#	ARTICLE	IF	CITATIONS
1	Reflective and non-reflective influences on cannabis use among undergraduate students: A qualitative study. <i>Journal of American College Health</i> , 2024, 72, 328-334.	0.8	0
2	Experiences of successful physical activity maintenance among adults with type 2 diabetes: a theory-based qualitative study. <i>Psychology and Health</i> , 2024, 39, 399-416.	1.2	1
3	A dual process model to predict adolescents' screen time and physical activity. <i>Psychology and Health</i> , 2023, 38, 827-846.	1.2	4
4	Developing habit-based health behaviour change interventions: twenty-one questions to guide future research. <i>Psychology and Health</i> , 2023, 38, 518-540.	1.2	26
5	Habit Facilitates Actioning Sun Protective Behavior Intentions. <i>Behavioral Medicine</i> , 2022, 48, 313-319.	1.0	3
6	Behavioral Intervention Components Associated With Cost-effectiveness: A Comparison of Six Domains. <i>Annals of Behavioral Medicine</i> , 2022, 56, 176-192.	1.7	7
7	The Post-Pandemic Lecture: Views from Academic Staff across the UK. <i>Education Sciences</i> , 2022, 12, 123.	1.4	15
8	How does habit form? Guidelines for tracking real-world habit formation. <i>Cogent Psychology</i> , 2022, 9, .	0.6	25
9	Changing healthcare professionals' non-reflective processes to improve the quality of care. <i>Social Science and Medicine</i> , 2022, 298, 114840.	1.8	11
10	Effects of captions, transcripts and reminders on learning and perceptions of lecture capture. <i>International Journal of Educational Technology in Higher Education</i> , 2022, 19, 20.	4.5	7
11	Towards consensus in conceptualizing and operationalizing physical activity maintenance. <i>Psychology of Sport and Exercise</i> , 2022, 61, 102214.	1.1	11
12	Identifying as someone who avoids virus transmission strengthens physical distancing habit-behaviour relationships: A longitudinal multinational study during the COVID-19 pandemic. <i>Applied Psychology: Health and Well-Being</i> , 2022, 14, 1464-1482.	1.6	2
13	Clinical and cost-effectiveness of a personalised health promotion intervention enabling independence in older people with mild frailty (HomeHealth™) compared to treatment as usual: study protocol for a randomised controlled trial. <i>BMC Geriatrics</i> , 2022, 22, .	1.1	2
14	Do preparatory behaviours predict alcohol consumption among UK university students?. <i>British Journal of Health Psychology</i> , 2021, 26, 343-359.	1.9	5
15	Understanding the relationship between safety beliefs and knowledge for cognitive enhancers in UK university students. <i>PLoS ONE</i> , 2021, 16, e0244865.	1.1	7
16	Home-based, tailored intervention for reducing falls after stroke (FAST): Protocol for a randomized trial. <i>International Journal of Stroke</i> , 2021, 16, 174749302199199.	2.9	5
17	The Automaticity of Positive and Negative Thinking: A Scoping Review of Mental Habits. <i>Cognitive Therapy and Research</i> , 2021, 45, 1037-1063.	1.2	5
18	Evolution of physical activity habits after a context change: The case of COVID-19 lockdown. <i>British Journal of Health Psychology</i> , 2021, 26, 1135-1154.	1.9	49

#	ARTICLE	IF	CITATIONS
19	Breaking habits or breaking habitual behaviours? Old habits as a neglected factor in weight loss maintenance. <i>Appetite</i> , 2021, 162, 105183.	1.8	28
20	“Habitually deciding” or “habitually doing”? A response to Hagger (2019). <i>Psychology of Sport and Exercise</i> , 2020, 47, 101539.	1.1	22
21	Towards a Psychology of the Food-Energy-Water Nexus: Costs and Opportunities. <i>Journal of Social Issues</i> , 2020, 76, 136-149.	1.9	8
22	Parents and children active together: a randomized trial protocol examining motivational, regulatory, and habitual intervention approaches. <i>BMC Public Health</i> , 2020, 20, 1436.	1.2	6
23	Habit Interventions. , 2020, , 599-616.		28
24	How do people interpret and respond to self-report sitting time questionnaires? a think-aloud study. <i>Psychology of Sport and Exercise</i> , 2020, 50, 101718.	1.1	3
25	Accounting for automatic processes in sleep health. <i>Journal of Sleep Research</i> , 2020, 29, e12987.	1.7	10
