#	ARTICLE	IF	CITATIONS
1	Risk of childhood undernutrition related to small-for-gestational age and preterm birth in low- and middle-income countries. <i>International Journal of Epidemiology</i> , 2013, 42, 1340-1355.	0.9	413
2	Breast-feeding protects against celiac disease. <i>American Journal of Clinical Nutrition</i> , 2002, 75, 914-921.	2.2	401
3	Arsenic Exposure During Pregnancy and Size at Birth: A Prospective Cohort Study in Bangladesh. <i>American Journal of Epidemiology</i> , 2008, 169, 304-312.	1.6	225
4	Iron and zinc supplementation promote motor development and exploratory behavior among Bangladeshi infants. <i>American Journal of Clinical Nutrition</i> , 2004, 80, 903-910.	2.2	212
5	Factors Associated with Spousal Physical Violence Against Women in Bangladesh. <i>Studies in Family Planning</i> , 2005, 36, 289-300.	1.0	209
6	Association of Arsenic Exposure during Pregnancy with Fetal Loss and Infant Death: A Cohort Study in Bangladesh. <i>American Journal of Epidemiology</i> , 2007, 165, 1389-1396.	1.6	204
7	Gender and age differences in the metabolism of inorganic arsenic in a highly exposed population in Bangladesh. <i>Environmental Research</i> , 2008, 106, 110-120.	3.7	200
8	Urinary arsenic concentration adjustment factors and malnutrition. <i>Environmental Research</i> , 2008, 106, 212-218.	3.7	197
9	Effects of in utero arsenic exposure on child immunity and morbidity in rural Bangladesh. <i>Toxicology Letters</i> , 2009, 185, 197-202.	0.4	190
10	A community-based randomized controlled trial of iron and zinc supplementation in Indonesian infants: interactions between iron and zinc. <i>American Journal of Clinical Nutrition</i> , 2003, 77, 883-890.	2.2	180
11	A community-based randomized controlled trial of iron and zinc supplementation in Indonesian infants: effects on growth and development. <i>American Journal of Clinical Nutrition</i> , 2004, 80, 729-736.	2.2	179
12	Physical violence by husbands: Magnitude, disclosure and help-seeking behavior of women in Bangladesh. <i>Social Science and Medicine</i> , 2006, 62, 2917-2929.	1.8	178
13	Arsenic Exposure in Pregnancy Increases the Risk of Lower Respiratory Tract Infection and Diarrhea during Infancy in Bangladesh. <i>Environmental Health Perspectives</i> , 2011, 119, 719-724.	2.8	178
14	Arsenic Exposure and Risk of Spontaneous Abortion, Stillbirth, and Infant Mortality. <i>Epidemiology</i> , 2010, 21, 797-804.	1.2	169
15	Arsenic in Drinking Water and Adult Mortality. <i>Epidemiology</i> , 2009, 20, 824-830.	1.2	162
16	Modifiers of the effect of maternal multiple micronutrient supplementation on stillbirth, birth outcomes, and infant mortality: a meta-analysis of individual patient data from 17 randomised trials in low-income and middle-income countries. <i>The Lancet Global Health</i> , 2017, 5, e1090-e1100.	2.9	162
17	Prevalence of arsenic exposure and skin lesions. A population based survey in Matlab, Bangladesh. <i>Journal of Epidemiology and Community Health</i> , 2006, 60, 242-248.	2.0	158
18	Effects of Prenatal Micronutrient and Early Food Supplementation on Maternal Hemoglobin, Birth Weight, and Infant Mortality Among Children in Bangladesh. <i>JAMA - Journal of the American Medical Association</i> , 2012, 307, 2050-9.	3.8	153

#	ARTICLE	IF	CITATIONS
19	The risk of arsenic induced skin lesions in Bangladeshi men and women is affected by arsenic metabolism and the age at first exposure. <i>Toxicology and Applied Pharmacology</i> , 2008, 230, 9-16.	1.3	151
20	Appropriate infant feeding practices result in better growth of infants and young children in rural Bangladesh. <i>American Journal of Clinical Nutrition</i> , 2008, 87, 1852-1859.	2.2	142
21	Effects of prenatal food and micronutrient supplementation on infant development: a randomized trial from the Maternal and Infant Nutrition Interventions, Matlab (MINIMat) study. <i>American Journal of Clinical Nutrition</i> , 2008, 87, 704-711.	2.2	140
22	Measuring Children's Diets: Evaluation of Dietary Assessment Techniques in Infancy and Childhood. <i>International Journal of Epidemiology</i> , 1984, 13, 506-517.	0.9	119
