#	ARTICLE	IF	CITATIONS
1	Investigating the veracity of a sample of divergent published trial data in spinal pain. <i>Pain</i> , 2023, 164, 72-83.	2.0	18
2	Screening to Identify Postoperative Pain and Cross-Sectional Associations Between Factors Identified in This Process With Pain and Function, Three Months After Total Knee Replacement. <i>Arthritis Care and Research</i> , 2022, 74, 790-798.	1.5	7
3	Efficacy and safety of pharmacological, physical, and psychological interventions for the management of chronic pain in children: a WHO systematic review and meta-analysis. <i>Pain</i> , 2022, 163, e1-e19.	2.0	34
4	Pain, work, and the workplace: a topical review. <i>Pain</i> , 2022, 163, 408-414.	2.0	8
5	Benefit-risk assessment and reporting in clinical trials of chronic pain treatments: IMMPACT recommendations. <i>Pain</i> , 2022, 163, 1006-1018.	2.0	4
6	The sands of time: Adolescents' temporal perceptions of peer relationships and autonomy in the context of living with chronic pain. <i>Paediatric and Neonatal Pain</i> , 2022, 4, 110-124.	0.6	4
7	Systematic reviews do not (yet) represent the "gold standard" of evidence: A position paper. <i>European Journal of Pain</i> , 2022, 26, 557-566.	1.4	10
8	The STAR care pathway for patients with pain at 3 months after total knee replacement: a multicentre, pragmatic, randomised, controlled trial. <i>Lancet Rheumatology</i> , The, 2022, 4, e188-e197.	2.2	16
9	A prospective, double-blind, pilot, randomized, controlled trial of an embodied virtual reality intervention for adults with low back pain. <i>Pain</i> , 2022, 163, 1700-1715.	2.0	15
10	Psychological interventions for parents of children and adolescents with chronic illness. <i>The Cochrane Library</i> , 2021, 2021, CD009660.	1.5	72
11	Psychological therapies for the management of chronic pain (excluding headache) in adults. <i>The Cochrane Library</i> , 2021, 2021, CD007407.	1.5	172
12	Interventions for the reduction of prescribed opioid use in chronic non-cancer pain. <i>The Cochrane Library</i> , 2021, 2021, CD010323.	1.5	83
13	The Time Course of Facial Expression Recognition Using Spatial Frequency Information: Comparing Pain and Core Emotions. <i>Journal of Pain</i> , 2021, 22, 196-208.	0.7	4
14	Delivering transformative action in paediatric pain: a Lancet Child & Adolescent Health Commission. <i>The Lancet Child and Adolescent Health</i> , 2021, 5, 47-87.	2.7	132
15	Sociodevelopmental Challenges Faced by Young People with Chronic Pain: A Scoping Review. <i>Journal of Pediatric Psychology</i> , 2021, 46, 219-230.	1.1	25
16	Core outcome set for pediatric chronic pain clinical trials: results from a Delphi poll and consensus meeting. <i>Pain</i> , 2021, 162, 2539-2547.	2.0	42
17	Evidence-based psychological interventions for adults with chronic pain: precision, control, quality, and equipoise. <i>Pain</i> , 2021, 162, 2149-2153.	2.0	15
18	Pragmatic but flawed: the NICE guideline on chronic pain. <i>Lancet</i> , The, 2021, 397, 2029-2031.	6.3	8

#	ARTICLE	IF	CITATIONS
19	Attentional Biases Towards Body Expressions of Pain in Men and Women. <i>Journal of Pain</i> , 2021, 22, 1696-1708.	0.7	4
20	Basic and applied psychology in PAIN. <i>Pain</i> , 2021, Publish Ahead of Print, 2785-2788.	2.0	3
21	Psychological aspects of pain prevention. <i>Pain Reports</i> , 2021, 6, e926.	1.4	6
22	Cannabinoids, cannabis, and cannabis-based medicine for pain management: a systematic review of randomised controlled trials. <i>Pain</i> , 2021, 162, S45-S66.	2.0	110
