

Ernst H W Koster

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7560206/ernst-h-w-koster-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
202	Individual differences associated with treatment adherence and transfer effects following gamified web-based cognitive control training for repetitive negative thinking.. <i>Internet Interventions</i> , 2022 , 27, 100507	4.4	0
201	Cognitive control training for children with anxiety and depression: A systematic review.. <i>Journal of Affective Disorders</i> , 2022 , 300, 158-171	6.6	0
200	Associations between borderline personality disorder features, early maladaptive schemas, and schema modes: A network analysis in a nonclinical sample. <i>Personality and Individual Differences</i> , 2022 , 195, 111674	3.3	
199	Neuroplastic changes in anterior cingulate cortex gray matter volume and functional connectivity following attention bias modification in high trait anxious individuals.. <i>Biological Psychology</i> , 2022 , 108353	3.2	0
198	A randomized controlled trial of cognitive control training (CCT) as an add-on treatment for late-life depression: a study protocol. <i>BMC Psychiatry</i> , 2021 , 21, 596	4.2	
197	A Pictorial Dot Probe Task to Assess Food-Related Attentional Bias in Youth With and Without Obesity: Overview of Indices and Evaluation of Their Reliability. <i>Frontiers in Psychology</i> , 2021 , 12, 644512	3.4	0
196	Preventing Recurrence of Depression: Long-Term Effects of a Randomized Controlled Trial on Cognitive Control Training for Remitted Depressed Patients. <i>Clinical Psychological Science</i> , 2021 , 9, 615-633	6	8
195	Online Cognitive Control Training for Remitted Depressed Individuals: A Replication and Extension Study. <i>Cognitive Therapy and Research</i> , 2021 , 45, 944-958	2.7	2
194	Personalized cognitive training: Protocol for individual-level meta-analysis implementing machine learning methods. <i>Journal of Psychiatric Research</i> , 2021 , 138, 342-348	5.2	3
193	Emotional working memory updating in individuals with borderline personality features. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2021 , 71, 101636	2.6	
192	Social media use and well-being: A prospective experience-sampling study. <i>Computers in Human Behavior</i> , 2021 , 114, 106510	7.7	22
191	Combined effects of tDCS over the left DLPFC and gaze-contingent training on attention mechanisms of emotion regulation in low-resilient individuals. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2021 , 108, 110177	5.5	5
190	The Architecture of Cognitive Vulnerability to Depressive Symptoms in Adolescence: A Longitudinal Network Analysis Study. <i>Research on Child and Adolescent Psychopathology</i> , 2021 , 49, 267-281	4	3
189	Dissociating facial electromyographic correlates of visual and verbal induced rumination. <i>International Journal of Psychophysiology</i> , 2021 , 159, 23-36	2.9	0
188	Bridges over Troubled Waters: Mapping the Interplay Between Anxiety, Depression and Stress Through Network Analysis of the DASS-21. <i>Cognitive Therapy and Research</i> , 2021 , 45, 46-60	2.7	5
187	Connecting the dots: A network approach to post-traumatic stress symptoms in Chinese healthcare workers during the peak of the Coronavirus Disease 2019 outbreak. <i>Stress and Health</i> , 2021 , 37, 692-705	3.7	2
186	The Role of Emotional Memory in Reappraising Negative Self-referent Thoughts. <i>Cognitive Therapy and Research</i> , 2021 , 45, 1141	2.7	

185	Dynamic Interplay between Reward and Voluntary Attention Determines Stimulus Processing in Visual Cortex. <i>Journal of Cognitive Neuroscience</i> , 2021 , 33, 2357-2371	3.1	1
184	Emotional Memory: Concluding Remarks to the Special Issue on Memory Training for Emotional Disorders. <i>Cognitive Therapy and Research</i> , 2021 , 45, 1000-1003	2.7	
183	A multi-method assessment of attentional processes in chronic, treatment-resistant depression. <i>Journal of Psychiatric Research</i> , 2021 , 140, 68-76	5.2	
182	The relationship between Instagram use and indicators of mental health: A systematic review. <i>Computers in Human Behavior Reports</i> , 2021 , 4, 100121	2.6	5
