#	ARTICLE	IF	CITATIONS
1	Effectiveness of the flexible progestin primed ovarian stimulation protocol compared to the flexible GnRH antagonist protocol in women with decreased ovarian reserve. <i>Human Fertility</i> , 2022, 25, 306-312.	0.7	18
2	Placental deficiency during maternal SARS-CoV-2 infection. <i>Placenta</i> , 2022, 117, 47-56.	0.7	18
3	Recurrent implantation failure: a plea for a widely adopted rational definition. <i>Reproductive BioMedicine Online</i> , 2022, 45, 183-185.	1.1	6
4	Which is more predictive ovarian sensitivity marker if there is discordance between serum anti-Müllerian hormone levels and antral follicle count? A retrospective analysis. <i>Journal of Obstetrics and Gynaecology</i> , 2022, 42, 1461-1466.	0.4	5
5	Clinical severity of SARS-CoV-2 infection among vaccinated and unvaccinated pregnancies during the Omicron wave. <i>Ultrasound in Obstetrics and Gynecology</i> , 2022, 59, 560-562.	0.9	30
6	Epidermal growth factor receptor-mutated lung adenocarcinoma diagnosed from endometrial polyp metastasis: A case report and literature review. <i>Türk Jinekoloji Ve Obstetrik Dernei Dergisi</i> , 2022, 19, 81-86.	0.3	2
7	Oral Gonadotropin-Releasing Hormone Antagonists in the Treatment of Uterine Myomas: A Systematic Review and Network Meta-analysis of Efficacy Parameters and Adverse Effects. <i>Journal of Minimally Invasive Gynecology</i> , 2022, 29, 613-625.	0.3	4
8	Follicular phase estradiol administration can be the easiest way of cycle scheduling and follicular synchronization.. <i>F&S Reports</i> , 2022, , .	0.4	0
9	Outcomes of a GnRH Agonist Trigger Following a GnRH Antagonist or Flexible Progestin-Primed Ovarian Stimulation Cycle. <i>Frontiers in Endocrinology</i> , 2022, 13, .	1.5	12
10	Quality or quantity? Pitfalls of assessing the effect of endometrial thickness on live birth rates. <i>Fertility and Sterility</i> , 2022, 118, 428.	0.5	4
11	Correct assessment and interpretation of results determines the accuracy of any diagnostic test, and PGT-A is no exception. <i>Human Reproduction</i> , 2022, 37, 2214-2216.	0.4	5
12	The calm after the storm: re-starting ART treatments safely in the wake of the COVID-19 pandemic. <i>Human Reproduction</i> , 2021, 36, 275-282.	0.4	14
13	Progestins for pituitary suppression during ovarian stimulation for ART: a comprehensive and systematic review including meta-analyses. <i>Human Reproduction Update</i> , 2021, 27, 48-66.	5.2	74
14	The Frequency of Acceptance of Oral Glucose Tolerance Test in Turkish Pregnant Women: a single tertiary center results. <i>İstanbul Kuzey Klinikleri</i> , 2021, 9, 140-148.	0.1	2
15	A Survey of Women Who Cryopreserved Oocytes for Non-medical Indications (Social Fertility) <i>TJ ETQq1 1 0.784314</i> <i>rgBT /Overlock 10</i>	1.1	10
16	Assisted reproductive technology for women with endometriosis, a clinically oriented review. <i>Current Opinion in Obstetrics and Gynecology</i> , 2021, 33, 225-231.	0.9	12
17	A new definition of recurrent implantation failure on the basis of anticipated blastocyst aneuploidy rates across female age. <i>Fertility and Sterility</i> , 2021, 116, 1320-1327.	0.5	32
18	Endometrial thickness is not predictive for live birth after embryo transfer, even without a cutoff. <i>Fertility and Sterility</i> , 2021, 116, 130-137.	0.5	21

#	ARTICLE	IF	CITATIONS
19	O-036 COVID-19, vertical transmission and ART pregnancy outcomes. Human Reproduction, 2021, 36, .	0.4	0
20	Premature ovulation; is any risk small enough to take when avoidable?. Reproductive BioMedicine Online, 2021, 43, 579.	1.1	1
21	Outcomes of SARS-CoV-2 infected pregnancies after medically assisted reproduction. Human Reproduction, 2021, 36, 2883-2890.	0.4	8
22	Do live birth rate and obstetric outcomes vary between immediate and delayed embryo transfers following freeze-all cycles?. Journal of Gynecology Obstetrics and Human Reproduction, 2021, 50, 102224.	0.6	2