23	Cannabinoids, cannabis, and cannabis-based medicines for pain management: an overview of systematic reviews. <i>Pain</i> , 2021, 162, S67-S79.	2.0	45
24	General risks of harm with cannabinoids, cannabis, and cannabis-based medicine possibly relevant to patients receiving these for pain management: an overview of systematic reviews. <i>Pain</i> , 2021, 162, S80-S96.	2.0	32
25	Psychological therapies for the management of chronic and recurrent pain in children and adolescents. <i>The Cochrane Library</i> , 2020, 2020, CD003968.	1.5	127
26	Safe methods of imputation for clinical trials of interventions for chronic pain: promoting transparency and comparison. <i>Pain</i> , 2020, 161, 2225-2226.	2.0	4
27	Gender differences in attention to pain body postures in a social context: a novel use of the bodies in the crowd task. <i>Pain</i> , 2020, 161, 1776-1786.	2.0	5
28	Interpretation of chronic pain clinical trial outcomes: IMMPACT recommended considerations. <i>Pain</i> , 2020, 161, 2446-2461.	2.0	64
29	Transcutaneous electrical nerve stimulation (TENS) for chronic pain: the opportunity to begin again. <i>The Cochrane Library</i> , 2020, 4, ED000139.	1.5	8
30	Managing patients with chronic pain during the COVID-19 outbreak: considerations for the rapid introduction of remotely supported (eHealth) pain management services. <i>Pain</i> , 2020, 161, 889-893.	2.0	356
31	Loss-adjusting. <i>Clinical Journal of Pain</i> , 2020, 36, 932-939.	0.8	13
32	Let's talk about pain catastrophizing measures: an item content analysis. <i>PeerJ</i> , 2020, 8, e8643.	0.9	62
33	Non-steroidal anti-inflammatory drugs (NSAIDs) for cancer-related pain in children and adolescents. <i>The Cochrane Library</i> , 2019, 2019, CD012563.	1.5	18
34	Paracetamol (acetaminophen) for chronic non-cancer pain in children and adolescents. <i>The Cochrane Library</i> , 2019, 2019, CD012539.	1.5	27
35	Predicting the consequences of physical activity: An investigation into the relationship between anxiety sensitivity, interoceptive accuracy and action. <i>PLoS ONE</i> , 2019, 14, e0210853.	1.1	11
36	Digitally enabled patient-reported outcome measures in cancer care – Authors' reply. <i>Lancet Oncology</i> , 2019, 20, e3.	5.1	0

#	ARTICLE	IF	CITATIONS
37	Psychological therapies (remotely delivered) for the management of chronic and recurrent pain in children and adolescents. The Cochrane Library, 2019, 4, CD011118.	1.5	67
38	People in pain make poorer decisions. Pain, 2019, 160, 1662-1669.	2.0	14
39	Perceptions of gendered and ungendered pain relief norms and stereotypes using Q-methodology. Pain, 2019, 160, 395-406.	2.0	4
40	An investigation of the effect of experimental pain on logical reasoning. Pain, 2019, 160, 1093-1102.	2.0	6
41	Pharmacological interventions for chronic pain in children: an overview of systematic reviews. Pain, 2019, 160, 1698-1707.	2.0	69
42	Cannabinoids, cannabis, and cannabis-based medicine for pain management: a protocol for an overview of systematic reviews and a systematic review of randomised controlled trials. Pain Reports, 2019, 4, e741.	1.4	18
43	Evidence-Based Pain Management: Building on the Foundations of Cochrane Systematic Reviews. American Journal of Public Health, 2019, 109, 46-49.	1.5	12
44	Assessment of Pain Anxiety, Pain Catastrophizing, and Fear of Pain in Children and Adolescents With Chronic Pain: A Systematic Review and Meta-Analysis. Journal of Pediatric Psychology, 2018, 43, 314-325.	1.1	78
