

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/7768538/elisa-saarnio-publications-by-citations.pdf>  
**Version:** 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.  
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

10 papers	497 citations	9 h-index	10 g-index
10 ext. papers	544 ext. citations	3.7 avg, IF	2.93 L-index

#	Paper	IF	Citations
10	Maternal vitamin D status determines bone variables in the newborn. <i>Journal of Clinical Endocrinology and Metabolism</i> , <b>2010</b> , 95, 1749-57	5.6	215
9	Vitamin D is a major determinant of bone mineral density at school age. <i>PLoS ONE</i> , <b>2012</b> , 7, e40090	3.7	65
8	Effects of vitamin D2-fortified bread v. supplementation with vitamin D2 or D3 on serum 25-hydroxyvitamin D metabolites: an 8-week randomised-controlled trial in young adult Finnish women. <i>British Journal of Nutrition</i> , <b>2016</b> , 115, 1232-9	3.6	53
7	Dual effect of adipose tissue on bone health during growth. <i>Bone</i> , <b>2011</b> , 48, 212-7	4.7	48
6	Vitamin D binding protein genotype is associated with serum 25-hydroxyvitamin D and PTH concentrations, as well as bone health in children and adolescents in Finland. <i>PLoS ONE</i> , <b>2014</b> , 9, e87292	3.7	31
5	Associations among total and food additive phosphorus intake and carotid intima-media thickness--a cross-sectional study in a middle-aged population in Southern Finland. <i>Nutrition Journal</i> , <b>2013</b> , 12, 94	4.3	29
4	Prevalence of vitamin D deficiency and secondary hyperparathyroidism during winter in pre-menopausal Bangladeshi and Somali immigrant and ethnic Finnish women: associations with forearm bone mineral density. <i>British Journal of Nutrition</i> , <b>2012</b> , 107, 277-83	3.6	27
3	Low free 25-hydroxyvitamin D and high vitamin D binding protein and parathyroid hormone in obese Caucasians. A complex association with bone?. <i>PLoS ONE</i> , <b>2018</b> , 13, e0192596	3.7	17
2	Development and validation of an interview-administered FFQ for assessment of vitamin D and calcium intakes in Finnish women. <i>British Journal of Nutrition</i> , <b>2016</b> , 115, 1100-7	3.6	10
1	Serum parathyroid hormone is related to genetic variation in vitamin D binding protein with respect to total, free, and bioavailable 25-hydroxyvitamin D in middle-aged Caucasians in a cross-sectional study. <i>BMC Nutrition</i> , <b>2016</b> , 2,	2.5	2
