#	ARTICLE	IF	CITATIONS
1	How do types of employment relate to health indicators? Findings from the Second European Survey on Working Conditions. <i>Journal of Epidemiology and Community Health</i> , 2000, 54, 494-501.	2.0	308
2	Work-related psychosocial risk factors and musculoskeletal disorders in hospital nurses and nursing aides: A systematic review and meta-analysis. <i>International Journal of Nursing Studies</i> , 2015, 52, 635-648.	2.5	277
3	Immigrant populations, work and health—a systematic literature review. <i>Scandinavian Journal of Work, Environment and Health</i> , 2007, 33, 96-104.	1.7	180
4	Associations between temporary employment and occupational injury: what are the mechanisms?. <i>Occupational and Environmental Medicine</i> , 2006, 63, 416-421.	1.3	173
5	The Employment Precariousness Scale (EPRES): psychometric properties of a new tool for epidemiological studies among waged and salaried workers. <i>Occupational and Environmental Medicine</i> , 2010, 67, 548-555.	1.3	168
6	Gender inequalities in occupational health related to the unequal distribution of working and employment conditions: a systematic review. <i>International Journal for Equity in Health</i> , 2013, 12, 57.	1.5	157
7	Disabling musculoskeletal pain in working populations: Is it the job, the person, or the culture?. <i>Pain</i> , 2013, 154, 856-863.	2.0	139
8	Patterns of multisite pain and associations with risk factors. <i>Pain</i> , 2013, 154, 1769-1777.	2.0	133
9	Occupational Risk Factors and Asthma among Health Care Professionals. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2007, 175, 667-675.	2.5	125
10	Parental Agricultural Work and Selected Congenital Malformations. <i>American Journal of Epidemiology</i> , 1999, 149, 64-74.	1.6	118
11	Employment Precariousness and Poor Mental Health: Evidence from Spain on a New Social Determinant of Health. <i>Journal of Environmental and Public Health</i> , 2013, 2013, 1-10.	0.4	113
12	La carga de enfermedad en España: resultados del Estudio de la Carga Global de las Enfermedades 2016. <i>Medicina Clínica</i> , 2018, 151, 171-190.	0.3	113
13	Combining employment and family in Europe: the role of family policies in health. <i>European Journal of Public Health</i> , 2014, 24, 649-655.	0.1	106
14	The consequences of flexible work for health: are we looking at the right place?. <i>Journal of Epidemiology and Community Health</i> , 2002, 56, 405-406.	2.0	99
15	Distribution of sickness absence in the European Union countries. <i>Occupational and Environmental Medicine</i> , 2004, 61, 867-869.	1.3	94
16	Types of employment and health in the European Union: Changes from 1995 to 2000. <i>European Journal of Public Health</i> , 2004, 14, 314-321.	0.1	91
17	From the boom to the crisis: changes in employment conditions of immigrants in Spain and their effects on mental health. <i>European Journal of Public Health</i> , 2014, 24, 404-409.	0.1	86
18	Psychosocial factors and work related sickness absence among permanent and non-permanent employees. <i>Journal of Epidemiology and Community Health</i> , 2004, 58, 870-876.	2.0	85

#	ARTICLE	IF	CITATIONS
19	Extending a model of precarious employment: A qualitative study of immigrant workers in Spain. <i>American Journal of Industrial Medicine</i> , 2010, 53, 417-424.	1.0	84
20	Criteria and methods used for the assessment of fitness for work: a systematic review. <i>Occupational and Environmental Medicine</i> , 2007, 64, 304-312.	1.3	83
21	Employment Precariousness in Spain: Prevalence, Social Distribution, and Population-Attributable Risk Percent of Poor Mental Health. <i>International Journal of Health Services</i> , 2011, 41, 625-646.	1.2	82
22	The effect of perceived discrimination on the health of immigrant workers in Spain. <i>BMC Public Health</i> , 2011, 11, 652.	1.2	79
23	A qualitative study about immigrant workers' perceptions of their working conditions in Spain. <i>Journal of Epidemiology and Community Health</i> , 2009, 63, 936-942.	2.0	76
24	Risk of fatal and non-fatal occupational injury in foreign workers in Spain. <i>Journal of Epidemiology and Community Health</i> , 2006, 60, 424-426.	2.0	75
25	Invisible work, unseen hazards: The health of women immigrant household service workers in Spain. <i>American Journal of Industrial Medicine</i> , 2010, 53, 405-416.	1.0	75
