#	ARTICLE	IF	CITATIONS
1	Anxiety and cognitive performance: Attentional control theory.. Emotion, 2007, 7, 336-353.	1.8	3,429
2	Anxiety and Performance: The Processing Efficiency Theory. Cognition and Emotion, 1992, 6, 409-434.	2.0	1,640
3	Facial expressions of emotion (KDEF): Identification under different display-duration conditions. Behavior Research Methods, 2008, 40, 109-115.	4.0	358
4	Eye movement assessment of selective attentional capture by emotional pictures.. Emotion, 2006, 6, 257-268.	1.8	345
5	Detection of emotional faces: Salient physical features guide effective visual search.. Journal of Experimental Psychology: General, 2008, 137, 471-494.	2.1	336
6	Gaze Patterns When Looking at Emotional Pictures: Motivationally Biased Attention. Motivation and Emotion, 2004, 28, 221-243.	1.3	263
7	Perceptual and affective mechanisms in facial expression recognition: An integrative review. Cognition and Emotion, 2016, 30, 1081-1106.	2.0	182
8	Recognition advantage of happy faces: Tracing the neurocognitive processes. Neuropsychologia, 2013, 51, 2051-2061.	1.6	156
9	Facilitated detection of angry faces: Initial orienting and processing efficiency. Cognition and Emotion, 2006, 20, 785-811.	2.0	140
10	Time course of attentional bias to emotional scenes in anxiety: Gaze direction and duration. Cognition and Emotion, 2005, 19, 433-451.	2.0	119
11	Brain lateralization of holistic versus analytic processing of emotional facial expressions. NeuroImage, 2014, 92, 237-247.	4.2	104
12	Facial expression recognition in peripheral versus central vision: role of the eyes and the mouth. Psychological Research, 2014, 78, 180-195.	1.7	102
13	Early vigilance and late avoidance of threat processing: Repressive coping versus low/high anxiety. Cognition and Emotion, 2000, 14, 763-787.	2.0	92
14	Dissociation between recognition and detection advantage for facial expressions: A meta-analysis.. Emotion, 2015, 15, 243-256.	1.8	89
15	Parafoveal Semantic Processing of Emotional Visual Scenes.. Journal of Experimental Psychology: Human Perception and Performance, 2005, 31, 502-519.	0.9	83
16	Visual search of emotional faces: The role of affective content and featural distinctiveness. Cognition and Emotion, 2009, 23, 782-806.	2.0	83
17	Recognition thresholds for static and dynamic emotional faces.. Emotion, 2016, 16, 1186-1200.	1.8	82
18	Emotional scene content drives the saccade generation system reflexively.. Journal of Experimental Psychology: Human Perception and Performance, 2009, 35, 305-323.	0.9	80

#	ARTICLE	IF	CITATIONS
19	Processing of unattended emotional visual scenes.. Journal of Experimental Psychology: General, 2007, 136, 347-369.	2.1	78
20	Food Catches the Eye but Not for Everyone: A BMI-Contingent Attentional Bias in Rapid Detection of Nutriment. PLoS ONE, 2011, 6, e19215.	2.5	78
21	Interpretation Bias in Test Anxiety: The Time Course of Predictive Inferences. Cognition and Emotion, 1997, 11, 43-64.	2.0	70
22	Eye-movement assessment of the time course in facial expression recognition: Neurophysiological implications. Cognitive, Affective and Behavioral Neuroscience, 2009, 9, 398-411.	2.0	70
23	Eye Movements and Processing Stages in Reading: Relative Contribution of Visual, Lexical, and Contextual Factors. Spanish Journal of Psychology, 2002, 5, 66-77.	2.1	68
24	Phobic anxiety in 11 nations. Behaviour Research and Therapy, 2003, 41, 461-479.	3.1	68
25	Phonological Working Memory and Reading in Test Anxiety. Memory, 1996, 4, 289-306.	1.7	65
26	Predictive inferences occur online, but with delay: Convergence of naming and reading times. Discourse Processes, 1996, 22, 57-78.	1.8	62
27	Selective interpretation in anxiety: Uncertainty for threatening events. Cognition and Emotion, 2001, 15, 299-320.	2.0	61
28	Working memory and inferences: Evidence from eye fixations during reading. Memory, 2001, 9, 365-381.	1.7	61
29	Recognition of Facial Expressions of Emotion is Related to their Frequency in Everyday Life. Journal of Nonverbal Behavior, 2014, 38, 549-567.	1.0	58
30	Relative contribution of vocabulary knowledge and working memory span to elaborative inferences in reading. Learning and Individual Differences, 2005, 15, 53-65.	2.7	57
