

Alexander Nozdrachev

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7541545/alexander-nozdrachev-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
153	Development of Calbindin- and Calretinin-Immunopositive Neurons in the Enteric Ganglia of Rats. <i>Cellular and Molecular Neurobiology</i> , 2017 , 37, 1257-1267	4.6	7
152	Neuroendocrine hypothalamus as a homeostat of endogenous time. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2017 , 53, 1-16	0.5	3
151	Possible mechanism of bursting suppression in nociceptive neurons. <i>Doklady Biochemistry and Biophysics</i> , 2017 , 473, 137-140	0.8	3
150	Antinociceptive effect of the agonist of 5-HT _{1A} receptors buspirone in the model of abdominal pain in dogs. <i>Doklady Biological Sciences</i> , 2017 , 473, 46-49	0.9	7
149	Methyl- β -cyclodextrin modulates thapsigargin-induced store-dependent Ca entry in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2017 , 473, 88-90	0.8	2
148	Low-molecular-weight components of the metabolome control the proliferative activity in cellular and bacterial cultures. <i>Doklady Biological Sciences</i> , 2017 , 472, 8-10	0.9	3
147	Metformin prevents hormonal and metabolic disturbances and 1,2-dimethylhydrazine-induced colon carcinogenesis in non-diabetic rats. <i>Cancer Biology and Medicine</i> , 2017 , 14, 100-107	5.2	9
146	Sigma-1 receptor antagonist haloperidol attenuates Ca responses induced by glutoxim and molixan in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2017 , 472, 74-76	0.8	2
145	Lipoxygenases modulate the effect of glutoxim on Na transport in the frog skin epithelium. <i>Doklady Biochemistry and Biophysics</i> , 2017 , 474, 193-195	0.8	3
144	The effect of chlorpromazine on intracellular Ca concentration in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2017 , 474, 162-164	0.8	3
143	Metabotropic glutamate receptors as targets of neuromodulatory influence of nitric oxide. <i>Doklady Biological Sciences</i> , 2016 , 469, 149-51	0.9	1
142	The inhibitors of Arp2/3 complex and WASP proteins modulate the effect of glutoxim on Na(+) transport in frog skin. <i>Doklady Biochemistry and Biophysics</i> , 2016 , 467, 102-4	0.8	
141	5-Lipoxygenase inhibitor zileuton inhibits Ca(2+)-responses induced by glutoxim and molixan in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2016 , 469, 302-4	0.8	3
140	Effects of 5-HT ₃ receptor blockade on visceral nociceptive neurons in the ventrolateral reticular field of the rat medulla oblongata. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2016 , 52, 313-325	0.5	7
139	Age-related features in expression of calcium-binding proteins in autonomic ganglionic neurons. <i>Advances in Gerontology</i> , 2016 , 6, 298-303	0.4	3
138	Involvement of the Peripheral Sensory Structures of the Autonomic Nervous System in the Mechanisms of Neuroimmune Interactions. <i>Neuroscience and Behavioral Physiology</i> , 2016 , 46, 421-429	0.3	
137	Development of neuropeptide Y-mediated heart innervation in rats. <i>Neuropeptides</i> , 2016 , 55, 47-54	3.3	10

136	Features of parkinsonian and essential tremor of the human hand. <i>Human Physiology</i> , 2016 , 42, 271-278	0.3	4
135	Methyl- β -cyclodextrin inhibits Ca-responses induced by glutoxim and molixan in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2016 , 471, 390-392	0.8	1
134	ATP-Dependent and Calcium Mechanisms of the Effects of Salicylates on Electrical Potentials in Neurons in the Mollusk <i>Helix Albescens</i> . <i>Neuroscience and Behavioral Physiology</i> , 2016 , 46, 644-651	0.3	2
133	Molecular mechanism of modulation of nociceptive neuron membrane excitability by a tripeptide. <i>Doklady Biochemistry and Biophysics</i> , 2016 , 466, 77-80	0.8	3
132	Metformin inhibits development of colon malignant tumors induced by 1,2-dimethylhydrazine in rats. <i>Doklady Biological Sciences</i> , 2016 , 468, 97-100	0.9	3
