|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Longitudinal risk of death, hospitalizations for atrial fibrillation, and cardiovascular events following catheter ablation of atrial fibrillation: a cohort study. European Heart Journal Quality of Care & Clinical Outcomes, 2023, 9, 150-160. | 4.0 | 2         |
| 2  | Ten-year trends in mortality and complications following catheter ablation of atrial fibrillation. European Heart Journal Quality of Care & Clinical Outcomes, 2022, 8, 398-408.                                                                  | 4.0 | 10        |
| 3  | Leadless Pacing—Uncertainties Remain About Safety and Efficacy. JAMA Cardiology, 2022, , .                                                                                                                                                        | 6.1 | 1         |
| 4  | The association between urinary sodium concentration (UNa) and outcomes of acute heart failure: a systematic review and meta-analysis. European Heart Journal Quality of Care & Clinical Outcomes, 2022, 8, 709-721.                              | 4.0 | 4         |
| 5  | Clinical Outcomes in Pre-Hospital Activation and Direct Cardiac Catheterisation Laboratory Transfer of STEMI for Primary PCI. Heart Lung and Circulation, 2022, 31, 974-984.                                                                      | 0.4 | 4         |
| 6  | Longitudinal Outcomes of Subcutaneous or Transvenous Implantable Cardioverter-Defibrillators in Older Patients. Journal of the American College of Cardiology, 2022, 79, 1050-1059.                                                               | 2.8 | 9         |
| 7  | Thirty-Day Unplanned Readmissions Following Hospitalisation for Atrial Fibrillation in Australia and New Zealand. Heart Lung and Circulation, 2022, 31, 944-953.                                                                                  | 0.4 | 2         |
| 8  | Long-Term Survival, Stroke Recurrence, and Life Expectancy After an Acute Stroke in Australia and New Zealand From 2008–2017: A Population-Wide Cohort Study. Stroke, 2022, 53, 2538-2548.                                                        | 2.0 | 13        |
| 9  | Institutional variation in early mortality following isolated coronary artery bypass graft surgery. International Journal of Cardiology, 2022, 362, 35-41.                                                                                        | 1.7 | 2         |
| 10 | The effectiveness of in-hospital interventions on reducing hospital length of stay and readmission of patients with Type 2 Diabetes Mellitus: A systematic review. Diabetes Research and Clinical Practice, 2021, 174, 108363.                    | 2.8 | 6         |
| 11 | Frequency, trends and institutional variation in 30-day all-cause mortality and unplanned readmissions following hospitalisation for heart failure in Australia and New Zealand. European Journal of Heart Failure, 2021, 23, 31-40.              | 7.1 | 25        |
| 12 | Long-term outcomes following endovascular and surgical revascularization for peripheral artery disease: a propensity score-matched analysis. European Heart Journal, 2021, 43, 32-40.                                                             | 2.2 | 19        |
| 13 | Long term survival after acute myocardial infarction in Australia and New Zealand, 2009–2015: a population cohort study. Medical Journal of Australia, 2021, 214, 519-525.                                                                        | 1.7 | 18        |
| 14 | Gender differences in complications following catheter ablation of atrial fibrillation. European Heart Journal Quality of Care & Clinical Outcomes, 2021, 7, 458-467.                                                                             | 4.0 | 9         |
| 15 | Unplanned hospital visits after ambulatory surgical care. PLoS ONE, 2021, 16, e0254039.                                                                                                                                                           | 2.5 | 9         |
| 16 | Utilisation and safety of catheter ablation of atrial fibrillation in public and private sector hospitals. BMC Health Services Research, 2021, 21, 883.                                                                                           | 2.2 | 5         |
| 17 | Cardiac Complications in Patients Hospitalised With COVID-19 in Australia. Heart Lung and Circulation, 2021, 30, 1834-1840.                                                                                                                       | 0.4 | 10        |
| 18 | SAFety, Effectiveness of care and Resource use among Australian Hospitals (SAFER Hospitals): a protocol for a population-wide cohort study of outcomes of hospital care. BMJ Open, 2020, 10, e035446.                                             | 1.9 | 1         |

| #  | ARTICLE                                                                                                                                                                                                                                                | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | The Association between Sleep Duration and Quality with Readmissions: An Exploratory Pilot-Study among Cardiology Inpatients. <i>Clocks &amp; Sleep</i> , 2020, 2, 120-142.                                                                            | 2.0 | 3         |
