| #  | Article                                                                                                                                                                                    | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Feature Extraction of EEG Signal by Power Spectral Density for Motor Imagery Based BCI., 2021,,.                                                                                           |     | 15        |
| 2  | Plans for Planar: Phase-Noise Reduction Techniques in Voltage-Controlled Oscillators. IEEE<br>Microwave Magazine, 2019, 20, 92-108.                                                        | 0.8 | 4         |
| 3  | PLL-BASED 3? INVERTER CIRCUIT FOR MICROGRID SYSTEM OPERATED BY ELECTROSTATIC GENERATOR. IIUM Engineering Journal, 2019, 20, 177-193.                                                       | 0.8 | O         |
| 4  | Simulation and modeling of high voltage DC to AC PWM inverter for electrostatic generator. MATEC Web of Conferences, 2018, 189, 11010.                                                     | 0.2 | 2         |
| 5  | A Compact Bandpass Filter Using Microstrip Hairpin Resonator for WLAN Applications. , 2018, , .                                                                                            |     | 4         |
| 6  | A SINGLE LC TANK BASED ACTIVE VOLTAGE BALANCING CIRCUIT FOR BATTERY MANAGEMENT SYSTEM. IIUM Engineering Journal, 2018, 19, 158-167.                                                        | 0.8 | 6         |
| 7  | Design and development of wideband patch antenna for UHF RFID metal mountable tag. International Journal of Electronics Letters, 2017, 5, 82-98.                                           | 1.2 | O         |
| 8  | Reduction of phase noise for inductor based ultra-wide band voltage controlled oscillator. , 2017, , .                                                                                     |     | 4         |
| 9  | Design and simulation of a low noise PWM based phase synchronous inverter for microgrid. , 2017, , .                                                                                       |     | 1         |
| 10 | A PWM Controller of a Full Bridge Single-Phase Synchronous Inverter for Micro-Grid System. Journal of Physics: Conference Series, 2017, 949, 012020.                                       | 0.4 | 0         |
| 11 | A Series Regeneration Converter Technique for Voltage Balancing of Energy Storage Devices.<br>Indonesian Journal of Electrical Engineering and Computer Science, 2017, 8, 475.             | 0.8 | 7         |
| 12 | LINEAR MICROSTRIP RESONATOR FOR UWB RFID TAG. International Journal of GEOMATE, 2017, 13, .                                                                                                | 0.3 | 1         |
| 13 | An Enhanced Zero Crossing Based HVAC Phase Synchronous Inverter for Electrostatic Generator in Microgrid Systems. Indonesian Journal of Electrical Engineering and Informatics, 2017, 5, . | 0.3 | 1         |
| 14 | MICROSTRIP COUPLED LINE BANDPASS FILTER WITH RADIAL STUBS FOR NARROW-BAND APPLICATIONS. International Journal of GEOMATE, 2017, 13, .                                                      | 0.3 | 2         |
| 15 | Design and Analysis of a Buck-Boost Converter Circuit for Piezoelectric Energy Harvesting System. , 2016, , .                                                                              |     | 4         |
| 16 | Design of a Switching Mode Three Phase Inverter. , 2016, , .                                                                                                                               |     | 14        |
| 17 | Phase Synchronous Inverter for Microgrid System. , 2016, , .                                                                                                                               |     | 3         |
| 18 | Low Noise Inverter for Poly Phase Microgrid System. , 2016, , .                                                                                                                            |     | 5         |

| #  | Article                                                                                                                                                                 | IF  | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | A Compact Wideband Patch Antenna for Ultra High Frequency RFID Tag. Automatika, 2015, 56, 76-83.                                                                        | 2.0 | 5         |
| 20 | Design of a Wideband Inductively Coupled Loop Feed Patch Antenna for UHF RFID Tag.<br>Radioengineering, 2015, 24, 38-44.                                                | 0.6 | 5         |
| 21 | Detection of data from the UWB microstrip resonator type RFID tag. , 2015, , .                                                                                          |     | 1         |
| 22 | Tag for UWB chipless RFID: A single antenna approach. , 2015, , .                                                                                                       |     | 0         |
| 23 | Classification of Multichannel EEG Signal by Linear Discriminant Analysis. Advances in Intelligent Systems and Computing, 2015, , 279-282.                              | 0.6 | 18        |
| 24 | Microstrip Spiral Resonator for the UWB Chipless RFID Tag. Advances in Intelligent Systems and Computing, 2015, , 355-358.                                              | 0.6 | 6         |
| 25 | Spiral Resonator for Ultra Wide Band Chipless RFID Tag. , 2014, , .                                                                                                     |     | 4         |
| 26 | Integrated Si Lens Antenna with Planar Log Spiral Feed for THz Band. , 2014, , .                                                                                        |     | 2         |
| 27 | Template Matching Techniques for Iris Recognition System. , 2014, , .                                                                                                   |     | 1         |
| 28 | Two Dimensional Array Based Overlay Network for Reducing Delay of Peer-to-Peer Live Video Streaming. , 2014, , .                                                        |     | 2         |
| 29 | Three Phase Three Layer Phase Synchronous Inverter for Microgrid System., 2014,,.                                                                                       |     | 2         |
| 30 | Parameter Optimization for Piezoelectric Micro-energy Harvesting System., 2014,,.                                                                                       |     | 2         |
| 31 | Classification of Multichannel EEG Signal by Single Layer Perceptron Learning Algorithm. , 2014, , .                                                                    |     | 1         |
| 32 | Design of a planar wideband patch antenna for UHF RFID tag. Microwave and Optical Technology Letters, 2014, 56, 1579-1584.                                              | 1.4 | 3         |
| 33 | A planar wideband microstrip patch antenna for UHF RFID tag. , 2013, , .                                                                                                |     | 2         |
| 34 | A planar wideband inductively coupled feed patch antenna for UHF RFID tag. , 2013, , .                                                                                  |     | 8         |
| 35 | Design and Optimization of Levenberg-Marquardt based Neural Network Classifier for EMG Signals to Identify Hand Motions. Measurement Science Review, 2013, 13, 142-151. | 1.0 | 44        |
| 36 | Photoplethysmography based remote health monitoring system. , 2013, , .                                                                                                 |     | 2         |

