#	ARTICLE	IF	CITATIONS
1	Fish oil increases mitochondrial phospholipid unsaturation, upregulating reactive oxygen species and apoptosis in rat colonocytes. <i>Carcinogenesis</i> , 2002, 23, 1919-1926.	1.3	129
2	Quercetin May Suppress Rat Aberrant Crypt Foci Formation by Suppressing Inflammatory Mediators That Influence Proliferation and Apoptosis. <i>Journal of Nutrition</i> , 2009, 139, 101-105.	1.3	91
3	Resveratrol and Depression in Animal Models: A Systematic Review of the Biological Mechanisms. <i>Molecules</i> , 2018, 23, 2197.	1.7	90
4	Fish Oil Enhances Targeted Apoptosis During Colon Tumor Initiation in Part by Downregulating Bcl-2. <i>Nutrition and Cancer</i> , 2003, 46, 44-51.	0.9	63
5	Watermelon consumption improves inflammation and antioxidant capacity in rats fed an atherogenic diet. <i>Nutrition Research</i> , 2015, 35, 251-258.	1.3	62
6	Upregulation of p21Waf1/Cip1 expression in vivo by butyrate administration can be chemoprotective or chemopromotive depending on the lipid component of the diet. <i>Carcinogenesis</i> , 2008, 29, 1415-1420.	1.3	60
7	Fish Oil Decreases Oxidative DNA Damage by Enhancing Apoptosis in Rat Colon. <i>Nutrition and Cancer</i> , 2005, 52, 166-175.	0.9	53
8	Moderate Alcohol Consumption and Colorectal Cancer Risk. <i>Alcoholism: Clinical and Experimental Research</i> , 2015, 39, 1280-1291.	1.4	46
9	Relationship among colonocyte proliferation, differentiation, and apoptosis as a function of diet and carcinogen. <i>Nutrition and Cancer</i> , 1997, 28, 20-29.	0.9	39
10	Chinese Red Yeast Rice Versus Lovastatin Effects on Prostate Cancer Cells With and Without Androgen Receptor Overexpression. <i>Journal of Medicinal Food</i> , 2008, 11, 657-666.	0.8	34
11	Differential Response to DNA Damage May Explain Different Cancer Susceptibility Between Small and Large Intestine. <i>Experimental Biology and Medicine</i> , 2005, 230, 464-471.	1.1	32
12	Mixed Nut Consumption May Improve Cardiovascular Disease Risk Factors in Overweight and Obese Adults. <i>Nutrients</i> , 2019, 11, 1488.	1.7	32
13	Watermelon and l-arginine consumption improve serum lipid profile and reduce inflammation and oxidative stress by altering gene expression in rats fed an atherogenic diet. <i>Nutrition Research</i> , 2018, 58, 46-54.	1.3	28
14	Effects of Fresh Watermelon Consumption on the Acute Satiety Response and Cardiometabolic Risk Factors in Overweight and Obese Adults. <i>Nutrients</i> , 2019, 11, 595.	1.7	28
15	Relationships between body weight perception, body mass index, physical activity, and food choices in Southern California male and female adolescents. <i>International Journal of Adolescence and Youth</i> , 2020, 25, 264-275.	0.9	28
16	Anti-Inflammatory, Antioxidant, and Hypolipidemic Effects of Mixed Nuts in Atherogenic Diet-Fed Rats. <i>Molecules</i> , 2018, 23, 3126.	1.7	24
17	Fish Oil Contaminated with Persistent Organic Pollutants Reduces Antioxidant Capacity and Induces Oxidative Stress without Affecting Its Capacity to Lower Lipid Concentrations and Systemic Inflammation in Rats. <i>Journal of Nutrition</i> , 2015, 145, 939-944.	1.3	22
18	<i>In Vivo</i> Regulation of Colonic Cell Proliferation, Differentiation, Apoptosis, and P27Kip1 by Dietary Fish Oil and Butyrate in Rats. <i>Cancer Prevention Research</i> , 2015, 8, 1076-1083.	0.7	22

#	ARTICLE	IF	CITATIONS
19	Effects of moderate alcohol consumption on gene expression related to colonic inflammation and antioxidant enzymes in rats. <i>Alcohol</i> , 2017, 61, 25-31.	0.8	22
20	Effects of Dark Chocolate on Azoxymethane-Induced Colonic Aberrant Crypt Foci. <i>Nutrition and Cancer</i> , 2013, 65, 677-685.	0.9	21