131	The effect of histidine on the contractility and adrenoreactivity of the myocardium of nonpregnant and pregnant rats. <i>Doklady Biological Sciences</i> , 2015 , 460, 12-6	0.9	1
130	Electrical activity and circulatory effects of nitrite in the rat cerebrum. <i>Biology Bulletin</i> , 2015 , 42, 139-144	0.5	1
129	Nitric oxide regulates the chemoattractant activity of defensin HNP-1 in the blood. <i>Doklady Biochemistry and Biophysics</i> , 2015 , 460, 62-4	0.8	
128	Expression of Pattern Recognition Receptors by Nociceptive Metasympathetic Neurons. <i>Bulletin of Experimental Biology and Medicine</i> , 2015 , 159, 248-52	0.8	4
127	Phospholipase A2 inhibitors modulate the effects of glutoxim and molixan on the intracellular Ca(2+) level in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2015 , 465, 374-6	0.8	1
126	The role of nitric oxide in regulation of leukocyte migration into the heart tissue in vitro. <i>Doklady Biological Sciences</i> , 2015 , 465, 296-8	0.9	1
125	Involvement of the Arp2/3 complex and WASP proteins in the effect of glutoxim and molixan on intracellular Ca(2+) concentration in macrophages. <i>Doklady Biochemistry and Biophysics</i> , 2015 , 464, 279-82	0.8	
124	The 5HT4 receptor agonist prucalopride suppresses abdominal nociception. <i>Doklady Biological Sciences</i> , 2015 , 461, 76-9	0.9	4
123	Comenic acid decreases the impulse frequency of the nociceptive neuron membrane. <i>Doklady Biochemistry and Biophysics</i> , 2015 , 462, 155-7	0.8	1
122	Application of bifurcation analysis for determining the mechanism of coding of nociceptive signals. <i>Technical Physics</i> , 2015 , 60, 1545-1548	0.5	3
121	Development of non-catecholaminergic sympathetic neurons in para- and prevertebral ganglia of cats. <i>International Journal of Developmental Neuroscience</i> , 2015 , 40, 76-84	2.7	14
120	An endogenous sensitizer of β adrenergic receptors and its analogs attenuate the inhibition of β adrenergic receptors by propranolol and atenolol in the rat myocardium. <i>Doklady Biological Sciences</i> , 2014 , 456, 169-72	0.9	2
119	Involvement of small G proteins and vesicle traffic in the glutoxim and molixan effects on the intracellular Ca(2+) concentration in macrophages. <i>Doklady Biological Sciences</i> , 2014 , 457, 252-4	0.9	1

118	Sodium nitrite influences metabolic conversions of nitric oxide in tissues of the right and left ventricles of the rat heart. <i>Doklady Biological Sciences</i> , 2013 , 450, 120-2	0.9	1
117	Mechanism of increasing the rate of agglutination of human erythrocytes under the influence of adrenaline and its relation to eryptosis. <i>Doklady Biological Sciences</i> , 2013 , 451, 199-202	0.9	
116	Cyclooxygenase and lipoxygenase inhibitors modulate the Glutoxim and Molixan effects on the intracellular Ca^{2+} concentration in macrophages. <i>Doklady Biological Sciences</i> , 2013 , 452, 277-9	0.9	2
115	Location of pattern-recognizing and vanilloid receptors in the nerve plexuses of the rat intestine. <i>Doklady Biological Sciences</i> , 2013 , 452, 269-72	0.9	1
114	Inhibitors of the cyclooxygenase oxidation pathway of arachidonic acid suppress the stimulating effect of glutoxim on Na^{+} transport in frog skin. <i>Doklady Biological Sciences</i> , 2013 , 451, 193-5	0.9	5
113	Involvement of microtubules in the effects of glutoxim and molixan on the intracellular concentration of Ca^{2+} in macrophages. <i>Doklady Biological Sciences</i> , 2013 , 451, 196-8	0.9	
112	Calbindin-D28k immunoreactivity in sympathetic ganglionic neurons during development. <i>Autonomic Neuroscience: Basic and Clinical</i> , 2012 , 167, 27-33	2.4	14
111	Expression of toll-like receptors 4 in nerve plexuses of the rat duodenum, jejunum, and colon. <i>Doklady Biological Sciences</i> , 2012 , 445, 215-7	0.9	8
110	Involvement of microtubules in the glutoxim regulation of Na^{+} transport in the frog skin. <i>Doklady Biological Sciences</i> , 2012 , 445, 227-9	0.9	1
