DANISH

#	Article	lF	CITATIONS
1	Estimating the impact of information technology on economic growth in south Asian countries: The silver lining of education. Information Development, 2024, 40, 147-157.	2.3	2
2	Nexus between biomass energy consumption and environment in OECD countries: a panel data analysis. Biomass Conversion and Biorefinery, 2023, 13, 1905-1913.	4.6	3
3	Does energy innovation play a role in achieving sustainable development goals in BRICS countries?. Environmental Technology (United Kingdom), 2022, 43, 2290-2299.	2.2	50
4	The effect of nuclear energy on the environment in the context of globalization: Consumption vs production-based CO2 emissions. Nuclear Engineering and Technology, 2022, 54, 1312-1320.	2.3	64
5	Analyzing energy innovation-emissions nexus in China: A novel dynamic simulation method. Energy, 2022, 244, 123010.	8.8	34
6	Turning points for environmental sustainability: the potential role of income inequality, human capital, and globalization. Environmental Science and Pollution Research, 2022, 29, 40878-40892.	5.3	16
7	The nexus between renewable energy, income inequality, and consumptionâ€based <scp>CO₂</scp> emissions: An empirical investigation. Sustainable Development, 2022, 30, 1268-1277.	12.5	18
8	An empirical investigation between renewable energy consumption, globalization and human capital: A dynamic auto-regressive distributive lag simulation. Renewable Energy, 2022, 193, 195-203.	8.9	18
9	CO2 emissions in BRICS countries: what role can environmental regulation and financial development play?. Climatic Change, 2022, 172, .	3.6	18
10	Ecological footprint analysis of the phosphorus industry in China. Environmental Science and Pollution Research, 2022, 29, 73461-73479.	5.3	13
11	Nexus between carbon emission, financial development, and access to electricity: Incorporating the role of natural resources and population growth. Journal of Public Affairs, 2021, 21, .	3.1	25
12	Modeling the dynamic linkage between financial development, energy innovation, and environmental quality: Does globalization matter?. Business Strategy and the Environment, 2021, 30, 176-184.	14.3	308
13	The role of natural resources abundance and dependence in achieving environmental sustainability: Evidence from resourceâ€based economies. Sustainable Development, 2021, 29, 143-154.	12.5	136
14	An empirical investigation of nuclear energy consumption and carbon dioxide (CO2) emission in India: Bridging IPAT and EKC hypotheses. Nuclear Engineering and Technology, 2021, 53, 2056-2065.	2.3	142
15	Dynamics of ecological balance in OECD countries: Sustainable or unsustainable?. Sustainable Production and Consumption, 2021, 26, 638-647.	11.0	23
16	A revisit to the relationship between financial development and energy consumption: Is globalization paramount?. Energy, 2021, 227, 120337.	8.8	41
17	Testing the pollution haven hypothesis on the pathway of sustainable development: Accounting the role of nuclear energy consumption. Nuclear Engineering and Technology, 2021, 53, 2746-2752.	2.3	34
18	Renewable energy, technological innovation and the environment: A novel dynamic auto-regressive distributive lag simulation. Renewable and Sustainable Energy Reviews, 2021, 150, 111433.	16.4	91

#	Article	IF	CITATIONS
19	The corruption-emissions nexus: Do information and communication technologies make a difference?. Utilities Policy, 2021, 72, 101244.	4.0	34
20	Role of institutions in correcting environmental pollution: An empirical investigation. Sustainable Cities and Society, 2020, 53, 101901.	10.4	149
21	Toward achieving environmental sustainability target in Organization for Economic Cooperation and Development countries: The role of real income, research and development, and transport infrastructure. Sustainable Development, 2020, 28, 83-90.	12.5	71
22	How do environmental technologies affect green growth? Evidence from BRICS economies. Science of the Total Environment, 2020, 712, 136504.	8.0	234