23	Physical partner abuse during pregnancy: a risk factor for low birth weight in Nicaragua. <i>Obstetrics and Gynecology</i> , 2002, 100, 700-705.	1.2	111
24	Simultaneous Weekly Supplementation of Iron and Zinc Is Associated with Lower Morbidity Due to Diarrhea and Acute Lower Respiratory Infection in Bangladeshi Infants. <i>Journal of Nutrition</i> , 2003, 133, 4150-4157.	1.3	111
25	Environmental exposure to arsenic and cadmium during pregnancy and fetal size: A longitudinal study in rural Bangladesh. <i>Reproductive Toxicology</i> , 2012, 34, 504-511.	1.3	102
26	Nutritional Status Has Marginal Influence on the Metabolism of Inorganic Arsenic in Pregnant Bangladeshi Women. <i>Environmental Health Perspectives</i> , 2008, 116, 315-321.	2.8	99
27	Influence of iron and zinc status on cadmium accumulation in Bangladeshi women. <i>Toxicology and Applied Pharmacology</i> , 2007, 222, 221-226.	1.3	97
28	Effectiveness of the WHO/UNICEF guidelines on infant feeding for HIV-positive women: results from a prospective cohort study in South Africa. <i>Aids</i> , 2007, 21, 1791-1797.	1.0	93
29	Violence against women increases the risk of infant and child mortality: a case-referent study in Nicaragua. <i>Bulletin of the World Health Organization</i> , 2003, 81, 10-6.	1.5	88
30	Screening of arsenic in tubewell water with field test kits: Evaluation of the method from public health perspective. <i>Science of the Total Environment</i> , 2007, 379, 167-175.	3.9	86
31	Arsenic exposure in pregnancy: a population-based study in Matlab, Bangladesh. <i>Journal of Health, Population and Nutrition</i> , 2006, 24, 236-45.	0.7	86
32	Arsenic Exposure and Age- and Sex-Specific Risk for Skin Lesions: A Population-Based Case-Referent Study in Bangladesh. <i>Environmental Health Perspectives</i> , 2006, 114, 1847-1852.	2.8	85
33	Household Food Security Is Associated with Infant Feeding Practices in Rural Bangladesh. <i>Journal of Nutrition</i> , 2008, 138, 1383-1390.	1.3	82
34	Early infections are associated with increased risk for celiac disease: an incident case-referent study. <i>BMC Pediatrics</i> , 2012, 12, 194.	0.7	81
35	Efficacy and trial effectiveness of weekly and daily iron supplementation among pregnant women in rural Bangladesh: disentangling the issues. <i>American Journal of Clinical Nutrition</i> , 2002, 76, 1392-1400.	2.2	77
36	Distance decay in delivery care utilisation associated with neonatal mortality. A case referent study in northern Vietnam. <i>BMC Public Health</i> , 2010, 10, 762.	1.2	77

#	ARTICLE	IF	CITATIONS
37	Goodstart: a cluster randomised effectiveness trial of an integrated, community-based package for maternal and newborn care, with prevention of mother-to-child transmission of HIV in a South African township. <i>Tropical Medicine and International Health</i> , 2014, 19, 256-266.	1.0	74
38	Impact of Smoking and Chewing Tobacco on Arsenic-Induced Skin Lesions. <i>Environmental Health Perspectives</i> , 2010, 118, 533-538.	2.8	70
39	Selenium status in pregnancy influences children's cognitive function at 1.5 years of age. <i>Clinical Nutrition</i> , 2015, 34, 923-930.	2.3	70
40	Violence against pregnant women: prevalence and characteristics. A population-based study in Nicaragua. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2005, 112, 1243-1248.	1.1	69
41	Neuroendocrine response to violence during pregnancy – impact on duration of pregnancy and fetal growth. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2009, 88, 818-823.	1.3	69
42	The Swedish coeliac disease epidemic with a prevailing twofold higher risk in girls compared to boys may reflect gender specific risk factors. <i>European Journal of Epidemiology</i> , 2002, 18, 677-684.	2.5	65
43	Effect of Facilitation of Local Maternal-and-Newborn Stakeholder Groups on Neonatal Mortality: Cluster-Randomized Controlled Trial. <i>PLoS Medicine</i> , 2013, 10, e1001445.	3.9	65
44	Use of stable-isotope techniques to validate infant feeding practices reported by Bangladeshi women receiving breastfeeding counseling. <i>American Journal of Clinical Nutrition</i> , 2007, 85, 1075-1082.	2.2	63