109	Regulation of peripheral and systemic blood circulation in rats in conditions of acute nitrite hypoxia. <i>Biology Bulletin</i> , 2012 , 39, 547-555	0.5	
108	Development of neuropeptide Y-containing neurons in sympathetic ganglia of rats. <i>Neuropeptides</i> , 2012 , 46, 345-52	3.3	18
107	Calcium channel blockers inhibit the hyperglycemic effect of calcitonin. <i>Bulletin of Experimental Biology and Medicine</i> , 2012 , 152, 553-9	0.8	2
106	Involvement of actin filaments in the effect of the oxidized glutathione and drug glutoxim on the intracellular Ca^{2+} concentration in macrophages. <i>Doklady Biological Sciences</i> , 2011 , 436, 16-9	0.9	2
105	The effect of amino acid combinations on the development of tissues of different origins in an organotypic culture. <i>Doklady Biological Sciences</i> , 2011 , 440, 267-9	0.9	2
104	Neuropeptide Y and autonomic nervous system. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2011 , 47, 121-130	0.5	7
103	Cardiovascular manifestations of acute nitrite intoxication in laboratory rats. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2011 , 47, 464-473	0.5	
102	Mechanisms of hyperglycemic effect of calcitonin. <i>Bulletin of Experimental Biology and Medicine</i> , 2011 , 150, 320-3	0.8	6
101	Effects of the vagus nerve stimulation on amygdalohypothalamic and amygdalobulbular influences. <i>Doklady Biological Sciences</i> , 2010 , 434, 313-7	0.9	0

100	An endogenous sensitizer of β -adrenergic receptors and its analogs in the experiments with rat myometrium reduce the β -adrenoblocking effect of obzidan. <i>Doklady Biological Sciences</i> , 2010 , 435, 375-80	0.9	4
99	Peculiarities of myocardial electrogenesis in laboratory rats under conditions of acute nitrite intoxication. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2010 , 46, 179-188	0.5	0
98	Analysis of differences between physiological and pathological tremor of human fingers. <i>Bulletin of Experimental Biology and Medicine</i> , 2010 , 149, 383-6	0.8	1
97	Effect of calcium-regulating hormones and calcium channel modulators on glucose consumption by muscle and adipose tissues in vivo and in vitro. <i>Bulletin of Experimental Biology and Medicine</i> , 2009 , 148, 171-4	0.8	3
96	The influence of sodium nitrite on the locomotor functions of white blood cells. <i>Doklady Biological Sciences</i> , 2009 , 427, 311-2	0.9	1
95	Neonatal intermittent hypoxia and hypertension. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2009 , 45, 252-258	0.5	1
94	Mechanism of heat transfer in different regions of human body. <i>Biology Bulletin</i> , 2009 , 36, 53-57	0.5	2
93	Blockers of monoamine transporters influence high dopamine concentration uptake in rat brain slices. <i>Doklady Biological Sciences</i> , 2008 , 419, 80-2	0.9	5
92	NO-dependent mechanisms of amygdalocortical influence. <i>Doklady Biological Sciences</i> , 2008 , 421, 225-8	0.9	0
91	Effect of disulfide-containing compounds on the Na ⁺ transport in the frog skin. <i>Doklady Biological Sciences</i> , 2008 , 421, 235-8	0.9	7
90	Liver glucose-6-phosphatase activity and blood fatty acid level in rats with insulin-induced hypoglycemia. <i>Doklady Biological Sciences</i> , 2008 , 422, 294-5	0.9	0
89	Possible involvement of phosphatidylinositol kinases in the effect of the oxidized glutathione and glutoxim on the intracellular Ca ²⁺ concentration in macrophages. <i>Doklady Biological Sciences</i> , 2008 , 422, 296-7	0.9	7
88	Nobel prizes in 2006 for physiology or medicine and chemistry. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2008 , 44, 258-260	0.5	0
87	Postnatal intermittent hypoxia and developmental programming of hypertension in spontaneously hypertensive rats: the role of reactive oxygen species and L-Ca ²⁺ channels. <i>Hypertension</i> , 2008 , 52, 156-62	8.5	29
86	Erectile dysfunction in a murine model of sleep apnea. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2008 , 178, 644-50	10.2	56