23	Determinants of the ecological footprint: Role of renewable energy, natural resources, and urbanization. Sustainable Cities and Society, 2020, 54, 101996.	10.4	562
24	Mitigation pathways toward sustainable development: Is there any tradeâ€off between environmental regulation and carbon emissions reduction?. Sustainable Development, 2020, 28, 813-822.	12.5	127
25	Moving toward sustainable development: The relationship between water productivity, natural resource rent, international trade, and carbon dioxide emissions. Sustainable Development, 2020, 28, 540-549.	12.5	59
26	The nexus between economic globalization and human development in Asian countries: an empirical investigation. Environmental Science and Pollution Research, 2020, 27, 2622-2629.	5.3	18
27	The role of nuclear energy in the correction of environmental pollution: Evidence from Pakistan. Nuclear Engineering and Technology, 2020, 52, 1327-1333.	2.3	100
28	Linking biomass energy and CO2 emissions in China using dynamic Autoregressive-Distributed Lag simulations. Journal of Cleaner Production, 2020, 250, 119533.	9.3	77
29	Relationship between energy consumption and environmental sustainability in OECD countries: The role of natural resources rents. Resources Policy, 2020, 69, 101803.	9.6	158
30	The pathway toward pollution mitigation: Does institutional quality make a difference?. Business Strategy and the Environment, 2020, 29, 3571-3583.	14.3	82
31	ls nuclear energy a better alternative for mitigating CO2 emissions in BRICS countries? An empirical analysis. Nuclear Engineering and Technology, 2020, 52, 2969-2974.	2.3	109
32	Poverty and vulnerability of environmental degradation in Sub-Saharan African countries: what causes what?. Structural Change and Economic Dynamics, 2020, 54, 143-149.	4.5	63
33	Analyzing the relationship between poverty, income inequality, and CO2 emission in Sub-Saharan African countries. Science of the Total Environment, 2020, 740, 139867.	8.0	152
34	An assessment of the environmental sustainability corridor: Investigating the nonâ€linear effects of environmental taxation on <scp>CO₂</scp> emissions. Sustainable Development, 2020, 28, 1010-1018.	12.5	88
35	Relationship between energy intensity and <scp>CO₂</scp> emissions: Does economic policy matter?. Sustainable Development, 2020, 28, 1457-1464.	12.5	152
36	Does information and communication technology affect CO ₂ mitigation under the pathway of sustainable development during the mode of globalization?. Sustainable Development, 2020, 28, 857-867.	12.5	159

#	Article	IF	CITATIONS
37	Linking urbanization, human capital, and the ecological footprint in G7 countries: An empirical analysis. Sustainable Cities and Society, 2020, 55, 102064.	10.4	405
38	Corruption, income inequality and decline in South Asia. Human Systems Management, 2019, 38, 235-241.	1.1	1
39	The dynamic linkage between information and communication technology, human development index, and economic growth: evidence from Asian economies. Environmental Science and Pollution Research, 2019, 26, 26982-26990.	5.3	38
40	Towards crossâ€regional sustainable development: The nexus between information and communication technology, energy consumption, and <scp>CO</scp> ₂ emissions. Sustainable Development, 2019, 27, 990-1000.	12.5	120
41	Effects of information and communication technology and real income on CO2 emissions: The experience of countries along Belt and Road. Telematics and Informatics, 2019, 45, 101300.	5.8	97
42	Analyzing the role of governance in CO2 emissions mitigation: The BRICS experience. Structural Change and Economic Dynamics, 2019, 51, 119-125.	4.5	233
43	Investigation of the ecological footprint's driving factors: What we learn from the experience of emerging economies. Sustainable Cities and Society, 2019, 49, 101626.	10.4	171
44	Effect of natural resources, renewable energy and economic development on CO2 emissions in BRICS countries. Science of the Total Environment, 2019, 678, 632-638.	8.0	605
