#	ARTICLE	IF	CITATIONS
1	Calling on clinicians to get social and emotional. <i>Clinical Neuropsychologist</i> , 2023, 37, 506-544.	1.5	4
2	The complex audio visual emotion assessment task (CAVEAT): development of a shorter version for clinical use. <i>Disability and Rehabilitation</i> , 2022, 44, 1498-1507.	0.9	3
3	Adaptation, Validation and Preliminary Standardisation of the Frontal Systems Behaviour Scale "Apathy Subscale and the Dimensional Apathy Scale in Vietnamese Healthy Samples. <i>Journal of the International Neuropsychological Society</i> , 2022, 28, 300-310.	1.2	5
4	Domains and measures of social cognition in acquired brain injury: A scoping review. <i>Neuropsychological Rehabilitation</i> , 2022, 32, 2429-2463.	1.0	11
5	Apathy in a high prevalence population of moderate to severe traumatic brain injury: An investigation in Vietnam.. <i>Neuropsychology</i> , 2022, 36, 94-102.	1.0	5
6	Empathy across the ages: "œl may be older but "™m still feeling it". <i>Neuropsychology</i> , 2022, 36, 116-127.	1.0	4
7	The Basel Version of the Awareness of Social Inference Test-Emotion Recognition (BASIT-ER): Preliminary validation analyses in healthy adults.. <i>Neuropsychology</i> , 2022, 36, 175-184.	1.0	3
8	Social cognition v. emotional intelligence in first-episode psychosis: are they the same?. <i>Psychological Medicine</i> , 2021, 51, 1229-1230.	2.7	1
9	tDCS effects on task-related activation and working memory performance in traumatic brain injury: A within group randomized controlled trial. <i>Neuropsychological Rehabilitation</i> , 2021, 31, 814-836.	1.0	11
10	Providing on-line support to families of people with brain injury and challenging behaviour: A feasibility study. <i>Neuropsychological Rehabilitation</i> , 2021, 31, 392-413.	1.0	4
11	The effect of severe traumatic brain injury on social cognition, emotion regulation, and mood. <i>Handbook of Clinical Neurology / Edited By P J Vinken and G W Bruyn</i> , 2021, 183, 235-260.	1.0	13
12	Investigating associations between hoarding symptoms and affective and cognitive empathy. <i>British Journal of Clinical Psychology</i> , 2021, 60, 177-193.	1.7	5
13	Innate immunity impacts social-cognitive functioning in people with multiple sclerosis and healthy individuals: Implications for IL-1ra and urinary immune markers. <i>Brain, Behavior, &amp; Immunity - Health</i> , 2021, 14, 100254.	1.3	4
14	Regulating emotion following severe traumatic brain injury: a randomized controlled trial of heart-rate variability biofeedback training. <i>Brain Injury</i> , 2021, 35, 1390-1401.	0.6	8
15	The prevalence, predictors, associated symptoms, and outcomes of social disinhibition following moderate-to-severe TBI: A scoping review of quantitative evidence. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2021, 43, 716-736.	0.8	6
16	Psychosocial functioning following moderate-to-severe pediatric traumatic brain injury: recommended outcome instruments for research and remediation studies. <i>Neuropsychological Rehabilitation</i> , 2020, 30, 973-987.	1.0	7
17	Empathy for people with similar experiences: Can the perception-action model explain empathy impairments after traumatic brain injury?. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2020, 42, 28-41.	0.8	5
18	Assessing social cognition in people with a diagnosis of dementia: Development of a novel screening test, the Brief Assessment of Social Skills (BASS-D). <i>Journal of Clinical and Experimental Neuropsychology</i> , 2020, 42, 185-198.	0.8	6

#	ARTICLE	IF	CITATIONS
19	Establishing "proof of concept"™ for a social cognition group treatment program (SIFT IT) after traumatic brain injury: two case studies. <i>Brain Injury</i> , 2020, 34, 1781-1793.	0.6	12
20	Social Cognition in Individuals with Progressive Multiple Sclerosis: A Pilot Study Using TASIT-S. <i>Journal of the International Neuropsychological Society</i> , 2020, 26, 539-544.	1.2	10