26	“Distancers” and “non-distancers”? The potential social psychological impact of moralizing COVID-19 mitigating practices on sustained behaviour change. <i>British Journal of Social Psychology</i> , 2020, 59, 653-662.	1.8	66
27	Does habit weaken the relationship between intention and behaviour? Revisiting the habit-intention interaction hypothesis. <i>Social and Personality Psychology Compass</i> , 2020, 14, e12553.	2.0	66
28	What influences the selection of contextual cues when starting a new routine behaviour? An exploratory study. <i>BMC Psychology</i> , 2020, 8, 29.	0.9	14
29	SIP SMART: a parallel group randomised feasibility trial of a tailored pre-treatment swallowing intervention package compared with usual care for patients with head and neck cancer. <i>BMC Cancer</i> , 2020, 20, 360.	1.1	17
30	Staff and students perception of lecture capture. <i>Internet and Higher Education</i> , 2020, 46, 100732.	4.2	18
31	Challenges, opportunities and solutions for local physical activity stakeholders: an implementation case study from a cross-sectoral physical activity network in Northeast England. <i>BMC Public Health</i> , 2020, 20, 1760.	1.2	5
32	Family-based habit intervention to promote parent support for child physical activity in Canada: protocol for a randomised trial. <i>BMJ Open</i> , 2020, 10, e033732.	0.8	1
33	Family-based habit intervention to promote parent support for child physical activity in Canada: protocol for a randomised trial. <i>BMJ Open</i> , 2020, 10, e033732.	0.8	4
34	Role of habit in treatment adherence among adults with cystic fibrosis. <i>Thorax</i> , 2019, 74, 197-199.	2.7	28
35	<p></p>A pragmatic behavior-based habit index for adherence to nebulized treatments among adults with cystic fibrosis</p>. <i>Patient Preference and Adherence</i> , 2019, Volume 13, 283-294.	0.8	6
36	Office workers’ experiences of attempts to reduce sitting-time: an exploratory, mixed-methods uncontrolled intervention pilot study. <i>BMC Public Health</i> , 2019, 19, 819.	1.2	25

#	ARTICLE	IF	CITATIONS
37	How we are misinterpreting physical activity intention “ behavior relations and what to do about it. International Journal of Behavioral Nutrition and Physical Activity, 2019, 16, 71.	2.0	30
38	Is sitting invisible? Exploring how people mentally represent sitting. International Journal of Behavioral Nutrition and Physical Activity, 2019, 16, 85.	2.0	34
39	Staff and student views of lecture capture: a qualitative study. International Journal of Educational Technology in Higher Education, 2019, 16, .	4.5	34
40	How do office workers respond to media coverage of sitting?. Occupational Medicine, 2019, 69, 372-375.	0.8	1
41	Health promotion for mild frailty based on behaviour change: Perceptions of older people and service providers. Health and Social Care in the Community, 2019, 27, 1333-1343.	0.7	12
42	A case study: Views on the practice of opting in and out of lecture capture. Education and Information Technologies, 2019, 24, 3075-3090.	3.5	9
43	Predicting what mothers feed their preschoolers: Guided by an extended theory of planned behaviour. Appetite, 2019, 137, 250-258.	1.8	18
44	A matter of habit: Recognizing the multiple roles of habit in health behaviour. British Journal of Health Psychology, 2019, 24, 241-249.	1.9	30
45	Modelling predictors of UK undergraduates’ attitudes towards smart drugs. Trends in Neuroscience and Education, 2019, 14, 33-39.	1.5	16
46	Correlates of sedentary behavior among community-dwelling adults with anxiety in six low- and middle-income countries. Psychiatry Research, 2019, 273, 501-508.	1.7	7
47	Helping Patients With Head and Neck Cancer Understand Dysphagia: Exploring the Use of Video-Animation. American Journal of Speech-Language Pathology, 2019, 28, 697-705.	0.9	15
48	Promoting <sc>CPAP</sc> adherence in clinical practice: A survey of Swedish and Norwegian <sc>CPAP</sc> practitioners’ beliefs and practices. Journal of Sleep Research, 2018, 27, e12675.	1.7	9
49	Relationship between sedentary behavior and depression: A mediation analysis of influential factors across the lifespan among 42,469 people in low- and middle-income countries. Journal of Affective Disorders, 2018, 229, 231-238.	2.0	107
