

Sonali D Advani

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/77821/sonali-d-advani-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
48	The impact of coronavirus disease 2019 (COVID-19) response on hospital infection prevention programs and practices in the southeastern United States. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-4	2	0
47	Preparing nursing homes for a second wave of coronavirus disease 2019 (COVID-19). <i>Infection Control and Hospital Epidemiology</i> , 2021 , 42, 1251-1254	2	
46	Investing in the Future: A Role for Professional Societies to Prepare the Next Generation of Healthcare Leaders Through Curriculum Development and Dissemination. <i>Clinical Infectious Diseases</i> , 2021 , 73, 911-918	11.6	
45	Sustained reduction in catheter-associated urinary tract infections using multi-faceted strategies led by champions: A quality improvement initiative. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-5	2	1
44	Evaluation of the Infectious Diseases Society of America's Core Antimicrobial Stewardship Curriculum for Infectious Diseases Fellows. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	1
43	Comparison of metrics used to track central-line-associated bloodstream infections (CLABSIs) and catheter-associated urinary tract infections (CAUTIs) across a regional network. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-3	2	
42	Assessing severe acute respiratory coronavirus virus 2 (SARS-CoV-2) preparedness in US community hospitals: A forgotten entity. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 42, 600-603	2	2
41	Are we forgetting the "universal" in universal masking? Current challenges and future solutions. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 42, 784-785	2	3
40	Striving to Reach the Optimal Measure for Catheter-Associated Urinary Tract Infection (CAUTI): Moving to Catheter Harm. <i>Clinical Infectious Diseases</i> , 2021 , 72, e424	11.6	1
39	Deconstructing the urinalysis: A novel approach to diagnostic and antimicrobial stewardship. <i>Antimicrobial Stewardship & Healthcare Epidemiology</i> , 2021 , 1,		2
38	Chlorhexidine for skin antisepsis: making the case to keep peripheral venous catheters CLEAN. <i>Lancet Infectious Diseases</i> , 2021 , 21, 902-903	25.5	
37	Quality Improvement Interventions and Implementation Strategies for Urine Culture Stewardship in the Acute Care Setting: Advances and Challenges. <i>Current Infectious Disease Reports</i> , 2021 , 23, 1	3.9	0
36	Incidence, risk factors, and outcome of <i>Clostridioides difficile</i> infection following urological surgeries. <i>World Journal of Urology</i> , 2021 , 39, 2995-3003	4	
35	Universal masking is an effective strategy to flatten the severe acute respiratory coronavirus virus 2 (SARS-CoV-2) healthcare worker epidemiologic curve. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 1466-1467	2	35
34	Navigating reflex urine culture practices in community hospitals: Need for a validated approach. <i>American Journal of Infection Control</i> , 2020 , 48, 1549-1551	3.8	3
33	An evaluation of metrics for assessing catheter-associated urinary tract infections (CAUTIs): A statewide comparison. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 481-483	2	1
32	Universal masking in hospitals in the COVID-19 era: Is it time to consider shielding?. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 1066-1067	2	17