181	Can we decode phonetic features in inner speech using surface electromyography?. <i>PLoS ONE</i> , 2020 , 15, e0233282	3.7	5
180	The interplay among attention, interpretation, and memory biases in depression: Revisiting the combined cognitive bias hypothesis 2020 , 193-213		6
179	Mapping Dynamic Interactions Among Cognitive Biases in Depression. <i>Emotion Review</i> , 2020 , 12, 93-110	4.6	10
178	The International Affective Picture System a Flemish Validation Study. <i>Psychologica Belgica</i> , 2020 , 41, 205	0.6	38
177	Finding patterns in emotional information: Enhanced sensitivity to statistical regularities within negative information. <i>Emotion</i> , 2020 , 20, 426-435	4.1	1
176	Predictors of Long-Term Improvement Following Cognitive Remediation in a Sample With Elevated Depressive Symptoms. <i>Frontiers in Psychology</i> , 2020 , 11, 2232	3.4	1
175	Cognitive Control Training as an Augmentation Strategy to CBT in the Treatment of Fear of Failure in Undergraduates. <i>Cognitive Therapy and Research</i> , 2020 , 44, 1199-1212	2.7	4
174	Cognitive remediation following electroconvulsive therapy in patients with treatment resistant depression: randomized controlled trial of an intervention for relapse prevention - study protocol. <i>BMC Psychiatry</i> , 2020 , 20, 453	4.2	
173	Transfer and Motivation After Cognitive Control Training for Remitted Depression in Healthy Sample. <i>Journal of Cognitive Enhancement: Towards the Integration of Theory and Practice</i> , 2020 , 4, 49-61	2.4	5
172	Neural correlates of emotion-attention interactions: From perception, learning, and memory to social cognition, individual differences, and training interventions. <i>Neuroscience and Biobehavioral Reviews</i> , 2020 , 108, 559-601	9	51
171	Can we decode phonetic features in inner speech using surface electromyography? 2020 , 15, e0233282		
170	Can we decode phonetic features in inner speech using surface electromyography? 2020 , 15, e0233282		
169	Can we decode phonetic features in inner speech using surface electromyography? 2020 , 15, e0233282		
168	Can we decode phonetic features in inner speech using surface electromyography? 2020 , 15, e0233282		

167	Study what makes games addictive. <i>Nature</i> , 2019 , 573, 346	50.4	32
166	Predictive value of attentional bias for the recurrence of depression: A 4-year prospective study in remitted depressed individuals. <i>Behaviour Research and Therapy</i> , 2019 , 114, 25-34	5.2	8
165	Between vulnerability and resilience: A network analysis of fluctuations in cognitive risk and protective factors following remission from depression. <i>Behaviour Research and Therapy</i> , 2019 , 116, 1-9	5.2	19
164	Motivation and cognitive control in depression. <i>Neuroscience and Biobehavioral Reviews</i> , 2019 , 102, 371-381	7.1	70
163	A novel process-based approach to improve resilience: Effects of computerized mouse-based (gaze)contingent attention training (MCAT) on reappraisal and rumination. <i>Behaviour Research and Therapy</i> , 2019 , 118, 110-120	5.2	16
162	Eye-gaze contingent attention training (ECAT): Examining the causal role of attention regulation in reappraisal and rumination. <i>Biological Psychology</i> , 2019 , 142, 116-125	3.2	24
161	Attentional disengagement from emotional information predicts future depression via changes in ruminative brooding: A five-month longitudinal eye-tracking study. <i>Behaviour Research and Therapy</i> , 2019 , 118, 30-42	5.2	19
160	Negative influences of Facebook use through the lens of network analysis. <i>Computers in Human Behavior</i> , 2019 , 96, 13-22	7.7	22
159	Early maladaptive schemas and borderline personality disorder features in a nonclinical sample: A network analysis. <i>Clinical Psychology and Psychotherapy</i> , 2019 , 26, 388-398	2.9	8
158	Attentional scope, rumination, and processing of emotional information: An eye-tracking study. <i>Emotion</i> , 2019 , 19, 1259-1267	4.1	1
