#	ARTICLE	IF	CITATIONS
1	Taste Aversion Learning Based on Swimming and Lithium Chloride Injection in Rats: Implications From Cross-familiarization Tests and Stimulus Selectivity. Japanese Psychological Research, 2021, 63, 72-84.	1.1	2
2	Kaolin clay intake motivated by lactose ingestion in rats. Learning and Motivation, 2021, 74, 101724.	1.2	2
3	Food avoidance learning based on entirely voluntary wheel running in laboratory mice (Mus Tj ETQq1 1 0.784314 rBT /Overlock 10	1.1	1
4	Further Evidence for Swimming-based Pica in Rats. Japanese Psychological Research, 2020, 62, 39-50.	1.1	8
5	Effect of pretrial running on running-based taste aversion learning in rats.. Journal of Experimental Psychology Animal Learning and Cognition, 2020, 46, 273-285.	0.5	3
6	Further demonstration of running-based food avoidance learning in laboratory mice (Mus musculus). Behavioural Processes, 2019, 168, 103962.	1.1	2
7	Food avoidance learning based on voluntary wheel running in laboratory mice (Mus musculus). Behavioural Processes, 2019, 159, 31-36.	1.1	3
8	Food aversion learning based on voluntary running in non-deprived rats: a technique for establishing aversive conditioning with minimized discomfort. Experimental Animals, 2019, 68, 71-79.	1.1	8
9	Clay eating attenuates lithium-based taste aversion learning in rats: A remedial effect of kaolin on nausea. Physiology and Behavior, 2018, 188, 199-204.	2.1	8
10	Relapse of conditioned taste aversion in rats exposed to constant and graded extinction treatments. Learning and Motivation, 2018, 63, 11-19.	1.2	1
11	Running-based pica and taste avoidance in rats. Learning and Behavior, 2018, 46, 182-197.	1.0	12
12	Effect of water temperature on swimming-based taste aversion learning in rats. Learning and Motivation, 2018, 63, 91-97.	1.2	4
13	Swimming-based pica in rats. Behavioural Processes, 2016, 130, 1-3.	1.1	10
14	Running induces nausea in rats: Kaolin intake generated by voluntary and forced wheel running. Appetite, 2016, 105, 85-94.	3.7	19
15	Corrigendum to "Relapse of generalized bait shyness in rats after constant and graded extinction procedures" [Learn. Motiv. 51 (2015) 62-75]. Learning and Motivation, 2015, 52, 83.	1.2	1
16	Relapse of generalized bait shyness in rats after constant and graded extinction procedures. Learning and Motivation, 2015, 51, 62-75.	1.2	0
17	Prior running, but not swimming, hinders running-based taste aversion learning in rats. Learning and Motivation, 2015, 51, 1-10.	1.2	7
18	Effect of Credit Card Logos on the Consumer Item Price Estimated by Japanese College Students. Current Psychology, 2015, 34, 50-57.	2.8	4

#	ARTICLE	IF	CITATIONS
19	Renewal of signaled shuttle box avoidance in rats. <i>Learning and Motivation</i> , 2014, 46, 27-43.	1.2	17
20	Human Group Choice in Loss Minimization and Gain Maximization Games. <i>Psychological Record</i> , 2014, 64, 63-69.	0.9	0
21	Running-based pica in rats. Evidence for the gastrointestinal discomfort hypothesis of running-based taste aversion. <i>Appetite</i> , 2014, 83, 178-184.	3.7	24
22	Running-based taste aversion learning in five strains of rats. <i>Physiology and Behavior</i> , 2014, 123, 200-213.	2.1	13
23	Dogs and Owners Resemble Each Other in the Eye Region. <i>Anthrozoos</i> , 2013, 26, 551-556.	1.4	2
24	Contextual Control of Running-Based Taste Aversion in Rats. <i>Psychological Record</i> , 2013, 63, 785-802.	0.9	2
25	Does Conspecific Fighting Yield Conditioned Taste Aversion in Rats?. <i>Psychological Record</i> , 2012, 62, 83-90.	0.9	8
26	Calorie supply does not alleviate running-based taste aversion learning in rats. <i>Appetite</i> , 2011, 57, 605-614.	3.7	9
27	The effect of swimming experience on acquisition and retention of swimming-based taste aversion learning in rats. <i>Learning and Motivation</i> , 2010, 41, 32-47.	1.2	12
28	Overshadowing of running-based taste aversion learning by another taste cue. <i>Behavioural Processes</i> , 2010, 83, 134-136.	1.1	4
29	Dogs Look Like Their Owners: Replications with Racially Homogenous Owner Portraits. <i>Anthrozoos</i> , 2009, 22, 173-181.	1.4	13