21	Understanding how others feel: Evaluating the relationship between empathy and various aspects of emotion recognition following severe traumatic brain injury.. <i>Neuropsychology</i> , 2020, 34, 288-297.	1.0	12
22	Comparing static and dynamic emotion recognition tests: Performance of healthy participants. <i>PLoS ONE</i> , 2020, 15, e0241297.	1.1	12
23	Loss of white matter connections after severe traumatic brain injury (TBI) and its relationship to social cognition. <i>Brain Imaging and Behavior</i> , 2019, 13, 819-829.	1.1	26
24	Reprint of "The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016: Explanation and Elaboration"• <i>Pratiques Psychologiques</i> , 2019, 25, 119-151.	0.4	2
25	Anxiety sensitivity moderates the subjective experience but not the physiological response to psychosocial stress. <i>International Journal of Psychophysiology</i> , 2019, 141, 76-83.	0.5	17
26	Patterns of early conversational recovery for people with traumatic brain injury and their communication partners. <i>Brain Injury</i> , 2019, 33, 690-698.	0.6	5
27	Discourse recovery after severe traumatic brain injury: exploring the first year. <i>Brain Injury</i> , 2019, 33, 143-159.	0.6	30
28	Facial expressions yielding Context-Dependent Effect: The additive contribution of eye movements. <i>Acta Psychologica</i> , 2019, 192, 138-145.	0.7	2
29	Emotion recognition depends on subjective emotional experience and not on facial expressivity: evidence from traumatic brain injury. <i>Brain Injury</i> , 2019, 33, 12-22.	0.6	15
30	Outcome instruments in moderate-to-severe adult traumatic brain injury: recommendations for use in psychosocial research. <i>Neuropsychological Rehabilitation</i> , 2019, 29, 896-916.	1.0	51
31	Learning from the minds of others: A review of social cognition treatments and their relevance to traumatic brain injury. <i>Neuropsychological Rehabilitation</i> , 2019, 29, 22-55.	1.0	60
32	Measuring emotion perception following traumatic brain injury: The Complex Audio Visual Emotion Assessment Task (CAVEAT). <i>Neuropsychological Rehabilitation</i> , 2019, 29, 232-250.	1.0	14
33	Social cognition four years after mild-TBI: An age-matched prospective longitudinal cohort study.. <i>Neuropsychology</i> , 2019, 33, 560-567.	1.0	20
34	Subjective emotional experience and physiological responsivity to posed emotions in people with traumatic brain injury.. <i>Neuropsychology</i> , 2019, 33, 1151-1162.	1.0	4
35	Preserved rapid conceptual processing of emotional expressions despite reduced neuropsychological performance following traumatic brain injury.. <i>Neuropsychology</i> , 2019, 33, 872-882.	1.0	3
36	Protocol for a prospective, school-based standardisation study of a digital social skills assessment tool for children: The Paediatric Evaluation of Emotions, Relationships, and Socialisation (PEERS) study. <i>BMJ Open</i> , 2018, 8, e016633.	0.8	16

#	ARTICLE	IF	CITATIONS
37	Procedural discourse performance in adults with severe traumatic brain injury at 3 and 6 months post injury. <i>Brain Injury</i> , 2018, 32, 167-181.	0.6	17
38	A review of social disinhibition after traumatic brain injury. <i>Journal of Neuropsychology</i> , 2018, 12, 176-199.	0.6	28
39	Amused, flirting or simply baffled? Is recognition of all emotions affected by traumatic brain injury?. <i>Journal of Neuropsychology</i> , 2018, 12, 145-164.	0.6	14
40	The role of abnormalities in the corpus callosum in social cognition deficits after Traumatic Brain Injury. <i>Social Neuroscience</i> , 2018, 13, 471-479.	0.7	22
41	Normal adult and adolescent performance on TASIT-S, a short version of The Assessment of Social Inference Test. <i>Clinical Neuropsychologist</i> , 2018, 32, 700-719.	1.5	12
42	Cognitive-communication and psychosocial functioning 12 months after severe traumatic brain injury. <i>Brain Injury</i> , 2018, 32, 1700-1711.	0.6	20
43	Not knowing what I feel: Emotional empathy in autism spectrum disorders. <i>Autism</i> , 2017, 21, 450-457.	2.4	43