26	Differences in working conditions and employment arrangements among migrant and non-migrant workers in Europe. <i>Ethnicity and Health</i> , 2012, 17, 563-577.	1.5	74
27	Immigration, employment relations, and health: Developing a research agenda. <i>American Journal of Industrial Medicine</i> , 2010, 53, 338-343.	1.0	69
28	Evaluation of the Impact of Ambient Temperatures on Occupational Injuries in Spain. <i>Environmental Health Perspectives</i> , 2018, 126, 067002.	2.8	63
29	The CUPID (Cultural and Psychosocial Influences on Disability) Study: Methods of Data Collection and Characteristics of Study Sample. <i>PLoS ONE</i> , 2012, 7, e39820.	1.1	58
30	Immigration, work and health in Spain: the influence of legal status and employment contract on reported health indicators. <i>International Journal of Public Health</i> , 2010, 55, 443-451.	1.0	56
31	International variation in absence from work attributed to musculoskeletal illness: findings from the CUPID study. <i>Occupational and Environmental Medicine</i> , 2013, 70, 575-584.	1.3	54
32	Return to Work Expectations of Workers on Long-Term Non-Work-Related Sick Leave. <i>Journal of Occupational Rehabilitation</i> , 2012, 22, 15-26.	1.2	49
33	Occupational exposure to organic solvents and K-ras mutations in exocrine pancreatic cancer. <i>Carcinogenesis</i> , 2002, 23, 101-106.	1.3	48
34	Occupational Exposures and Asthma in Health-Care Workers: Comparison of Self-Reports With a Workplace-Specific Job Exposure Matrix. <i>American Journal of Epidemiology</i> , 2008, 169, 581-587.	1.6	48
35	Sickness presenteeism in Spanish-born and immigrant workers in Spain. <i>BMC Public Health</i> , 2010, 10, 791.	1.2	47
36	Psychological and culturally-influenced risk factors for the incidence and persistence of low back pain and associated disability in Spanish workers: findings from the CUPID study. <i>Occupational and Environmental Medicine</i> , 2013, 70, 57-62.	1.3	47

#	ARTICLE	IF	CITATIONS
37	Economic crisis and changes in drug use in the Spanish economically active population. <i>Addiction</i> , 2015, 110, 1129-1137.	1.7	47
38	Validation of an asthma questionnaire for use in healthcare workers. <i>Occupational and Environmental Medicine</i> , 2006, 63, 173-179.	1.3	45
39	A glossary for the social epidemiology of work organisation: Part 3, Terms from the sociology of labour markets. <i>Journal of Epidemiology and Community Health</i> , 2007, 61, 6-8.	2.0	44
40	Classification of neck/shoulder pain in epidemiological research. <i>Pain</i> , 2016, 157, 1028-1036.	2.0	44
41	Paternal exposure to pesticides and congenital malformations. <i>Scandinavian Journal of Work, Environment and Health</i> , 1998, 24, 473-480.	1.7	43
42	Informal employment and health status in Central America. <i>BMC Public Health</i> , 2015, 15, 698.	1.2	41
43	Occupation and pancreatic cancer in Spain: a case-control study based on job titles. <i>International Journal of Epidemiology</i> , 2000, 29, 1004-1013.	0.9	40
44	Impact of economic crisis on mental health of migrant workers: what happened with migrants who came to Spain to work?. <i>International Journal of Public Health</i> , 2013, 58, 627-631.	1.0	40
45	Differences in serum concentrations of organochlorine compounds by occupational social class in pancreatic cancer. <i>Environmental Research</i> , 2008, 108, 370-379.	3.7	39
46	Working conditions and health in Central America: a survey of 12 024 workers in six countries. <i>Occupational and Environmental Medicine</i> , 2014, 71, 459-465.	1.3	38
47	Long working hours and health in Europe: Gender and welfare state differences in a context of economic crisis. <i>Health and Place</i> , 2016, 40, 161-168.	1.5	37
48	Occupational categories and sickness absence certified as attributable to common diseases. <i>European Journal of Public Health</i> , 2003, 13, 51-55.	0.1	31
49	Certification of occupational diseases as common diseases in a primary health care setting. <i>American Journal of Industrial Medicine</i> , 2005, 47, 176-180.	1.0	30
50	The relationship between immigration and mental health: what is the role of workplace psychosocial factors. <i>International Archives of Occupational and Environmental Health</i> , 2012, 85, 801-806.	1.1	30
51	The impact of job stress due to the lack of organisational support on occupational injury. <i>Occupational and Environmental Medicine</i> , 2013, 70, 623-629.	1.3	29
