| # | ARTICLE | IF | CITATIONS |
|----|--|------|-----------|
| 1 | Comparative study of the PD-L1 status between surgically resected specimens and matched biopsies of NSCLC patients reveal major discordances: a potential issue for anti-PD-L1 therapeutic strategies. <i>Annals of Oncology</i> , 2016, 27, 147-153. | 1.2 | 466 |
| 2 | miR-210 is overexpressed in late stages of lung cancer and mediates mitochondrial alterations associated with modulation of HIF-1 activity. <i>Cell Death and Differentiation</i> , 2011, 18, 465-478. | 11.2 | 367 |
| 3 | Senescent cells develop a PARP-1 and nuclear factor- κ B-associated secretome (PNAS). <i>Genes and Development</i> , 2011, 25, 1245-1261. | 5.9 | 223 |
| 4 | Mitf is the key molecular switch between mouse or human melanoma initiating cells and their differentiated progeny. <i>Oncogene</i> , 2011, 30, 2307-2318. | 5.9 | 195 |
| 5 | Hypoxia and MITF control metastatic behaviour in mouse and human melanoma cells. <i>Oncogene</i> , 2012, 31, 2461-2470. | 5.9 | 157 |
| 6 | High levels of carbonic anhydrase IX in tumour tissue and plasma are biomarkers of poor prognostic in patients with non-small cell lung cancer. <i>British Journal of Cancer</i> , 2010, 102, 1627-1635. | 6.4 | 156 |
| 7 | ALK-gene rearrangement: a comparative analysis on circulating tumour cells and tumour tissue from patients with lung adenocarcinoma. <i>Annals of Oncology</i> , 2012, 23, 2907-2913. | 1.2 | 142 |
| 8 | Morphological analysis of circulating tumour cells in patients undergoing surgery for non-small cell lung carcinoma using the isolation by size of epithelial tumour cell (ISET) method. <i>Cytopathology</i> , 2012, 23, 30-38. | 0.7 | 117 |
| 9 | Diagnostic value of immunohistochemistry for the detection of the BRAF mutation in primary lung adenocarcinoma Caucasian patients. <i>Annals of Oncology</i> , 2013, 24, 742-748. | 1.2 | 103 |
| 10 | Discrepancies between FISH and immunohistochemistry for assessment of the ALK status are associated with ALK \sim borderline \sim positive rearrangements or a high copy number: a potential major issue for anti-ALK therapeutic strategies. <i>Annals of Oncology</i> , 2015, 26, 238-244. | 1.2 | 99 |
| 11 | Prognostic significance of cortactin levels in head and neck squamous cell carcinoma: comparison with epidermal growth factor receptor status. <i>British Journal of Cancer</i> , 2008, 98, 956-964. | 6.4 | 65 |
| 12 | Detection of Circulating Tumor Cells from Lung Cancer Patients in the Era of Targeted Therapy : Promises, Drawbacks and Pitfalls. <i>Current Molecular Medicine</i> , 2014, 14, 440-456. | 1.3 | 58 |
| 13 | Immunohistochemistry to identify EGFR mutations or ALK rearrangements in patients with lung adenocarcinoma. <i>Annals of Oncology</i> , 2012, 23, 1738-1743. | 1.2 | 55 |
| 14 | Clinical value of circulating endothelial cells and of soluble CD146 levels in patients undergoing surgery for non-small cell lung cancer. <i>British Journal of Cancer</i> , 2014, 110, 1236-1243. | 6.4 | 55 |
| 15 | Epithelial Intestinal Cell Apoptosis Induced by <i>Helicobacter pylori</i> Depends on Expression of the <i>cag</i> Pathogenicity Island Phenotype. <i>Infection and Immunity</i> , 2001, 69, 5001-5009. | 2.2 | 50 |
| 16 | The Thyroid Gland: A Crossroad in Inflammation-Induced Carcinoma? An Ongoing Debate with New Therapeutic Potential.. <i>Current Medicinal Chemistry</i> , 2010, 17, 3449-3461. | 2.4 | 49 |
| 17 | NF- κ B2 induces senescence bypass in melanoma via a direct transcriptional activation of EZH2. <i>Oncogene</i> , 2016, 35, 2735-2745. | 5.9 | 49 |
| 18 | Fusion-positive non-small cell lung carcinoma: Biological principles, clinical practice, and diagnostic implications. <i>Genes Chromosomes and Cancer</i> , 2022, 61, 244-260. | 2.8 | 32 |

| # | ARTICLE | IF | CITATIONS |
|----|---|-----|-----------|
| 19 | Effect of <i>Helicobacter pylori</i> on Polymorphonuclear Leukocyte Migration across Polarized T84 Epithelial Cell Monolayers: Role of Vacuolating Toxin VacA and <i>cagA</i> Pathogenicity Island. <i>Infection and Immunity</i> , 2000, 68, 5225-5233. | 2.2 | 28 |
| 20 | LANA-1, Bcl-2, Mcl-1 and HIF-1 α protein expression in HIV-associated Kaposi sarcoma. <i>Virchows Archiv Fur Pathologische Anatomie Und Physiologie Und Fur Klinische Medizin</i> , 2009, 455, 159-170. | 2.8 | 21 |
| 21 | Involvement of mast cells in gastritis caused by <i>Helicobacter pylori</i> : a potential role in epithelial cell apoptosis. <i>Journal of Clinical Pathology</i> , 2007, 60, 600-607. | 2.0 | 20 |
| 22 | Usefulness of oral cytopathology in the diagnosis of infectious diseases. <i>Cytopathology</i> , 2010, 21, 285-299. | 0.7 | 19 |
| 23 | Why and how immunohistochemistry should now be used to screen for the <i>BRAFV600E</i> status in metastatic melanoma? The experience of a single institution (LCEP, Nice, France). <i>Journal of the European Academy of Dermatology and Venereology</i> , 2015, 29, 2436-2443. | 2.4 | 16 |
| 24 | Labial Melanotic Macule: A Potential Pitfall on Reflectance Confocal Microscopy. <i>Dermatology</i> , 2012, 224, 209-211. | 2.1 | 14 |
| 25 | A pseudo tumoral sinusitis caused by <i>Bipolaris</i> sp.. <i>Journal of Infection</i> , 2006, 53, e235-e237. | 3.3 | 10 |
| 26 | An expansive paranasal sinus tumour-like lesion caused by <i>Bipolaris spicifera</i> in an immunocompetent patient. <i>Histopathology</i> , 2006, 49, 660-662. | 2.9 | 7 |
| 27 | Usefulness of Ancillary Methods for Diagnosis, Prognosis and Targeted Therapy in Thyroid Pathology. <i>Current Medicinal Chemistry</i> , 2013, 20, 639-654. | 2.4 | 4 |
| 28 | Aspergillose c brale et cryptococcose neurom ning e chez un patient atteint du sida. <i>M decine Et Maladies Infectieuses</i> , 2000, 30, 474-476. | 5.0 | 2 |
| 29 | Expression de l'ATM anhydrase carbonique et fixation du 18F-FDG dans les cancers pulmonaires non   petites cellules. <i>Medecine Nucleaire</i> , 2012, 36, 495-503. | 0.2 | 0 |