23	The Comparison of Fixed and Flexible Progesterin Primed Ovarian Stimulation on Mature Oocyte Yield in Women at Risk of Premature Ovarian Insufficiency. Frontiers in Endocrinology, 2021, 12, 797227.	1.5	8
24	Dual Trigger Compared with Human Chorionic Gonadotropin Alone and Effects on Clinical Outcome of Intracytoplasmic Sperm Injection.. International Journal of Fertility & Sterility, 2021, 15, 294-299.	0.2	0
25	Haste makes waste: donâ€™t rush for a fresh embryo transfer in high responders. Human Reproduction, 2020, 35, 2660-2662.	0.4	6
26	A picture of medically assisted reproduction activities during the COVID-19 pandemic in Europe. Human Reproduction Open, 2020, 2020, hoaa035.	2.3	27
27	Subcutaneous versus vaginal progesterone for vitrifiedâ€™warmed blastocyst transfer in artificial cycles. Reproductive BioMedicine Online, 2020, 41, 248-253.	1.1	16
28	Progestins versus GnRH analogues for pituitary suppression during ovarian stimulation for assisted reproductive technology: a systematic review and meta-analysis. Reproductive BioMedicine Online, 2020, 40, 894-903.	1.1	16
29	The impact of dysmenorrhea and premenstrual syndrome on academic performance of college students, and their willingness to seek help. Tâ€™rk Jinekoloji Ve Obstetrik Dernei Dergisi, 2020, 17, 196-201.	0.3	23
30	Effectiveness and Safety of Freeze-All Strategy with Regard to Medically Assisted Reproduction and Perinatal Outcomes. , 2020, , 411-418.		0
31	The Review of Compared Progesterins Type and Dose Utility against the Pituitary Suppression during Ovarian Stimulation for Assisted Reproductive Technology. Acta Medica Transilvanica, 2020, 25, 45-47.	0.1	0
32	Ovarian Hyperstimulation Syndrome. , 2020, , 335-343.		0
33	Comparison of a novel flexible progesterin primed ovarian stimulation protocol and the flexible gonadotropin-releasing hormone antagonist protocol for assisted reproductive technology. Fertility and Sterility, 2019, 112, 677-683.	0.5	53
34	Dual oocyte retrieval and embryo transfer in the same cycle for women with premature ovarian insufficiency. International Journal of Gynecology and Obstetrics, 2019, 145, 23-27.	1.0	3
35	The Endobiota Study: Comparison of Vaginal, Cervical and Gut Microbiota Between Women with Stage 3/4 Endometriosis and Healthy Controls. Scientific Reports, 2019, 9, 2204.	1.6	125
36	Diminished ovarian reserve versus ovarian aging: overlaps and differences. Current Opinion in Obstetrics and Gynecology, 2019, 31, 139-147.	0.9	39

#	ARTICLE	IF	CITATIONS
37	What is the effect of embryo morphology on serum β -hCG levels?. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2019, 233, 107-113.	0.5	7
38	Gonadotropin-Releasing Hormone Analogs for Gonadal Protection During Gonadotoxic Chemotherapy: A Systematic Review and Meta-Analysis. <i>Reproductive Sciences</i> , 2019, 26, 939-953.	1.1	14
39	Endometrioma and ovarian reserve: effects of endometriomata per se and its surgical treatment on the ovarian reserve. <i>Facts, Views & Vision in ObGyn</i> , 2019, 11, 151-157.	0.5	6
40	Application of seminal plasma to female genital tract prior to embryo transfer in assisted reproductive technology cycles (IVF, ICSI and frozen embryo transfer). <i>The Cochrane Library</i> , 2018, 2018, CD011809.	1.5	12
41	Metabolic syndrome, hypertension, and hyperlipidemia in mothers, fathers, sisters, and brothers of women with polycystic ovary syndrome: a systematic review and meta-analysis. <i>Fertility and Sterility</i> , 2018, 109, 356-364.e32.	0.5	69
42	Anatomic and Functional Outcomes of Paramesonephric Remnant-Supported Laparoscopic Double-Layer Peritoneal Pull-Down Vaginoplasty Technique in Patients with Mayer-Rokitansky-K \ddot{u} ster-Hauser Syndrome: Uncu Modification. <i>Journal of Minimally Invasive Gynecology</i> , 2018, 25, 498-506.	0.3	8
