#	ARTICLE	IF	CITATIONS
1	Uncertainty quantification in Bayesian operational modal analysis with multiple modes and multiple setups. Mechanical Systems and Signal Processing, 2022, 164, 108205.	8.0	5
2	$\langle \text{mml:math xmlns:mml="http://www.w3.org/1998/Math/MathML" altimg="si1.svg"} \rangle \langle \text{mml:mrow} \rangle \langle \text{mml:msub} \rangle \langle \text{mml:mi mathvariant="script"} \rangle H \langle \text{mml:mi} \rangle \langle \text{mml:mn} \rangle 2 \langle \text{mml:mn} \rangle \langle \text{mml:msub} \rangle \langle \text{mml:mrow} \rangle \langle \text{mml:math} \rangle$ -optimal vibration control using receptance-based regional eigenvalue assignment. Mechanical Systems and Signal Processing, 2022, 167, 108591.	8.0	3
3	Fast computation of uncertainty lower bounds for state-space model-based operational modal analysis. Mechanical Systems and Signal Processing, 2022, 169, 108759.	8.0	3
4	Identifying modal properties of trees with Bayesian inference. Agricultural and Forest Meteorology, 2022, 316, 108804.	4.8	7
5	Editorial: Recent advances in stochastic model updating. Mechanical Systems and Signal Processing, 2022, 172, 108971.	8.0	3
6	Dynamic properties of impact hammer operator and their influence on dynamics of lightweight structures. Journal of Sound and Vibration, 2022, 529, 116932.	3.9	2
7	Measuring configuration of multi-setup ambient vibration test. Mechanical Systems and Signal Processing, 2022, 175, 109153.	8.0	2
8	Field measurement and wind tunnel experimental investigation of a supertall building with closely spaced modes under typhoon Mangkhut. Journal of Wind Engineering and Industrial Aerodynamics, 2022, 226, 105033.	3.9	10
9	Model Updating. , 2022, , 897-949.		0
10	Understanding and managing identification uncertainty of close modes in operational modal analysis. Mechanical Systems and Signal Processing, 2021, 147, 107018.	8.0	42
11	Bayesian operational modal analysis with multiple setups and multiple (possibly close) modes. Mechanical Systems and Signal Processing, 2021, 150, 107261.	8.0	21
12	Asymptotic identification uncertainty of well-separated modes in operational modal analysis with multiple setups. Mechanical Systems and Signal Processing, 2021, 152, 107382.	8.0	9
13	Model Updating. , 2021, , 1-53.		2
14	Ambient vibration testing and operational modal analysis of monopole telecoms structures. Journal of Civil Structural Health Monitoring, 2021, 11, 1077.	3.9	5
15	A state-of-the-art review on theory and engineering applications of eigenvalue and eigenvector derivatives. Mechanical Systems and Signal Processing, 2020, 138, 106536.	8.0	40
16	Receptance-based robust eigenstructure assignment. Mechanical Systems and Signal Processing, 2020, 140, 106697.	8.0	18
17	Aeroelastic stability analysis using stochastic structural modifications. Journal of Sound and Vibration, 2020, 477, 115333.	3.9	7
18	Model Updating. , 2020, , 1-53.		3

#	ARTICLE	IF	CITATIONS
19	Parameter selection for model updating with global sensitivity analysis. Mechanical Systems and Signal Processing, 2019, 115, 483-496.	8.0	49
20	Basis-updating for data compression of displacement maps from dynamic DIC measurements. Mechanical Systems and Signal Processing, 2019, 115, 405-417.	8.0	13
21	Multiple-Input Multiple-Output Experimental Aeroelastic Control Using a Receptance-Based Method. AIAA Journal, 2019, 57, 3066-3077.	2.6	13
22	Asymptotic identification uncertainty of close modes in Bayesian operational modal analysis. Mechanical Systems and Signal Processing, 2019, 133, 106273.	8.0	14
23	The minimum norm multi-input multi-output receptance method for partial pole placement. Mechanical Systems and Signal Processing, 2019, 129, 437-448.	8.0	7
24	Compressed sensing for OMA using full-field vibration images. Mechanical Systems and Signal Processing, 2019, 129, 394-406.	8.0	18
25	Measured dynamic properties for FRP footbridges and their critical comparison against structures made of conventional construction materials. Composite Structures, 2019, 223, 110956.	5.8	54
26	Pole placement in uncertain dynamic systems by variance minimisation. Mechanical Systems and Signal Processing, 2019, 127, 290-305.	8.0	13
27	High-Bandwidth Morphing Actuator for Aeroelastic Model Control. Aerospace, 2019, 6, 13.	2.2	14
28	A multivariate interval approach for inverse uncertainty quantification with limited experimental data. Mechanical Systems and Signal Processing, 2019, 118, 534-548.	8.0	52
29	Subsystem identification in structures with a human occupant based on composite frequency response functions. Mechanical Systems and Signal Processing, 2019, 120, 290-307.	8.0	12
