#	ARTICLE	IF	CITATIONS
1	Performance of peripheral catheters inserted with ultrasound guidance versus landmark technique after a simulation-based mastery learning intervention. <i>Journal of Vascular Access</i> , 2023, 24, 630-638.	0.5	5
2	Development and evaluation of a simulation-based mastery learning maintenance of certification course. <i>Gerontology and Geriatrics Education</i> , 2022, 43, 397-406.	0.6	2
3	Effect of Ventricular Assist Device Self-care Simulation-Based Mastery Learning on Driveline Exit Site Infections. <i>Journal of Cardiovascular Nursing</i> , 2022, 37, 289-295.	0.6	3
4	Ultrasound-Guided Peripheral Intravenous Catheter Insertion Training Reduces Use of Midline Catheters in Hospitalized Patients With Difficult Intravenous Access. <i>Journal of Patient Safety</i> , 2022, 18, e697-e703.	0.7	11
5	Simulation-Based Mastery Learning Improves Ultrasound-Guided Peripheral Intravenous Catheter Insertion Skills of Practicing Nurses. <i>Simulation in Healthcare</i> , 2022, 17, 7-14.	0.7	13
6	Clinical and demographic factors associated with pediatric difficult intravenous access in the operating room. <i>Paediatric Anaesthesia</i> , 2022, 32, 792-800.	0.6	9
7	Barriers and Facilitators to Central Venous Catheter Insertion: A Qualitative Study. <i>Journal of Patient Safety</i> , 2021, 17, e1296-e1306.	0.7	7
8	Difficult intravenous access in the emergency department: Performance and impact of ultrasound-guided IV insertion performed by nurses. <i>American Journal of Emergency Medicine</i> , 2021, 46, 539-544.	0.7	22
9	Improving cardiology fellow education of right heart catheterization using a simulation based curriculum. <i>Catheterization and Cardiovascular Interventions</i> , 2021, 97, 503-508.	0.7	6
10	Mortality, critical illness, and mechanical ventilation among hospitalized patients with COVID-19 on therapeutic anticoagulants. <i>Thrombosis Update</i> , 2021, 2, 100027.	0.4	6
11	Impact of Simulation-based Mastery Learning on Resident Skill Managing Mechanical Ventilators. <i>ATS Scholar</i> , 2021, 2, 34-48.	0.5	15
12	Exertional hypoxia in patients without resting hypoxia is an early predictor of moderate to severe COVID-19. <i>Internal and Emergency Medicine</i> , 2021, 16, 2097-2103.	1.0	2
13	Mastery Learning in Critical Care. <i>ATS Scholar</i> , 2021, 2, 142-143.	0.5	0
14	Simulation-Based Assessments and Graduating Neurology Residents' Milestones: Status Epilepticus Milestones. <i>Journal of Graduate Medical Education</i> , 2021, 13, 223-230.	0.6	9
15	Ethical imperative of psychological safety in healthcare: in response to the Manifesto for healthcare simulation practice. <i>BMJ Simulation and Technology Enhanced Learning</i> , 2021, 7, bmjstel-2021-000889.	0.7	0
16	Short-Term Retention of Patient and Caregiver Ventricular Assist Device Self-Care Skills After Simulation-Based Mastery Learning. <i>Clinical Simulation in Nursing</i> , 2021, 53, 1-9.	1.5	2
17	Simulation-based training improves polypectomy skills among practicing endoscopists. <i>Endoscopy International Open</i> , 2021, 09, E1633-E1639.	0.9	4
18	Effectiveness of a simulation-based mastery learning to train clinicians on a novel cricothyrotomy procedure at an academic medical centre during a pandemic: a quasi-experimental cohort study. <i>BMJ Open</i> , 2021, 11, e054746.	0.8	3

#	ARTICLE	IF	CITATIONS
19	Psychometric Validation of Central Venous Catheter Insertion Mastery Learning Checklist Data and Decisions. <i>Simulation in Healthcare</i> , 2021, 16, 378-385.	0.7	6