21	Effects of Moderate Ethanol Consumption on Lipid Metabolism and Inflammation Through Regulation of Gene Expression in Rats. <i>Alcohol and Alcoholism</i> , 2019, 54, 5-12.	0.9	20
22	Soy protein supports cardiovascular health by downregulating hydroxymethylglutaryl coenzyme A reductase and sterol regulatory element-binding protein 2 and increasing antioxidant enzyme activity in rats with dextran sodium sulfate-induced mild systemic inflammation. <i>Nutrition Research</i> , 2011, 31, 922-928.	1.3	17
23	Effects of Vitamin D Supplementation on Inflammation, Colonic Cell Kinetics, and Microbiota in Colitis: A Review. <i>Molecules</i> , 2020, 25, 2300.	1.7	17
24	Parametric and Nonparametric Methods for Understanding the Relationship Between Carcinogen-Induced DNA Adduct Levels in Distal and Proximal Regions of the Colon. <i>Journal of the American Statistical Association</i> , 2001, 96, 816-826.	1.8	14
25	Snack selection influences glucose metabolism, antioxidant capacity and cholesterol in healthy overweight adults: A randomized parallel arm trial. <i>Nutrition Research</i> , 2019, 65, 89-98.	1.3	12
26	Fish Oil Contaminated with Persistent Organic Pollutants Induces Colonic Aberrant Crypt Foci Formation and Reduces Antioxidant Enzyme Gene Expression in Rats. <i>Journal of Nutrition</i> , 2017, 147, 1524-1530.	1.3	11
27	Relationships between physical activity, food choices, gender and BMI in Southern Californian teenagers. <i>International Journal of Adolescent Medicine and Health</i> , 2019, 31, .	0.6	11
28	Effect of acute watermelon juice supplementation on post-submaximal exercise heart rate recovery, blood lactate, blood pressure, blood glucose and muscle soreness in healthy non-athletic men and women. <i>International Journal of Food Sciences and Nutrition</i> , 2020, 71, 482-489.	1.3	11
29	Effects of watermelon powder supplementation on colitis in high-fat diet-fed and dextran sodium sulfate-treated rats. <i>Journal of Functional Foods</i> , 2019, 54, 520-528.	1.6	10
30	Honey does not adversely impact blood lipids of adult men and women: a randomized cross-over trial. <i>Nutrition Research</i> , 2020, 74, 87-95.	1.3	10
31	Effects of fresh mango consumption on cardiometabolic risk factors in overweight and obese adults. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2022, 32, 494-503.	1.1	9
32	Effects of low-to-moderate ethanol consumption on colonic growth and gene expression in young adult and middle-aged male rats. <i>PLoS ONE</i> , 2020, 15, e0243499.	1.1	6
33	Comparison of antioxidant capacity of commonly consumed youth beverages in the United States. <i>International Journal of Food Science and Technology</i> , 2016, 51, 1409-1416.	1.3	5
34	Effects of Watermelon Powder and l-arginine Supplementation on Azoxymethane-Induced Colon Carcinogenesis in Rats. <i>Nutrition and Cancer</i> , 2018, 70, 938-945.	0.9	3
35	Watermelon powder supplementation reduces colonic cell proliferation and aberrant crypt foci by upregulating p21Waf1/Cip1 expression. <i>Journal of Functional Foods</i> , 2021, 85, 104667.	1.6	2
36	EFFECTS OF MODERATE ETHANOL CONSUMPTION ON EXPRESSION OF GENES RELATED TO COLONIC CELL GROWTH IN YOUNG ADULT AND OLDER RATS. <i>FASEB Journal</i> , 2020, 34, 1-1.	0.2	1

#	ARTICLE	IF	CITATIONS
37	Effects of moderate ethanol consumption as a function of n-6:n-3 dietary ratio on lipid profile, inflammation, and liver function in mice. <i>International Journal of Cardiology Cardiovascular Risk and Prevention</i> , 2022, 14, 200132.	0.4	1
38	Dietary fish oil downregulates proinflammatory gene expression in colonocytes. <i>FASEB Journal</i> , 2006, 20, A150.	0.2	0
