

Renata Szemerszky

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7623928/renata-szemerszky-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
26	Psychological models of development of idiopathic environmental intolerances: Evidence from longitudinal population-based data. <i>Environmental Research</i> , 2022 , 204, 111774	7.9	0
25	An idiographic approach to Idiopathic Environmental Intolerance attributed to Electromagnetic Fields (IEI-EMF) Part II. Ecological momentary assessment of three individuals with severe IEI-EMF. <i>Heliyon</i> , 2022 , e09421	3.6	
24	No evidence for interactions between modern health worries, negative affect, and somatic symptom distress in general populations. <i>Psychology and Health</i> , 2021 , 36, 1384-1396	2.9	1
23	Modern health worries and idiopathic environmental intolerance attributed to electromagnetic fields are associated with paranoid ideation. <i>Journal of Psychosomatic Research</i> , 2021 , 146, 110501	4.1	1
22	Accuracy of reproduction of physical training load is not associated with resting heartbeat perception in healthy individuals. <i>Biological Psychology</i> , 2020 , 150, 107831	3.2	11
21	Cardioceptive accuracy is associated with arousal but not with valence and perceived exertion under physical load. <i>Psychophysiology</i> , 2020 , 57, e13620	4.1	11
20	One Single Question Is not Sufficient to Identify Individuals With Electromagnetic Hypersensitivity. <i>Clinical Psychology in Europe</i> , 2019 , 1,	2.5	7
19	Nature relatedness is connected with modern health worries and electromagnetic hypersensitivity. <i>Journal of Health Psychology</i> , 2019 , 24, 1756-1764	3.1	9
18	Inhaled peppermint, rosemary and eucalyptus essential oils do not change spirometry in healthy individuals. <i>Physiology and Behavior</i> , 2018 , 194, 319-323	3.5	8
17	No effect of a pulsed magnetic field on induced ischemic muscle pain. A double-blind, randomized, placebo-controlled trial. <i>Physiology and Behavior</i> , 2018 , 184, 55-59	3.5	1
16	No effects of rosemary and lavender essential oil and a placebo pill on sustained attention, alertness, and heart rate. <i>Flavour and Fragrance Journal</i> , 2017 , 32, 305-311	2.5	10
15	Attribution-Based Nocebo Effects. Perceived Effects of a Placebo Pill and a Sham Magnetic Field on Cognitive Performance and Somatic Symptoms. <i>International Journal of Behavioral Medicine</i> , 2016 , 23, 204-13	2.6	14
14	Modern health worries - the dark side of spirituality?. <i>Scandinavian Journal of Psychology</i> , 2016 , 57, 313-202		14
13	Is There a Connection Between Electrosensitivity and Electrosensibility? A Replication Study. <i>International Journal of Behavioral Medicine</i> , 2015 , 22, 755-63	2.6	18
12	Subjective and objective effects of coffee consumption - caffeine or expectations?. <i>Acta Physiologica Hungarica</i> , 2015 , 102, 77-85		14
11	Polar OwnIndex is not a reliable indicator of aerobic training status. <i>Acta Physiologica Hungarica</i> , 2015 , 102, 419-27		1
10	Changes in synaptic efficacy in rat brain slices following extremely low-frequency magnetic field exposure at embryonic and early postnatal age. <i>International Journal of Developmental Neuroscience</i> , 2013 , 31, 724-30	2.7	38

9	Idiopathic environmental intolerance attributed to electromagnetic fields (IEI-EMF) and electrosensitivity (ES) - are they connected?. <i>International Journal of Hygiene and Environmental Health</i> , 2013 , 216, 362-70	6.9	25
8	Somatosensory amplification as a possible source of subjective symptoms behind modern health worries. <i>Scandinavian Journal of Psychology</i> , 2011 , 52, 174-8	2.2	40
7	Electromagnetic hypersensitivity in the light of empirical results. <i>Mentalhigiene Es Pszichoszomatika</i> , 2011 , 12, 327-351	0.2	
6	Stress-related endocrinological and psychopathological effects of short- and long-term 50Hz electromagnetic field exposure in rats. <i>Brain Research Bulletin</i> , 2010 , 81, 92-9	3.9	51
5	Polluted places or polluted minds? An experimental sham-exposure study on background psychological factors of symptom formation in idiopathic Environmental Intolerance attributed to electromagnetic fields. <i>International Journal of Hygiene and Environmental Health</i> , 2010 , 213, 387-94	6.9	67
4	Changes in synaptic efficacy and seizure susceptibility in rat brain slices following extremely low-frequency electromagnetic field exposure. <i>Bioelectromagnetics</i> , 2009 , 30, 631-40	1.6	23
3	Effect of short-term 50 Hz electromagnetic field exposure on the behavior of rats. <i>Acta Physiologica Hungarica</i> , 2009 , 96, 437-48		13
2	Validation of the Hungarian version of the Somatosensory Amplification Scale (SSAS). <i>Mentalhigiene Es Pszichoszomatika</i> , 2009 , 10, 321-335	0.2	27
1	Non-specific symptoms attributed to environmental electromagnetic load and the psychological background of symptom production. <i>Magyar Pszichologiai Szemle</i> , 2009 , 64, 553-571	0	11
