#	ARTICLE	IF	CITATIONS
1	Testing an mHealth System for Individuals With Mild to Moderate Alcohol Use Disorders: Protocol for a Type 1 Hybrid Effectiveness-Implementation Trial. JMIR Research Protocols, 2022, 11, e31109.	1.0	4
2	Screening in Trauma for Opioid Misuse Prevention (STOMP): Results from a prospective cohort of victims of traumatic injury. Drug and Alcohol Dependence, 2022, 232, 109286.	3.2	6
3	Efficacy and comparative effectiveness of telephone and smartphone remote continuing care interventions for alcohol use disorder: a randomized controlled trial. Addiction, 2022, 117, 1326-1337.	3.3	6
4	Implementation science issues in understanding, collecting, and using cost estimates: a multi-stakeholder perspective. Implementation Science, 2021, 16, 75.	6.9	40
5	Encouraging the scale-up of proven interventions: Infrastructure development for the "Evidence-to-Implementation" award. Journal of Clinical and Translational Science, 2021, 5, e160.	0.6	0
6	Adoption of opioid-prescribing guidelines in primary care: a realist synthesis of contextual factors. BMJ Open, 2021, 11, e053816.	1.9	0
7	Building capacity for dissemination and implementation to maximize research impact in a CTSA: The University of Wisconsin story. Journal of Clinical and Translational Science, 2020, 4, 209-215.	0.6	8
8	The Balanced Opioid Initiative: protocol for a clustered, sequential, multiple-assignment randomized trial to construct an adaptive implementation strategy to improve guideline-concordant opioid prescribing in primary care. Implementation Science, 2020, 15, 26.	6.9	11
9	Barriers to Buprenorphine Expansion in Ohio: A Time-Elapsed Qualitative Study. Journal of Psychoactive Drugs, 2019, 51, 272-279.	1.7	21
10	Systems consultation for opioid prescribing in primary care: a qualitative study of adaptation. BMJ Quality and Safety, 2019, 28, 397-404.	3.7	7
11	Using Stakeholder Values to Promote Implementation of an Evidence-Based Mobile Health Intervention for Addiction Treatment in Primary Care Settings. JMIR MHealth and UHealth, 2019, 7, e13301.	3.7	7
12	The use of external change agents to promote quality improvement and organizational change in healthcare organizations: a systematic review. BMC Health Services Research, 2018, 18, 42.	2.2	58
13	A randomized matched-pairs study of feasibility, acceptability, and effectiveness of systems consultation: a novel implementation strategy for adopting clinical guidelines for Opioid prescribing in primary care. Implementation Science, 2018, 13, 21.	6.9	38
14	Effects of automated smartphone mobile recovery support and telephone continuing care in the treatment of alcohol use disorder: study protocol for a randomized controlled trial. Trials, 2018, 19, 82.	1.6	9
15	Implementing a Mobile Health System to Integrate the Treatment of Addiction Into Primary Care: A Hybrid Implementation-Effectiveness Study. Journal of Medical Internet Research, 2018, 20, e37.	4.3	71
16	Treatment seeking as a mechanism of change in a randomized controlled trial of a mobile health intervention to support recovery from alcohol use disorders. Journal of Substance Abuse Treatment, 2017, 77, 57-66.	2.8	40
17	Screening in Trauma for Opioid Misuse Prevention (STOMP): study protocol for the development of an opioid risk screening tool for victims of injury. Addiction Science & Clinical Practice, 2017, 12, 28.	2.6	17
18	Reducing Symptom Distress in Patients With Advanced Cancer Using an e-Alert System for Caregivers: Pooled Analysis of Two Randomized Clinical Trials. Journal of Medical Internet Research, 2017, 19, e354.	4.3	26

#	ARTICLE	IF	CITATIONS
19	Implementing an mHealth system for substance use disorders in primary care: a mixed methods study of clinicians'™ initial expectations and first year experiences. BMC Medical Informatics and Decision Making, 2016, 16, 126.	3.0	30
20	The effect of bundling medication-assisted treatment for opioid addiction with mHealth: study protocol for a randomized clinical trial. Trials, 2016, 17, 592.	1.6	36
21	Systems consultation: protocol for a novel implementation strategy designed to promote evidence-based practice in primary care. Health Research Policy and Systems, 2016, 14, 8.	2.8	9
22	Influence networks among substance abuse treatment clinics: implications for the dissemination of innovations. Translational Behavioral Medicine, 2015, 5, 260-268.	2.4	3
23	The effect of an information and communication technology (ICT) on older adults'™ quality of life: study protocol for a randomized control trial. Trials, 2015, 16, 191.	1.6	44
24	Mobile Delivery of Treatment for Alcohol Use Disorders: A Review of the Literature. , 2014, 36, 111-22.		32
25	Testing use of payers to facilitate evidence-based practice adoption: protocol for a cluster-randomized trial. Implementation Science, 2013, 8, 50.	6.9	6
26	Examining access to addiction treatment: Scheduling processes and barriers. Journal of Substance Abuse Treatment, 2013, 44, 343-348.	2.8	15
27	Which elements of improvement collaboratives are most effective? A cluster-randomized trial. Addiction, 2013, 108, 1145-1157.	3.3	104
28	A Business Case for Quality Improvement in Addiction Treatment: Evidence from the NIATx Collaborative. Journal of Behavioral Health Services and Research, 2012, 39, 91-100.	1.4	14
29	Improving substance abuse data systems to measure "waiting time to treatment"™: Lessons learned from a quality improvement initiative. Health Informatics Journal, 2011, 17, 256-265.	2.1	10
30	A cost-benefit analysis of Wisconsin's screening, brief intervention, and referral to treatment program: adding the employer's perspective. Wisconsin Medical Journal, 2010, 109, 9-14.	0.3	16
31	Management practices in substance abuse treatment programs. Journal of Substance Abuse Treatment, 2009, 37, 79-89.	2.8	35
32	Managing your way to better addiction treatment outcomes. Behavioral Healthcare, 2009, 29, 34-5.	0.0	1