44	Impaired perception of sincerity after severe traumatic brain injury. <i>Journal of Neuropsychology</i> , 2017, 11, 291-304.	0.6	19
45	Validity and reliability of a questionnaire to assess social skills in traumatic brain injury: A preliminary study. <i>Brain Injury</i> , 2017, 31, 336-343.	0.6	14
46	What's New in the Clinical Management of Disorders of Social Cognition?. <i>Brain Impairment</i> , 2017, 18, 2-10.	0.5	11
47	Assessment and Rehabilitation of Social Cognition Impairment after Brain Injury: Surveying Practices of Clinicians. <i>Brain Impairment</i> , 2017, 18, 11-35.	0.5	25
48	Ostracism and physiological arousal following traumatic brain injury. <i>Brain Injury</i> , 2017, 31, 550-559.	0.6	2
49	The Physiological and Psychological Effects of Ostracism in Adults with ASD. <i>Journal of Autism and Developmental Disorders</i> , 2017, 47, 2326-2335.	1.7	7
50	Assessing the "social brain" in dementia: Applying TASIT-S. <i>Cortex</i> , 2017, 93, 166-177.	1.1	46
51	Exploring the relationship between cognition and functional verbal reasoning in adults with severe traumatic brain injury at six months post injury. <i>Brain Injury</i> , 2017, 31, 502-516.	0.6	15
52	Social Disinhibition: Piloting a New Clinical Measure in Individuals with Traumatic Brain Injury. <i>Brain Impairment</i> , 2017, 18, 74-87.	0.5	10
53	A Survey of Clinicians Working in Brain Injury Rehabilitation: Are Social Cognition Impairments on the Radar?. <i>Journal of Head Trauma Rehabilitation</i> , 2017, 32, E55-E65.	1.0	49
54	Emotions Are Rising: The Growing Field of Affect Neuropsychology. <i>Journal of the International Neuropsychological Society</i> , 2017, 23, 719-731.	1.2	15

#	ARTICLE	IF	CITATIONS
55	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. <i>Neuropsychological Rehabilitation</i> , 2017, 27, 1-15.	1.0	37
56	The effectiveness of social communication partner training for adults with severe chronic TBI and their families using a measure of perceived communication ability. <i>NeuroRehabilitation</i> , 2016, 38, 243-255.	0.5	48
57	The Single-Case Reporting guideline In BEhavioural interventions (SCRIBE) 2016 statement. <i>Journal of School Psychology</i> , 2016, 56, 133-142.	1.5	38
58	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. <i>Journal of Clinical Epidemiology</i> , 2016, 73, 142-152.	2.4	36
59	Role of Reversal Learning Impairment in Social Disinhibition following Severe Traumatic Brain Injury. <i>Journal of the International Neuropsychological Society</i> , 2016, 22, 303-313.	1.2	10
60	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. <i>Physical Therapy</i> , 2016, 96, e1-e10.	1.1	89
61	Brain volume loss contributes to arousal and empathy dysregulation following severe traumatic brain injury. <i>NeuroImage: Clinical</i> , 2016, 12, 607-614.	1.4	18
62	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. <i>Evidence-Based Communication Assessment and Intervention</i> , 2016, 10, 44-58.	0.6	18
63	Hyposmia, not emotion perception, is associated with psychosocial outcome after severe traumatic brain injury. <i>Neuropsychology</i> , 2016, 30, 820-829.	1.0	25
64	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. <i>Remedial and Special Education</i> , 2016, 37, 370-380.	1.7	13
65	Conversational topics discussed by individuals with severe traumatic brain injury and their communication partners during sub-acute recovery. <i>Brain Injury</i> , 2016, 30, 1329-1342.	0.6	9
66	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 Statement. <i>Aphasiology</i> , 2016, 30, 862-876.	1.4	39
67	The Single-Case Reporting Guideline In BEhavioural Interventions (SCRIBE) 2016 statement. <i>Canadian Journal of Occupational Therapy</i> , 2016, 83, 184-195.	0.8	12
68	The awareness of social inference test: development of a shortened version for use in adults with acquired brain injury. <i>Clinical Neuropsychologist</i> , 2016, 30, 243-264.	1.5	35