30	Experimental feedback linearisation of a non-smooth nonlinear system by the method of receptances. Mathematics and Mechanics of Solids, 2019, 24, 465-482.	2.4	5
31	Experimental feedback linearisation of a vibrating system with a non-smooth nonlinearity. Journal of Sound and Vibration, 2018, 416, 192-212.	3.9	5
32	Frequency response function-based explicit framework for dynamic identification in human-structure systems. Journal of Sound and Vibration, 2018, 422, 453-470.	3.9	15
33	Bayesian operational modal analysis of Jiangyin Yangtze River Bridge. Mechanical Systems and Signal Processing, 2018, 110, 210-230.	8.0	53
34	Feedback linearisation of nonlinear vibration problems: A new formulation by the method of receptances. Mechanical Systems and Signal Processing, 2018, 98, 1056-1068.	8.0	13
35	Quantifying and managing uncertainty in operational modal analysis. Mechanical Systems and Signal Processing, 2018, 102, 139-157.	8.0	33
36	Experimental direct spatial damping identification by the Stabilised Layers Method. Journal of Sound and Vibration, 2018, 437, 325-339.	3.9	8

#	ARTICLE	IF	CITATIONS
37	Sensitivity or Bayesian model updating: a comparison of techniques using the DLR AIRMOD test data. Archive of Applied Mechanics, 2017, 87, 905-925.	2.2	60
38	Experimental Nonlinear Control for Flutter Suppression in a Nonlinear Aeroelastic System. Journal of Guidance, Control, and Dynamics, 2017, 40, 1925-1938.	2.8	24
39	Output-only full-field modal testing. Procedia Engineering, 2017, 199, 423-428.	1.2	3
40	Model Updating Strategy of the DLR-AIRMOD Test Structure. Procedia Engineering, 2017, 199, 978-983.	1.2	5
41	Fuzzy finite element model updating of the DLR AIRMOD test structure. Applied Mathematical Modelling, 2017, 52, 512-526.	4.2	19
42	Robust passivity-based continuous sliding-mode control for under-actuated nonlinear wing sections. Aerospace Science and Technology, 2017, 60, 9-19.	4.8	15
43	Vibration Performance of Two FRP Footbridge Structures in the United Kingdom. , 2017, , .		6
44	Feedback Linearization in Systems with Nonsmooth Nonlinearities. Journal of Guidance, Control, and Dynamics, 2016, 39, 814-825.	2.8	8
45	Uncertainty quantification in DIC with Kriging regression. Optics and Lasers in Engineering, 2016, 78, 182-195.	3.8	15
46	Parameter selection and covariance updating. Mechanical Systems and Signal Processing, 2016, 70-71, 269-283.	8.0	20
47	Block-decoupling vibration control using eigenstructure assignment. Mechanical Systems and Signal Processing, 2016, 74, 11-28.	8.0	10
48	Assessing uncertainty in operational modal analysis incorporating multiple setups using a Bayesian approach. Structural Control and Health Monitoring, 2015, 22, 395-416.	4.0	43
49	Bayesian model updating of a coupled-slab system using field test data utilizing an enhanced Markov chain Monte Carlo simulation algorithm. Engineering Structures, 2015, 102, 144-155.	5.3	122
50	Full-field digital image correlation with Kriging regression. Optics and Lasers in Engineering, 2015, 67, 105-115.	3.8	5
51	A comparison of two stochastic model updating methods using the DLR AIRMOD test structure. Mechanical Systems and Signal Processing, 2015, 52-53, 105-114.	8.0	33
52	Analysis of displacement fields from a high-speed impact using shape descriptors. Journal of Strain Analysis for Engineering Design, 2014, 49, 212-223.	1.8	15
53	Corneal topography matching by iterative registration. Proceedings of the Institution of Mechanical Engineers, Part H: Journal of Engineering in Medicine, 2014, 228, 1154-1167.	1.8	3
54	Image decomposition and uncertainty quantification for the assessment of manufacturing tolerances in stress analysis. Journal of Strain Analysis for Engineering Design, 2014, 49, 618-631.	1.8	4

#	ARTICLE	IF	CITATIONS
55	Aeroelastic Systems with Softening Nonlinearity. AIAA Journal, 2014, 52, 1915-1927.	2.6	11
56	Uncertainty law in ambient modal identification—Part I: Theory. Mechanical Systems and Signal Processing, 2014, 48, 15-33.	8.0	54
57	Uncertainty law in ambient modal identification—Part II: Implication and field verification. Mechanical Systems and Signal Processing, 2014, 48, 34-48.	8.0	39
58	Bayesian operational modal analysis: Theory, computation, practice. Computers and Structures, 2013, 126, 3-14.	4.4	157
59	Multiple-input active vibration control by partial pole placement using the method of receptances. Mechanical Systems and Signal Processing, 2013, 40, 727-735.	8.0	66
60	Adaptive moment descriptors for full-field strain and displacement measurements. Journal of Strain Analysis for Engineering Design, 2013, 48, 16-35.	1.8	18