45	Effects of prenatal food and micronutrient supplementation on child growth from birth to 54 months of age: a randomized trial in Bangladesh. <i>Nutrition Journal</i> , 2011, 10, 134.	1.5	63
46	Iron supplementation of iron-replete Indonesian infants is associated with reduced weight-for-age. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2008, 97, 770-775.	0.7	62
47	Early exposure to toxic metals has a limited effect on blood pressure or kidney function in later childhood, rural Bangladesh. <i>International Journal of Epidemiology</i> , 2013, 42, 176-185.	0.9	62
48	Sexual abuse during childhood and adolescence among Nicaraguan men and women: a population-based anonymous survey. <i>Child Abuse and Neglect</i> , 2000, 24, 1579-1589.	1.3	59
49	A Longitudinal Qualitative Study of Infant-Feeding Decision Making and Practices among HIV-Positive Women in South Africa. <i>Journal of Nutrition</i> , 2006, 136, 2421-2426.	1.3	58
50	Dowry and Spousal Physical Violence Against Women in Bangladesh. <i>Journal of Family Issues</i> , 2010, 31, 830-856.	1.0	55
51	Review of the evidence regarding the use of antenatal multiple micronutrient supplementation in low- and middle-income countries. <i>Annals of the New York Academy of Sciences</i> , 2019, 1444, 6-21.	1.8	55
52	Effects of weaning cereals with different phytate contents on hemoglobin, iron stores, and serum zinc: a randomized intervention in infants from 6 to 12 mo of age. <i>American Journal of Clinical Nutrition</i> , 2003, 78, 168-175.	2.2	54
53	Health system context and implementation of evidence-based practices – development and validation of the Context Assessment for Community Health (COACH) tool for low- and middle-income settings. <i>Implementation Science</i> , 2015, 10, 120.	2.5	51
54	Diet, Growth, and the Risk for Type 1 Diabetes in Childhood: A matched case-referent study. <i>Diabetes Care</i> , 2004, 27, 2784-2789.	4.3	49

#	ARTICLE	IF	CITATIONS
55	Anaemia and iron deficiency during pregnancy in rural Bangladesh. <i>Public Health Nutrition</i> , 2004, 7, 1065-1070.	1.1	47
56	Unreported births and deaths, a severe obstacle for improved neonatal survival in low-income countries; a population based study. <i>BMC International Health and Human Rights</i> , 2008, 8, 4.	2.5	47
57	Sex Differences in Iron Stores of Adolescents. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 1995, 20, 215-224.	0.9	46
58	Comparative analysis of patterns of survival by season of birth in rural Bangladeshi and Gambian populations. <i>International Journal of Epidemiology</i> , 2004, 33, 137-143.	0.9	46
59	Violence against women and the risk of under-five mortality: analysis of community-based data from rural Bangladesh. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2008, 97, 226-232.	0.7	45
60	Improving quality and use of routine health information system data in low- and middle-income countries: A scoping review. <i>PLoS ONE</i> , 2020, 15, e0239683.	1.1	43
61	Spatial patterns of fetal loss and infant death in an arsenic-affected area in Bangladesh. <i>International Journal of Health Geographics</i> , 2010, 9, 53.	1.2	42
62	Food Habits and Nutrient Intake in Childhood in Relation to Health and Socioeconomic Conditions.. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 1986, 75, 1-56.	0.7	41
63	Temporal and seasonal variability of arsenic in drinking water wells in Matlab, southeastern Bangladesh: A preliminary evaluation on the basis of a 4 year study. <i>Journal of Environmental Science and Health - Part A Toxic/Hazardous Substances and Environmental Engineering</i> , 2011, 46, 1177-1184.	0.9	41
64	Stunted at 10 Years. Linear Growth Trajectories and Stunting from Birth to Pre-Adolescence in a Rural Bangladeshi Cohort. <i>PLoS ONE</i> , 2016, 11, e0149700.	1.1	40
65	The Nicaraguan Health and Demographic Surveillance Site, HDSS-León: A platform for public health research. <i>Scandinavian Journal of Public Health</i> , 2008, 36, 318-325.	1.2	38