52	Cross-national comparisons of sickness absence systems and statistics: towards common indicators. <i>European Journal of Public Health</i> , 2014, 24, 663-666.	0.1	28
53	The Length of Working Life in Spain: Levels, Recent Trends, and the Impact of the Financial Crisis. <i>European Journal of Population</i> , 2018, 34, 769-791.	1.1	27
54	A job-exposure matrix for research and surveillance of occupational health and safety in Spanish workers: MatEmEsp. <i>American Journal of Industrial Medicine</i> , 2013, 56, 1226-1238.	1.0	26

#	ARTICLE	IF	CITATIONS
55	Work and health in Latin America: results from the working conditions surveys of Colombia, Argentina, Chile, Central America and Uruguay. <i>Occupational and Environmental Medicine</i> , 2017, 74, 432-439.	1.3	26
56	Informal employment, unpaid care work, and health status in Spanish-speaking Central American countries: a gender-based approach. <i>International Journal of Public Health</i> , 2017, 62, 209-218.	1.0	26
57	Health beliefs, low mood, and somatizing tendency: contribution to incidence and persistence of musculoskeletal pain with and without reported disability. <i>Scandinavian Journal of Work, Environment and Health</i> , 2013, 39, 589-598.	1.7	25
58	Description of fatal occupational injury rates in five selected European Union countries: Austria, Finland, France, Spain and Sweden. <i>Safety Science</i> , 2005, 43, 497-502.	2.6	24
59	Mesothelioma mortality in men: trends during 1977-2001 and projections for 2002-2016 in Spain. <i>Occupational and Environmental Medicine</i> , 2008, 65, 279-282.	1.3	24
60	Ill health, social protection, labour relations, and sickness absence. <i>Occupational and Environmental Medicine</i> , 2006, 63, 228-229.	1.3	22
61	Differences in Exposure to Occupational Health Risks in Spanish and Foreign-Born Workers in Spain (Itisal Project). <i>Journal of Immigrant and Minority Health</i> , 2013, 15, 164-171.	0.8	22
62	Work-related stress factors associated with problem drinking: A study of the Spanish working population. <i>American Journal of Industrial Medicine</i> , 2014, 57, 837-846.	1.0	22
63	Work in the textile industry in Spain and bladder cancer. <i>Occupational and Environmental Medicine</i> , 2007, 65, 552-559.	1.3	21
64	A qualitative exploration of the impact of the economic recession in Spain on working, living and health conditions: reflections based on immigrant workers' experiences. <i>Health Expectations</i> , 2016, 19, 416-426.	1.1	21
65	Comparison of fatal occupational injury surveillance systems between the European Union and the United States. <i>American Journal of Industrial Medicine</i> , 2003, 44, 385-391.	1.0	20
66	Psychosocial risk factors at the workplace: is there enough evidence to establish reference values?. <i>Journal of Epidemiology and Community Health</i> , 2002, 56, 244-245.	2.0	19
67	Effect of economic recession on psychosocial working conditions by workers' nationality. <i>International Journal of Occupational and Environmental Health</i> , 2015, 21, 328-332.	1.2	19
68	External Validation of Psychological Job Demands in a Bus Driver Sample. <i>Journal of Occupational Health</i> , 2004, 46, 43-48.	1.0	19
69	Epidemiological Differences Between Localized and Nonlocalized Low Back Pain. <i>Spine</i> , 2017, 42, 740-747.	1.0	18
70	Organizational Return to Work Support and Sick Leave Duration. <i>Journal of Occupational and Environmental Medicine</i> , 2011, 53, 674-679.	0.9	17
71	Psychosocial factor exposures in the workplace: differences between immigrants and Spaniards. <i>European Journal of Public Health</i> , 2012, 22, 688-693.	0.1	17
72	Understanding sickness presenteeism through the experience of immigrant workers in a context of economic crisis. <i>American Journal of Industrial Medicine</i> , 2014, 57, 950-959.	1.0	17

#	ARTICLE	IF	CITATIONS
73	Labour market trajectories and early retirement due to permanent disability: a study based on 14 972 new cases in Spain. <i>European Journal of Public Health</i> , 2015, 25, 673-677.	0.1	17
74	Unemployment and health in Spain. <i>European Journal of Public Health</i> , 1994, 4, 103-107.	0.1	16
75	Cohort profile: the Spanish WORKing life Social Security (WORKss) cohort study. <i>BMJ Open</i> , 2016, 6, e008555.	0.8	16
76	Informal employment, precariousness, and decent work: from research to preventive action. <i>Scandinavian Journal of Work, Environment and Health</i> , 2022, 48, 169-172.	1.7	16