157	Do daily dynamics in rumination and affect predict depressive symptoms and trait rumination? An experience sampling study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2019 , 63, 66-72	2.6	5
156	Does Modification of Implicit Associations Regarding Contamination Affect Approach Behavior and Attentional Bias?. <i>Cognitive Therapy and Research</i> , 2019 , 43, 693-704	2.7	
155	The Brief State Rumination Inventory (BSRI): Validation and Psychometric Evaluation. <i>Cognitive Therapy and Research</i> , 2018 , 42, 447-460	2.7	28
154	Temperamental factors in remitted depression: The role of effortful control and attentional mechanisms. <i>Journal of Affective Disorders</i> , 2018 , 235, 499-505	6.6	7
153	Spontaneous Thought and Goal Pursuit 2018 ,		6
152	Cognitive Control in Depression: Toward Clinical Models Informed by Cognitive Neuroscience. <i>Clinical Psychological Science</i> , 2018 , 6, 464-480	6	32
151	Can training change attentional breadth? Failure to find transfer effects. <i>Psychological Research</i> , 2018 , 82, 520-534	2.5	2
150	Children's attentional breadth around their mother: Comparing stimulus-driven vs. cognitively controlled processes. <i>Social Development</i> , 2018 , 27, 95-108	2.4	4

149	Do obsessive-compulsive symptoms and contamination-related stimuli affect inhibition capacity?. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2018 , 18, 73-80	1.7	1
148	Specificity and overlap of attention and memory biases in depression. <i>Journal of Affective Disorders</i> , 2018 , 225, 404-412	6.6	45
147	Can selective attention and inhibition (interactively) predict future obsessive compulsive symptoms? A prospective study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018 , 61, 150-157	2.6	0
146	Gamified Cognitive Control Training for Remitted Depressed Individuals: User Requirements Analysis. <i>JMIR Serious Games</i> , 2018 , 6, e6	3.4	7
145	Attentional Bias and the Anxiety Disorders 2018 , 41-58		
144	Attentional bias for negative, positive, and threat words in current and remitted depression. <i>PLoS ONE</i> , 2018 , 13, e0205154	3.7	14
143	Remediation of depression-related cognitive impairment: cognitive control training as treatment augmentation. <i>Expert Review of Neurotherapeutics</i> , 2018 , 18, 907-913	4.3	12
142	Mapping the interplay among cognitive biases, emotion regulation, and depressive symptoms. <i>Cognition and Emotion</i> , 2017 , 31, 726-735	2.3	44
141	Individual differences in cognitive control over emotional material modulate cognitive biases linked to depressive symptoms. <i>Cognition and Emotion</i> , 2017 , 31, 736-746	2.3	68
140	The effects of active worrying on working memory capacity. <i>Cognition and Emotion</i> , 2017 , 31, 995-1003	2.3	22
139	Testing the attentional scope model of rumination: An eye-tracking study using the moving window paradigm. <i>Biological Psychology</i> , 2017 , 123, 278-285	3.2	3
138	Obsessions and compulsions in the lab: A meta-analysis of procedures to induce symptoms of obsessive-compulsive disorder. <i>Clinical Psychology Review</i> , 2017 , 52, 137-147	10.8	29
137	Examining a Novel Gamified Approach to Attentional Retraining: Effects of Single and Multiple Session Training. <i>Cognitive Therapy and Research</i> , 2017 , 41, 89-105	2.7	6
136	Cognitive control interventions for depression: A systematic review of findings from training studies. <i>Clinical Psychology Review</i> , 2017 , 53, 79-92	10.8	128
135	Orofacial electromyographic correlates of induced verbal rumination. <i>Biological Psychology</i> , 2017 , 127, 53-63	3.2	11
134	Safety first: Instrumentality for reaching safety determines attention allocation under threat. <i>Emotion</i> , 2017 , 17, 528-537	4.1	15
133	Internet-delivered cognitive control training as a preventive intervention for remitted depressed patients: Evidence from a double-blind randomized controlled trial study. <i>Journal of Consulting and Clinical Psychology</i> , 2017 , 85, 135-146	6.5	52
132	A comprehensive meta-analysis of interpretation biases in depression. <i>Clinical Psychology Review</i> , 2017 , 58, 33-48	10.8	148

