#	ARTICLE	IF	CITATIONS
1	Associations between responses to voices, distress and appraisals during daily life: an ecological validation of the cognitive behavioural model. <i>Psychological Medicine</i> , 2022, 52, 538-547.	2.7	5
2	Brief coping strategy enhancement for the treatment of distressing voices in the context of borderline personality disorder: A comparison with outcomes in the context of psychosis. <i>Clinical Psychology and Psychotherapy</i> , 2022, 29, 567-578.	1.4	5
3	A cross-sectional study of auditory verbal hallucinations experienced by people with a diagnosis of borderline personality disorder. <i>Clinical Psychology and Psychotherapy</i> , 2022, 29, 631-641.	1.4	5
4	Voice Hearing in Borderline Personality Disorder Across Perceptual, Subjective, and Neural Dimensions. <i>International Journal of Neuropsychopharmacology</i> , 2022, 25, 375-386.	1.0	3
5	Coping strategy enhancement for the treatment of distressing voices in young people: A service evaluation within routine clinical practice. <i>Clinical Child Psychology and Psychiatry</i> , 2022, 27, 1209-1220.	0.8	6
6	Pilot evaluation of a brief training video aimed at reducing mental health stigma amongst emergency first responders (the ENHANCe II study). <i>Journal of Mental Health</i> , 2022, , 1-9.	1.0	0
7	Exploring the Development, Validity, and Utility of the Short-Form Version of the CHoice of Outcome In Cbt for PsychosEs: A Patient-Reported Outcome Measure of Psychological Recovery. <i>Schizophrenia Bulletin</i> , 2021, 47, 653-661.	2.3	8
8	A service evaluation of a group mindfulness-based intervention for distressing voices: how do findings from a randomized controlled trial compare with routine clinical practice?. <i>Behavioural and Cognitive Psychotherapy</i> , 2021, 49, 76-90.	0.9	6
9	Increasing access to brief Coping Strategy Enhancement for distressing voices: a service valuation exploring a possible role for briefly-trained therapists. <i>The Cognitive Behaviour Therapist</i> , 2021, 14, .	0.4	6
10	Increasing access to brief Coping Strategy Enhancement for distressing voices: a service valuation exploring a possible role for briefly-trained therapists – CORRIGENDUM. <i>The Cognitive Behaviour Therapist</i> , 2021, 14, .	0.4	0
11	Can Gender Differences in Distress Due to Difficult Voices Be Explained by Differences in Relating?. <i>Cognitive Therapy and Research</i> , 2021, 45, 831-839.	1.2	1
12	Multimodal versus unimodal auditory hallucinations in clinical practice: Clinical characteristics and treatment outcomes. <i>Psychiatry Research</i> , 2021, 297, 113754.	1.7	6
13	Enhancing mental health awareness in emergency services (the ENHANCe I project): cross-sectional survey on mental health stigma among emergency services staff. <i>BJPsych Open</i> , 2021, 7, e77.	0.3	4
14	RELATE – a randomised controlled feasibility trial of a Relating Therapy module for distressing auditory verbal hallucinations: a study protocol. <i>BMJ Open</i> , 2021, 11, e046390.	0.8	4
15	Increasing access to cognitive-behavioural therapy for patients with psychosis by evaluating the feasibility of a randomised controlled trial of brief, targeted cognitive-behavioural therapy for distressing voices delivered by assistant psychologists: the GiVE2 trial. <i>BJPsych Open</i> , 2021, 7, .	0.3	5
16	Being a Scientist – Practitioner in the Field of Psychosis: Experiences From Voices Clinics. , 2020, , 615-635.		2
17	Pilot randomised controlled trial of a brief coping-focused intervention for hearing voices blended with smartphone-based ecological momentary assessment and intervention (SAVVy): Feasibility, acceptability and preliminary clinical outcomes. <i>Schizophrenia Research</i> , 2020, 216, 479-487.	1.1	40
18	Patient experience of Guided self-help CBT intervention for VoicEs (GiVE) delivered within a pilot randomized controlled trial. <i>The Cognitive Behaviour Therapist</i> , 2020, 13, .	0.4	1

