#	ARTICLE	IF	CITATIONS
1	The impact of ethnicity on stroke care access and patient outcomes: a New Zealand nationwide observational study. <i>The Lancet Regional Health - Western Pacific</i> , 2022, 20, 100358.	1.3	17
2	Experiences of vocational rehabilitation and support services for people living with a long term condition: qualitative systematic review. <i>Disability and Rehabilitation</i> , 2022, , 1-9.	0.9	0
3	Managing fatigue at work after traumatic brain injury: a qualitative descriptive study. <i>International Journal of Rehabilitation Research</i> , 2022, 45, 93-97.	0.7	0
4	Erythropoiesis-stimulating agents for preventing acute kidney injury. <i>The Cochrane Library</i> , 2022, 2022, .	1.5	0
5	Geographic Disparities in Stroke Outcomes and Service Access. <i>Neurology</i> , 2022, 99, .	1.5	11
6	'Tell someone who cares'™: Participation action research on workplace engagement of caregivers in aged residential care, NZ. <i>Australasian Journal on Ageing</i> , 2021, 40, e109-e115.	0.4	2
7	Engaging Māori with qualitative healthcare research using an animated comic. <i>Health Promotion International</i> , 2021, 36, 1170-1177.	0.9	7
8	Determining whether occupational therapy goals match between pairs of occupational therapists and their clients: a cross-sectional study. <i>Disability and Rehabilitation</i> , 2021, 43, 828-833.	0.9	5
9	Reducing Ethnic and Geographic Inequities to Optimise New Zealand Stroke Care (REGIONS Care): Protocol for a Nationwide Observational Study. <i>JMIR Research Protocols</i> , 2021, 10, e25374.	0.5	7
10	Aldosterone antagonists for people with chronic kidney disease requiring dialysis. <i>The Cochrane Library</i> , 2021, 2, CD013109.	1.5	10
11	What would "upscaling"™ involve? A qualitative study of international variation in stroke rehabilitation. <i>BMC Health Services Research</i> , 2021, 21, 399.	0.9	7
12	Why we need an internationally shared rehabilitation definition for clinical research purposes. <i>Clinical Rehabilitation</i> , 2021, 35, 1657-1660.	1.0	6
13	Use of an iPad App (Aid for Decision-making in Occupational Choice) for Collaborative Goal Setting in Interprofessional Rehabilitation: Qualitative Descriptive Study. <i>JMIR Rehabilitation and Assistive Technologies</i> , 2021, 8, e33027.	1.1	8
14	Vocational interventions to help adults with long-term health conditions or disabilities gain and maintain paid work: an overview of systematic reviews. <i>BMJ Open</i> , 2021, 11, e049522.	0.8	2
15	Exploring how therapeutic horse riding improves health outcomes using a realist framework. <i>British Journal of Occupational Therapy</i> , 2020, 83, 129-139.	0.5	9
16	Use of technology in supporting goal setting in rehabilitation for adults: a scoping review. <i>BMJ Open</i> , 2020, 10, e041730.	0.8	9
17	Effectiveness of vocational interventions for gaining paid work for people living with mild to moderate mental health conditions: systematic review and meta-analysis. <i>BMJ Open</i> , 2020, 10, e039699.	0.8	11
18	P1434ALDOSTERONE ANTAGONISTS FOR PATIENTS UNDERGOING DIALYSIS: A SYSTEMATIC REVIEW AND META-ANALYSIS. <i>Nephrology Dialysis Transplantation</i> , 2020, 35, .	0.4	0

#	ARTICLE	IF	CITATIONS
19	Participation-focused practices in paediatric rehabilitation for children with neurodisability in New Zealand: An observational study using MAPI audit tool. <i>Child: Care, Health and Development</i> , 2020, 46, 552-562.	0.8	8
20	Taking Charge: A Proposed Psychological Intervention to Improve Pulmonary Rehabilitation Outcomes for People with COPD. <i>International Journal of COPD</i> , 2020, Volume 15, 2127-2133.	0.9	4
21	Patient preferences for asthma management: a qualitative study. <i>BMJ Open</i> , 2020, 10, e037491.	0.8	15
22	Can communication training for parents of young children with movement disorders improve the communication between children and parents? A Cochrane Review summary with commentary. <i>NeuroRehabilitation</i> , 2020, 46, 135-137.	0.5	0
23	Learning from clinicians' positive inclination to suicidal patients: A grounded theory model. <i>Death Studies</i> , 2020, , 1-10.	1.8	2
24	Evidence-Synthesis Tools to Inform Evidence-Based Physiatry. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2020, 99, 1072-1073.	0.7	0