| 20 | Readmissions following hospitalisations for cardiovascular disease: a scoping review of the Australian literature. <i>Australian Health Review</i> , 2020, 44, 93.                                                                                     | 1.1 | 11        |
| 21 | ST-Elevation Acute Myocardial Infarction in Australiaâ€”Temporal Trends in Patient Management and Outcomes 1999â€”2016. <i>Heart Lung and Circulation</i> , 2019, 28, 1000-1008.                                                                       | 0.4 | 20        |
| 22 | Association of Physician Specialty With Long-Term Implantable Cardioverter-Defibrillator Complication and Reoperations Rates. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2019, 12, e005374.                                             | 2.2 | 4         |
| 23 | Digoxin Use and Associated Adverse Events Among Older Adults. <i>American Journal of Medicine</i> , 2019, 132, 1191-1198.                                                                                                                              | 1.5 | 23        |
| 24 | Institutional Variation in Quality of Cardiovascular Implantable Electronic Device Implantation. <i>Annals of Internal Medicine</i> , 2019, 171, 309.                                                                                                  | 3.9 | 32        |
| 25 | The influence of chronic kidney disease and age on revascularization rates and outcomes in acute myocardial infarction â€” a cohort study. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2017, 6, 291-298.                                | 1.0 | 9         |
| 26 | Can machine learning complement traditional medical device surveillance? A case-study of dual-chamber implantable cardioverter&ndash;defibrillators. <i>Medical Devices: Evidence and Research</i> , 2017, Volume 10, 165-188.                         | 0.8 | 9         |
| 27 | The household economic burden for acute coronary syndrome survivors in Australia. <i>BMC Health Services Research</i> , 2016, 16, 636.                                                                                                                 | 2.2 | 5         |
| 28 | Falling cholesterol trend at acute coronary syndrome presentation is strongly related to statin use for secondary prevention. <i>International Journal of Cardiology</i> , 2016, 212, 192-197.                                                         | 1.7 | 3         |
| 29 | Predicting 30-Day Readmission or Death in Patients With Heart Failure. <i>JAMA Cardiology</i> , 2016, 1, 965.                                                                                                                                          | 6.1 | 0         |
| 30 | Identification of Hospital Cardiac Services for Acute Myocardial Infarction Using Individual Patient Discharge Data. <i>Journal of the American Heart Association</i> , 2016, 5, .                                                                     | 3.7 | 1         |
| 31 | Reply. <i>Gastroenterology</i> , 2016, 150, 1249-1251.                                                                                                                                                                                                 | 1.3 | 1         |
| 32 | Response to Letter Regarding Article, â€œPoorly Cited Articles in Peer-Reviewed Cardiovascular Journals from 1997 to 2007: Analysis of 5-Year Citation Ratesâ€. <i>Circulation</i> , 2016, 133, e23-4.                                                | 1.6 | 0         |
| 33 | Long-term mortality following interhospital transfer for acute myocardial infarction. <i>Heart</i> , 2015, 101, 1032-1040.                                                                                                                             | 2.9 | 28        |
| 34 | Sex Differences in the Rate, Timing, and Principal Diagnoses of 30-Day Readmissions in Younger Patients with Acute Myocardial Infarction. <i>Circulation</i> , 2015, 132, 158-166.                                                                     | 1.6 | 69        |
| 35 | Poorly Cited Articles in Peer-Reviewed Cardiovascular Journals from 1997 to 2007. <i>Circulation</i> , 2015, 131, 1755-1762.                                                                                                                           | 1.6 | 30        |
| 36 | Prescription of secondary prevention medications, lifestyle advice, and referral to rehabilitation among acute coronary syndrome inpatients: results from a large prospective audit in Australia and New Zealand. <i>Heart</i> , 2014, 100, 1281-1288. | 2.9 | 91        |

| #  | ARTICLE                                                                                                                                                                                                                  | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Acute coronary syndrome care across Australia and New Zealand: the SNAPSHOT ACS study. Medical Journal of Australia, 2013, 199, 185-191.                                                                                 | 1.7 | 134       |
| 38 | Comparative Effectiveness of Population Interventions to Improve Access to Reperfusion for ST-Segmentâ€Elevation Myocardial Infarction in Australia. Circulation: Cardiovascular Quality and Outcomes, 2012, 5, 429-436. | 2.2 | 31        |
| 39 | Management and outcomes of patients with acute coronary syndromes in Australia and New Zealand, 2000â€2007. Medical Journal of Australia, 2011, 195, 116-121.                                                            | 1.7 | 35        |