30	Feature-short and feature-long discrimination learning in the pigeon: Conditional control of a two-event temporal map. <i>Behavioural Processes</i> , 2009, 80, 80-89.	1.1	4
31	Further evidence for the summation of latent inhibition and overshadowing in rats' conditioned taste aversion. <i>Learning and Motivation</i> , 2008, 39, 221-242.	1.2	10
32	Effect of extra running on running-based taste aversion in rats. <i>Behavioural Processes</i> , 2008, 78, 470-472.	1.1	8
33	Forward conditioning with wheel running causes place aversion in rats. <i>Behavioural Processes</i> , 2008, 79, 43-47.	1.1	20
34	Contextual control of rats' foraging behaviour in a radial maze. <i>Behavioural Processes</i> , 2007, 74, 97-103.	1.1	3
35	An assessment of context-specificity of the CS-preexposure effect in Pavlovian excitatory and inhibitory conditioning. <i>Behavioural Processes</i> , 2006, 73, 84-91.	1.1	4
36	Familiarization and cross-familiarization of wheel running and LiCl in conditioned taste aversion. <i>Physiology and Behavior</i> , 2006, 88, 1-11.	2.1	26

#	ARTICLE	IF	CITATIONS
37	Taste aversion in rats induced by forced swimming, voluntary running, forced running, and lithium chloride injection treatments. <i>Physiology and Behavior</i> , 2006, 88, 411-416.	2.1	38
38	Speculation and explicit identification as judgmental standards for positive or negative reinforcement: A comment on Baron and Galizio (2005). <i>The Behavior Analyst</i> , 2006, 29, 269-270.	2.5	1
39	Salt discrimination in domestic pigeons (<i>Columba livia domestica</i>): poisonous LiCl solution versus equimolar safe NaCl solution. <i>Journal of Ethology</i> , 2006, 24, 59-65.	0.8	2
40	Summation of latent inhibition and overshadowing in a generalized bait shyness paradigm of rats. <i>Behavioural Processes</i> , 2005, 69, 369-377.	1.1	16
41	Further evidence for conditioned taste aversion induced by forced swimming. <i>Physiology and Behavior</i> , 2005, 84, 9-15.	2.1	26
42	SENSORY PRECONDITIONING, THE ESPINET EFFECT, AND HEIDER'S BALANCE THEORY: NOTE ON ANIMAL REASONING OF EVENT RELATIONS. <i>Psychological Reports</i> , 2005, 96, 1011.	1.7	1
43	Associative learning in animals: A selective review of recent topics and contribution of Japanese researchers ¹ . <i>Japanese Psychological Research</i> , 2004, 46, 141-153.	1.1	0
44	Cross-modal transfer of conditioned suppression in rats: Effects of US intensity and extinction of the initial conditioning task. <i>Learning and Motivation</i> , 2004, 35, 242-261.	1.2	1
45	Swimming-induced taste aversion and its prevention by a prior history of swimming. <i>Learning and Motivation</i> , 2004, 35, 406-418.	1.2	21
46	Conditioned ethanol aversion in rats induced by voluntary wheel running, forced swimming, and electric shock: An implication for aversion therapy of alcoholism. <i>Integrative Psychological and Behavioral Science</i> , 2004, 39, 95-104.	0.3	18
47	Taste aversion learning induced by delayed swimming activity. <i>Behavioural Processes</i> , 2004, 67, 357-362.	1.1	16
48	Taste aversion learning induced by forced swimming in rats. <i>Physiology and Behavior</i> , 2004, 80, 623-628.	2.1	28
49	Estimation of animal intelligence by university students in Japan and the United States. <i>Anthrozoos</i> , 2002, 15, 194-205.	1.4	41
50	Acquired equivalence of flavour cues with a common antecedent in rats. <i>Behavioural Processes</i> , 2002, 57, 1-6.	1.1	6
51	Taste avoidance caused by spontaneous wheel running: effects of duration and delay of wheel confinement. <i>Learning and Motivation</i> , 2002, 33, 390-409.	1.2	32
52	Renewal of operant performance formerly eliminated by omission or noncontingency training upon return to the acquisition context. <i>Learning and Motivation</i> , 2002, 33, 510-525.	1.2	45
53	Failure of hierarchical conditional rule learning in the pigeon (<i>Columba livia</i>). <i>Animal Cognition</i> , 2001, 3, 221-226.	1.8	3
54	Reintegration of Stimuli after Acquired Distinctiveness Training. <i>Learning and Motivation</i> , 2001, 32, 100-114.	1.2	5