20	Patient, Caregiver, and Clinician Perceptions of Ventricular Assist Device Self-care Education Inform the Development of a Simulation-based Mastery Learning Curriculum. <i>Journal of Cardiovascular Nursing</i> , 2020, 35, 54-65.	0.6	5
21	Use of a simulation-based mastery learning curriculum for neurology residents to improve the identification and management of status epilepticus. <i>Epilepsy and Behavior</i> , 2020, 111, 107247.	0.9	11
22	Emergency cricothyrotomy during the COVID-19 pandemic: how to suppress aerosolization. <i>Trauma Surgery and Acute Care Open</i> , 2020, 5, e000542.	0.8	4
23	Use of a simulation-based mastery learning curriculum to improve ultrasound-guided vascular access skills of pediatric anesthesiologists. <i>Paediatric Anaesthesia</i> , 2020, 30, 1204-1210.	0.6	12
24	Preliminary Efficacy of a Brief Mindfulness Intervention for Procedural Stress in Medical Intern Simulated Performance: A Randomized Controlled Pilot Trial. <i>Journal of Alternative and Complementary Medicine</i> , 2020, 26, 282-290.	2.1	8
25	Clinical Education: Origins and Outcomes. <i>Comprehensive Healthcare Simulation</i> , 2020, , 3-24.	0.2	3
26	Mastery Learning of Bedside Procedural Skills. <i>Comprehensive Healthcare Simulation</i> , 2020, , 225-257.	0.2	2
27	Translational Science and Healthcare Quality and Safety Improvement from Mastery Learning. <i>Comprehensive Healthcare Simulation</i> , 2020, , 289-307.	0.2	4
28	Developing a Mastery Learning Curriculum. <i>Comprehensive Healthcare Simulation</i> , 2020, , 47-69.	0.2	0
29	Standard Setting for Mastery Learning. <i>Comprehensive Healthcare Simulation</i> , 2020, , 109-122.	0.2	1
30	Implementing and Managing a Mastery Learning Program. <i>Comprehensive Healthcare Simulation</i> , 2020, , 123-137.	0.2	0
31	Mastery Learning: Opportunities and Challenges. <i>Comprehensive Healthcare Simulation</i> , 2020, , 375-389.	0.2	1
32	Return on Investment from Simulation-Based Mastery Learning. <i>Comprehensive Healthcare Simulation</i> , 2020, , 351-362.	0.2	1
33	Ventricular Assist Device Driveline Dressing-Change Protocols: A Need for Standardization. A Report from the SimVAD Investigators. <i>Journal of Cardiac Failure</i> , 2019, 25, 695-697.	0.7	7
34	Simulation-Based Mastery Learning Improves Patient and Caregiver Ventricular Assist Device Self-Care Skills. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2019, 12, e005794.	0.9	21
35	Development of a Simulation-Based Mastery Learning Curriculum for Breaking Bad News. <i>Journal of Pain and Symptom Management</i> , 2019, 57, 682-687.	0.6	35
36	The Effect of Judge Selection on Standard Setting Using the Mastery Angoff Method during Development of a Ventricular Assist Device Self-Care Curriculum. <i>Clinical Simulation in Nursing</i> , 2019, 27, 39-47.e4.	1.5	8

#	ARTICLE	IF	CITATIONS
37	A Comparison of Approaches for Mastery Learning Standard Setting. <i>Academic Medicine</i> , 2018, 93, 1079-1084.	0.8	35
38	Simulation-Based Mastery Learning for Thoracentesis Skills Improves Patient Outcomes: A Randomized Trial. <i>Academic Medicine</i> , 2018, 93, 729-735.	0.8	91
39	Single-stage laparoscopic management of choledocholithiasis: An analysis after implementation of a mastery learning resident curriculum. <i>Surgery</i> , 2018, 163, 503-508.	1.0	42