131	Increased left prefrontal brain perfusion after MRI compatible tDCS attenuates momentary ruminative self-referential thoughts. <i>Brain Stimulation</i> , 2017 , 10, 1088-1095	5.1	17
130	The effects of obsessive-compulsive symptoms and disorder-relevant stimuli on the dynamics of selective attention. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2017 , 15, 74-84	1.7	7
129	Attentional bias temporal dynamics in remitted depression. <i>Journal of Abnormal Psychology</i> , 2016 , 125, 768-76	7	46
128	Attention bias dynamics and symptom severity during and following CBT for social anxiety disorder. <i>Journal of Consulting and Clinical Psychology</i> , 2016 , 84, 795-802	6.5	28
127	Co-variation between stressful events and rumination predicts depressive symptoms: An eighteen months prospective design in undergraduates. <i>Behaviour Research and Therapy</i> , 2016 , 87, 128-133	5.2	13
126	A novel attention training paradigm based on operant conditioning of eye gaze: Preliminary findings. <i>Emotion</i> , 2016 , 16, 110-6	4.1	24
125	Attention training through gaze-contingent feedback: Effects on reappraisal and negative emotions. <i>Emotion</i> , 2016 , 16, 1074-85	4.1	40
124	Spontaneous Thought and Vulnerability to Mood Disorders: The Dark Side of the Wandering Mind. <i>Clinical Psychological Science</i> , 2016 , 4, 835-857	6	63
123	The interplay between cognitive risk and resilience factors in remitted depression: A network analysis. <i>Journal of Affective Disorders</i> , 2016 , 195, 96-104	6.6	51
122	Training working memory to improve attentional control in anxiety: A proof-of-principle study using behavioral and electrophysiological measures. <i>Biological Psychology</i> , 2016 , 121, 203-212	3.2	115
121	Unveiling the Structure of Cognitive Vulnerability for Depression: Specificity and Overlap. <i>PLoS ONE</i> , 2016 , 11, e0168612	3.7	22
120	Happy heart, smiling eyes: A systematic review of positive mood effects on broadening of visuospatial attention. <i>Neuroscience and Biobehavioral Reviews</i> , 2016 , 68, 816-837	9	42
119	Effects of cognitive control training on the dynamics of (mal)adaptive emotion regulation in daily life. <i>Emotion</i> , 2016 , 16, 945-56	4.1	49
118	Combining tDCS and Working Memory Training to Down Regulate State Rumination: A Single-Session Double Blind Sham-Controlled Trial. <i>Cognitive Therapy and Research</i> , 2015 , 39, 754-765	2.7	18
117	Temporal Dynamics of Attentional Bias. <i>Clinical Psychological Science</i> , 2015 , 3, 772-788	6	136
116	The influence of cognitive control training on stress reactivity and rumination in response to a lab stressor and naturalistic stress. <i>Behaviour Research and Therapy</i> , 2015 , 69, 1-10	5.2	62
115	Self-Regulation Through Rumination: Consequences and Mechanisms 2015 , 371-383		2
114	Life is [great! Emotional attention during instructed and uninstructed ambiguity resolution in relation to depressive symptoms. <i>Biological Psychology</i> , 2015 , 109, 67-72	3.2	28

113	The Effects of Rumination Induction on Attentional Breadth for Self-Related Information. <i>Clinical Psychological Science</i> , 2015 , 3, 607-618	6	21
112	Examining the Relation Between Mood and Rumination in Remitted Depressed Individuals: A Dynamic Systems Analysis. <i>Clinical Psychological Science</i> , 2015 , 3, 619-627	6	10
111	Attention bias modification via single-session dot-probe training: Failures to replicate. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015 , 49, 5-12	2.6	19
110	A resilience framework for promoting stable remission from depression. <i>Clinical Psychology Review</i> , 2015 , 41, 49-60	10.8	94
109	Interactions among emotional attention, encoding, and retrieval of ambiguous information: An eye-tracking study. <i>Emotion</i> , 2015 , 15, 539-543	4.1	13
108	Emotionally biased cognitive processes: the weakest link predicts prospective changes in depressive symptom severity. <i>PLoS ONE</i> , 2015 , 10, e0124457	3.7	16
