#	ARTICLE	IF	CITATIONS
1	Intraclass correlation â€œ A discussion and demonstration of basic features. PLoS ONE, 2019, 14, e0219854.	2.5	375
2	High incidence of falls and fall-related injuries in wheelchair users with spinal cord injury: A prospective study of risk indicators. Journal of Rehabilitation Medicine, 2017, 49, 144-151.	1.1	44
3	Factors Associated With Recurrent Falls in Individuals With Traumatic Spinal Cord Injury: A Multicenter Study. Archives of Physical Medicine and Rehabilitation, 2016, 97, 1908-1916.	0.9	40
4	Comparison of the Berg Balance Scale and the Mini-BESTest for Assessing Balance in Ambulatory People With Spinal Cord Injury: Validation Study. Physical Therapy, 2017, 97, 677-687.	2.4	39
5	Cognitive Performance in Multiple Trauma Patients 3 Years After Injury. Psychosomatic Medicine, 1999, 61, 576-583.	2.0	35
6	Functional ability in female leg ulcer patients â€œ a challenge for physiotherapy. Physiotherapy Research International, 2006, 11, 191-203.	1.5	32
7	Physical activity in patients with venous leg ulcer â€œ between engagement and avoidance. A patient perspective. Clinical Rehabilitation, 2011, 25, 275-286.	2.2	31
8	Fearâ€œavoidance beliefs and pain as predictors for low physical activity in patients with leg ulcer. Physiotherapy Research International, 2009, 14, 167-180.	1.5	29
9	Negotiating identity and self-image: perceptions of falls in ambulatory individuals with spinal cord injury â€œ a qualitative study. Clinical Rehabilitation, 2017, 31, 544-554.	2.2	25
10	â€œPushing the Limitsâ€œ: Rethinking Motor and Cognitive Resources After a Highly Challenging Balance Training Program for Parkinson Disease. Physical Therapy, 2017, 97, 81-89.	2.4	20
11	Task-specific balance training improves self-assessed function in community-dwelling older adults with balance deficits and fear of falling: a randomized controlled trial. Clinical Rehabilitation, 2014, 28, 1189-1197.	2.2	17
12	Self-reported function and disability in late life â€œ cross-cultural adaptation and validation of the Swedish version of the late-life function and disability instrument. Disability and Rehabilitation, 2014, 36, 813-817.	1.8	17
13	Bridging the gap between research-based knowledge and clinical practice: a qualitative examination of patients and physiotherapistsâ€™ views on the Otago exercise Programme. BMC Geriatrics, 2019, 19, 278.	2.7	15
14	â€œYou Have to Keep Moving, Be Activeâ€œ: Perceptions and Experiences of Habitual Physical Activity in Older Women With Osteoporosis. Physical Therapy, 2016, 96, 361-370.	2.4	13
15	Predictors of falls in persons with spinal cord injuryâ€œ a prospective study using the Downton fall risk index and a single question of previous falls. Spinal Cord, 2019, 57, 91-99.	1.9	11
16	â€œFear of falling serves as protection and signifies potential dangerâ€œ: a qualitative study to conceptualise the phrase â€œfear of fallingâ€œ in women with osteoporosis. Osteoporosis International, 2021, 32, 2563-2570.	3.1	10
17	â€œBetter safe than sorryâ€œ: a qualitative content analysis of participant's perspectives of fall-related concerns and balance in older women with osteoporosis after balance training. Disability and Rehabilitation, 2016, 38, 796-802.	1.8	9
18	Otago exercise programmeâ€œ from evidence to practice: a qualitative study of physiotherapistsâ€™ perceptions of the importance of organisational factors of leadership, context and culture for knowledge translation in Norway. BMC Health Services Research, 2020, 20, 985.	2.2	9

#	ARTICLE	IF	CITATIONS
19	Test-retest reliability at the item level and total score level of the Norwegian version of the Spinal Cord Injury Falls Concern Scale (SCI-FCS). <i>Journal of Spinal Cord Medicine</i> , 2016, 39, 317-326.	1.4	8
20	Controlling the Uncontrollable: Perceptions of Balance in People With Parkinson Disease. <i>Physical Therapy</i> , 2019, 99, 1501-1510.	2.4	8
21	Physiotherapistsâ€™ perceptions of challenges facing evidence-based practice and the importance of environmental empowerment in fall prevention in the municipality â€“ a qualitative study. <i>BMC Geriatrics</i> , 2020, 20, 432.	2.7	7
22	â€œStay balancedâ€ effectiveness of evidence-based balance training for older adults transferred into a physical therapy primary care setting â€“ a pilot study. <i>Disability and Rehabilitation</i> , 2020, 42, 1797-1802.	1.8	4
23	Reflections of older people about their experience of fall prevention exercise in the community- a qualitative study exploring evidence-based practice. <i>BMC Public Health</i> , 2020, 20, 1671.	2.9	4
24	Perceptions of balance and falls following a supervised training intervention â€“ a qualitative study of people with Parkinsonâ€™s disease. <i>Disability and Rehabilitation</i> , 2019, 41, 934-940.	1.8	3
25	Clinical supervisorsâ€™ experience of giving feedback to students during clinical integrated learning. <i>Physiotherapy Theory and Practice</i> , 2022, 38, 122-131.	1.3	3
26	Pediatric spinal cord injury rehabilitation: A protocol for an international multicenter project (SINpedSCI). <i>Journal of Pediatric Rehabilitation Medicine</i> , 2022, 15, 395-403.	0.5	3
27	Carboxy terminal collagen crosslinks as a prognostic risk factor for fall-related fractures in individuals with established spinal cord injury. <i>Spinal Cord</i> , 2019, 57, 985-991.	1.9	2
28	Patient-specific functioning related to dizziness and balance problems after traumatic brain injury â€“ A cross sectional study using an ICF perspective. <i>Cogent Medicine</i> , 2021, 8, .	0.7	2
29	â€œA manageable and challenging fall prevention intervention with impact on societyâ€- older womenâ€™s perspectives on participation in the stayBalanced training programme. <i>Physiotherapy Theory and Practice</i> , 2022, 38, 2806-2816.	1.3	1
30	Organisation of services and systems of care in paediatric spinal cord injury rehabilitation in seven countries: a survey with a descriptive cross-sectional design. <i>Spinal Cord</i> , 2022, 60, 339-347.	1.9	1