| #  | Article                                                                                                                                                                          | IF  | Citations |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Development of a position detection technique for UWB chipless RFID tagged object. , 2013, , .                                                                                   |     | 6         |
| 38 | Performance analysis of different techniques for Brain Computer Interfacing. , 2013, , .                                                                                         |     | 1         |
| 39 | Edge detection techniques for iris recognition system. IOP Conference Series: Materials Science and Engineering, 2013, 53, 012041.                                               | 0.6 | 8         |
| 40 | Development of a Web-based financial application System. IOP Conference Series: Materials Science and Engineering, 2013, 53, 012080.                                             | 0.6 | 1         |
| 41 | Comparative data compression techniques and multi-compression results. IOP Conference Series: Materials Science and Engineering, 2013, 53, 012081.                               | 0.6 | 4         |
| 42 | Two Dimensional Array Based Overlay Network for Balancing Load of Peer-to-Peer Live Video Streaming. IOP Conference Series: Materials Science and Engineering, 2013, 53, 012065. | 0.6 | 1         |
| 43 | HARDWARE MODELING OF BINARY CODED DECIMAL ADDER IN FIELD PROGRAMMABLE GATE ARRAY.<br>American Journal of Applied Sciences, 2013, 10, 466-477.                                    | 0.2 | O         |
| 44 | A step towards the development of VHDL model for ANN based EMG signal classifier. , 2012, , .                                                                                    |     | 2         |
| 45 | The Use of Artificial Neural Network in the Classification of EMG Signals. , 2012, , .                                                                                           |     | 18        |
| 46 | Modeling and characterization of a new three-stage quadruple pass EDFA. , 2012, , .                                                                                              |     | 1         |
| 47 | Optimization of neural network for efficient EMG signal classification. , 2012, , .                                                                                              |     | 4         |
| 48 | Characterization of triple pass Erbium-doped Fiber Amplifiers. , 2012, , .                                                                                                       |     | 2         |
| 49 | EMG motion pattern classification through design and optimization of Neural Network. , 2012, , .                                                                                 |     | 9         |
| 50 | Development of VHDL model for fixed-point Discrete Wavelet Transform. , 2012, , .                                                                                                |     | 1         |
| 51 | Design and Characterization of a New Three-Stage Quadruple Pass EDFA. Journal of Applied Sciences, 2012, 12, 2071-2076.                                                          | 0.3 | 6         |
| 52 | VHDL Modeling of EMG Signal Classification using Artificial Neural Network. Journal of Applied Sciences, 2012, 12, 244-253.                                                      | 0.3 | 3         |
| 53 | VHDL Modelling of Fixed-point DWT for the Purpose of EMG Signal Denoising. , 2011, , .                                                                                           |     | 2         |
| 54 | Design of a 5GHz phase-locked loop., 2011,,.                                                                                                                                     |     | 3         |

| #  | Article                                                                                                                                                          | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 55 | Hand motion detection from EMG signals by using ANN based classifier for human computer interaction. , $2011,  ,  .$                                             |     | 25        |
| 56 | Fetal electrocardiogram extraction and R-peak detection for fetal heart rate monitoring using artificial neural network and Correlation. , $2011,\ldots$         |     | 9         |
| 57 | Electromygraphy (EMG) signal based hand gesture recognition using artificial neural network (ANN). , 2011, , .                                                   |     | 103       |
| 58 | An Emergency Medical Care Network System for Fetal ECG Monitoring., 2011,,.                                                                                      |     | 3         |
| 59 | Neural Network Classifier for Hand Motion Detection from EMG Signal. IFMBE Proceedings, 2011, , 536-541.                                                         | 0.3 | 21        |
| 60 | Advances in Electromyogram Signal Classification to Improve the Quality of Life for the Disabled and Aged People. Journal of Computer Science, 2010, 6, 706-715. | 0.6 | 39        |
