#	Article	IF	Citations
1	Selected Cardiovascular and Psychological Changes Throughout a Competitive Season in Collegiate Female Swimmers. Journal of Strength and Conditioning Research, 2020, 34, 3062-3069.	2.1	7
2	Retrieval practice and judgements of learning enhance transfer of physiology information. Advances in Health Sciences Education, 2019, 24, 525-537.	3.3	10
3	The contribution of small and large sensory afferents to postural control in patients with peripheral neuropathy. Journal of Sport and Health Science, 2019, 8, 218-227.	6.5	37
4	Retrieval Practice Enhances the Recall and Transfer of Learning of Physiology Information. FASEB Journal, 2019, 33, 766.30.	0.5	0
5	The Effects of Beetroot Juice on VOmax and Blood Pressure during Submaximal Exercise. International Journal of Exercise Science, 2019, 12, 332-342.	0.5	5
6	Retrieval practice enhances the ability to evaluate complex physiology information. Medical Education, 2018, 52, 513-525.	2.1	20
7	Sport-related concussion induces transient cardiovascular autonomic dysfunction. American Journal of Physiology - Regulatory Integrative and Comparative Physiology, 2017, 312, R575-R584.	1.8	65
8	Distributed retrieval practice promotes superior recall of anatomy information. Anatomical Sciences Education, 2017, 10, 339-347.	3.7	47
9	The benefit of self-testing and interleaving for synthesizing concepts across multiple physiology texts. American Journal of Physiology - Advances in Physiology Education, 2016, 40, 329-334.	1.6	21
10	Self-testing produces superior recall of both familiar and unfamiliar muscle information. American Journal of Physiology - Advances in Physiology Education, 2015, 39, 309-314.	1.6	13
11	The effect of selected â€œdesirable difficultiesâ€•on the ability to recall anatomy information. Anatomical Sciences Education, 2015, 8, 395-403.	3.7	29
12	Self-testing promotes superior retention of anatomy and physiology information. Advances in Health Sciences Education, 2015, 20, 149-161.	3.3	58
13	Benefits of exercise intervention in reducing neuropathic pain. Frontiers in Cellular Neuroscience, 2014, 8, 102.	3.7	93
14	Retrieval practice is an efficient method of enhancing the retention of anatomy and physiology information. American Journal of Physiology - Advances in Physiology Education, 2013, 37, 184-191.	1.6	28
15	Effect of uniform versus expanding retrieval practice on the recall of physiology information. American Journal of Physiology - Advances in Physiology Education, 2012, 36, 6-12.	1.6	26
16	Effect of selected â€œdesirable difficultyâ€•learning strategies on the retention of physiology information. American Journal of Physiology - Advances in Physiology Education, 2011, 35, 378-383.	1.6	20