107	Introduction to the special issue on Cognitive bias modification: Taking a step back to move forward?. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015 , 49, 1-4	2.6	39
106	Internet-delivered cognitive control training as a preventive intervention for remitted depressed patients: Protocol for a randomized controlled trial. <i>BMC Psychiatry</i> , 2015 , 15, 125	4.2	10
105	Cognitive bias modification for depression. <i>Current Opinion in Psychology</i> , 2015 , 4, 119-123	6.2	14
104	Impact of the temporal stability of preexistent attentional bias for threat on its alteration through attention bias modification. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015 , 49, 69-75	2.6	18
103	Adaptive cognitive emotion regulation moderates the relationship between dysfunctional attitudes and depressive symptoms during a stressful life period: a prospective study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014 , 45, 291-6	2.6	25
102	Attentional breadth and proximity seeking in romantic attachment relationships. <i>British Journal of Social Psychology</i> , 2014 , 53, 74-92	6.8	6
101	The influence of working memory on the anger superiority effect. <i>Cognition and Emotion</i> , 2014 , 28, 1449-1464	2.6	9
100	Worrying and rumination are both associated with reduced cognitive control. <i>Psychological Research</i> , 2014 , 78, 651-60	2.5	74
99	Attentional modulation by reward and punishment cues in relation to depressive symptoms. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014 , 45, 351-9	2.6	14
98	Clinical efficacy of attentional bias modification procedures: an updated meta-analysis. <i>Journal of Clinical Psychology</i> , 2014 , 70, 1133-57	2.8	220
97	Attention, interpretation, and memory biases in subclinical depression: a proof-of-principle test of the combined cognitive biases hypothesis. <i>Emotion</i> , 2014 , 14, 331-40	4.1	114
96	Dynamics of attentional bias to threat in anxious adults: bias towards and/or away?. <i>PLoS ONE</i> , 2014 , 9, e104025	3.7	59

95	Brain and intersubjectivity: a Hegelian hypothesis on the self-other neurodynamics. <i>Frontiers in Human Neuroscience</i> , 2014 , 8, 11	3.3	7
94	Self-generated thoughts and depression: from daydreaming to depressive symptoms. <i>Frontiers in Human Neuroscience</i> , 2014 , 8, 131	3.3	32
93	A review of current evidence for the causal impact of attentional bias on fear and anxiety. <i>Psychological Bulletin</i> , 2014 , 140, 682-721	19.1	296
92	The influence of working memory on visual search for emotional facial expressions. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2014 , 40, 1874-90	2.6	8
91	Training working memory to reduce rumination. <i>PLoS ONE</i> , 2014 , 9, e90632	3.7	41
90	Distinct temporal processing of task-irrelevant emotional facial expressions. <i>Emotion</i> , 2014 , 14, 12-6	4.1	3
89	Effects of positive mood on attention broadening for self-related information. <i>Psychological Research</i> , 2014 , 78, 566-73	2.5	22
88	Happy but still focused: failures to find evidence for a mood-induced widening of visual attention. <i>Psychological Research</i> , 2013 , 77, 320-32	2.5	47
87	Young Adolescent's Confidence in Maternal Support: Attentional Bias Moderates the Link Between Attachment-Related Expectations and Behavioral Problems. <i>Cognitive Therapy and Research</i> , 2013 , 37, 829-839	2.7	14
86	Rumination is characterized by valence-specific impairments in switching of attention. <i>Acta Psychologica</i> , 2013 , 144, 563-70	1.7	44
85	Optimal attentional focus during exposure in specific phobia: a meta-analysis. <i>Clinical Psychology Review</i> , 2013 , 33, 1172-83	10.8	19
84	Een nieuwe methode om de slaagkans van therapie bespreekbaar te maken. <i>Psychopraktijk</i> , 2013 , 5, 14-17		1
83	The indirect effect of attention bias on memory via interpretation bias: evidence for the combined cognitive bias hypothesis in subclinical depression. <i>Cognition and Emotion</i> , 2013 , 27, 1450-9	2.3	49
82	Are attentional bias and memory bias for negative words causally related?. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013 , 44, 293-9	2.6	26