31	Time course of discrimination between emotional facial expressions: The role of visual saliency. Vision Research, 2011, 51, 1751-1759.	1.4	57
32	Emotional scenes in peripheral vision: Selective orienting and gist processing, but not content identification.. Emotion, 2008, 8, 68-80.	1.8	56
33	Recognition advantage of happy faces in extrafoveal vision: Featural and affective processing. Visual Cognition, 2010, 18, 1274-1297.	1.6	55
34	Perceptual, categorical, and affective processing of ambiguous smiling facial expressions. Cognition, 2012, 125, 373-393.	2.2	55
35	Attentional mechanisms in judging genuine and fake smiles: Eye-movement patterns.. Emotion, 2013, 13, 792-802.	1.8	55
36	When does the brain distinguish between genuine and ambiguous smiles? An ERP study. Brain and Cognition, 2013, 81, 237-246.	1.8	54

#	ARTICLE	IF	CITATIONS
37	Ego-threat interpretive bias in test anxiety: On-line inferences. <i>Cognition and Emotion</i> , 1994, 8, 127-146.	2.0	51
38	Test anxiety and comprehension efficiency: The role of prior knowledge and working memory deficits. <i>Anxiety, Stress and Coping</i> , 1992, 5, 125-138.	2.9	50
39	Bias in Predictive Inferences During Reading. <i>Discourse Processes</i> , 2001, 32, 43-71.	1.8	50
40	Social anxiety and threat-related interpretation of dynamic facial expressions: Sensitivity and response bias. <i>Personality and Individual Differences</i> , 2017, 107, 10-16.	2.9	50
41	Detection of emotional faces: low perceptual threshold and wide attentional span. <i>Visual Cognition</i> , 2005, 12, 13-27.	1.6	49
42	Working Memory Capacity and Time Course of Predictive Inferences. <i>Memory</i> , 2000, 8, 51-61.	1.7	47
43	Semantic categorization precedes affective evaluation of visual scenes.. <i>Journal of Experimental Psychology: General</i> , 2010, 139, 222-246.	2.1	47
44	On-line predictive inferences in reading: Processing timeduring versusafter the priming context. <i>Memory and Cognition</i> , 1999, 27, 834-843.	1.6	45
45	The Short-EMBU in Australia, Spain, and Venezuela. <i>European Journal of Psychological Assessment</i> , 2005, 21, 56-66.	3.0	45
46	Visual Search of Emotional Faces. <i>Experimental Psychology</i> , 2008, 55, 359-370.	0.7	44
47	Selective influence of test anxiety on reading processes. <i>British Journal of Psychology</i> , 1993, 84, 375-388.	2.3	42
48	Compensatory reading strategies in test anxiety. <i>Anxiety, Stress and Coping</i> , 1994, 7, 99-116.	2.9	38
49	Short Article: Emotional and Neutral Scenes in Competition: Orienting, Efficiency, and Identification. <i>Quarterly Journal of Experimental Psychology</i> , 2007, 60, 1585-1593.	1.1	38
50	Reaction time normative data for the IAPS as a function of display time, gender, and picture content. <i>Behavior Research Methods</i> , 2009, 41, 184-191.	4.0	37
51	Processing of facial expressions in peripheral vision: Neurophysiological evidence. <i>Biological Psychology</i> , 2014, 100, 60-70.	2.2	37
52	Selective eye fixations on diagnostic face regions of dynamic emotional expressions: KDEF-dyn database. <i>Scientific Reports</i> , 2018, 8, 17039.	3.3	37
53	Masculinityâ€femininity as a national characteristic and its relationship with national agoraphobic fear levels: Fodorâ€™s sex role hypothesis revitalized. <i>Behaviour Research and Therapy</i> , 2003, 41, 795-807.	3.1	36
54	The time course of predictive inferences depends on contextual constraints. <i>Language and Cognitive Processes</i> , 2000, 15, 293-319.	2.2	33

#	ARTICLE	IF	CITATIONS
55	Human Observers and Automated Assessment of Dynamic Emotional Facial Expressions: KDEF-dyn Database Validation. <i>Frontiers in Psychology</i> , 2018, 9, 2052.	2.1	33
56	Selective interpretation in anxiety: Uncertainty for threatening events. <i>Cognition and Emotion</i> , 2001, 15, 299-320.	2.0	32
57	Affective Priming with Pictures of Emotional Scenes: The Role of Perceptual Similarity and Category Relatedness. <i>Spanish Journal of Psychology</i> , 2006, 9, 10-18.	2.1	32
58	Test anxiety, motor performance and learning: Attentional and somatic interference. <i>Personality and Individual Differences</i> , 1990, 11, 29-38.	2.9	30
59	The Anxiety Response: Concordance Among Components. <i>Motivation and Emotion</i> , 1998, 22, 211-230.	1.3	29