85	Method for detecting quantitative differences in the parameters of involuntary effort fluctuations in healthy volunteers and patients with Parkinson's syndrome. <i>Bulletin of Experimental Biology and Medicine</i> , 2008 , 146, 495-8	0.8	1
84	Parameters of energy and nitrogen metabolism in rats under insulin-induced hypoglycemia. <i>Biology Bulletin</i> , 2008 , 35, 279-286	0.5	0
83	Development of the NADPH-diaphorase-positive neurons in the sympathetic ganglia. <i>Annals of Anatomy</i> , 2008 , 190, 516-24	2.9	13

82	The possible involvement of calcium ions in the regulatory effect of oxidized glutathione on macrophages. <i>Doklady Biological Sciences</i> , 2007 , 412, 11-4	0.9	8
81	Effect of human blood serum on M-cholinoreactivity of rat stomach smooth muscles. <i>Doklady Biological Sciences</i> , 2007 , 414, 190-3	0.9	1
80	Effect of arginine and its metabolites on the rat myocardium in an organotypic tissue culture. <i>Doklady Biological Sciences</i> , 2007 , 415, 257-60	0.9	1
79	The role of tyrosine kinases and tyrosine phosphatases in the effect of glutoxim and oxidized glutathione on the intracellular Ca ²⁺ concentration in macrophages. <i>Doklady Biological Sciences</i> , 2007 , 417, 417-9	0.9	7
78	A romantic who became a classic. <i>Herald of the Russian Academy of Sciences</i> , 2007 , 77, 161-169	0.7	
77	The role of visceral receptors in the mechanisms of neuroimmune interactions in mammalian small intestine. <i>Biology Bulletin</i> , 2007 , 34, 277-285	0.5	3
76	Comparative analysis of the effect of endogenous antibiotic defensin NP-1 and aminoglycoside antibiotic gentamicin on synaptic transmission in receptors of the frog vestibular apparatus. <i>Biology Bulletin</i> , 2007 , 34, 590-594	0.5	
75	Age-related characteristics of the neurotransmitter composition of neurons in the stellate ganglion. <i>Neuroscience and Behavioral Physiology</i> , 2007 , 37, 349-53	0.3	10
74	Rhythmic electrical activity in branches of the stellate ganglion in the cat during postnatal ontogenesis. <i>Neuroscience and Behavioral Physiology</i> , 2007 , 37, 505-8	0.3	1
73	Effects of intranasal administration of epitalon on neuron activity in the rat neocortex. <i>Neuroscience and Behavioral Physiology</i> , 2007 , 37, 889-93	0.3	
72	A novel mouse model for assessment of male sexual function. <i>Physiology and Behavior</i> , 2007 , 91, 535-43	3.5	11
71	The role of defensins in the excitability of the peripheral vestibular system in the frog: evidence for the presence of communication between the immune and nervous systems. <i>Hearing Research</i> , 2007 , 230, 1-8	3.9	5
70	Stimulation of cell proliferation and apoptosis in the presence of amino acids in organotypic culture of tissues of different degree of maturity. <i>Doklady Biological Sciences</i> , 2006 , 406, 7-10	0.9	4
69	Extrahypothalamic corticoliberin receptors regulate the reinforcing effects of self-stimulation. <i>Doklady Biological Sciences</i> , 2006 , 406, 14-7	0.9	3
68	The role of the actin cytoskeleton in the regulation of Na ⁺ transport by phosphatidylinositol kinases in the frog skin. <i>Doklady Biological Sciences</i> , 2006 , 410, 367-9	0.9	4
67	Oxygen regime in rat brain tissues under conditions of acute nitrite methemoglobinemia. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2006 , 42, 77-83	0.5	1
66	Changes in energy metabolism and lesion of nerve cells in rats after repeated administrations of high doses of insulin. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2006 , 42, 155-160	0.5	1
65	Oxygen supply of the brain cortex in acute nitrite hypoxia in rodents with different ecological specialization. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2006 , 42, 424-430	0.5	

64	Effects of hypoxic factors on cardiac chronotropic reactions in the muskrat <i>Ondatra zibethicus</i> in free behavior. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2006 , 42, 461-468	0.5	4