81	Aging and attentional bias for death related and general threat-related information: less avoidance in older as compared with middle-aged adults. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2013 , 68, 41-8	4.6	16
80	Rest-Related Dynamics of Risk and Protective Factors for Depression: A Behavioral Study. <i>Clinical Psychological Science</i> , 2013 , 1, 443-451	6	18
79	Improving attention control in dysphoria through cognitive training: transfer effects on working memory capacity and filtering efficiency. <i>Psychophysiology</i> , 2013 , 50, 297-307	4.1	87
78	The (neuro)cognitive mechanisms behind attention bias modification in anxiety: proposals based on theoretical accounts of attentional bias. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 119	3.3	105

77	The default mode network and recurrent depression: a neurobiological model of cognitive risk factors. <i>Neuropsychology Review</i> , 2012 , 22, 229-51	7.7	200
76	Internal cognitive control in clinical depression: general but no emotion-specific impairments. <i>Psychiatry Research</i> , 2012 , 199, 124-30	9.9	51
75	Introduction to special section on "measures of anxiety and stress: a contemporary update and review". <i>Anxiety, Stress and Coping</i> , 2012 , 25, 601-2	3.1	2
74	Cognitive control moderates the association between stress and rumination. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2012 , 43, 519-25	2.6	101
73	Limited transfer of threat bias following attentional retraining. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2012 , 43, 794-800	2.6	12
72	Rumination mediates the relationship between impaired cognitive control for emotional information and depressive symptoms: A prospective study in remitted depressed adults. <i>Behaviour Research and Therapy</i> , 2012 , 50, 292-7	5.2	118
71	The combined cognitive bias hypothesis in depression. <i>Clinical Psychology Review</i> , 2012 , 32, 413-24	10.8	186
70	Mindwandering heightens the accessibility of negative relative to positive thought. <i>Consciousness and Cognition</i> , 2012 , 21, 1517-25	2.6	35
69	Increased Attentional Control for Emotional Distractors Moderates the use of Reflective Pondering in Times of Life Stress: A Prospective Study. <i>European Journal of Personality</i> , 2012 , 26, 474-483	5.1	4
68	The effect of cognitive load in emotional attention and trait anxiety: An eye movement study. <i>Journal of Cognitive Psychology</i> , 2012 , 24, 79-91	0.9	58
67	Emotional Interference in Working Memory is Related to Rumination. <i>Cognitive Therapy and Research</i> , 2012 , 36, 348-357	2.7	57
66	Information processing, affect, and psychopathology: A Festschrift for Michael W. Eysenck. <i>Journal of Cognitive Psychology</i> , 2012 , 24, 1-5	0.9	3
65	Impaired filtering of irrelevant information in dysphoria: an ERP study. <i>Social Cognitive and Affective Neuroscience</i> , 2012 , 7, 752-63	4	34
64	Understanding depressive rumination from a cognitive science perspective: the impaired disengagement hypothesis. <i>Clinical Psychology Review</i> , 2011 , 31, 138-45	10.8	480
63	To look or not to look: an eye movement study of hypervigilance during change detection in high and low spider fearful students. <i>Emotion</i> , 2011 , 11, 666-74	4.1	22
62	Pathways to change in one-session exposure with and without cognitive intervention: an exploratory study in spider phobia. <i>Journal of Anxiety Disorders</i> , 2011 , 25, 964-71	10.9	17
61	Effects of attention training on self-reported, implicit, physiological and behavioural measures of spider fear. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2011 , 42, 211-8	2.6	37
60	Differential predictive power of self report and implicit measures on behavioural and physiological fear responses to spiders. <i>International Journal of Psychophysiology</i> , 2011 , 79, 166-74	2.9	27

59	Deficient distracter inhibition and enhanced facilitation for emotional stimuli in depression: an ERP study. <i>International Journal of Psychophysiology</i> , 2011 , 79, 249-58	2.9	21