25	The Struggle for Evidence in Physical and Rehabilitation Medicine. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2019, 98, 258-265.	0.7	23
26	One in 11 Cochrane Reviews Are on Rehabilitation Interventions, According to Pragmatic Inclusion Criteria Developed by Cochrane Rehabilitation. <i>Archives of Physical Medicine and Rehabilitation</i> , 2019, 100, 1492-1498.	0.5	38
27	Development of an English-language version of a Japanese iPad application to facilitate collaborative goal setting in rehabilitation: a Delphi study and field test. <i>BMJ Open</i> , 2018, 8, e018908.	0.8	12
28	Living Life After Traumatic Brain Injury: Phase 1 of a Longitudinal Qualitative Study. <i>Journal of Head Trauma Rehabilitation</i> , 2018, 33, E44-E52.	1.0	23
29	What Do Final Year Medical Students Understand by the Concept of Recovery? A Descriptive Qualitative Study. <i>Academic Psychiatry</i> , 2018, 42, 382-385.	0.4	3
30	Cochrane Rehabilitation. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2018, 97, 68-71.	0.7	24
31	Mechanisms of Change for Children Participating in Therapeutic Horse Riding: A Grounded Theory. <i>Physical and Occupational Therapy in Pediatrics</i> , 2018, 38, 510-526.	0.8	10
32	Factors influencing referral to and uptake and attendance of pulmonary rehabilitation for chronic obstructive pulmonary disease: a qualitative evidence synthesis of the experiences of service users, their families, and healthcare providers. <i>The Cochrane Library</i> , 2018, , .	1.5	4
33	The "wayfinding" experience of family carers who learn to manage technical health procedures at home: a grounded theory study. <i>Scandinavian Journal of Caring Sciences</i> , 2017, 31, 850-858.	1.0	21
34	Development of a tool to facilitate real life activity retraining in hand and arm therapy. <i>British Journal of Occupational Therapy</i> , 2017, 80, 310-318.	0.5	5
35	Equipment provision after stroke: A scoping review of the use of personal care and mobility aids in rehabilitation. <i>British Journal of Occupational Therapy</i> , 2017, 80, 73-88.	0.5	4
36	Optimising qualitative longitudinal analysis: Insights from a study of traumatic brain injury recovery and adaptation. <i>Nursing Inquiry</i> , 2017, 24, e12170.	1.1	11

#	ARTICLE	IF	CITATIONS
37	Opportunities for a meaningful life for working-aged adults with neurological conditions living in residential aged care facilities: A review of qualitative research. <i>British Journal of Occupational Therapy</i> , 2017, 80, 608-619.	0.5	8
38	Complex home care: challenges arising from the blurring of boundaries between family and professional care. <i>Kotuitui: New Zealand Journal of Social Sciences Online</i> , 2017, 12, 246-255.	0.7	4
39	Whakawhanaungatanga: the importance of culturally meaningful connections to improve uptake of pulmonary rehabilitation by Māori with COPD &ndash; a qualitative study. <i>International Journal of COPD</i> , 2016, 11, 489.	0.9	42
40	Becoming an expert carer: the process of family carers learning to manage technical health procedures at home. <i>Journal of Advanced Nursing</i> , 2016, 72, 2173-2184.	1.5	29
41	Sing Your Lungs Out: a qualitative study of a community singing group for people with chronic obstructive pulmonary disease (COPD): TableÂ1. <i>BMJ Open</i> , 2016, 6, e012521.	0.8	23
42	Transitions in the Embodied Experience After Stroke: Grounded Theory Study. <i>Physical Therapy</i> , 2016, 96, 1565-1575.	1.1	15
43	Cochrane Physical and Rehabilitation Medicine: A New Field to Bridge Between Best Evidence and the Specific Needs of Our Field. <i>Archives of Physical Medicine and Rehabilitation</i> , 2016, 97, 1226-1227.	0.5	10
44	Cochrane physical and rehabilitation medicine: A new field to bridge between best evidence and the specific needs of our field of competence. <i>Manual Therapy</i> , 2016, 26, vii-viii.	1.6	2
45	Non-physiological mechanisms influencing disulfiram treatment of alcohol use disorder: A grounded theory study. <i>Drug and Alcohol Dependence</i> , 2016, 165, 126-131.	1.6	2
46	Cochrane Physical and Rehabilitation Medicine: A New Field to Bridge Between Best Evidence and the Specific Needs of Our Field of Competence. <i>Physical Therapy</i> , 2016, 96, 1109-1110.	1.1	1
