#	ARTICLE	IF	CITATIONS
1	Socioeconomic inequalities in asthma and respiratory symptoms in a high-income country: changes from 1996 to 2016. <i>Journal of Asthma</i> , 2023, 60, 185-194.	0.9	3
2	Level of education and asthma control in adult-onset asthma. <i>Journal of Asthma</i> , 2022, 59, 840-849.	0.9	11
3	Uncontrolled asthma predicts severe COVID-19: a report from the Swedish National Airway Register. <i>Therapeutic Advances in Respiratory Disease</i> , 2022, 16, 175346662210911.	1.0	8
4	Restrictive spirometry versus restrictive lung function using the GLI reference values. <i>Clinical Physiology and Functional Imaging</i> , 2022, 42, 181-189.	0.5	5
5	Risk for Exacerbation, Hospitalization and Mortality in Global Initiative for Chronic Obstructive Lung Disease Group B Patients With and Without Exacerbations: A Cohort Study. , 2022, , .		0
6	Uncontrolled asthma occurs in all GINA treatment steps and is associated with worse physical health – a report from the OLIN adult asthma cohort. <i>Journal of Asthma</i> , 2021, 58, 586-595.	0.9	17
7	Adherence to Treatment Recommendations for Chronic Obstructive Pulmonary Disease - Results from the Swedish National Airway Register. <i>International Journal of COPD</i> , 2021, Volume 16, 909-918.	0.9	12
8	High but stable incidence of adult-onset asthma in northern Sweden over the last decades. <i>ERJ Open Research</i> , 2021, 7, 00262-2021.	1.1	5
9	Among respiratory symptoms, wheeze associates most strongly with impaired lung function in adults with asthma: a long-term prospective cohort study. <i>BMJ Open Respiratory Research</i> , 2021, 8, e000981.	1.2	1
10	Predictors of severe COVID-19 in a registry-based Swedish cohort of patients with COPD. <i>European Respiratory Journal</i> , 2021, 58, 2101920.	3.1	5
11	Large underreporting of COPD as cause of death-results from a population-based cohort study. <i>Respiratory Medicine</i> , 2021, 186, 106518.	1.3	19
12	Severe COVID-19 among patients with asthma and COPD: a report from the Swedish National Airway Register. <i>Therapeutic Advances in Respiratory Disease</i> , 2021, 15, 175346662110497.	1.0	9
13	Hand grip strength is associated with fatigue among men with COPD: epidemiological data from northern Sweden. <i>Physiotherapy Theory and Practice</i> , 2020, 36, 408-416.	0.6	13
14	Severe asthma is related to high societal costs and decreased health related quality of life. <i>Respiratory Medicine</i> , 2020, 162, 105860.	1.3	19
15	Do we need tailored training and development plans for European Union respiratory nurses?. <i>Breathe</i> , 2020, 16, 200010.	0.6	2
16	The Swedish National Airway Register (SNAR): development, design and utility to date. <i>European Clinical Respiratory Journal</i> , 2020, 7, 1833412.	0.7	12
17	Decreased COPD prevalence in Sweden after decades of decrease in smoking. <i>Respiratory Research</i> , 2020, 21, 283.	1.4	24
18	Non-response did not affect prevalence estimates of asthma and respiratory symptoms - results from a postal questionnaire survey of the general population. <i>Respiratory Medicine</i> , 2020, 173, 106017.	1.3	13

#	ARTICLE	IF	CITATIONS
19	FEV1 decline in relation to blood eosinophils and neutrophils in a population-based asthma cohort. World Allergy Organization Journal, 2020, 13, 100110.	1.6	19
20	Cardiac biomarkers of prognostic importance in chronic obstructive pulmonary disease. Respiratory Research, 2020, 21, 162.	1.4	4
21	Low socioeconomic status relates to asthma and wheeze, especially in women. ERJ Open Research, 2020, 6, 00258-2019.	1.1	15
22	Remission of adult-onset asthma is rare: a 15-year follow-up study. ERJ Open Research, 2020, 6, 00620-2020.	1.1	18
23	Asthma control and acute healthcare visits among young adults with asthma—A population-based study. Journal of Advanced Nursing, 2019, 75, 3525-3534.	1.5	13
24	Severe asthma—A population study perspective. Clinical and Experimental Allergy, 2019, 49, 819-828.	1.4	70
25	Chronic airway obstruction in a population-based adult asthma cohort: Prevalence, incidence and prognostic factors. Respiratory Medicine, 2018, 138, 115-122.	1.3	19
26	Association of Electronic Cigarette Use With Smoking Habits, Demographic Factors, and Respiratory Symptoms. JAMA Network Open, 2018, 1, e180789.	2.8	86
27	The COPD Assessment Test (CAT) can screen for fatigue among patients with COPD. Therapeutic Advances in Respiratory Disease, 2018, 12, 175346661878738.	1.0	20
28	Adolescent girls with asthma have worse asthma control and health-related quality of life than boys—A population based study. Pediatric Pulmonology, 2017, 52, 866-872.	1.0	24
29	Increased prevalence of allergic asthma from 1996 to 2006 and further to 2016—results from three population surveys. Clinical and Experimental Allergy, 2017, 47, 1426-1435.	1.4	176
30	Population-based study shows that teenage girls with asthma had impaired health-related quality of life. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1128-1135.	0.7	12
31	Asthma in adolescence affects daily life and school attendance - Two cross-sectional population-based studies 10 years apart. Nursing Open, 2017, 4, 143-148.	1.1	9
32	A population-based cohort of adults with asthma: mortality and participation in a long-term follow-up. European Clinical Respiratory Journal, 2017, 4, 1334508.	0.7	22
33	Hand grip strength is associated with forced expiratory volume in 1 second among subjects with COPD: report from a population-based cohort study. International Journal of COPD, 2016, Volume 11, 2527-2534.	0.9	30
34	Restrictive spirometric pattern in the general adult population: Methods of defining the condition and consequences on prevalence. Respiratory Medicine, 2016, 120, 116-123.	1.3	52
35	Decreased prevalence of moderate to severe COPD over 15 years in northern Sweden. Respiratory Medicine, 2016, 114, 103-110.	1.3	51
36	Subjects with well-controlled asthma have similar health-related quality of life as subjects without asthma. Respiratory Medicine, 2016, 120, 64-69.	1.3	14

#	ARTICLE	IF	CITATIONS
37	Creating a balance between breathing and viability: experiences of well-being when living with chronic obstructive pulmonary disease. <i>Primary Health Care Research and Development</i> , 2015, 16, 42-52.	0.5	13
38	Physical activity and fatigue in chronic obstructive pulmonary disease – A population based study. <i>Respiratory Medicine</i> , 2015, 109, 1048-1057.	1.3	44
39	Fatigue Affects Health Status and Predicts Mortality Among Subjects with COPD: Report from the Population-Based OLIN COPD Study. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2015, 12, 199-206.	0.7	37
40	Fatigue in chronic obstructive pulmonary disease: a qualitative study of people's experiences. <i>Scandinavian Journal of Caring Sciences</i> , 2014, 28, 130-138.	1.0	50
41	Fatigue in COPD and the Impact of Respiratory Symptoms and Heart Disease – A Population-based Study. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2013, 10, 125-132.	0.7	38