61	Model Updating Using Shape Descriptors from Full-Field Images. Conference Proceedings of the Society for Experimental Mechanics, 2013, , 425-436.	0.5	3
62	Full-Scale Validation of Dynamic Wind Load on a Super-Tall Building under Strong Wind. Journal of Structural Engineering, 2012, 138, 1161-1172.	3.4	23
63	An Overview of the Receptance Method in Active Vibration Control. IFAC Postprint Volumes IPPV / International Federation of Automatic Control, 2012, 45, 1174-1178.	0.4	16
64	Frequency response functions of shape features from full-field vibration measurements using digital image correlation. Mechanical Systems and Signal Processing, 2012, 28, 333-347.	8.0	114
65	Connecting Bayesian and frequentist quantification of parameter uncertainty in system identification. Mechanical Systems and Signal Processing, 2012, 29, 328-342.	8.0	55
66	Fast Bayesian FFT Method for Ambient Modal Identification with Separated Modes. Journal of Engineering Mechanics - ASCE, 2011, 137, 214-226.	2.9	177
67	Robust pole placement in structures by the method of receptances. Mechanical Systems and Signal Processing, 2011, 25, 112-122.	8.0	61
68	Shape features and finite element model updating from full-field strain data. International Journal of Solids and Structures, 2011, 48, 1644-1657.	2.7	64
69	Transonic aeroelastic simulation for instability searches and uncertainty analysis. Progress in Aerospace Sciences, 2011, 47, 392-423.	12.1	69
70	Finite element model updating from full-field vibration measurement using digital image correlation. Journal of Sound and Vibration, 2011, 330, 1599-1620.	3.9	129
71	Experimental investigations of a multi-span flexible structure subjected to moving masses. Journal of Sound and Vibration, 2011, 330, 2004-2016.	3.9	30
72	Partial pole placement with time delay in structures using the receptance and the system matrices. Linear Algebra and Its Applications, 2011, 434, 1689-1696.	0.9	59

#	ARTICLE	IF	CITATIONS
73	Interval model updating with irreducible uncertainty using the Kriging predictor. Mechanical Systems and Signal Processing, 2011, 25, 1204-1226.	8.0	153
74	The sensitivity method in finite element model updating: A tutorial. Mechanical Systems and Signal Processing, 2011, 25, 2275-2296.	8.0	678
75	Eigenvalue Assignment Problems in Vibration Using Measured Receptances: Passive Modification and Active Control. CISM International Centre for Mechanical Sciences, Courses and Lectures, 2011, , 179-202.	0.6	3
76	Application of the Perturbation Method With Parameter Weighting Matrix Assignments for Estimating Variability in a Set of Nominally Identical Welded Structures. , 2010, , .		0
77	Partial pole placement in structures by the method of receptances: Theory and experiments. Journal of Sound and Vibration, 2010, 329, 5017-5035.	3.9	56
78	Propagation of structural uncertainty to linear aeroelastic stability. Computers and Structures, 2010, 88, 223-236.	4.4	49
79	Clustering of Parameter Sensitivities: Examples from a Helicopter Airframe Model Updating Exercise. Shock and Vibration, 2009, 16, 75-87.	0.6	21
80	An Inverse Method to Assign Receptances by Using Classical Vibration Absorbers. JVC/Journal of Vibration and Control, 2009, 15, 53-84.	2.6	11
81	Vibration of a continuous beam with multiple elastic supports excited by a moving two-axle system with separation. Meccanica, 2009, 44, 293-303.	2.0	13
82	Assignment of eigenvalue sensitivities from receptance measurements. Mechanical Systems and Signal Processing, 2009, 23, 1931-1939.	8.0	45
83	State feedback control with time delay. Mechanical Systems and Signal Processing, 2009, 23, 1940-1945.	8.0	46
84	Mode-shape recognition and finite element model updating using the Zernike moment descriptor. Mechanical Systems and Signal Processing, 2009, 23, 2088-2112.	8.0	85
85	An assessment of damping identification methods. Journal of Sound and Vibration, 2009, 323, 662-676.	3.9	47
86	Vibration mode shape recognition using image processing. Journal of Sound and Vibration, 2009, 326, 909-938.	3.9	59
87	Vibration of a beam excited by a moving oscillator considering separation and reattachment. Journal of Sound and Vibration, 2008, 310, 1128-1140.	3.9	56
88	Active vibration suppression by pole-zero placement using measured receptances. Journal of Sound and Vibration, 2008, 311, 1391-1408.	3.9	73
89	Perturbation methods for the estimation of parameter variability in stochastic model updating. Mechanical Systems and Signal Processing, 2008, 22, 1751-1773.	8.0	157
90	Minimum Relative Entropy Criterion for Damage Detection and Location. Key Engineering Materials, 2007, 347, 421-426.	0.4	1
