#	ARTICLE	IF	CITATIONS
1	Continuous postoperative analgesia via quadratus lumborum block – an alternative to transversus abdominis plane block. Paediatric Anaesthesia, 2013, 23, 959-961.	0.6	83
2	Ryanodine Receptor Type 1 Gene Variants in the Malignant Hyperthermia-Susceptible Population of the United States. Anesthesia and Analgesia, 2013, 116, 1078-1086.	1.1	60
3	Anesthetic Drugs and Onset of Malignant Hyperthermia. Anesthesia and Analgesia, 2014, 118, 388-396.	1.1	60
4	Ultrasound-guided approach to the paravertebral space for catheter insertion in infants and children. Paediatric Anaesthesia, 2013, 23, 1193-1198.	0.6	46
5	The effectiveness of ambulatory continuous peripheral nerve blocks for postoperative pain management in children and adolescents. Paediatric Anaesthesia, 2014, 24, 1141-1148.	0.6	31
6	Ultrasound-guided bilateral paravertebral continuous nerve blocks for a mildly coagulopathic patient undergoing exploratory laparotomy for bowel resection. Paediatric Anaesthesia, 2011, 21, 459-462.	0.6	29
7	Bilateral Paravertebral Blockade (T7-10) Versus Incisional Local Anesthetic Administration for Pediatric Laparoscopic Cholecystectomy. Anesthesia and Analgesia, 2015, 120, 1106-1113.	1.1	28
8	Postoperative analgesia via transversus abdominis plane (TAP) catheter for small weight children – our initial experience. Paediatric Anaesthesia, 2012, 22, 281-284.	0.6	27
9	Quadratus lumborum blocks: Two cases of associated hematoma. Paediatric Anaesthesia, 2019, 29, 286-288.	0.6	26
10	ERAS protocol for pediatric laparoscopic cholecystectomy promotes safe and early discharge. Journal of Pediatric Surgery, 2020, 55, 96-100.	0.8	22
11	Outpatient analgesia via paravertebral peripheral nerve block catheter and pump – a case series. Paediatric Anaesthesia, 2014, 24, 875-878.	0.6	13
12	Paediatric regional anaesthesia. Current Opinion in Anaesthesiology, 2015, 28, 577-582.	0.9	12
13	Thoracoscopic visualization of medication during erector spinae plane blockade. Journal of Clinical Anesthesia, 2019, 57, 113-114.	0.7	8
14	Randomized Population Pharmacokinetic Analysis and Safety of Intravenous Acetaminophen for Acute Postoperative Pain in Neonates and Infants. Journal of Clinical Pharmacology, 2020, 60, 16-27.	1.0	8
15	Development of a novel technique for bilateral rectus sheath nerve blocks under laparoscopic-guidance. Journal of Pediatric Surgery, 2017, 52, 966-969.	0.8	7
16	Paravertebral Nerve Block for Donor Site Pain in Stage I Microtia Reconstruction. Otolaryngology - Head and Neck Surgery, 2016, 154, 898-901.	1.1	6
17	25 years of experience, thousands of caudal blocks, and no dural puncture. What happened today?. Paediatric Anaesthesia, 2012, 22, 304-305.	0.6	5
18	Laparoscopic-guided abdominal wall nerve blocks in the pediatric population: a novel technique with comparison to ultrasound-guided blocks and local wound infiltration alone. Surgery, 2018, 163, 622-626.	1.0	5

#	ARTICLE	IF	CITATIONS
19	Thoracoscopic and Ultrasound Guidance for Optimization of Medication Spread during Thoracic Paravertebral Nerve Blockade. <i>Anesthesiology</i> , 2018, 129, 1167-1168.	1.3	5
20	Repeated Intercostal Nerve Blocks With Liposomal Bupivacaine for Chronic Chest Pain: A Case Report. <i>A&A Practice</i> , 2019, 13, 260-263.	0.2	5
