

# Renata Szemerszky

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/7623928/renata-szemerszky-publications-by-citations.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
26	Polluted places or polluted minds? An experimental sham-exposure study on background psychological factors of symptom formation in idiopathic Environmental Intolerance attributed to electromagnetic fields. <i>International Journal of Hygiene and Environmental Health</i> , <b>2010</b> , 213, 387-94	6.9	67
25	Stress-related endocrinological and psychopathological effects of short- and long-term 50Hz electromagnetic field exposure in rats. <i>Brain Research Bulletin</i> , <b>2010</b> , 81, 92-9	3.9	51
24	Somatosensory amplification as a possible source of subjective symptoms behind modern health worries. <i>Scandinavian Journal of Psychology</i> , <b>2011</b> , 52, 174-8	2.2	40
23	Changes in synaptic efficacy in rat brain slices following extremely low-frequency magnetic field exposure at embryonic and early postnatal age. <i>International Journal of Developmental Neuroscience</i> , <b>2013</b> , 31, 724-30	2.7	38
22	Validation of the Hungarian version of the Somatosensory Amplification Scale (SSAS). <i>Mentalhigiene Es Pszichoszomatika</i> , <b>2009</b> , 10, 321-335	0.2	27
21	Idiopathic environmental intolerance attributed to electromagnetic fields (IEI-EMF) and electrosensitivity (ES) - are they connected?. <i>International Journal of Hygiene and Environmental Health</i> , <b>2013</b> , 216, 362-70	6.9	25
20	Changes in synaptic efficacy and seizure susceptibility in rat brain slices following extremely low-frequency electromagnetic field exposure. <i>Bioelectromagnetics</i> , <b>2009</b> , 30, 631-40	1.6	23
19	Is There a Connection Between Electrosensitivity and Electrosensibility? A Replication Study. <i>International Journal of Behavioral Medicine</i> , <b>2015</b> , 22, 755-63	2.6	18
18	Attribution-Based Nocebo Effects. Perceived Effects of a Placebo Pill and a Sham Magnetic Field on Cognitive Performance and Somatic Symptoms. <i>International Journal of Behavioral Medicine</i> , <b>2016</b> , 23, 204-13	2.6	14
17	Subjective and objective effects of coffee consumption - caffeine or expectations?. <i>Acta Physiologica Hungarica</i> , <b>2015</b> , 102, 77-85		14
16	Modern health worries - the dark side of spirituality?. <i>Scandinavian Journal of Psychology</i> , <b>2016</b> , 57, 313-20		14
15	Effect of short-term 50 Hz electromagnetic field exposure on the behavior of rats. <i>Acta Physiologica Hungarica</i> , <b>2009</b> , 96, 437-48		13
14	Non-specific symptoms attributed to environmental electromagnetic load and the psychological background of symptom production. <i>Magyar Pszichologiai Szemle</i> , <b>2009</b> , 64, 553-571	0	11
13	Accuracy of reproduction of physical training load is not associated with resting heartbeat perception in healthy individuals. <i>Biological Psychology</i> , <b>2020</b> , 150, 107831	3.2	11
12	Cardioceptive accuracy is associated with arousal but not with valence and perceived exertion under physical load. <i>Psychophysiology</i> , <b>2020</b> , 57, e13620	4.1	11
11	No effects of rosemary and lavender essential oil and a placebo pill on sustained attention, alertness, and heart rate. <i>Flavour and Fragrance Journal</i> , <b>2017</b> , 32, 305-311	2.5	10
10	Nature relatedness is connected with modern health worries and electromagnetic hypersensitivity. <i>Journal of Health Psychology</i> , <b>2019</b> , 24, 1756-1764	3.1	9

9	Inhaled peppermint, rosemary and eucalyptus essential oils do not change spirometry in healthy individuals. <i>Physiology and Behavior</i> , <b>2018</b> , 194, 319-323	3.5	8
8	One Single Question Is not Sufficient to Identify Individuals With Electromagnetic Hypersensitivity. <i>Clinical Psychology in Europe</i> , <b>2019</b> , 1,	2.5	7
7	No evidence for interactions between modern health worries, negative affect, and somatic symptom distress in general populations. <i>Psychology and Health</i> , <b>2021</b> , 36, 1384-1396	2.9	1
6	Polar OwnIndex is not a reliable indicator of aerobic training status. <i>Acta Physiologica Hungarica</i> , <b>2015</b> , 102, 419-27		1
5	Modern health worries and idiopathic environmental intolerance attributed to electromagnetic fields are associated with paranoid ideation. <i>Journal of Psychosomatic Research</i> , <b>2021</b> , 146, 110501	4.1	1
4	No effect of a pulsed magnetic field on induced ischemic muscle pain. A double-blind, randomized, placebo-controlled trial. <i>Physiology and Behavior</i> , <b>2018</b> , 184, 55-59	3.5	1
3	Psychological models of development of idiopathic environmental intolerances: Evidence from longitudinal population-based data. <i>Environmental Research</i> , <b>2022</b> , 204, 111774	7.9	0
2	Electromagnetic hypersensitivity in the light of empirical results. <i>Mentalhigiene Es Pszichoszomatika</i> , <b>2011</b> , 12, 327-351	0.2	
1	An idiographic approach to Idiopathic Environmental Intolerance attributed to Electromagnetic Fields (IEI-EMF) Part II. Ecological momentary assessment of three individuals with severe IEI-EMF. <i>Heliyon</i> , <b>2022</b> , e09421	3.6