#	ARTICLE	IF	CITATIONS
19	Relating between the voice and voice-hearer: Validation of a revised version of the Voice And You. Schizophrenia Research, 2020, 224, 45-50.	1.1	1
20	Demographic predictors of wellbeing in Carers of people with psychosis: secondary analysis of trial data. BMC Psychiatry, 2020, 20, 269.	1.1	4
21	Construction and validation of the Approve questionnaires " Measures of relating to voices and other people. Schizophrenia Research, 2020, 220, 254-260.	1.1	10
22	A systematic review of structural MRI investigations within borderline personality disorder: Identification of key psychological variables of interest going forward. Psychiatry Research, 2020, 286, 112864.	1.7	17
23	A qualitative study exploring how Practitioners within Early Intervention in Psychosis Services engage with Service Users' experiences of voice hearing?. Journal of Psychiatric and Mental Health Nursing, 2020, 27, 607-615.	1.2	11
24	Increasing access to CBT for psychosis patients: a feasibility, randomised controlled trial evaluating brief, targeted CBT for distressing voices delivered by assistant psychologists (GiVE2). Trials, 2020, 21, 302.	0.7	5
25	"It's just a bit like a rollercoaster" a longitudinal qualitative study exploring a model of the phases of voice hearing. Psychosis, 2019, 11, 308-318.	0.4	6
26	Evaluating the "C" and "B" in brief cognitive behaviour therapy for distressing voices in routine clinical practice in an uncontrolled study. Clinical Psychology and Psychotherapy, 2019, 26, 734-742.	1.4	9
27	Hallucinations in Children and Adolescents: An Updated Review and Practical Recommendations for Clinicians. Schizophrenia Bulletin, 2019, 45, S5-S23.	2.3	47
28	"That little doorway where I could suddenly start shouting out" Barriers and enablers to the disclosure of distressing voices. Journal of Health Psychology, 2019, 24, 1307-1317.	1.3	17
29	Evidence-based psychological approaches for auditory hallucinations. BJ Psych Advances, 2018, 24, 174-177.	0.5	2
30	Mindfulness-based exposure and response prevention for obsessive compulsive disorder: Findings from a pilot randomised controlled trial. Journal of Anxiety Disorders, 2018, 57, 39-47.	1.5	35
31	Continuing the conversation about AVATAR therapy. Lancet Psychiatry, the, 2018, 5, 196.	3.7	4
32	Brief Coping Strategy Enhancement for Distressing Voices: an Evaluation in Routine Clinical Practice. Behavioural and Cognitive Psychotherapy, 2018, 46, 226-237.	0.9	34
33	Guided self-help cognitive-behaviour Intervention for VoicEs (GiVE): Results from a pilot randomised controlled trial in a transdiagnostic sample. Schizophrenia Research, 2018, 195, 441-447.	1.1	47
34	The Beliefs about Voices Questionnaire " Revised: A factor structure from 450 participants. Psychiatry Research, 2018, 259, 95-103.	1.7	19
35	A Randomised Controlled Trial of a Brief Online Mindfulness-Based Intervention on Paranoia in a Non-Clinical Sample. Mindfulness, 2018, 9, 294-302.	1.6	20
36	Smartphone-based ecological momentary assessment and intervention in a blended coping-focused therapy for distressing voices: Development and case illustration. Internet Interventions, 2018, 14, 18-25.	1.4	28

#	ARTICLE	IF	CITATIONS
37	Building a Grounded Theory of Engagement in Mindfulness-Based Group Therapy for Distressing Voices. <i>Qualitative Health Research</i> , 2018, 28, 2169-2182.	1.0	7
38	Relating Therapy for distressing voices: Who, or what, is changing?. <i>Psychosis</i> , 2018, 10, 132-141.	0.4	17
39	Brief coping strategy enhancement for distressing voices: Predictors of engagement and outcome in routine clinical practice. <i>Clinical Psychology and Psychotherapy</i> , 2018, 25, 634-640.	1.4	15
40	Relating to the Speaker behind the Voice: What Is Changing?. <i>Frontiers in Psychology</i> , 2018, 9, 11.	1.1	17
41	Understanding the Barriers to Accessing Symptom-Specific Cognitive Behavior Therapy (CBT) for Distressing Voices: Reflecting on and Extending the Lessons Learnt From the CBT for Psychosis Literature. <i>Frontiers in Psychology</i> , 2018, 9, 727.	1.1	17