45	The efficacy of attentional distraction and sensory monitoring in chronic pain patients: A meta-analysis. Clinical Psychology Review, 2018, 59, 16-29.	6.0	78
46	Attention bias modification training for adolescents with chronic pain: a randomized placebo-controlled trial. Pain, 2018, 159, 239-251.	2.0	34
47	Chronic pain as embodied defence: implications for current and future psychological treatments. Pain, 2018, 159, S17-S23.	2.0	25
48	Estimating relative efficacy in acute postoperative pain: network meta-analysis is consistent with indirect comparison to placebo alone. Pain, 2018, 159, 2234-2244.	2.0	12
49	Advancing shared decision making for symptom monitoring in people living beyond cancer. Lancet Oncology, The, 2018, 19, e556-e563.	5.1	19
50	When pain gets stuck: the evolution of pain chronification and treatment resistance. Pain, 2018, 159, 2421-2436.	2.0	152
51	The tripartite structure of pain-related affect: a confirmatory factor analysis. Psychology, Health and Medicine, 2018, 23, 1211-1222.	1.3	4
52	Establishing a Research Agenda on Mobile Health Technologies and Later-Life Pain Using an Evidence-Based Consensus Workshop Approach. Journal of Pain, 2018, 19, 1416-1423.	0.7	10
53	Current Evidence-Based Interdisciplinary Treatment Options for Pediatric Musculoskeletal Pain. Current Treatment Options in Rheumatology, 2018, 4, 223-234.	0.6	20
54	Neuropathic pain. Nature Reviews Disease Primers, 2017, 3, 17002.	18.1	1,360

#	ARTICLE	IF	CITATIONS
55	Embodied painâ€™ negotiating the boundaries of possible action. <i>Pain</i> , 2017, 158, 1007-1011.	2.0	47
56	Sex differences in the efficacy of psychological therapies for the management of chronic and recurrent pain in children and adolescents: a systematic review and meta-analysis. <i>Pain</i> , 2017, 158, 569-582.	2.0	29
57	Everyday worry in adolescents with and without chronic pain: a diary study. <i>Psychology, Health and Medicine</i> , 2017, 22, 800-807.	1.3	4
58	Cognitive load selectively influences the interruptive effect of pain on attention. <i>Pain</i> , 2017, 158, 2035-2041.	2.0	34
59	Non-steroidal anti-inflammatory drugs (NSAIDs) for chronic non-cancer pain in children and adolescents. <i>The Cochrane Library</i> , 2017, 8, CD012537.	1.5	55
60	Headache Impairs Attentional Performance: A Conceptual Replication and Extension. <i>Journal of Pain</i> , 2017, 18, 29-41.	0.7	17
61	Advancing psychological therapies for chronic pain. <i>F1000Research</i> , 2017, 6, 461.	0.8	46
62	Adolescents' approach-avoidance behaviour in the context of pain. <i>Pain</i> , 2016, 157, 370-376.	2.0	5
63	Problem-solving skills training for parents of children with chronic pain. <i>Pain</i> , 2016, 157, 1213-1223.	2.0	62
64	Psychological Approaches to Coping with Pain in Later Life. <i>Clinics in Geriatric Medicine</i> , 2016, 32, 763-771.	1.0	9
65	The effect of pain on task switching: pain reduces accuracy and increases reaction times across multiple switching paradigms. <i>Pain</i> , 2016, 157, 2179-2193.	2.0	25
66	Negative Interpretation Bias and the Experience of Pain in Adolescents. <i>Journal of Pain</i> , 2016, 17, 972-981.	0.7	41
67	Methods and Instruments to Evaluate Cognitive Function in Chronic Pain Patients: A Systematic Review. <i>Pain Medicine</i> , 2016, 17, 1465-1489.	0.9	10
68	â€™You have to be a jack of all tradesâ€™™: Fathers parenting their adolescent with chronic pain. <i>Journal of Health Psychology</i> , 2016, 21, 2466-2476.	1.3	24
