citing authors

#	ARTICLE	IF	CITATIONS
1	Market Correlation Structure Changes Around the Great Crash: A Random Matrix Theory Analysis of the Chinese Stock Market. , 2022, , 551-565.		0
2	Robustness of the international oil trade network under targeted attacks to economies. Energy, 2022, 251, 123939.	8.8	13
3	Identifying oil market states based on structure and evolution of the international crude oil trade networks. International Journal of Modern Physics B, 2022, 36, .	2.0	2
4	Learning representation of stock traders and immediate price impacts. Emerging Markets Review, 2021, 48, 100791.	4.4	0
5	Identifying states of global financial market based on information flow network motifs. North American Journal of Economics and Finance, 2021, 58, 101459.	3.5	9
6	Evolving efficiency and robustness of the international oil trade network. Journal of Statistical Mechanics: Theory and Experiment, 2021, 2021, 103401.	2.3	11
7	Structure and Evolution of the International Pesticide Trade Networks. Frontiers in Physics, 2021, 9, .	2.1	7
8	The performance of cooperation strategies for enhancing the efficiency of international oil trade networks. Journal of Complex Networks, 2021, 10, .	1.8	3
9	Predicting highway freight transportation networks using radiation models. Physical Review E, 2020, 102, 052314.	2.1	8
10	Systemic Risk and Trading Strategy Based on Correlation-Based Networks in Stock Markets. Fluctuation and Noise Letters, 2020, 19, 2050028.	1.5	1
11	Multifractal analysis of financial markets: a review. Reports on Progress in Physics, 2019, 82, 125901.	20.1	210
12	Time series classification based on triadic time series motifs. International Journal of Modern Physics B, 2019, 33, 1950237.	2.0	3
13	Triadic time series motifs. Europhysics Letters, 2019, 125, 18002.	2.0	4
14	Tetradic motif profiles of horizontal visibility graphs. Communications in Nonlinear Science and Numerical Simulation, 2019, 72, 544-551.	3.3	18
15	The cooling-off effect of price limits in the Chinese stock markets. Physica A: Statistical Mechanics and Its Applications, 2018, 505, 153-163.	2.6	14
16	Early warning model based on correlated networks in global crude oil markets. Physica A: Statistical Mechanics and Its Applications, 2018, 490, 1335-1343.	2.6	21
17	Market Correlation Structure Changes Around the Great Crash: A Random Matrix Theory Analysis of the Chinese Stock Market. Fluctuation and Noise Letters, 2017, 16, 1750018.	1.5	33
18	Statistical properties of user activity fluctuations in virtual worlds. Chaos, Solitons and Fractals, 2017, 105, 271-278.	5.1	10

#	ARTICLE	IF	CITATIONS
19	Individual position diversity in dependence socioeconomic networks increases economic output. EPJ Data Science, 2017, 6, .	2.8	3
20	Analytic degree distributions of horizontal visibility graphs mapped from unrelated random series and multifractal binomial measures. Europhysics Letters, 2017, 119, 48008.	2.0	17
21	Quantifying immediate price impact of trades based on the k-shell decomposition of stock trading networks. Europhysics Letters, 2016, 116, 28006.	2.0	11
22	Two-state Markov-chain Poisson nature of individual cellphone call statistics. Journal of Statistical Mechanics: Theory and Experiment, 2016, 2016, 073210.	2.3	20
23	Skill complementarity enhances heterophily in collaboration networks. Scientific Reports, 2016, 6, 18727.	3.3	71
24	Correlation structure and principal components in the global crude oil market. Empirical Economics, 2016, 51, 1501-1519.	3.0	34
25	Joint multifractal analysis based on the partition function approach: analytical analysis, numerical simulation and empirical application. New Journal of Physics, 2015, 17, 103020.	2.9	70
26	Club convergence of house prices: Evidence from China's ten key cities. International Journal of Modern Physics B, 2015, 29, 1550181.	2.0	23
27	Communication cliques in mobile phone calling networks. Journal of Statistical Mechanics: Theory and Experiment, 2015, 2015, P11007.	2.3	7
28	Unveiling correlations between financial variables and topological metrics of trading networks: Evidence from a stock and its warrant. Physica A: Statistical Mechanics and Its Applications, 2015, 419, 575-584.	2.6	27
29	Statistical Properties and Pre-Hit Dynamics of Price Limit Hits in the Chinese Stock Markets. PLoS ONE, 2015, 10, e0120312.	2.5	17
30	Extreme value statistics and recurrence intervals of NYMEX energy futures volatility. Economic Modelling, 2014, 36, 8-17.	3.8	30
31	Testing the weak-form efficiency of the WTI crude oil futures market. Physica A: Statistical Mechanics and Its Applications, 2014, 405, 235-244.	2.6	74
32	A comparative analysis of the statistical properties of large mobile phone calling networks. Scientific Reports, 2014, 4, 5132.	3.3	32
33	Systemic risk and spatiotemporal dynamics of the US housing market. Scientific Reports, 2014, 4, 3655.	3.3	77
34	Triadic motifs in the dependence networks of virtual societies. Scientific Reports, 2014, 4, 5244.	3.3	20
35	Calling patterns in human communication dynamics. Proceedings of the National Academy of Sciences of the United States of America, 2013, 110, 1600-1605.	7.1	147
36	Trading networks, abnormal motifs and stock manipulation. Quantitative Finance Letters, 2013, 1, 1-8.	0.2	24

#	ARTICLE	IF	CITATIONS
37	Horizontal visibility graphs transformed from fractional Brownian motions: Topological properties versus the Hurst index. Physica A: Statistical Mechanics and Its Applications, 2011, 390, 3592-3601.	2.6	61
38	On the growth of primary industry and population of China's counties. Physica A: Statistical Mechanics and Its Applications, 2010, 389, 3876-3882.	2.6	5