43	Predictive factors for live birth after in vitro maturation of oocytes in women with polycystic ovary syndrome. <i>Archives of Gynecology and Obstetrics</i> , 2018, 297, 199-204.	0.8	14
44	Combined modalities for the prevention of ovarian hyperstimulation syndrome following an excessive response to stimulation. <i>Gynecological Endocrinology</i> , 2018, 34, 252-255.	0.7	10
45	Do endometriomas grow during ovarian stimulation for assisted reproduction? A three-dimensional volume analysis before and after ovarian stimulation. <i>Reproductive BioMedicine Online</i> , 2018, 36, 239-244.	1.1	11
46	Intraoperative endoscopic ultrasound guidance for laparoscopic excision of invisible symptomatic deep intramural myomas. <i>Journal of Obstetrics and Gynaecology</i> , 2018, 38, 85-89.	0.4	4
47	Use of a gelatin-thrombin hemostatic matrix in obstetrics and gynecological surgery. <i>Turkish Journal of Obstetrics and Gynecology</i> , 2018, 15, 193-199.	0.1	10
48	Oocyte in vitro maturation: A systematic review. <i>T\ddot{u}rkiye Jinekoloji Ve Obstetrik Dernei Dergisi</i> , 2018, 15, 112-125.	0.3	58
49	Diabetes mellitus and insulin resistance in mothers, fathers, sisters, and brothers of women with polycystic ovary syndrome: a systematic review and meta-analysis. <i>Fertility and Sterility</i> , 2018, 110, 523-533.e14.	0.5	37
50	Endometrioma-related reduction in ovarian reserve (ERROR): a prospective longitudinal study. <i>Fertility and Sterility</i> , 2018, 110, 122-127.	0.5	88
51	Optimal euploid embryo transfer strategy, fresh versus frozen, after preimplantation genetic screening with next generation sequencing: a randomized controlled trial. <i>Fertility and Sterility</i> , 2017, 107, 723-730.e3.	0.5	120
52	Which is worse? Comparison of ART outcome between women with primary or recurrent endometriomas. <i>Human Reproduction</i> , 2017, 32, 1427-1431.	0.4	11
53	A universal freeze all strategy: why it is not warranted. <i>Current Opinion in Obstetrics and Gynecology</i> , 2017, 29, 136-145.	0.9	17
54	The effect of endometrial injury on implantation and clinical pregnancy rates. <i>Gynecological Endocrinology</i> , 2017, 33, 779-782.	0.7	17

#	ARTICLE	IF	CITATIONS
55	Does pituitary suppression affect live birth rate in women with congenital hypogonadotrophic hypogonadism undergoing intra-cytoplasmic sperm injection? A multicenter cohort study. <i>Gynecological Endocrinology</i> , 2017, 33, 728-732.	0.7	7
56	Ultrasound Monitoring of Ovarian Stimulation. , 2017, , 159-170.		0
57	Obstetric Outcome of In Vitro Maturation Treatment and Risk of Congenital Malformations. , 2017, , 351-358.		0
58	Does the use of gonadotropin-releasing hormone antagonists in natural IVF cycles for poor responder patients cause more harm than benefit?. <i>Human Fertility</i> , 2016, 19, 97-101.	0.7	4
59	Is elective single-embryo transfer a viable treatment policy in in vitro maturation cycles?. <i>Fertility and Sterility</i> , 2016, 106, 1691-1695.	0.5	16
60	Thrombophilia and assisted reproduction technologyâ€™any detrimental impact or unnecessary overuse?. <i>Journal of Assisted Reproduction and Genetics</i> , 2016, 33, 1305-1310.	1.2	22
61	Short and long term outcomes of children conceived with assisted reproductive technology. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2016, 207, 129-136.	0.5	15
62	Parasitic Myomas and an Adenomyoma Obstructing the Ureter After Power Morcellation of Myomas and Endometriotic Nodule Resection. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2016, 38, 362-365.	0.3	4
63	Metabolic and carbohydrate characteristics of different phenotypes of polycystic ovary syndrome. <i>Journal of the Turkish German Gynecology Association</i> , 2016, 17, 201-208.	0.2	7
64	Strategies for Controlled Ovarian Stimulation in the Setting of Ovarian Aging. <i>Seminars in Reproductive Medicine</i> , 2015, 33, 436-448.	0.5	7
