#	Paper	IF	Citations
73	Attitude and communication skills of German medical students.. <i>BMC Research Notes</i> , 2022 , 15, 11	2.3	0
72	How good are medical students at communicating risk? An implementation study at three German medical schools. <i>Patient Education and Counseling</i> , 2022 , 105, 128-135	3.1	
71	Long-term outcomes among localized prostate cancer survivors: prospective predictors for return-to-work three years after cancer rehabilitation. <i>Supportive Care in Cancer</i> , 2022 , 30, 843-854	3.9	
70	Children with cancer and their families after active treatment: analyses of biopsychosocial needs and implications for healthcare - a study protocol.. <i>BMJ Open</i> , 2022 , 12, e055633	3	
69	Familie Belastungen bei Krebs. <i>Best Practice Onkologie</i> , 2022 , 17, 214-218	0	0
68	Families Affected by Parental Cancer: Quality of Life, Impact on Children and Psychosocial Care Needs. <i>Frontiers in Psychiatry</i> , 2021 , 12, 765327	5	1
67	Mental burden and perception of the study situation among undergraduate students during the COVID-19 pandemic: a cross-sectional study and comparison of dental and medical students. <i>BMJ Open</i> , 2021 , 11, e054728	3	2
66	Associations between communication OSCE performance and admission interviews in medical education. <i>Patient Education and Counseling</i> , 2021 ,	3.1	1
65	Estimates of Prevalence Rates of Cancer Patients With Children and Well-Being in Affected Children: A Systematic Review on Population-Based Findings.. <i>Frontiers in Psychiatry</i> , 2021 , 12, 765314	5	1
64	Parotid sparing and quality of life in long-term survivors of locally advanced head and neck cancer after intensity-modulated radiation therapy. <i>Strahlentherapie Und Onkologie</i> , 2021 , 197, 219-230	4.3	1
63	Fear of progression in parents of childhood cancer survivors: prevalence and associated factors. <i>Journal of Cancer Survivorship</i> , 2021 , 1	5.1	1
62	Supportive care needs and service use during palliative care in family caregivers of patients with advanced cancer: a prospective longitudinal study. <i>Supportive Care in Cancer</i> , 2021 , 29, 1303-1315	3.9	7
61	Self-reported health literacy and medication adherence in older adults: a systematic review.. <i>BMJ Open</i> , 2021 , 11, e056307	3	1
60	Understanding Mental Burden and Factors Associated With Study Worries Among Undergraduate Medical Students During the COVID-19 Pandemic.. <i>Frontiers in Psychology</i> , 2021 , 12, 734264	3.4	2
59	Pharmaceutical management of elderly high-risk patients in perioperative settings (PHAROS): protocol of a pilot sequential intervention study. <i>BMJ Open</i> , 2020 , 10, e039094	3	0
58	Ethical challenges in family caregivers of patients with advanced cancer - a qualitative study. <i>BMC Palliative Care</i> , 2020 , 19, 70	3	7
57	Evaluation of a communication skills training to facilitate addressing palliative care related topics in advanced cancer patients: study protocol of a multicenter randomized controlled trial (PALI-KOM). <i>BMC Palliative Care</i> , 2020 , 19, 67	3	1