47	Exploring the experience of sleep and fatigue in male and female adults over the 2â€...years following traumatic brain injury: a qualitative descriptive study. <i>BMJ Open</i> , 2016, 6, e010453.	0.8	27
48	Interventions for sexual dysfunction in people with chronic obstructive pulmonary disease (COPD). <i>The Cochrane Library</i> , 2015, 2015, .	1.5	6
49	Enabling people, not completing tasks: patient perspectives on relationships and staff morale in mental health wards in England. <i>BMC Psychiatry</i> , 2015, 15, 307.	1.1	12
50	Goal setting and strategies to enhance goal pursuit for adults with acquired disability participating in rehabilitation. <i>The Cochrane Library</i> , 2015, 2015, CD009727.	1.5	119
51	How family carers engage with technical health procedures in the home: a grounded theory study: FigureÂ1. <i>BMJ Open</i> , 2015, 5, e007761.	0.8	18
52	Life goals and social identity in people with severe acquired brain injury: an interpretative phenomenological analysis. <i>Disability and Rehabilitation</i> , 2015, 37, 1234-1241.	0.9	38
53	Survival, momentum, and things that make me â€œmeâ€: patientsâ€™ perceptions of goal setting after stroke. <i>Disability and Rehabilitation</i> , 2014, 36, 1020-1026.	0.9	69
54	Establishing a person-centred framework of self-identity after traumatic brain injury: a grounded theory study to inform measure development. <i>BMJ Open</i> , 2014, 4, e004630.	0.8	36

#	ARTICLE	IF	CITATIONS
55	Self-Reflective Meaning Making in Troubled Times. <i>Qualitative Health Research</i> , 2014, 24, 1033-1047.	1.0	30
56	Developing the Bridges self-management programme for New Zealand stroke survivors: A case study. <i>International Journal of Therapy and Rehabilitation</i> , 2014, 21, 381-388.	0.1	7
57	Coping with multiple sclerosis as a couple: "peaks and troughs" an interpretative phenomenological exploration. <i>Disability and Rehabilitation</i> , 2012, 34, 1367-1375.	0.9	45
58	Impact of stigma, culture and law on healthcare providers after occupational exposure to HIV and hepatitis C. <i>Culture, Health and Sexuality</i> , 2012, 14, 379-391.	1.0	12
59	Nursing contribution to the rehabilitation of older patients: patient and family perspectives. <i>Journal of Advanced Nursing</i> , 2012, 68, 2466-2476.	1.5	18
60	Healthcare Providers' Perspectives on Occupational Exposure to HIV: A Cross-Cultural Comparison. <i>Journal of AIDS &amp; Clinical Research</i> , 2012, 03, .	0.5	0
61	Navigating patient-centered goal setting in inpatient stroke rehabilitation: How clinicians control the process to meet perceived professional responsibilities. <i>Patient Education and Counseling</i> , 2011, 85, 206-213.	1.0	132
62	Experience of recovery and outcome following traumatic brain injury: a metasynthesis of qualitative research. <i>Disability and Rehabilitation</i> , 2010, 32, 986-999.	0.9	188
63	Ethics in goal planning for rehabilitation: a utilitarian perspective. <i>Clinical Rehabilitation</i> , 2009, 23, 345-351.	1.0	26
64	Areas of consensus and controversy about goal setting in rehabilitation: a conference report. <i>Clinical Rehabilitation</i> , 2009, 23, 334-344.	1.0	166
65	Goal planning for adults with acquired brain injury: How clinicians talk about involving family. <i>Brain Injury</i> , 2009, 23, 192-202.	0.6	64
66	Letters to the editor. <i>Clinical Rehabilitation</i> , 2007, 21, 284-286.	1.0	1
67	A Good Lives Model of clinical and community rehabilitation. <i>Disability and Rehabilitation</i> , 2007, 29, 1604-1615.	0.9	32
68	How clinicians talk about the application of goal planning to rehabilitation for people with brain injury"variable interpretations of value and purpose. <i>Brain Injury</i> , 2006, 20, 1439-1449.	0.6	33
69	Purposes and mechanisms of goal planning in rehabilitation: The need for a critical distinction. <i>Disability and Rehabilitation</i> , 2006, 28, 741-749.	0.9	117
70	Is goal planning in rehabilitation effective? A systematic review. <i>Clinical Rehabilitation</i> , 2006, 20, 739-755.	1.0	198
71	A new classification for outcomes in illness and injury. <i>British Journal of Hospital Medicine (London)</i> , 2006, 20, 739-755.	0.2	9
72	Success in the workplace following traumatic brain injury: are we evaluating what is most important?. <i>Disability and Rehabilitation</i> , 2004, 26, 290-298.	0.9	59