66	An effectiveness study of an integrated, community-based package for maternal, newborn, child and HIV care in South Africa: study protocol for a randomized controlled trial. <i>Trials</i> , 2011, 12, 236.	0.7	38
67	Combined Food and Micronutrient Supplements during Pregnancy Have Limited Impact on Child Blood Pressure and Kidney Function in Rural Bangladesh. <i>Journal of Nutrition</i> , 2013, 143, 728-734.	1.3	36
68	Maternal Multiple Micronutrient Supplementation Has Limited Impact on Micronutrient Status of Bangladeshi Infants Compared with Standard Iron and Folic Acid Supplementation. <i>Journal of Nutrition</i> , 2010, 140, 618-624.	1.3	35
69	Dietary Iron Intake Is Positively Associated with Hemoglobin Concentration During Infancy but Not During the Second Year of Life. <i>Journal of Nutrition</i> , 2004, 134, 1064-1070.	1.3	34
70	Persistent neonatal mortality despite improved under-five survival: a retrospective cohort study in northern Vietnam. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2008, 97, 166-170.	0.7	34
71	Evidence-based practice in neonatal health: knowledge among primary health care staff in northern Viet Nam. <i>Human Resources for Health</i> , 2009, 7, 36.	1.1	34
72	Implementing knowledge into practice for improved neonatal survival; a cluster-randomised, community-based trial in Quang Ninh province, Vietnam. <i>BMC Health Services Research</i> , 2011, 11, 239.	0.9	32

#	ARTICLE	IF	CITATIONS
73	Ethnic inequity in neonatal survival: a case-referent study in northern Vietnam. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011, 100, 340-346.	0.7	31
74	Effect of prenatal food supplementation on birth weight: an observational study from Bangladesh. <i>American Journal of Clinical Nutrition</i> , 2006, 83, 1355-1361.	2.2	30
75	Mental health of Bosnian refugee children: A comparison of clinician appraisal with parent, child and teacher reports. <i>Nordic Journal of Psychiatry</i> , 2008, 62, 204-216.	0.7	30
76	Social circumstances that drive early introduction of formula milk: an exploratory qualitative study in a peri-urban slum in an African community. <i>Maternal and Child Nutrition</i> , 2014, 10, 102-111.	1.4	30
77	Time trends and sociodemographic determinants of preterm births in pregnancy cohorts in Matlab, Bangladesh, 1990-2014. <i>BMJ Global Health</i> , 2019, 4, e001462.	2.0	30
78	Causes of neonatal death: results from NeOKIP community-based trial in Quang Ninh province, Vietnam. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2012, 101, 368-373.	0.7	29
79	Routine health management information system data in Ethiopia: consistency, trends, and challenges. <i>Global Health Action</i> , 2021, 14, 1868961.	0.7	29
80	A modified routine analysis of arsenic content in drinking-water in Bangladesh by hydride generation-atomic absorption spectrophotometry. <i>Journal of Health, Population and Nutrition</i> , 2006, 24, 36-41.	0.7	29
81	Trends and social differentials in child mortality in Rwanda 1990-2010: results from three demographic and health surveys. <i>Journal of Epidemiology and Community Health</i> , 2015, 69, 834-840.	2.0	27
82	Early life arsenic exposure, infant and child growth, and morbidity: a systematic review. <i>Archives of Toxicology</i> , 2017, 91, 3459-3467.	1.9	27
83	Wealth-based equity in maternal, neonatal, and child health services utilization: a cross-sectional study from Ethiopia. <i>International Journal for Equity in Health</i> , 2019, 18, 201.	1.5	27
84	Process evaluation of a knowledge translation intervention using facilitation of local stakeholder groups to improve neonatal survival in the Quang Ninh province, Vietnam. <i>Trials</i> , 2016, 17, 23.	0.7	26
85	Geographic differences in maternal and child health care utilization in four Ethiopian regions; a cross-sectional study. <i>International Journal for Equity in Health</i> , 2019, 18, 173.	1.5	26
86	Maternal factors influencing the occurrence of low birthweight in northern Vietnam. <i>Annals of Tropical Paediatrics</i> , 1996, 16, 327-333.	1.0	25