21	Single injection ultrasound-guided rectus sheath blocks for children: Distribution of injected anesthetic. <i>Paediatric Anaesthesia</i> , 2019, 29, 280-285.	0.6	4
22	The addition of clonidine to ropivacaine in rectus sheath nerve blocks for pediatric patients undergoing laparoscopic appendectomy: A double blinded randomized prospective study. <i>Journal of Clinical Anesthesia</i> , 2021, 71, 110254.	0.7	4
23	Postoperative pain management for tracheoesophageal fistula repair using transverse, in-plane, ultrasound guided paravertebral technique in a 2-kg neonate. <i>Journal of Clinical Anesthesia</i> , 2018, 50, 57-58.	0.7	3
24	Pain outcomes following mastectomy or bilateral breast reduction for transgender and nontransgender patients who received pectoralis nerve blocks. <i>Paediatric Anaesthesia</i> , 2020, 30, 1049-1050.	0.6	3
25	Erector spinae plane continuous blocks for pediatric liver transplantation. <i>Regional Anesthesia and Pain Medicine</i> , 2020, 45, 321.1-321.	1.1	3
26	Sonographic documentation of dislodged paravertebral catheter into the epidural space in a young infant. <i>Paediatric Anaesthesia</i> , 2019, 29, 211-212.	0.6	2
27	Lumbar arteries lurking around quadratus lumborum muscle: A cautionary tale. <i>Journal of Clinical Anesthesia</i> , 2021, 72, 110266.	0.7	2
28	Continuous ultrasound-guided sacral intervertebral block for postoperative analgesia in neonates. <i>Paediatric Anaesthesia</i> , 2022, 32, 82-84.	0.6	2
29	Sciatic nerve neuropraxia following embolization therapy in a patient receiving quadratus lumborum nerve block. <i>Journal of Clinical Anesthesia</i> , 2021, , 110601.	0.7	2
30	Ultrasound-guided serratus anterior plane block for effective pain control after resection of large chest wall vascular malformation in a child with Phosphatase and Tensin (<sc>PTEN</sc>) hamartoma tumor syndrome. <i>Paediatric Anaesthesia</i> , 2018, 28, 931-933.	0.6	1
31	Truncal blocks and teenager postoperative pain perception after laparoscopic surgical procedures. <i>Pain Reports</i> , 2019, 4, e763.	1.4	1
32	Re: Ultrasound-guided bilateral rectus sheath block with and without dexmedetomidine in pediatric umbilical hernia repairs: a retrospective interrupted time series analysis. <i>Regional Anesthesia and Pain Medicine</i> , 2021, 46, rapm-2020-102086.	1.1	1
33	Quadratus lumborum blocks for abdominal transplant surgeries at UPMC Children's Hospital of Pittsburgh—a five year experience. <i>Pediatric Transplantation</i> , 2022, 26, e14296.	0.5	1
34	Usefulness of beta-2-transferrin to detect an unforeseen complication following paravertebral nerve block. <i>Journal of Clinical Anesthesia</i> , 2014, 26, 336-338.	0.7	0
35	Regional Blocks for Postoperative Pain Control. , 2016, , 265-275.		0
36	In Response. <i>A&A Practice</i> , 2020, 14, 68-68.	0.2	0

#	ARTICLE	IF	CITATIONS
37	Management of a broken thoracic paravertebral catheter in a pediatric patient. Journal of Clinical Anesthesia, 2021, 73, 110361.	0.7	0
38	Continuous Paravertebral Nerve Blockade for Postoperative Analgesia after Video-Assisted Thoracoscopic Surgery and Chemical Pleurodesis in Children-A Case Series. Journal of Anesthesia & Critical Care: Open Access, 2014, 1, .	0.1	0
39	Where is the Catheter? An Unexpected Complication from a Paravertebral Catheter Placement. Journal of Anesthesia & Critical Care: Open Access, 2014, 1, .	0.1	0