60	Foveal vs. Parafoveal Attention-Grabbing Power of Threat-related Information. <i>Experimental Psychology</i> , 2005, 52, 150-162.	0.7	28
61	Can the eyes reveal a person's emotions? Biasing role of the mouth expression. <i>Motivation and Emotion</i> , 2013, 37, 202-211.	1.3	27
62	Mood congruent Bias in Interpretation of Ambiguity Strategic Processes and Temporary Activation. <i>Quarterly Journal of Experimental Psychology Section A: Human Experimental Psychology</i> , 1997, 50, 163-182.	2.3	27
63	Predictive inferences take time to develop. <i>Psychological Research</i> , 1998, 61, 249-260.	1.7	26
64	Emotional reactivity to social-evaluative stress: gender differences in response systems concordance. <i>Personality and Individual Differences</i> , 1999, 27, 155-170.	2.9	26
65	Inferences about predictable events: eye movements during reading. <i>Psychological Research</i> , 2001, 65, 158-169.	1.7	26
66	Anxiety and heart rate under psychological stress: The effects of exercise-training. <i>Anxiety, Stress and Coping</i> , 1996, 9, 321-337.	2.9	24
67	The Nature of Trait Anxiety. <i>European Psychologist</i> , 1997, 2, 301-312.	3.1	24
68	Coping styles and threat processing. <i>Personality and Individual Differences</i> , 2003, 35, 843-861.	2.9	24
69	TEST ANXIETY AND MOTOR PERFORMANCE: THE ROLE OF MUSCULAR AND ATTENTIONAL DEMANDS*. <i>International Journal of Psychology</i> , 1987, 22, 165-178.	2.8	23
70	Effects of test anxiety on motor learning: The processing efficiency hypothesis. <i>Anxiety Research</i> , 1989, 2, 45-55.	0.7	23
71	Strategic influence on the time course of predictive inferences in reading. <i>Memory and Cognition</i> , 2006, 34, 68-77.	1.6	23
72	Affective priming of emotional pictures in parafoveal vision: Left visual field advantage. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2008, 8, 41-53.	2.0	23

#	ARTICLE	IF	CITATIONS
73	Facial attractiveness impressions precede trustworthiness inferences: lower detection thresholds and faster decision latencies. <i>Cognition and Emotion</i> , 2019, 33, 378-385.	2.0	23
74	A smile biases the recognition of eye expressions: Configural projection from a salient mouth. <i>Quarterly Journal of Experimental Psychology</i> , 2013, 66, 1159-1181.	1.1	22
75	Social anxiety and interpretation of ambiguous smiles. <i>Anxiety, Stress and Coping</i> , 2014, 27, 74-89.	2.9	22
76	Effort, aversive representations and performance in test anxiety. <i>Personality and Individual Differences</i> , 1985, 6, 563-571.	2.9	18
77	Time course of elaborative inferences in reading as a function of prior vocabulary knowledge. <i>Learning and Instruction</i> , 2003, 13, 611-631.	3.2	18
78	Genuine memory bias versus response bias in anxiety. <i>Cognition and Emotion</i> , 2003, 17, 843-857.	2.0	18
79	Processing of emotional visual scenes outside the focus of spatial attention: The role of eccentricity. <i>Visual Cognition</i> , 2006, 13, 666-676.	1.6	18
80	Lateralized discrimination of emotional scenes in peripheral vision. <i>Experimental Brain Research</i> , 2015, 233, 997-1006.	1.5	18
81	Social anxiety and trustworthiness judgments of dynamic facial expressions of emotion. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 52, 119-127.	1.2	18
82	Neural time course and brain sources of facial attractiveness vs. trustworthiness judgment. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2018, 18, 1233-1247.	2.0	18
83	Gender roles in relation to assertiveness and eysenckian personality dimensions: Replication with a spanish population sample. <i>Sex Roles</i> , 1997, 36, 79-92.	2.4	17
84	Brain signatures of perceiving a smile: Time course and source localization. <i>Human Brain Mapping</i> , 2015, 36, 4287-4303.	3.6	17
85	Sensitivity to emotional scene content outside the focus of attention. <i>Acta Psychologica</i> , 2015, 161, 36-44.	1.5	17
86	What makes a smiling face look happy? Visual saliency, distinctiveness, and affect. <i>Psychological Research</i> , 2018, 82, 296-309.	1.7	17
87	Cognitive Bias to Internal Sources of Information in Anxiety. <i>International Journal of Psychology</i> , 1998, 33, 287-299.	2.8	16
88	Affective significance enhances covert attention: Roles of anxiety and word familiarity. <i>Quarterly Journal of Experimental Psychology</i> , 2008, 61, 1669-1686.	1.1	16