65	Application of seminal plasma to female genital tract prior to embryo transfer in assisted reproductive technology cycles (IVF, ICSI and frozen embryo transfer). <i>The Cochrane Library</i> , 2015, , .	1.5	0
66	Impact of endometriomas and their removal on ovarian reserve. <i>Current Opinion in Obstetrics and Gynecology</i> , 2015, 27, 235-241.	0.9	19
67	Gonadotropin-releasing hormone agonist triggering of oocyte maturation in assisted reproductive technology cycles. <i>Tâ€™rk Jinekoloji Ve Obstetrik Dernei Dergisi</i> , 2015, 12, 96-101.	0.3	4
68	Scheduling GnRH antagonist cycles by a short course of oral estradiol administration during early follicular phase: a comparative study with non-scheduled cycles. <i>Gynecological Endocrinology</i> , 2015, , 31, 465-468.	0.7	5
69	The Impact of Endometriosis and Its Treatment on Ovarian Reserve. <i>Seminars in Reproductive Medicine</i> , 2015, 33, 422-428.	0.5	63
70	Effect of Hemostatic Method on Ovarian Reserve Following Laparoscopic Endometrioma Excision; Comparison of Suture, Hemostatic Sealant, and Bipolar Dessication. A Systematic Review and Meta-Analysis. <i>Journal of Minimally Invasive Gynecology</i> , 2015, 22, 363-372.	0.3	71
71	Gynecologic age is an important risk factor for obstetric and perinatal outcomes in adolescent pregnancies. <i>Women and Birth</i> , 2015, 28, e119-e123.	0.9	29
72	Do the Causes of Infertility Play a Direct Role in the Aetiology of Preterm Birth?. <i>Paediatric and Perinatal Epidemiology</i> , 2015, 29, 101-112.	0.8	5

#	ARTICLE	IF	CITATIONS
73	Live birth following early follicular phase oocyte collection and vitrified-warmed embryo transfer 8 days later. <i>Reproductive BioMedicine Online</i> , 2015, 31, 819-822.	1.1	4
74	Role of Three-Dimensional Ultrasound in Gynecology. <i>Journal of Obstetrics and Gynecology of India</i> , 2015, 65, 146-154.	0.3	17
75	Embryo Transfer Media and Catheters. , 2015, , 69-77.		0
76	Effect of tamoxifen on ovarian reserve: A randomized controlled assessor-blind trial in a mouse model. <i>Journal of the Turkish German Gynecology Association</i> , 2014, 15, 228-232.	0.2	10
77	Do Measurements of Uterine Septum Using Three-Dimensional Ultrasound and Magnetic Resonance Imaging Agree?. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2014, 36, 331-338.	0.3	8
78	Comparison of complication rates and pain scores after transvaginal ultrasoundâ€“guided oocyte pickup procedures for inÂvitro maturation and inÂvitro fertilization cycles. <i>Fertility and Sterility</i> , 2014, 101, 705-709.	0.5	29
79	Endometrioma excision and ovarian reserve; do assessments by antral follicle count and anti-Mullerian hormone yield contradictory results?. <i>Human Reproduction</i> , 2014, 29, 2852-2854.	0.4	16
80	Collection of 125 Oocytes in an In Vitro Maturation Cycle Using a New Oocyte Collection Technique: A Case Report. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2014, 36, 900-903.	0.3	4
81	Obstetric outcomes and congenital abnormalities in infants conceived with oocytes matured in vitro. <i>Facts, Views & Vision in ObGyn</i> , 2014, 6, 15-8.	0.5	6
82	Thyroid stimulating hormone levels rise after assisted reproductive technology. <i>Journal of Assisted Reproduction and Genetics</i> , 2013, 30, 1347-1352.	1.2	32
83	Removal of unilateral endometriomas is associated with immediate and sustained reduction in ovarian reserve. <i>Reproductive BioMedicine Online</i> , 2013, 27, 212-216.	1.1	64
84	Severe early ovarian hyperstimulation syndrome following GnRH agonist trigger with the addition of 1500 IU hCG. <i>Human Reproduction</i> , 2013, 28, 2522-2528.	0.4	132
85	Risk factors for ovarian hyperstimulation syndrome: relevance of the number of follicles, serum estradiol levels and the number of oocytes collected. <i>Human Reproduction</i> , 2013, 28, 2595-2595.	0.4	5