69	Development of an observational measure of social disinhibition after traumatic brain injury. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2016, 38, 341-353.	0.8	15
70	Manipulation of heart rate variability can modify response to anger-inducing stimuli. <i>Social Neuroscience</i> , 2016, 11, 545-552.	0.7	19
71	Reduced heart rate variability in chronic severe traumatic brain injury: Association with impaired emotional and social functioning, and potential for treatment using biofeedback. <i>Neuropsychological Rehabilitation</i> , 2016, 26, 103-125.	1.0	35
72	When diplomacy fails: difficulty understanding hints following severe traumatic brain injury. <i>Aphasiology</i> , 2016, 30, 801-814.	1.4	12

#	ARTICLE	IF	CITATIONS
73	A Survey of Multidisciplinary Clinicians Working in Rehabilitation for People with Traumatic Brain Injury. <i>Brain Impairment</i> , 2015, 16, 173-195.	0.5	25
74	Adolescent Performance on The Awareness of Social Inference Test: TASIT. <i>Brain Impairment</i> , 2015, 16, 3-18.	0.5	12
75	Neurophysiological correlates of dysregulated emotional arousal in severe traumatic brain injury. <i>Clinical Neurophysiology</i> , 2015, 126, 314-324.	0.7	18
76	Repetition-lag training to improve recollection memory in older people with amnesic mild cognitive impairment. A randomized controlled trial. <i>Aging, Neuropsychology, and Cognition</i> , 2015, 22, 244-258.	0.7	39
77	Visuospatial Learning in Traumatic Brain Injury: An Examination of Impairments using the Computerised Austin Maze Task. <i>Brain Impairment</i> , 2015, 16, 19-27.	0.5	1
78	Facing the challenges of single-case experimental methodology. <i>Aphasiology</i> , 2015, 29, 575-580.	1.4	2
79	Acceptance and commitment therapy program for distressed adults with a primary brain tumor: a case series study. <i>Supportive Care in Cancer</i> , 2015, 23, 2855-2859.	1.0	14
80	Deficits in comprehension of speech acts after TBI: The role of theory of mind and executive function. <i>Brain and Language</i> , 2015, 150, 69-79.	0.8	46
81	Emotion perception after moderate-to-severe traumatic brain injury: The valence effect and the role of working memory, processing speed, and nonverbal reasoning. <i>Neuropsychology</i> , 2015, 29, 509-521.	1.0	40
82	A single case study of computerised cognitive training for older persons with mild cognitive impairment. <i>NeuroRehabilitation</i> , 2014, 35, 261-270.	0.5	7
83	Performance of healthy subjects on an ecologically valid test for social cognition: The short, Dutch Version of The Awareness of Social Inference Test (TASIT). <i>Journal of Clinical and Experimental Neuropsychology</i> , 2014, 36, 1031-1041.	0.8	28
84	The psychosocial impact associated with diabetes-related amputation. <i>Diabetic Medicine</i> , 2014, 31, 1424-1430.	1.2	23
85	Facial Emotion Recognition Deficits following Moderate-to-Severe Traumatic Brain Injury (TBI): Re-examining the Valence Effect and the Role of Emotion Intensity. <i>Journal of the International Neuropsychological Society</i> , 2014, 20, 994-1003.	1.2	67
86	Impaired emotional prosody processing in severe traumatic brain injury. <i>International Journal of Psychophysiology</i> , 2014, 94, 172.	0.5	0
87	Empathy and arousal to emotional videos in Autism Spectrum Disorder. <i>International Journal of Psychophysiology</i> , 2014, 94, 171.	0.5	0
88	Development of a novel task for investigating decision making in a social context following traumatic brain injury. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2014, 36, 897-913.	0.8	20
89	The design, conduct and report of single-case research: Resources to improve the quality of the neurorehabilitation literature. <i>Neuropsychological Rehabilitation</i> , 2014, 24, 315-331.	1.0	87
90	Cognitive factors underpinning poor expressive communication skills after traumatic brain injury: Theory of mind or executive function?. <i>Neuropsychology</i> , 2014, 28, 801-811.	1.0	61