56	Inter-professional teamwork and its association with patient safety in German hospitals-A cross sectional study. <i>PLoS ONE</i> , 2020 , 15, e0233766	3.7	2
55	Does a Train-the-Trainer Approach for Enhancing Healthcare Professionals Skills in Patient Education during Inpatient Medical Rehabilitation Improve Patient Outcomes?. <i>Rehabilitation Research and Practice</i> , 2020 , 2020, 8316256	1.2	
54	Parents' perception of their children's process of reintegration after childhood cancer treatment. <i>PLoS ONE</i> , 2020 , 15, e0239967	3.7	4
53	Perception of the study situation and mental burden during the COVID-19 pandemic among undergraduate medical students with and without mentoring. <i>GMS Journal for Medical Education</i> , 2020 , 37, Doc72	0.8	8
52	Interface management concepts in healthcare for rare diseases in Germany: a study protocol for a mixed-methods study to develop best practice recommendations. <i>BMJ Open</i> , 2020 , 10, e040470	3	
51	Identifying Expectations of Delayed Return to Work in Patients with Prostate Cancer at the Beginning of a Cancer Rehabilitation Program. <i>Journal of Occupational Rehabilitation</i> , 2020 , 30, 183-193	3.6	3
50	Psychosoziale Belastungsfaktoren und Versorgung bei seltenen onkologischen Erkrankungen. <i>Onkologie</i> , 2020 , 26, 277-282	0.1	
49	How Communication "Failed" or "Saved the Day": Counterfactual Accounts of Medical Errors. <i>Journal of Patient Experience</i> , 2020 , 7, 1247-1254	1.3	1
48	Returning to daily life: a qualitative interview study on parents of childhood cancer survivors in Germany. <i>BMJ Open</i> , 2020 , 10, e033730	3	12
47	Psychosocial Distress in Women With Breast Cancer and Their Partners and Its Impact on Supportive Care Needs in Partners. <i>Frontiers in Psychology</i> , 2020 , 11, 564079	3.4	3
46	Fear of progression in parents of childhood cancer survivors: A dyadic data analysis. <i>Psycho-Oncology</i> , 2020 , 29, 1678-1685	3.9	5
45	Prevalence and Predictors of Distress, Anxiety, Depression, and Quality of Life in Bereaved Family Caregivers of Patients With Advanced Cancer. <i>American Journal of Hospice and Palliative Medicine</i> , 2020 , 37, 201-213	2.6	16
44	Process-evaluation and outcome-evaluation of a training programme for healthcare professionals in oncology to enhance their competencies in caring for patients with minor children: a study protocol for a randomised controlled pilot study. <i>BMJ Open</i> , 2019 , 9, e032778	3	5
43	The course of cancer-related insomnia: don't expect it to disappear after cancer treatment. <i>Sleep Medicine</i> , 2019 , 58, 107-113	4.6	14
42	Piloting and evaluating feasibility of a training program to improve patient safety for inter-professional inpatient care teams - study protocol of a cluster randomized controlled trial. <i>Trials</i> , 2019 , 20, 386	2.8	1
41	Psychological burden in family caregivers of patients with advanced cancer at initiation of specialist inpatient palliative care. <i>BMC Palliative Care</i> , 2019 , 18, 102	3	28
40	Study protocol of a randomized controlled trial on two new dissemination strategies for a brief, shared-decision-making (SDM) training for oncologists: web-based interactive SDM online-training versus individualized context-based SDM face-to-face training. <i>Trials</i> , 2019 , 20, 18	2.8	
39	Parental cancer: Characteristics of users of child-centred counselling versus individual psycho-oncological treatment. <i>Psycho-Oncology</i> , 2018 , 27, 955-961	3.9	3

38	When a mother has cancer: strains and resources of affected families from the mother's and father's perspective - a qualitative study. <i>BMC Women's Health</i> , 2018 , 18, 72	2.9	16
37	Return to work in prostate cancer survivors - findings from a prospective study on occupational reintegration following a cancer rehabilitation program. <i>BMC Cancer</i> , 2018 , 18, 751	4.8	7
36	Psychosocial interventions for rehabilitation and reintegration into daily life of pediatric cancer survivors and their families: A systematic review. <i>PLoS ONE</i> , 2018 , 13, e0196151	3.7	16
35	Psychoonkologische Aspekte beim Vulva- und Vaginalkarzinom 2018 , 307-314		
34	Measuring family functioning in families with parental cancer: Reliability and validity of the German adaptation of the Family Assessment Device (FAD). <i>Journal of Psychosomatic Research</i> , 2017 , 93, 110-117	4.1	9
33	Outcomes across the return-to-work process in PC survivors attending a rehabilitation measure-results from a prospective study. <i>Supportive Care in Cancer</i> , 2017 , 25, 3007-3015	3.9	10
32	The role of rehabilitation measures in reintegration of children with brain tumours or leukaemia and their families after completion of cancer treatment: a study protocol. <i>BMJ Open</i> , 2017 , 7, e014505	3	7
31	Anxiety and depression in working-age cancer survivors: a register-based study. <i>BMC Cancer</i> , 2017 , 17, 347	4.8	37
30	Quality of life, psychological burden, needs, and satisfaction during specialized inpatient palliative care in family caregivers of advanced cancer patients. <i>BMC Palliative Care</i> , 2017 , 16, 31	3	66
29	Schwer kranke Eltern - Schwer belastete Kinder. <i>Pädiatrie Kinder- Und Jugendmedizin Hautnah</i> , 2016 , 28, 38-42	0	
28	Understanding parenting concerns in cancer survivors with minor and young-adult children. <i>Journal of Psychosomatic Research</i> , 2016 , 87, 1-6	4.1	11
27	Psychosocial Interventions for Families with Parental Cancer and Barriers and Facilitators to Implementation and Use - A Systematic Review. <i>PLoS ONE</i> , 2016 , 11, e0156967	3.7	42
26	Sozialmedizinische Aspekte der Rehabilitation 2016 , 2207-2209		
25	Psychometric properties of the Parenting Concerns Questionnaire in cancer survivors with minor and young adult children. <i>Psycho-Oncology</i> , 2016 , 25, 1092-8	3.9	12
24	Entwicklung einer Entscheidungshilfe zum Mammographiescreening. <i>Onkologie</i> , 2016 , 22, 578-585	0.1	1
23	Psychosocial and physical outcomes of in- and outpatient rehabilitation in prostate cancer patients treated with radical prostatectomy. <i>Supportive Care in Cancer</i> , 2016 , 24, 2717-26	3.9	12
22	Symptom change trajectories during inpatient psychotherapy in routine care and their associations with long-term outcomes. <i>Psychiatry Research</i> , 2016 , 238, 228-235	9.9	14
21	Eltern in palliativer Erkrankungssituation. <i>Procure: Das Fortbildungsmagazin Für Pflegeberufe</i> , 2015 , 20, 18-21	0.1	