50	Moving upstream in health promoting policies for older people with early frailty in England? A policy analysis. Journal of Health Services Research and Policy, 2018, 23, 168-175.	0.8	10
51	Mental health and well-being concerns of fly-in fly-out workers and their partners in Australia: a qualitative study. BMJ Open, 2018, 8, e019516.	0.8	42
52	Identifying acceptable components for home-based health promotion services for older people with mild frailty: A qualitative study. Health and Social Care in the Community, 2018, 26, 393-403.	0.7	22
53	Physical activity levels in children with sensory problems: Cross-sectional analyses from the Millennium Cohort Study. Disability and Health Journal, 2018, 11, 58-61.	1.6	11
54	Health behaviours of Australian fly-in, fly-out workers and partners during on-shift and off-shift days: an ecological momentary assessment study. BMJ Open, 2018, 8, e023631.	0.8	23

#	ARTICLE	IF	CITATIONS
55	Exploratory study of the impact of perceived reward on habit formation. <i>BMC Psychology</i> , 2018, 6, 62.	0.9	32
56	Modelling Habit Formation and Its Determinants. , 2018, , 207-229.		107
57	The Measurement of Habit. , 2018, , 31-49.		47
58	Sedentary Behavior and Mental Health. , 2018, , 107-119.		5
59	“Could you sit down please?” A qualitative analysis of employees’ experiences of standing in normally-seated workplace meetings. <i>PLoS ONE</i> , 2018, 13, e0198483.	1.1	18
60	Occupational Physical Activity Habits of UK Office Workers: Cross-Sectional Data from the Active Buildings Study. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 1214.	1.2	12
61	Depressive symptoms, handgrip strength, and weight status in US older adults. <i>Journal of Affective Disorders</i> , 2018, 238, 305-310.	2.0	39
62	Implementation of Evidence-Based Practice From a Learning Perspective. <i>Worldviews on Evidence-Based Nursing</i> , 2017, 14, 192-199.	1.2	20
63	Swallowing interventions for the treatment of dysphagia after head and neck cancer: a systematic review of behavioural strategies used to promote patient adherence to swallowing exercises. <i>BMC Cancer</i> , 2017, 17, 43.	1.1	64
64	Specifying the content of home-based health behaviour change interventions for older people with frailty or at risk of frailty: an exploratory systematic review. <i>BMJ Open</i> , 2017, 7, e014127.	0.8	34
65	What contributes to action plan enactment? Examining characteristics of physical activity plans. <i>British Journal of Health Psychology</i> , 2017, 22, 940-957.	1.9	37
66	Determinants of objective adherence to nebulised medications among adults with cystic fibrosis: an exploratory mixed methods study comparing low and high adherers. <i>Health Psychology and Behavioral Medicine</i> , 2017, 5, 299-316.	0.8	17
67	Improving swallowing outcomes in patients with head and neck cancer using a theory-based pretreatment swallowing intervention package: protocol for a randomised feasibility study. <i>BMJ Open</i> , 2017, 7, e014167.	0.8	18
68	Correlates of children's independent outdoor play: Cross-sectional analyses from the Millennium Cohort Study. <i>Preventive Medicine Reports</i> , 2017, 8, 10-14.	0.8	24
69	Patient Experiences of Swallowing Exercises After Head and Neck Cancer: A Qualitative Study Examining Barriers and Facilitators Using Behaviour Change Theory. <i>Dysphagia</i> , 2017, 32, 559-569.	1.0	34
70	Comparing motivational, self-regulatory and habitual processes in a computer-tailored physical activity intervention in hospital employees - protocol for the PATHS randomised controlled trial. <i>BMC Public Health</i> , 2017, 17, 518.	1.2	15
71	How did the public respond to the 2015 expert consensus public health guidance statement on workplace sedentary behaviour? A qualitative analysis. <i>BMC Public Health</i> , 2017, 17, 47.	1.2	17
72	On Your Feet to Earn Your Seat: pilot RCT of a theory-based sedentary behaviour reduction intervention for older adults. <i>Pilot and Feasibility Studies</i> , 2017, 3, 23.	0.5	72