#	ARTICLE	IF	CITATIONS
91	Social perception in adults with Parkinson's disease.. Neuropsychology, 2014, 28, 905-916.	1.0	29
92	Emotion in voice matters: Neural correlates of emotional prosody perception. International Journal of Psychophysiology, 2013, 89, 483-490.	0.5	23
93	Automatic facial responses to affective stimuli in high-functioning adults with autism spectrum disorder. Physiology and Behavior, 2013, 109, 14-22.	1.0	36
94	Automatic facial responses to briefly presented emotional stimuli in autism spectrum disorder. Biological Psychology, 2013, 94, 397-407.	1.1	39
95	Autonomic arousal explains social cognitive abilities in high-functioning adults with autism spectrum disorder. International Journal of Psychophysiology, 2013, 89, 475-482.	0.5	33
96	Autonomic and neural correlates of dysregulated arousal in severe traumatic brain injury. International Journal of Psychophysiology, 2013, 89, 460-465.	0.5	9
97	Impaired emotional contagion following severe traumatic brain injury. International Journal of Psychophysiology, 2013, 89, 466-474.	0.5	16
98	Psychophysiological correlates of social judgement in high-functioning adults with autism spectrum disorder. International Journal of Psychophysiology, 2013, 87, 88-94.	0.5	27
99	The psychological effects of ostracism following traumatic brain injury. Brain Injury, 2013, 27, 1676-1684.	0.6	6
100	Understanding advanced theory of mind and empathy in high-functioning adults with autism spectrum disorder. Journal of Clinical and Experimental Neuropsychology, 2013, 35, 655-668.	0.8	137
101	Assessing Social Cognition and Pragmatic Language in Adolescents with Traumatic Brain Injuries. Journal of the International Neuropsychological Society, 2013, 19, 528-538.	1.2	33
102	Emotional Regulation Impairments Following Severe Traumatic Brain Injury: An Investigation of the Body and Facial Feedback Effects. Journal of the International Neuropsychological Society, 2013, 19, 367-379.	1.2	12
103	Deficits in social perception in opioid maintenance patients, abstinent opioid users and non-opioid users. Addiction, 2013, 108, 566-574.	1.7	36
104	Revision of a method quality rating scale for single-case experimental designs and n-of-1 trials: The 15-item Risk of Bias in n-of-1 Trials (RoBiNT) Scale. Neuropsychological Rehabilitation, 2013, 23, 619-638.	1.0	257
105	A randomised controlled trial evaluating a brief intervention for deficits in recognising emotional prosody following severe ABL. Neuropsychological Rehabilitation, 2013, 23, 267-286.	1.0	35
106	Impairments in Social Cognition Following Severe Traumatic Brain Injury. Journal of the International Neuropsychological Society, 2013, 19, 231-246.	1.2	186
107	Training communication partners of people with severe traumatic brain injury improves everyday conversations: A multicenter single blind clinical trial. Journal of Rehabilitation Medicine, 2013, 45, 637-645.	0.8	82
108	Prevalence and correlates of traumatic brain injury amongst heroin users. Addiction Research and Theory, 2012, 20, 522-528.	1.2	8

#	ARTICLE	IF	CITATIONS
109	Changes in emotional empathy, affective responsivity, and behavior following severe traumatic brain injury. <i>Journal of Clinical and Experimental Neuropsychology</i> , 2012, 34, 606-623.	0.8	54
110	Moving Ahead: A New Centre of Research Excellence in Brain Recovery, Focusing on Psychosocial Reintegration Following Traumatic Brain Injury. <i>Brain Impairment</i> , 2012, 13, 256-270.	0.5	9
111	Facial mimicry and arousal to repetitions of affective movie clips. <i>International Journal of Psychophysiology</i> , 2012, 85, 320.	0.5	0
112	An exploration of participant experience of a communication training program for people with traumatic brain injury and their communication partners. <i>Disability and Rehabilitation</i> , 2012, 34, 1562-1574.	0.9	44
113	Preferential processing of threatening facial expressions using the repetition blindness paradigm. <i>Cognition and Emotion</i> , 2012, 26, 1238-1255.	1.2	3