63	Effect of nitrite-induced methemoglobinemia on the kinetics of blood deoxygenation. <i>Biology Bulletin</i> , 2006 , 33, 167-171	0.5	3
62	The role of defensin NP-1 in restoring the functions of an injured nerve trunk. <i>Neuroscience and Behavioral Physiology</i> , 2006 , 36, 313-5	0.3	10
61	Afferent innervation of the trachea during postnatal development. <i>Autonomic Neuroscience: Basic and Clinical</i> , 2005 , 120, 68-72	2.4	5
60	Glycolysis and oxidation enzyme activity in rat brain during insulin-induced hypoglycemia against the background of alloxan-induced diabetes mellitus. <i>Bulletin of Experimental Biology and Medicine</i> , 2005 , 140, 695-7	0.8	4
59	Study of Problems of Evolutionary Physiology in St. Petersburg State University. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2005 , 41, 583-587	0.5	
58	Expression of Menkes AtPase and Wilson ATPpase in different regions of the adult rat brain. <i>Doklady Biological Sciences</i> , 2005 , 401, 88-91	0.9	5
57	Does defensin NP-1 influence the excitability of the primary afferent neurons of the guinea pig small intestine?. <i>Doklady Biological Sciences</i> , 2005 , 401, 100-3	0.9	1
56	Hormones of the pituitary-adrenal system in the mechanisms of unconditioned and conditioned reflex reinforcement. <i>Doklady Biological Sciences</i> , 2005 , 404, 329-32	0.9	
55	Selective Histochemical Identification of Nerve Cell Populations Using Fucose-Specific Lectins. <i>Biology Bulletin</i> , 2004 , 31, 164-167	0.5	
54	Identification and testing of uniaxonal neurons (Dogiel type I neurons) in the myenteral plexus of the guinea pig ileum. <i>Doklady Biological Sciences</i> , 2004 , 394, 4-6	0.9	
53	Effects of endogenous modulators of beta-adrenergic and cholinergic receptors on heart rate variability. <i>Doklady Biological Sciences</i> , 2004 , 394, 16-9	0.9	1
52	Social isolation syndrome in rats. <i>Doklady Biological Sciences</i> , 2004 , 395, 99-102	0.9	3
51	Physiological characteristics of endogenous sensitizer of beta-adrenergic receptors (ESBAR) and its putative components. <i>Doklady Biological Sciences</i> , 2004 , 398, 363-6	0.9	2
50	The effect of hexapeptide Glutoxim on tissue explant development in organoid cultures. <i>Doklady Biological Sciences</i> , 2004 , 398, 376-8	0.9	1
49	Hemodynamics in the Microcirculation System of the Rat Cerebral Cortex in Nitrite Methemoglobinemia. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2004 , 40, 189-194	0.5	
48	Recovery of mechanoreception at the initial stage of regeneration of injured sciatic nerve in rats in conditions of central axotomy of sensory neurons. <i>Neuroscience and Behavioral Physiology</i> , 2004 , 34, 817-20	0.3	1
47	Involvement of small intestine interoceptors in the response to endotoxins. <i>Doklady Biological Sciences</i> , 2003 , 389, 105-8	0.9	3

46	A regulatory effect of amino acids in organotypic cultures of lymphoid tissues with various degrees of immunological maturity. <i>Doklady Biological Sciences</i> , 2003 , 389, 117-9	0.9	4
45	Characteristics of the responses of smooth muscles of the uterus, coronary artery, and trachea to ozone and the ability of beta-adrenergic receptor sensitizers to decrease its beta-adrenergic blocking effect. <i>Doklady Biological Sciences</i> , 2003 , 390, 200-3	0.9	
44	Neuronal Organization of Mammalian Stellate Ganglion in Postnatal Ontogenesis. <i>Journal of Evolutionary Biochemistry and Physiology</i> , 2003 , 39, 249-256	0.5	
43	The effects of epiphyseal peptides on the release of immunoglobulins in Peyer's patches in rats in vitro. <i>Neuroscience and Behavioral Physiology</i> , 2003 , 33, 893-7	0.3	
42	Effect of physical training on blood level of endogenous modulators of beta-adreno- and m-cholinoreactivity in patients with a history of myocardial infarction. <i>Bulletin of Experimental Biology and Medicine</i> , 2003 , 136, 14-8	0.8	2