87	Women's autonomy and social support and their associations with infant and young child feeding and nutritional status: community-based survey in rural Nicaragua. <i>Public Health Nutrition</i> , 2015, 18, 1979-1990.	1.1	25
88	Effect of an integrated community-based package for maternal and newborn care on feeding patterns during the first 12 weeks of life: a cluster-randomized trial in a South African township. <i>Public Health Nutrition</i> , 2015, 18, 2660-2668.	1.1	24
89	Burning 'Centre Bolt': Experiences of sexually transmitted infections and health care seeking behaviour described by street boys in Urban Kenya. <i>Children and Youth Services Review</i> , 2007, 29, 600-617.	1.0	23
90	Urinary iodine concentrations of pregnant women in rural Bangladesh: A longitudinal study. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2014, 24, 504-509.	1.8	23

#	ARTICLE	IF	CITATIONS
91	Relative importance of prenatal and postnatal determinants of stunting: data mining approaches to the MINIMat cohort, Bangladesh. <i>BMJ Open</i> , 2019, 9, e025154.	0.8	23
92	Infant anaemia is associated with infection, low birthweight and iron deficiency in rural Bangladesh. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011, 100, 220-225.	0.7	22
93	Intimate partner violence and early child growth: a community-based cohort study in Nicaragua. <i>BMC Pediatrics</i> , 2012, 12, 82.	0.7	22
94	Effects of prenatal micronutrient and early food supplementation on metabolic status of the offspring at 4.5 years of age. The MINIMat randomized trial in rural Bangladesh. <i>International Journal of Epidemiology</i> , 2016, 45, 1656-1667.	0.9	22
95	Anaemia among non-pregnant women in rural Bangladesh. <i>Public Health Nutrition</i> , 2001, 4, 79-83.	1.1	21
96	Effects of mode of oral iron administration on serum ferritin and haemoglobin in infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2008, 97, 1055-1060.	0.7	21
97	Elevated Manganese Concentrations in Drinking Water May Be Beneficial for Fetal Survival. <i>PLoS ONE</i> , 2013, 8, e74119.	1.1	21
98	Early prenatal food supplementation ameliorates the negative association of maternal stress with birth size in a randomised trial. <i>Maternal and Child Nutrition</i> , 2015, 11, 537-549.	1.4	21
99	Cohort Profile: The Maternal and Infant Nutrition Interventions in Matlab (MINIMat) cohort in Bangladesh. <i>International Journal of Epidemiology</i> , 2018, 47, 1737-1738e.	0.9	21
100	Early invitation to food and/or multiple micronutrient supplementation in pregnancy does not affect body composition in offspring at 54 months: follow-up of the MINIMat randomized trial, Bangladesh. <i>Maternal and Child Nutrition</i> , 2015, 11, 385-397.	1.4	20
101	Perinatal services and outcomes in Quang Ninh province, Vietnam. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2010, 99, 1478-1483.	0.7	19
102	Early Vaccinations Are Not Risk Factors for Celiac Disease. <i>Pediatrics</i> , 2012, 130, e63-e70.	1.0	19
103	Protocol for the evaluation of a complex intervention aiming at increased utilisation of primary child health services in Ethiopia: a before and after study in intervention and comparison areas. <i>BMC Health Services Research</i> , 2020, 20, 339.	0.9	19
104	Stories of pre-war, war and exile: Bosnian refugee children in Sweden. <i>Medicine, Conflict and Survival</i> , 2001, 17, 25-47.	0.3	18
105	Effect of a randomised exclusive breastfeeding counselling intervention nested into the MINIMat prenatal nutrition trial in Bangladesh. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 49-54.	0.7	18
106	Insufficient referral practices of sick children in Ethiopia shown in a cross-sectional survey. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 1867-1874.	0.7	18
107	Health Extension Workers' diagnostic accuracy for common childhood illnesses in four regions of Ethiopia: a cross-sectional study. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2019, 108, 2100-2106.	0.7	17
108	Cost-effectiveness of prenatal food and micronutrient interventions on under-five mortality and stunting: Analysis of data from the MINIMat randomized trial, Bangladesh. <i>PLoS ONE</i> , 2018, 13, e0191260.	1.1	16
