#	Article	IF	CITATIONS
1	The escalating global burden of serious health-related suffering: projections to 2060 by world regions, age groups, and health conditions. The Lancet Global Health, 2019, 7, e883-e892.	2.9	395
2	A brief, patient- and proxy-reported outcome measure in advanced illness: Validity, reliability and responsiveness of the Integrated Palliative care Outcome Scale (IPOS). Palliative Medicine, 2019, 33, 1045-1057.	1.3	197
3	A preoperative education intervention to reduce anxiety and improve recovery among Chinese cardiac patients: A randomized controlled trial. International Journal of Nursing Studies, 2012, 49, 129-137.	2.5	145
4	Discovering the hidden benefits of cognitive interviewing in two languages: The first phase of a validation study of the Integrated Palliative care Outcome Scale. Palliative Medicine, 2016, 30, 599-610.	1.3	109
5	A framework for complexity in palliative care: A qualitative study with patients, family carers and professionals. Palliative Medicine, 2018, 32, 1078-1090.	1.3	85
6	Preoperative education interventions to reduce anxiety and improve recovery among cardiac surgery patients: a review of randomised controlled trials. Journal of Clinical Nursing, 2015, 24, 34-46.	1.4	82
7	Phase of Illness in palliative care: Cross-sectional analysis of clinical data from community, hospital and hospice patients. Palliative Medicine, 2018, 32, 404-412.	1.3	36
8	The economic burden of cancer care for Syrian refugees: a population-based modelling study. Lancet Oncology, The, 2020, 21, 637-644.	5.1	30
9	Perspectives of patients, family caregivers and health professionals on the use of outcome measures in palliative care and lessons for implementation: a multi-method qualitative study. Annals of Palliative Medicine, 2018, 7, S137-S150.	0.5	28
10	Establishing key criteria to define and compare models of specialist palliative care: A mixed-methods study using qualitative interviews and Delphi survey. Palliative Medicine, 2019, 33, 1114-1124.	1.3	27
11	Palliative Care in the Greater China Region: A Systematic Review of Needs, Models, and Outcomes. Journal of Pain and Symptom Management, 2021, 61, 585-612.	0.6	27
12	The effectiveness and experience of self-management following acute coronary syndrome: A review of the literature. International Journal of Nursing Studies, 2016, 61, 29-51.	2.5	25
13	Preferences and Experiences of Muslim Patients and Their Families in Muslim-Majority Countries for End-of-Life Care: A Systematic Review and Thematic Analysis. Journal of Pain and Symptom Management, 2020, 60, 1223-1238.e4.	0.6	25
14	Development and validation of a casemix classification to predict costs of specialist palliative care provision across inpatient hospice, hospital and community settings in the UK: a study protocol. BMJ Open, 2018, 8, e020071.	0.8	11
15	What are the main symptoms and concerns reported by patients with advanced chronic heart failure?—a secondary analysis of the Palliative care Outcome Scale (POS) and Integrated Palliative care Outcome Scale (IPOS). Annals of Palliative Medicine, 2019, 8, 775-780.	0.5	10
16	Validity and reliability of the English and translated Chinese versions of the Integrated Palliative care Outcome Scale (IPOS) in Singapore. BMC Palliative Care, 2021, 20, 40.	0.8	10
17	Compounded trauma: A qualitative study of the challenges for refugees living with advanced cancer. Palliative Medicine, 2021, 35, 916-926.	1.3	10
18	Experiences of transitioning between settings of care from the perspectives of patients with advanced illness receiving specialist palliative care and their family caregivers: A qualitative interview study. Palliative Medicine, 2022, 36, 124-134.	1.3	10
