#	ARTICLE	IF	CITATIONS
1	Efficacy of Three Low-Intensity, Internet-Based Psychological Interventions for the Treatment of Depression in Primary Care: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e15845.	4.3	20
2	Predictors of Adherence in Three Low-Intensity Intervention Programs Applied by ICTs for Depression in Primary Care. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1774.	2.6	7
3	Tolerance to repeated rewarding electrical stimulation of the parabrachial complex. <i>Behavioural Brain Research</i> , 2016, 312, 14-19.	2.2	6
4	Tolerance to repeated rewarding electrical stimulation of the insular cortex. <i>Brain Research</i> , 2016, 1630, 64-72.	2.2	6
5	“I have anxiety, but I have values and preferences” Experiences of users with generalized anxiety disorder: A qualitative study. <i>International Journal of Mental Health Nursing</i> , 2020, 29, 521-530.	3.8	6
6	Development of a guideline for the treatment of generalized anxiety disorder with the ADAPTE method. <i>International Journal for Quality in Health Care</i> , 2020, 32, 356-363.	1.8	5
7	Use of the ADAPTE Method to Develop a Guideline for the Improvement of Depression Care in Primary Care. <i>Psychiatric Services</i> , 2017, 68, 759-761.	2.0	4
8	Tolerance to rewarding brain electrical stimulation: Differential effects of contingent and non-contingent activation of parabrachial complex and lateral hypothalamus. <i>Behavioural Brain Research</i> , 2018, 336, 15-21.	2.2	4
9	Naloxone blocks the aversive effects of electrical stimulation of the parabrachial complex in a place discrimination task. <i>Neurobiology of Learning and Memory</i> , 2016, 136, 21-27.	1.9	3
10	Use of the ADAPTE method to develop a clinical guideline for the improvement of psychoses and schizophrenia care: Example of involvement and participation of patients and family caregivers. <i>Health Expectations</i> , 2021, 24, 516-524.	2.6	3
11	“I do not know where it comes from, I am suspicious of some childhood trauma” association of trauma with psychosis according to the experience of those affected. <i>HÅgskole Utbildning</i> , 2021, 12, 1940759.	3.0	2
12	Tiapride impairs the aversive effect of electrical stimulation of the parabrachial complex in a conditioned place task. <i>Acta Neurobiologiae Experimentalis</i> , 2014, 74, 307-16.	0.7	1
13	Place preferences induced by electrical stimulation of the external lateral parabrachial subnucleus in a sequential learning task. <i>Behavioural Brain Research</i> , 2020, 381, 112442.	2.2	0
14	Tiapride prevents the aversive but not the rewarding effect induced by parabrachial electrical stimulation in a place preference task. <i>Acta Neurobiologiae Experimentalis</i> , 2017, 77, 236-243.	0.7	0
15	Study protocol: a randomised, controlled trial of a nurse navigator program for the management of hepatitis C virus in patients with severe mental disorder. <i>BMC Nursing</i> , 2022, 21, 92.	2.5	0