20 Sozialmedizinische Aspekte der Rehabilitation **2015**, 1-4

19 Children of cancer patients: prevalence and predictors of emotional and behavioral problems. *Cancer*, **2014**, 120, 2361-70 6.4 29

18 Psychosoziale Onkologie. *Public Health Forum*, **2014**, 22, 45-46 0.1

17 A comparison of the emotional and behavioral problems of children of patients with cancer or a mental disorder and their association with parental quality of life. *Journal of Psychosomatic Research*, **2014**, 76, 213-20 4.1 11

16 Parental cancer: Health-related quality of life and current psychosocial support needs of cancer survivors and their children. *International Journal of Cancer*, **2014**, 135, 2668-77 7.5 20

15 "Alcohol and nicotine"--Concept and evaluation of an interdisciplinary elective course with OSPE in preclinical medical education. *GMS Zeitschrift für Medizinische Ausbildung*, **2014**, 31, Doc9

14 Kinder körperlich kranker Eltern **2014**, 111-118

13 Psychological distress in cancer patients with underage children: gender-specific differences. *Psycho-Oncology*, **2013**, 22, 823-8 3.9 33

12 Elternschaft, Krebs und Kindersorgen. *Psychotherapeut*, **2013**, 58, 576-582 0.5 1

11 Work-related predictors of not returning to work after inpatient rehabilitation in cancer patients. *Acta Oncologica*, **2013**, 52, 1067-75 3.2 21

10 Use and need for psychosocial support in cancer patients: a population-based sample of patients with minor children. *Cancer*, **2013**, 119, 2333-41 6.4 44

9 "There is still so much ahead of us"-family functioning in families of palliative cancer patients. *Families, Systems and Health*, **2013**, 31, 181-193 0.7 13

8 Parental cancer: factors associated with children's psychosocial adjustment--a systematic review. *Journal of Psychosomatic Research*, **2012**, 72, 344-56 4.1 99

7 Parental palliative cancer: psychosocial adjustment and health-related quality of life in adolescents participating in a German family counselling service. *BMC Palliative Care*, **2012**, 11, 21 3 20

6 Minor children of palliative patients: a systematic review of psychosocial family interventions. *Journal of Palliative Medicine*, **2012**, 15, 931-45 2.2 28

5 Messung der gesundheitsbezogenen Lebensqualität mit dem SF-8. *Diagnostica*, **2012**, 58, 145-153 0.8 49

4 Seelische Gesundheitsvorsorge für Kinder krebskranker Eltern. *Psychotherapeut*, **2011**, 56, 400-408 0.5 9

3 Cancer rehabilitation: A Nordic and European perspective. *Acta Oncologica*, **2011**, 50, 179-86 3.2 102

- 2 Quality of life in partners of patients with cancer. *Quality of Life Research*, **2008**, 17, 653-63 3.7 26
- 1 Lessons learned in the implementation of an innovative consultation and liaison service for children of cancer patients in various hospital settings. *Psycho-Oncology*, **2007**, 16, 138-48 3.9 28