31	Shifting focus toward healthcare-associated bloodstream infections: The need for neonatal intensive care unit-specific NHSN definitions. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 181-186	2	4
30	Reflex Urine Culture Practices in a Regional Community Hospital Network. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, s370-s370	2	
29	488. SARS-CoV-2 Preparedness among Community Hospitals in Southeastern United States. <i>Open Forum Infectious Diseases</i> , 2020 , 7, S310-S310	1	
28	905. Surgical Site Infections Following Colon Surgery in a Large Network of Community Hospitals. <i>Open Forum Infectious Diseases</i> , 2020 , 7, S486-S487	1	1
27	903. SSI Trends in Community Hospitals from 2013 to 2018. <i>Open Forum Infectious Diseases</i> , 2020 , 7, S485-S486		
26	Comparison of Metrics Used to Track CLABSIs and CAUTIs Across a Regional Network. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, s178-s179	2	
25	Epidemiology of Posttransrectal Prostate Biopsy Bloodstream Infections and Impact of a Screening Program. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, s218-s219	2	
24	1111. #BeASteward: Transforming Infectious Diseases Fellows Into Antimicrobial Stewards Using the IDSA Antimicrobial Stewardship Curriculum. <i>Open Forum Infectious Diseases</i> , 2020 , 7, S585-S586	1	
23	Re: Antibiotic treatment for 6 days versus 12 days in patients with severe cellulitis by Cranendonk et al. <i>Clinical Microbiology and Infection</i> , 2020 , 26, 654-655	9.5	
22	Fever, Rash, and Migratory Polyarthralgias. <i>JAMA - Journal of the American Medical Association</i> , 2019 , 321, 1930-1931	27.4	1
21	Diagnosis of urinary tract infections: need for a reflective rather than reflexive approach. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 834-835	2	7
20	The evolution of catheter-associated urinary tract infection (CAUTI): Is it time for more inclusive metrics?. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 681-685	2	13
19	Knowledge and Practices of Physicians and Nurses Related to Urine Cultures in Catheterized Patients: An Assessment of Adherence to IDSA Guidelines. <i>Open Forum Infectious Diseases</i> , 2019 , 6,	1	5
18	1162. An Evaluation of Metrics for Catheter-Associated Urinary Tract Infections (CAUTIs): A Statewide Comparison. <i>Open Forum Infectious Diseases</i> , 2019 , 6, S415-S416	1	78
17	585. Shifting Focus Toward Healthcare-Associated Bloodstream Infections: Need for More NICU-Specific NHSN Definitions. <i>Open Forum Infectious Diseases</i> , 2019 , 6, S276-S277	1	78
16	The Impact of 2015 NHSN Catheter-associated Urinary Tract Infection (CAUTI) Definition Change on Central Line-associated Bloodstream Infection (CLABSI) Rates and CLABSI Prevention Efforts at an Academic Medical Center. <i>Infection Control and Hospital Epidemiology</i> , 2018 , 39, 878-880	2	3
15	Antimicrobial Stewardship Training for Infectious Diseases Fellows: Program Directors Identify a Curriculum Need. <i>Clinical Infectious Diseases</i> , 2018 , 67, 1285-1287	11.6	17
14	Two Cases and a Review of Graft-Versus-Host Disease and the Role of Hepatitis C Treatment in Liver Transplant Patients. <i>Progress in Transplantation</i> , 2018 , 28, 267-270	1.1	1

13	Increased Fluoroquinolone-Susceptibility and Preserved Nitrofurantoin-Susceptibility among Urine Isolates from Women Long-Term Care Residents: A Brief Report 2018 , 4,		1
12	MP80-02 LEVERAGING STRUCTURED DATA IN AN ENTERPRISE-WIDE ELECTRONIC HEALTH RECORD TO IDENTIFY RISK FACTORS FOR POSTOPERATIVE URINARY RETENTION. <i>Journal of Urology</i> , 2018 , 199,	2.5	1
11	2171. Comparing Surveillance Definitions for Noncatheter-Associated Urinary Tract Infections. <i>Open Forum Infectious Diseases</i> , 2018 , 5, S641-S641	1	78
10	2119. Reducing Catheter-Associated Urinary Tract Infections Using an Evidence-Based Urine Culture Algorithm at an Academic Medical Center. <i>Open Forum Infectious Diseases</i> , 2018 , 5, S622-S623	1	1
9	2120. The Culture of Culturing Catheterized Patients: A Multi-Hospital Survey of Nurses and Physicians. <i>Open Forum Infectious Diseases</i> , 2018 , 5, S623-S623	1	78
8	Impact of Changes to the National Healthcare Safety Network (NHSN) Definition on Catheter-Associated Urinary Tract Infection (CAUTI) Rates in Intensive Care Units at an Academic Medical Center. <i>Infection Control and Hospital Epidemiology</i> , 2017 , 38, 621-623	2	8
7	Peripherally Inserted Central Venous Catheter Complications in Children Receiving Outpatient Parenteral Antibiotic Therapy (OPAT). <i>Infection Control and Hospital Epidemiology</i> , 2016 , 37, 420-4	2	23
6	Postdischarge surveillance to identify subsequent methicillin-resistant <i>Staphylococcus aureus</i> infections in colonized children. <i>American Journal of Infection Control</i> , 2013 , 41, 939-41	3.8	3
5	Catheter dwell time and CLABSIs in neonates with PICCs: a multicenter cohort study. <i>Pediatrics</i> , 2013 , 132, e1609-15	7.4	92
4	Risk factors for peripherally inserted central venous catheter complications in children. <i>JAMA Pediatrics</i> , 2013 , 167, 429-35	8.3	116
3	Diagnostic performance of two highly multiplexed respiratory virus assays in a pediatric cohort. <i>Journal of Clinical Virology</i> , 2012 , 55, 168-72	14.5	20
2	Detecting respiratory viruses in asymptomatic children. <i>Pediatric Infectious Disease Journal</i> , 2012 , 31, 1221-6	3.4	63
1	Central line-associated bloodstream infection in hospitalized children with peripherally inserted central venous catheters: extending risk analyses outside the intensive care unit. <i>Clinical Infectious Diseases</i> , 2011 , 52, 1108-1115	11.6	115