86	Prospective assessment of the impact of endometriomas and their removal on ovarian reserve and determinants of the rate of decline in ovarian reserve. <i>Human Reproduction</i> , 2013, 28, 2140-2145.	0.4	181
87	Reply: GnRHa trigger and modified luteal support with one bolus of hCG should be used with caution in extreme responder patients. <i>Human Reproduction</i> , 2013, 28, 2594-2595.	0.4	3
88	In Vitro Maturation of Human Oocytes. , 2013, , 115-131.		0
89	Array CGH analysis shows that aneuploidy is not related to the number of embryos generated. <i>Reproductive BioMedicine Online</i> , 2012, 24, 614-620.	1.1	191
90	Fertility Preservation. <i>Current Obstetrics and Gynecology Reports</i> , 2012, 1, 182-189.	0.3	0

#	ARTICLE	IF	CITATIONS
91	Systematic Review and Metaanalysis of Intraperitoneal Instillation of Local Anesthetics for Reduction of Pain After Gynecologic Laparoscopy. <i>Journal of Minimally Invasive Gynecology</i> , 2012, 19, 545-553.	0.3	81
92	Intra-age, intercenter, and intercycle differences in chromosome abnormalities in oocytes. <i>Fertility and Sterility</i> , 2012, 97, 935-942.	0.5	19
93	In Vitro Maturation of Human Oocytes. , 2012, , 151-160.		0
94	A systematic review of intravenous immunoglobulin for treatment of unexplained recurrent miscarriage. <i>Fertility and Sterility</i> , 2011, 95, 1080-1085.e2.	0.5	82
95	Ultrasound automated volume calculation in reproduction and in pregnancy. <i>Fertility and Sterility</i> , 2011, 95, 2163-2170.	0.5	38
96	Preterm deliveries that result from multiple pregnancies associated with assisted reproductive technologies in the USA: a cost analysis. <i>Current Opinion in Obstetrics and Gynecology</i> , 2011, 23, 168-173.	0.9	116
97	Placenta/birthweight ratio and perinatal outcome: a retrospective cohort analysis. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2011, 118, 741-747.	1.1	74
98	Follicular synchronization using transdermal estradiol patch and GnRH antagonists in the luteal phase; does it increase oocyte yield in poor responders to gonadotropin stimulation for in vitro fertilization (IVF)? A comparative study with microdose flare-up protocol. <i>Gynecological Endocrinology</i> , 2011, 27, 876-879.	0.7	14
99	Obstetric outcomes of IVF trichorionic triamniotic triplets which are spontaneously or electively reduced to twins. <i>Journal of Assisted Reproduction and Genetics</i> , 2011, 28, 1217-1222.	1.2	11
100	SELECTED ORAL COMMUNICATION SESSION SESSION 06: ENDOMETRIOSIS AND SURGERY Monday 4 July 2011 10:00 - 11:30. <i>Human Reproduction</i> , 2011, 26, i11-i14.	0.4	1
101	Comparison of automated and manual follicle monitoring in an unrestricted population of 100 women undergoing controlled ovarian stimulation for IVF. <i>Human Reproduction</i> , 2011, 26, 127-133.	0.4	48
102	Saline instillation sonohysterography test after normal baseline transvaginal sonography results in infertility patients. Is it justified?. <i>Gynecological Endocrinology</i> , 2011, 27, 286-289.	0.7	9
103	Economics of assisted reproductive technologies. <i>Current Opinion in Obstetrics and Gynecology</i> , 2010, 22, 183-188.	0.9	26
104	Cryopreservation of oocytes and embryos for fertility preservation for female cancer patients. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2010, 24, 101-112.	1.4	50
105	In Vitro Maturation of Oocytes as a Strategy for Fertility Preservation. <i>Clinical Obstetrics and Gynecology</i> , 2010, 53, 775-786.	0.6	25
106	ART register data on delivery rates. <i>Human Reproduction</i> , 2010, 25, 805-806.	0.4	0
107	Automatic user-independent zona pellucida imaging at the oocyte stage allows for the prediction of preimplantation development. <i>Fertility and Sterility</i> , 2010, 94, 913-920.	0.5	58
108	Cross-over design trials in infertility—How much multiplicity is too much?. <i>Fertility and Sterility</i> , 2010, 93, e8.	0.5	0

#	ARTICLE	IF	CITATIONS
109	A comparison of IVF triplets; electively vs. spontaneously reduced to twin gestations. <i>Fertility and Sterility</i> , 2010, 94, S22.	0.5	0