89	Multidimensional Anxiety and Content-specificity Effects in Preferential Processing of Threat. <i>European Psychologist</i> , 2003, 8, 252-265.	3.1	15
90	Social anxiety and perception of (un)trustworthiness in smiling faces. <i>Psychiatry Research</i> , 2016, 244, 28-36.	3.3	14

#	ARTICLE	IF	CITATIONS
91	Processing of "unattended" threat-related information: Role of emotional content and context. <i>Cognition and Emotion</i> , 2006, 20, 1049-1074.	2.0	13
92	The contribution of facial regions to judgements of happiness and trustworthiness from dynamic expressions. <i>Journal of Cognitive Psychology</i> , 2017, 29, 618-625.	0.9	13
93	Visual attention mechanisms in happiness versus trustworthiness processing of facial expressions. <i>Quarterly Journal of Experimental Psychology</i> , 2019, 72, 729-741.	1.1	13
94	Social anxiety and detection of facial untrustworthiness: Spatio-temporal oculomotor profiles. <i>Psychiatry Research</i> , 2018, 262, 55-62.	3.3	12
95	Discrimination between smiling faces: Human observers vs. automated face analysis. <i>Acta Psychologica</i> , 2018, 187, 19-29.	1.5	12
96	Adaptive attunement of selective covert attention to evolutionary-relevant emotional visual scenes. <i>Consciousness and Cognition</i> , 2017, 51, 223-235.	1.5	11
97	Selective gaze direction and interpretation of facial expressions in social anxiety. <i>Personality and Individual Differences</i> , 2019, 147, 297-305.	2.9	11
98	Eye movement assessment of emotional processing in anxiety.. <i>Emotion</i> , 2002, 2, 105-117.	1.8	10
99	Enhanced Processing of Emotional Gist in Peripheral Vision. <i>Spanish Journal of Psychology</i> , 2009, 12, 414-423.	2.1	9
100	Phonological coding in reading comprehension: The importance of individual differences. <i>European Journal of Cognitive Psychology</i> , 1995, 7, 365-382.	1.3	8
101	Time course of selective attention to face regions in social anxiety: eye-tracking and computational modelling. <i>Cognition and Emotion</i> , 2019, 33, 1481-1488.	2.0	7
102	Anxiety Gives Priority to Anticipation of Threatening Events. <i>European Psychologist</i> , 2000, 5, 234-244.	3.1	7
103	Discrimination thresholds for smiles in genuine versus blended facial expressions. <i>Cogent Psychology</i> , 2015, 2, 1064586.	1.3	6
104	Selective orienting to pleasant versus unpleasant visual scenes. <i>Cognition</i> , 2016, 155, 108-112.	2.2	6
105	Processing of Threat-related Information Outside the Focus of Visual Attention. <i>Spanish Journal of Psychology</i> , 2005, 8, 3-11.	2.1	5
106	Lateralised covert attention in word identification. <i>Laterality</i> , 2009, 14, 178-195.	1.0	5
107	Primacy of emotional vs. semantic scene recognition in peripheral vision. <i>Cognition and Emotion</i> , 2011, 25, 1358-1375.	2.0	5
108	Trustworthiness of a smile as a function of changes in the eye expression. <i>Psicothema</i> , 2017, 29, 462-468.	0.9	5

#	ARTICLE	IF	CITATIONS
109	Anxiety and deficient inhibition of threat distractors: Spatial attention span and time course. <i>Journal of Cognitive Psychology</i> , 2012, 24, 66-78.	0.9	4
110	Semantic word priming in the absence of eye fixations: Relative contributions of overt and covert attention. <i>Psychonomic Bulletin and Review</i> , 2009, 16, 51-56.	2.8	3
111	Extrafoveal capture of attention by emotional scenes: affective valence versus visual saliency. <i>Visual Cognition</i> , 2015, 23, 1061-1071.	1.6	3
112	Test anxiety and ego-threatening stress: Over- (and under-) estimation of emotional reactivity. <i>Anxiety, Stress and Coping</i> , 2000, 13, 143-164.	2.9	2
113	A Smile Radiates Outwards and Biases the Eye Expression. <i>Spanish Journal of Psychology</i> , 2013, 16, E53.	2.1	2
114	How spatial attention and attentional resources influence the processing of emotional visual scenes. <i>Psicothema</i> , 2010, 22, 443-8.	0.9	1
115	Predictive Inferences: Basic Processes and Biased Potentiation by Anxiety. , 2000, , 199-222.		0
116	Multidimensional Anxiety and Content-specificity Effects in Preferential Processing of Threat. <i>European Psychologist</i> , 2003, 8, 252-265.	3.1	0
117	Eye movement assessment of emotional processing in anxiety.. <i>Emotion</i> , 2002, 2, 105-117.	1.8	0