69	Anxiety at 13 and its effect on pain, pain-related anxiety, and pain-related disability at 17: An ALSPAC cohort longitudinal analysis. <i>Psychology, Health and Medicine</i> , 2016, 21, 1-9.	1.3	13
70	Psychological therapies (remotely delivered) for the management of chronic and recurrent pain in children and adolescents. <i>The Cochrane Library</i> , 2015, , CD011118.	1.5	121
71	Psychological therapies for the management of chronic neuropathic pain in adults. <i>The Cochrane Library</i> , 2015, , CD011259.	1.5	51
72	Psychological interventions for parents of children and adolescents with chronic illness. <i>The Cochrane Library</i> , 2015, , CD009660.	1.5	125

#	ARTICLE	IF	CITATIONS
73	The relationship between adolescents' pain catastrophizing and attention bias to pain faces is moderated by attention control. <i>Pain</i> , 2015, 156, 1334-1341.	2.0	44
74	The disruptive effects of pain on n-back task performance in a large general population sample. <i>Pain</i> , 2015, 156, 1885-1891.	2.0	44
75	Systematic review of enriched enrolment, randomised withdrawal trial designs in chronic pain. <i>Pain</i> , 2015, 156, 1382-1395.	2.0	59
76	The Experience of Cognitive Intrusion of Pain. <i>Pain</i> , 2015, 156, 1978-1990.	2.0	49
77	Raising the topic of weight in general practice: perspectives of GPs and primary care nurses. <i>BMJ Open</i> , 2015, 5, e008546.	0.8	84
78	An online adolescent message board discussion about the internet. <i>Journal of Child Health Care</i> , 2015, 19, 412-418.	0.7	11
79	Management of chronic pain in older adults. <i>BMJ</i> , The, 2015, 350, h532-h532.	3.0	265
80	The social negotiation of fitness for work: Tensions in doctor-patient relationships over medical certification of chronic pain. <i>Health (United Kingdom)</i> , 2015, 19, 17-33.	0.9	24
81	Qualitative evaluation of the SMART2 self-management system for people in chronic pain. <i>Disability and Rehabilitation: Assistive Technology</i> , 2015, 10, 53-60.	1.3	22
82	Psychological therapies (Internet-delivered) for the management of chronic pain in adults. <i>The Cochrane Library</i> , 2014, , CD010152.	1.5	158
83	Systematic Review and Meta-Analysis of Parent and Family-Based Interventions for Children and Adolescents With Chronic Medical Conditions. <i>Journal of Pediatric Psychology</i> , 2014, 39, 866-886.	1.1	123
84	Everyday pain, analgesic beliefs and analgesic behaviours in Europe and Russia: an epidemiological survey and analysis. <i>European Journal of Hospital Pharmacy</i> , 2014, 21, 39-44.	0.5	8
85	Systematic Review and Meta-Analysis of Psychological Therapies for Children With Chronic Pain. <i>Journal of Pediatric Psychology</i> , 2014, 39, 763-782.	1.1	268
86	The role of executive functioning in children's attentional pain control: An experimental analysis. <i>Pain</i> , 2014, 155, 413-421.	2.0	22
87	Psychological therapies for the management of chronic and recurrent pain in children and adolescents. <i>The Cochrane Library</i> , 2014, , CD003968.	1.5	306
88	Pain communication through body posture: The development and validation of a stimulus set. <i>Pain</i> , 2014, 155, 2282-2290.	2.0	32
89	The effects of menstrual-related pain on attentional interference. <i>Pain</i> , 2014, 155, 821-827.	2.0	38
90	Adaptation of problem-solving skills training (PSST) for parent caregivers of youth with chronic pain.. <i>Clinical Practice in Pediatric Psychology</i> , 2014, 2, 212-223.	0.2	44