110	The chromosome constitution of IVM embryos generated from oocytes at different maturation interval. <i>Fertility and Sterility</i> , 2010, 94, S142-S143.	0.5	1
111	Comparison of the size of the leading follicle as assessed by conventional and automated follicle measurement methods in women undergoing controlled ovarian stimulation for IVF. <i>Fertility and Sterility</i> , 2010, 94, S250.	0.5	1
112	Single dose GnRH agonist administration in the luteal phase of assisted reproduction cycles: is the effect dependent on the type of GnRH analogue used for pituitary suppression?. <i>Reproductive BioMedicine Online</i> , 2010, 20, 165-166.	1.1	17
113	Chromosome abnormality rates in human embryos obtained from in-vitro maturation and IVF treatment cycles. <i>Reproductive BioMedicine Online</i> , 2010, 21, 552-559.	1.1	69
114	Clinical and Sonographic Findings in Suspected Retained Trophoblast after Pregnancy Do Not Predict the Disorder. <i>Journal of Minimally Invasive Gynecology</i> , 2010, 17, 66-69.	0.3	4
115	Effect of high-dose estrogen in luteal phase support on live birth rates after assisted reproduction treatment cycles. <i>Journal of reproductive medicine, The</i> , 2010, 55, 485-90.	0.2	1
116	Pathophysiology of ovarian hyperstimulation syndrome and strategies for its prevention and treatment. <i>Expert Review of Obstetrics and Gynecology</i> , 2009, 4, 299-311.	0.4	18
117	Luteal phase empirical low molecular weight heparin administration in patients with failed ICSI embryo transfer cycles: a randomized open-labeled pilot trial. <i>Human Reproduction</i> , 2009, 24, 1640-1647.	0.4	101
118	Reassurance of safety of letrozole and suggested approaches in controlled ovarian hyperstimulation. <i>Fertility and Sterility</i> , 2009, 92, e6.	0.5	6
119	High dose cabergoline in management of ovarian hyperstimulation syndrome. <i>Fertility and Sterility</i> , 2009, 92, 1168.e1-1168.e4.	0.5	28
120	Embryo implantation rates in natural and stimulated assisted reproduction treatment cycles in poor responders. <i>Reproductive BioMedicine Online</i> , 2008, 17, 207-212.	1.1	27
121	Effect of hyaluronan-enriched transfer medium on implantation and pregnancy rates after day 3 and day 5 embryo transfers: a prospective randomized study. <i>Fertility and Sterility</i> , 2008, 90, 604-612.	0.5	75
122	Dual renin-angiotensin blockage and total embryo cryopreservation is not a risk-free strategy in patients at high risk for ovarian hyperstimulation syndrome. <i>Fertility and Sterility</i> , 2008, 90, 531-536.	0.5	21
123	Reply of the Authors: Mechanism of severe ovarian hyperstimulation syndrome. <i>Fertility and Sterility</i> , 2008, 89, 1843-1844.	0.5	1
124	The effect of preimplantation genetic screening on the probability of live birth in young women with recurrent implantation failure; a nonrandomized parallel group trial. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2008, 140, 224-229.	0.5	11
125	A randomized controlled study of human Day 3 embryo cryopreservation by slow freezing or vitrification: vitrification is associated with higher survival, metabolism and blastocyst formation. <i>Human Reproduction</i> , 2008, 23, 1976-1982.	0.4	226
126	Severe cytoplasmic abnormalities of the oocyte decrease cryosurvival and subsequent embryonic development of cryopreserved embryos. <i>Human Reproduction</i> , 2008, 23, 1778-1785.	0.4	48

#	ARTICLE	IF	CITATIONS
127	GnRH agonist protocol administration in the luteal phase in ICSI-ET cycles stimulated with the long GnRH agonist protocol: a randomized, controlled double blind study. <i>Human Reproduction</i> , 2008, 23, 668-673.	0.4	47
128	Medical Treatment of Uterocutaneous Fistula With Gonadotropin-Releasing Hormone Agonist Administration. <i>Obstetrics and Gynecology</i> , 2008, 111, 526-528.	1.2	30