41	Regulatory effects of essential and nonessential amino acids on organotypic cultures of spleen and liver tissues. <i>Doklady Biological Sciences</i> , 2003 , 393, 488-91	0.9	
40	Serotonergic mechanisms of formation of emotional behavior of rats in ontogeny. <i>Doklady Biological Sciences</i> , 2003 , 393, 508-11	0.9	
39	Role of the dopaminergic system of the brain in the effects of glucocorticoid hormones. <i>Neuroscience and Behavioral Physiology</i> , 2003 , 33, 231-6	0.3	4
38	Physiological characteristics of myocytes of the human umbilical arteries and vein and the effect of umbilical blood serum on them. <i>Doklady Biological Sciences</i> , 2003 , 388, 15-7	0.9	1
37	Uteroactive, beta-adrenomodulating, and M-cholinomodulating properties of the human umbilical blood serum. <i>Doklady Biological Sciences</i> , 2003 , 388, 31-4	0.9	1
36	A mechanism of the hydrochloric acid reception in the ileum. <i>Doklady Biological Sciences</i> , 2003 , 388, 1-4	0.9	1
35	Circuits and projections of cat stellate ganglion. <i>Archives of Medical Research</i> , 2003 , 34, 106-15	6.6	5
34	Histochemical features of neurons in the cat stellate ganglion during postnatal ontogenesis. <i>Autonomic Neuroscience: Basic and Clinical</i> , 2003 , 106, 84-90	2.4	7
33	The stimulatory effect of small doses of inhibitors in organotypic culture of nervous and lymphoid tissues. <i>Doklady Biological Sciences</i> , 2002 , 383, 96-8	0.9	4
32	The system of endogenous modulators involved in the control of functioning of peripheral autonomic nervous structures. <i>Doklady Biological Sciences</i> , 2002 , 383, 112-5	0.9	3
31	A possible molecular mechanism for the interaction of defensin with the sensory neuron membrane. <i>Neuroscience and Behavioral Physiology</i> , 2002 , 32, 409-15	0.3	5
30	Interactions of cytokines and their components in nervous and lymphoid tissue cultures. <i>Doklady Biological Sciences</i> , 2002 , 384, 199-201	0.9	1
29	The delayed effect of cortagen on the restoration of injured nerve function. <i>Doklady Biological Sciences</i> , 2002 , 384, 183-4	0.9	

28	Effects of pineal-gland peptides on the electric activity of pinealocytes in rats. <i>Doklady Biological Sciences</i> , 2002 , 385, 331-3	0.9	2
27	The effect of chemical sympathectomy on the conducting system of the white rat vagus nerve. <i>Doklady Biological Sciences</i> , 2002 , 385, 346-8	0.9	
26	Critical periods of the dopaminergic system formation in rat brain. <i>Doklady Biological Sciences</i> , 2002 , 386, 421-5	0.9	2
25	The distribution pattern of galactose-specific lectin receptors in sensory ganglia of mature white rats. <i>Doklady Biological Sciences</i> , 2002 , 386, 445-7	0.9	
24	How is bursting mode maintained under the action of exo- and endogenous factors?. <i>Biological Cybernetics</i> , 2001 , 85, 231-9	2.8	1
23	Effects of oral immunization with ovalbumin and pineal peptides on the locomotor activity in rats. <i>Doklady Biological Sciences</i> , 2001 , 378, 220-3	0.9	
22	Neurons of the ventral horns of the spinal cord participate in visceral innervation during early postnatal ontogeny. <i>Doklady Biochemistry and Biophysics</i> , 2001 , 379, 281-3	0.8	
21	Modulating and protective effects of thymic peptides in lymphoid tissue culture. <i>Doklady Biological Sciences</i> , 2001 , 379, 316-8	0.9	4
20	The dynamics of stimulating and inhibiting influence on organoid cultures of nervous and lymphoid tissues. <i>Doklady Biological Sciences</i> , 2001 , 380, 424-6	0.9	6
19	Studies of chemoreceptor perception in mollusks. <i>Neuroscience and Behavioral Physiology</i> , 2001 , 31, 227-35	0.9	14
18	Development of the evoked potentials in the thalamus and cerebral cortex after stimulation of the stellate ganglion afferents in kittens. <i>Autonomic Neuroscience: Basic and Clinical</i> , 2001 , 93, 36-40	2.4	1
17	The defensin receptor: a possible mechanism responsible for reduced excitability of the neuronal sensory membrane. <i>Doklady Biological Sciences</i> , 2000 , 375, 595-8	0.9	3
