care, 2016, 25, 713-720.	1.2	19
86	Compression use in the era of endovenous interventions and wound care centers. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2016, 4, 346-354.	1.6	11
87	IP129. Modified MILLER Technique for Preferentially Directing Blood Flow in Dialysis Patients. Journal of Vascular Surgery, 2016, 63, 96S.	1.1	0
88	Transforming the best care into the standard for care. Journal of Vascular Surgery: Venous and Lymphatic Disorders, 2016, 4, 106-113.	1.6	0
89	RS08. Cilostazol Improves Maturation Rates and Durability of Vascular Access for Hemodialysis. Journal of Vascular Surgery, 2016, 63, 57S-58S.	1.1	0
90	Predictors of Recanalization of the Great Saphenous Vein in Randomized Controlled Trials 1 Year After Endovenous Thermal Ablation. European Journal of Vascular and Endovascular Surgery, 2016, 52, 234-241.	1.5	48

#	ARTICLE	IF	CITATIONS
91	Primary venous insufficiency increases risk of deep vein thrombosis. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2016, 4, 161-166.	1.6	19
92	Summary of guidelines of the American Venous Forum. , 2016, , 783-813.		0
93	Venous hemodynamic changes in lower limb venous disease: the UIP consensus according to scientific evidence. <i>International Angiology</i> , 2016, 35, 236-352.	0.9	62
94	Role of coexisting contralateral primary venous disease in development of post-thrombotic syndrome following catheter-based treatment of iliofemoral deep venous thrombosis. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2015, 3, 354-357.	1.6	4
95	PC186. Cost of Initial Treatment Options for Claudication and Critical Limb Ischemia. <i>Journal of Vascular Surgery</i> , 2015, 61, 168S.	1.1	0
96	For Deep Vein Thrombosis, Follow the Randomized Trials. <i>JAMA Internal Medicine</i> , 2015, 175, 653.	5.1	1
97	A histological and functional description of the tissue causing chronic postthrombotic venous obstruction. <i>Thrombosis Research</i> , 2015, 135, 882-887.	1.7	45
98	Pathogenesis of venous ulcer. <i>Seminars in Vascular Surgery</i> , 2015, 28, 6-14.	2.8	50
99	Discussion. <i>Journal of Vascular Surgery</i> , 2015, 61, 146.	1.1	3
100	Clinical outcomes and cost-effectiveness of initial treatment strategies for nonembolic acute limb ischemia in real-life clinical settings. <i>Journal of Vascular Surgery</i> , 2015, 61, 138-146.	1.1	23
101	Prosthetic venous valve patient selection by validated physics-based computational models. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2015, 3, 75-80.	1.6	2
102	Physiology and Pathophysiology of the Venous System. , 2015, , 4289-4304.		1
103	Low retrieval rates of temporary inferior vena cava filters in trauma patients. <i>American Surgeon</i> , 2015, 81, 428-9.	0.8	0
104	Variability of interface pressure produced by ready-to-wear compression stockings. <i>Phlebology</i> , 2014, 29, 105-108.	1.2	11
105	Report from the 2013 meeting of the International Compression Club on advances and challenges of compression therapy. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2014, 2, 469-476.	1.6	6
106	Biomechanical comparison between mono-, bi-, and tricuspid valve architectures. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2014, 2, 188-193.e1.	1.6	12
107	Management of venous leg ulcers: Clinical practice guidelines of the Society for Vascular Surgery® and the American Venous Forum. <i>Journal of Vascular Surgery</i> , 2014, 60, 3S-59S.	1.1	523
108	Reply. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2014, 2, 121.	1.6	0