45	Linking economic growth and ecological footprint through human capital and biocapacity. Sustainable Cities and Society, 2019, 47, 101516.	10.4	336
46	Does biomass energy consumption help to control environmental pollution? Evidence from BRICS countries. Science of the Total Environment, 2019, 670, 1075-1083.	8.0	228
47	Impact of financial development and economic growth on environmental quality: an empirical analysis from Belt and Road Initiative (BRI) countries. Environmental Science and Pollution Research, 2019, 26, 2253-2269.	5.3	191
48	Modeling the non-linear relationship between financial development and energy consumption: statistical experience from OECD countries. Environmental Science and Pollution Research, 2019, 26, 8838-8846.	5.3	103
49	Renewable energy consumption, economic growth and human development index in Pakistan: Evidence form simultaneous equation model. Journal of Cleaner Production, 2018, 184, 1081-1090.	9.3	184
50	The moderating role of corruption between economic growth and CO2 emissions: Evidence from BRICS economies. Energy, 2018, 148, 506-513.	8.8	198
51	Modeling the impact of transport energy consumption on CO2 emission in Pakistan: Evidence from ARDL approach. Environmental Science and Pollution Research, 2018, 25, 9461-9473.	5.3	121
52	Dynamic linkages between road transport energy consumption, economic growth, and environmental quality: evidence from Pakistan. Environmental Science and Pollution Research, 2018, 25, 7541-7552.	5.3	74
53	The nexus between energy consumption and financial development: estimating the role of globalization in Next-11 countries. Environmental Science and Pollution Research, 2018, 25, 18651-18661.	5.3	137
54	Energy production, economic growth and CO2 emission: evidence from Pakistan. Natural Hazards, 2018, 90, 27-50.	3.4	145

#	Article	IF	CITATIONS
55	The dynamics of ICT, foreign direct investment, globalization and economic growth: Panel estimation robust to heterogeneity and cross-sectional dependence. Telematics and Informatics, 2018, 35, 318-328.	5.8	231
56	Imported technology and CO2 emission in China: Collecting evidence through bound testing and VECM approach. Renewable and Sustainable Energy Reviews, 2018, 82, 4204-4214.	16.4	136
57	Dynamic relationship between tourism, economic growth, and environmental quality. Journal of Sustainable Tourism, 2018, 26, 1928-1943.	9.2	175
58	Financial development, globalization, and CO2 emission in the presence of EKC: evidence from BRICS countries. Environmental Science and Pollution Research, 2018, 25, 31283-31296.	5.3	354
59	The role of renewable and non-renewable energy consumption in CO2 emissions: a disaggregate analysis of Pakistan. Environmental Science and Pollution Research, 2018, 25, 31616-31629.	5.3	115
60	The effect of ICT on CO2 emissions in emerging economies: does the level of income matters?. Environmental Science and Pollution Research, 2018, 25, 22850-22860.	5.3	238
61	Financial instability and CO2 emissions: the case of Saudi Arabia. Environmental Science and Pollution Research, 2018, 25, 26030-26045.	5.3	70
62	Nexus between financial development and CO2 emissions in Saudi Arabia: analyzing the role of globalization. Environmental Science and Pollution Research, 2018, 25, 28378-28390.	5.3	204
63	An empirical analysis of financial development and energy demand: establishing the role of globalization. Environmental Science and Pollution Research, 2018, 25, 24326-24337.	5.3	81
64	Will regional economic integration influence carbon dioxide marginal abatement costs? Evidence from Chinese panel data. Energy Economics, 2018, 74, 263-274.	12.1	81
65	Role of renewable energy and non-renewable energy consumption on EKC: Evidence from Pakistan. Journal of Cleaner Production, 2017, 156, 855-864.	9.3	474
66	Dark Triad, Perceptions of Organizational Politics and Counterproductive Work Behaviors: The Moderating Effect of Political Skills. Frontiers in Psychology, 2017, 8, 1972.	2.1	53