40	In Reply to Kendall and Castro-Alves. <i>Academic Medicine</i> , 2018, 93, 1420-1421.	0.8	0
41	Building Partnerships to Improve Learning From Health Care Simulation. <i>Academic Medicine</i> , 2018, 93, 672-673.	0.8	0
42	Effect of Trainee Performance Data on Standard-Setting Judgments Using the Mastery Angoff Method. <i>Journal of Graduate Medical Education</i> , 2018, 10, 301-305.	0.6	4
43	Vascular Ultrasonography: A Novel Method to Reduce Paracentesis Related Major Bleeding. <i>Journal of Hospital Medicine</i> , 2018, 13, 30-33.	0.7	3
44	Telling the whole story about simulation-based education. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2017, 96, 1273-1273.	1.3	2
45	An institution-wide approach to submission, review, and funding of simulation-based curricula. <i>Advances in Simulation</i> , 2017, 2, 9.	1.0	3
46	The promise and challenge of mastery learning. <i>Advances in Medical Education and Practice</i> , 2017, Volume 8, 393-394.	0.7	11
47	Residents' Procedural Experience Does Not Ensure Competence: A Research Synthesis. <i>Journal of Graduate Medical Education</i> , 2017, 9, 201-208.	0.6	92
48	Safe and Effective Bedside Thoracentesis: A Review of the Evidence for Practicing Clinicians. <i>Journal of Hospital Medicine</i> , 2017, 12, 266-276.	0.7	12
49	The effect of simulation-based mastery learning on thoracentesis referral patterns. <i>Journal of Hospital Medicine</i> , 2016, 11, 792-795.	0.7	23
50	In Reply to Udani et al. <i>Academic Medicine</i> , 2016, 91, 752-753.	0.8	0
51	Factors Associated with Inpatient Thoracentesis Procedure Quality at University Hospitals. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2016, 42, 34-AP2.	0.4	10
52	Complications of thoracentesis. <i>Current Opinion in Pulmonary Medicine</i> , 2016, 22, 378-385.	1.2	84
53	Achieving Procedural Competence during Nephrology Fellowship Training: Current Requirements and Educational Research. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2016, 11, 2244-2249.	2.2	15
54	Attending Physician Adherence to a 29-Component Central Venous Catheter Bundle Checklist During Simulated Procedures*. <i>Critical Care Medicine</i> , 2016, 44, 1871-1881.	0.4	59

#	ARTICLE	IF	CITATIONS
55	Developing a Simulation-Based Mastery Learning Curriculum. <i>Simulation in Healthcare</i> , 2016, 11, 52-59.	0.7	49
56	Use of 3D Printing for Medical Education Models in Transplantation Medicine: a Critical Review. <i>Current Transplantation Reports</i> , 2016, 3, 109-119.	0.9	34
57	Recommendations for Reporting Mastery Education Research in Medicine (ReMERM). <i>Academic Medicine</i> , 2015, 90, 1509-1514.	0.8	30
58	Simulation-Based Mastery Learning Improves Central Line Maintenance Skills of ICU Nurses. <i>Journal of Nursing Administration</i> , 2015, 45, 511-517.	0.7	57
59	A Missed Opportunity to Achieve Excellence in Residency Education. <i>Academic Medicine</i> , 2015, 90, 1181.	0.8	0
60	Mastery Learning With Deliberate Practice in Medical Education. <i>Academic Medicine</i> , 2015, 90, 1575.	0.8	40
61	Dissemination of an Innovative Mastery Learning Curriculum Grounded in Implementation Science Principles. <i>Academic Medicine</i> , 2015, 90, 1487-1494.	0.8	26
62	Thoracentesis outcomes: a 12-year experience. <i>Thorax</i> , 2015, 70, 127-132.	2.7	118
63	Performance of Temporary Hemodialysis Catheter Insertion by Nephrology Fellows and Attending Nephrologists. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2015, 10, 1767-1772.	2.2	40