#	ARTICLE	IF	CITATIONS
55	The effect of on- or off-line extinction of a first-order conditioned stimulus on a second-order conditioned response in rats. <i>Japanese Psychological Research</i> , 2001, 43, 91-97.	1.1	0
56	Differential Outcomes Effect on Instrumental Serial Feature-Ambiguous Discrimination in Rats. <i>Psychological Record</i> , 2000, 50, 189-198.	0.9	5
57	DIFFERENTIAL OUTCOME EFFECT IN THE HORSE. <i>Journal of the Experimental Analysis of Behavior</i> , 2000, 74, 245-253.	1.1	27
58	Renewal of Extinguished Lever-Press Responses upon Return to the Training Context. <i>Learning and Motivation</i> , 2000, 31, 416-431.	1.2	154
59	Putative inhibitory training of a stimulus makes it a facilitator: a within-subject comparison of visual and auditory stimuli in autoshaping. <i>Behavioural Processes</i> , 2000, 48, 129-136.	1.1	1
60	Taste aversion induced by confinement in a running wheel. <i>Behavioural Processes</i> , 2000, 49, 35-42.	1.1	37
61	Facilitation of Sodium Aversion Learning in Sodium-Deprived Rats. <i>Learning and Motivation</i> , 1999, 30, 281-295.	1.2	2
62	General Learned Irrelevance and Its Prevention. <i>Learning and Motivation</i> , 1999, 30, 265-280.	1.2	7
63	Summation of Overshadowing and Latent Inhibition in Rats's Conditioned Taste Aversion: Scapegoat Technique Works for Familiar Meals. <i>Appetite</i> , 1999, 33, 299-307.	3.7	20
64	Inhibition and facilitation by B over C after A+, AB, and ABC+ training with multimodality stimulus combinations.. <i>Journal of Experimental Psychology</i> , 1999, 25, 68-81.	1.7	7
65	PANEL-TOUCH BEHAVIOR OF HORSES ESTABLISHED BY AN AUTOSHAPING PROCEDURE. <i>Psychological Reports</i> , 1999, 85, 867.	1.7	1
66	Overexpectation in appetitive Pavlovian and instrumental conditioning. <i>Learning and Behavior</i> , 1998, 26, 351-360.	3.4	69
67	Signaled reinforcement effects on fixed-interval performance of rats with lever depressing or releasing as a target response. <i>Japanese Psychological Research</i> , 1998, 40, 104-110.	1.1	1
68	Further Investigation of Responding Elicited by BC and C after A+, AB-, ABC+ Training. <i>Quarterly Journal of Experimental Psychology Section B: Comparative and Physiological Psychology</i> , 1998, 51, 289-300.	2.8	3
69	US postexposure effect on conditioned flavor preference in the rat. <i>Psychological Record</i> , 1997, 47, 499-518.	0.9	7
70	Failure of inhibition by B over C after A+, AB, ABC+ training.. <i>Journal of Experimental Psychology</i> , 1997, 23, 482-490.	1.7	10
71	Long-term retention of Pavlovian serial feature-positive and feature-negative discriminations. <i>Behavioural Processes</i> , 1997, 39, 223-229.	1.1	4
72	Failure of Retrospective Inference in Rats' Taste Aversion. <i>Japanese Psychological Research</i> , 1997, 39, 87-97.	1.1	14

#	ARTICLE	IF	CITATIONS
73	Transfer testing after serial feature-ambiguous discrimination in Pavlovian keypeck conditioning. <i>Learning and Behavior</i> , 1997, 25, 413-426.	3.4	5
74	A way to install conditioned modulation in the Rescorla-Wagner Axiom: The amplifier model of Pavlovian conditioning (AMP). <i>Integrative Psychological and Behavioral Science</i> , 1997, 32, 305-321.	0.3	2
75	Signaled reinforcement effects on fixed-interval performance of the rat. <i>Learning and Behavior</i> , 1996, 24, 183-192.	3.4	5
76	Contextual control of pavlovian feature-positive and feature-negative discriminations. <i>Learning and Behavior</i> , 1994, 22, 34-46.	3.4	8
77	Contextual control of Pavlovian bidirectional occasion setting. <i>Behavioural Processes</i> , 1994, 32, 53-66.	1.1	9
78	Asymmetrical Effect of a Temporal Gap between Feature and Target Stimuli on Pavlovian Serial Feature-Positive and Feature-Negative Discriminations. <i>Learning and Motivation</i> , 1993, 24, 255-265.	1.2	5
79	REMOVAL OF AN OBSTACLE: PROBLEM-SOLVING BEHAVIOR IN PIGEONS. <i>Journal of the Experimental Analysis of Behavior</i> , 1993, 59, 131-145.	1.1	5
80	The effect of temporal relationship of stimulus compound on ambiguous discrimination in the pigeon's autoshaping. <i>Behavioural Processes</i> , 1992, 27, 65-73.	1.1	10