64	Use of a National Continuing Medical Education Meeting to Provide Simulation-Based Training in Temporary Hemodialysis Catheter Insertion Skills: A Pre-Test Post-Test Study. <i>Canadian Journal of Kidney Health and Disease</i> , 2014, 1, 25.	0.6	20
65	A critical review of simulation-based mastery learning with translational outcomes. <i>Medical Education</i> , 2014, 48, 375-385.	1.1	430
66	Dissemination of a simulation-based mastery learning intervention reduces central line-associated bloodstream infections. <i>BMJ Quality and Safety</i> , 2014, 23, 749-756.	1.8	149
67	Progress Toward Improving Medical School Graduates' Skills via a "Boot Camp" Curriculum. <i>Simulation in Healthcare</i> , 2014, 9, 33-39.	0.7	47
68	Specialties performing paracentesis procedures at university hospitals: Implications for training and certification. <i>Journal of Hospital Medicine</i> , 2014, 9, 162-168.	0.7	19
69	Cost Savings of Performing Paracentesis Procedures at the Bedside After Simulation-based Education. <i>Simulation in Healthcare</i> , 2014, 9, 312-318.	0.7	48
70	Temporary hemodialysis catheters: recent advances. <i>Kidney International</i> , 2014, 86, 888-895.	2.6	47
71	Are we providing patient-centered care? Preferences about paracentesis and thoracentesis procedures. <i>Patient Experience Journal</i> , 2014, 1, 94-103.	0.3	4
72	Raising the Bar: Reassessing Standards for Procedural Competence. <i>Teaching and Learning in Medicine</i> , 2013, 25, 6-9.	1.3	28

#	ARTICLE	IF	CITATIONS
73	A Diuretic Protocol Increases Volume Removal and Reduces Readmissions Among Hospitalized Patients With Acute Decompensated Heart Failure. <i>Congestive Heart Failure</i> , 2013, 19, 53-60.	2.0	21
74	Clinical Outcomes after Bedside and Interventional Radiology Paracentesis Procedures. <i>American Journal of Medicine</i> , 2013, 126, 349-356.	0.6	77
75	Board 420 - Research Abstract Effect of Simulation-Based Mastery Learning on Thoracentesis Procedural Skills and Clinical Outcomes (Submission #222). <i>Simulation in Healthcare</i> , 2013, 8, 591.	0.7	1
76	Making July Safer. <i>Academic Medicine</i> , 2013, 88, 233-239.	0.8	152
77	Why Medical Educators Should Continue to Focus on Clinical Outcomes. <i>Academic Medicine</i> , 2013, 88, 1403.	0.8	1
78	Translational Educational Research. <i>Chest</i> , 2012, 142, 1097-1103.	0.4	77
79	Rational Medical Testing. <i>Hospital Medicine Clinics</i> , 2012, 1, e416-e426.	0.2	1
80	Clinical Performance and Skill Retention after Simulation-Based Education for Nephrology Fellows. <i>Seminars in Dialysis</i> , 2012, 25, 470-473.	0.7	72
81	Simulation-Based Education with Mastery Learning Improves Paracentesis Skills. <i>Journal of Graduate Medical Education</i> , 2012, 4, 23-27.	0.6	121
82	Appropriate diuretic dosing: Closed loop communication. <i>Journal of Hospital Medicine</i> , 2012, 7, 167-169.	0.7	1
83	Simulation-based education with mastery learning improves residents' lumbar puncture skills. <i>Neurology</i> , 2012, 79, 132-137.	1.5	211
84	Progress Toward Improving the Quality of Cardiac Arrest Medical Team Responses at an Academic Teaching Hospital. <i>Journal of Graduate Medical Education</i> , 2011, 3, 211-216.	0.6	41
85	Does Simulation-Based Medical Education With Deliberate Practice Yield Better Results Than Traditional Clinical Education? A Meta-Analytic Comparative Review of the Evidence. <i>Academic Medicine</i> , 2011, 86, 706-711.	0.8	1,273
86	Process Changes to Increase Compliance With the Universal Protocol for Bedside Procedures. <i>Archives of Internal Medicine</i> , 2011, 171, 941.	4.3	4
87	“Making a list and checking it twice”. <i>Journal of Hospital Medicine</i> , 2011, 6, 233-237.	0.7	1
88	Unexpected Collateral Effects of Simulation-Based Medical Education. <i>Academic Medicine</i> , 2011, 86, 1513-1517.	0.8	54
89	Medical Education Featuring Mastery Learning With Deliberate Practice Can Lead to Better Health for Individuals and Populations. <i>Academic Medicine</i> , 2011, 86, e8-e9.	0.8	150
90	Preclinical credentialing of internal medicine residents for central line placement. <i>Critical Care Medicine</i> , 2010, 38, 1018.	0.4	0

#	ARTICLE	IF	CITATIONS
91	Long-Term Retention of Central Venous Catheter Insertion Skills After Simulation-Based Mastery Learning. <i>Academic Medicine</i> , 2010, 85, S9-S12.	0.8	188
92	Procedures Performed by the Hospitalist and Non-hospitalist. <i>Journal of General Internal Medicine</i> , 2010, 25, 896-896.	1.3	0
93	Cost Savings From Reduced Catheter-Related Bloodstream Infection After Simulation-Based Education for Residents in a Medical Intensive Care Unit. <i>Simulation in Healthcare</i> , 2010, 5, 98-102.	0.7	311
94	Assessing and grading congestion in acute heart failure: a scientific statement from the Acute Heart Failure Committee of the Heart Failure Association of the European Society of Cardiology and endorsed by the European Society of Intensive Care Medicine. <i>European Journal of Heart Failure</i> , 2010, 12, 423-433.	2.9	593
95	Use of Simulation-Based Education to Reduce Catheter-Related Bloodstream Infections. <i>Archives of Internal Medicine</i> , 2009, 169, 1420.	4.3	461
96	Mastery Learning of Temporary Hemodialysis Catheter Insertion by Nephrology Fellows Using Simulation Technology and Deliberate Practice. <i>American Journal of Kidney Diseases</i> , 2009, 54, 70-76.	2.1	133
97	Use of simulation-based mastery learning to improve the quality of central venous catheter placement in a medical intensive care unit. <i>Journal of Hospital Medicine</i> , 2009, 4, 397-403.	0.7	349
98	Simulation-based mastery learning reduces complications during central venous catheter insertion in a medical intensive care unit*. <i>Critical Care Medicine</i> , 2009, 37, 2697-2701.	0.4	257
99	Simulation-based mastery learning reduces complications during central venous catheter insertion in a medical intensive care unit *. <i>Critical Care Medicine</i> , 2009, 37, 2697-2701.	0.4	445
100	Simulation-based mastery learning reduces complications during central venous catheter insertion in a medical intensive care unit. <i>Critical Care Medicine</i> , 2009, 37, 2697-701.	0.4	285
101	Mastery learning of thoracentesis skills by internal medicine residents using simulation technology and deliberate practice. <i>Journal of Hospital Medicine</i> , 2008, 3, 48-54.	0.7	246
102	Simulation-Based Education Improves Quality of Care During Cardiac Arrest Team Responses at an Academic Teaching Hospital. <i>Chest</i> , 2008, 133, 56-61.	0.4	619
103	Do Baseline Data Influence Standard Setting for a Clinical Skills Examination?. <i>Academic Medicine</i> , 2007, 82, S105-S108.	0.8	36
104	Procedural training at a crossroads: Striking a balance between education, patient safety, and quality. <i>Journal of Hospital Medicine</i> , 2007, 2, 123-125.	0.7	12
