#	ARTICLE	IF	CITATIONS
1	From decidualization to pregnancy progression: An overview of immune and metabolic effects of VIP. American Journal of Reproductive Immunology, 2022, 88, .	1.2	3
2	Zika virus infection of first trimester trophoblast cells affects cell migration, metabolism and immune homeostasis control. Journal of Cellular Physiology, 2021, 236, 4913-4925.	4.1	12
3	In Vitro Identification and Isolation of Human Neutrophil Extracellular Traps. Methods in Molecular Biology, 2021, 2255, 97-117.	0.9	2
4	Interplay between neutrophils and trophoblast cells conditions trophoblast function and triggers vascular transformation signals. Journal of Cellular Physiology, 2020, 235, 3592-3603.	4.1	8
5	Control of the inflammatory response during pregnancy: potential role of VIP as a regulatory peptide. Annals of the New York Academy of Sciences, 2019, 1437, 15-21.	3.8	25
6	Trophoblast VIP deficiency entails immune homeostasis loss and adverse pregnancy outcome in mice. FASEB Journal, 2019, 33, 1801-1810.	0.5	16
7	Trophoblast cells inhibit neutrophil extracellular trap formation and enhance apoptosis through vasoactive intestinal peptide-mediated pathways. Human Reproduction, 2017, 32, 55-64.	0.9	20
8	Trophoblast cells primed with vasoactive intestinal peptide enhance monocyte migration and apoptotic cell clearance through α _v β ₃ integrin portal formation in a model of maternal-placental interaction. Molecular Human Reproduction, 2015, 21, 930-941.	2.8	19
9	Vasoactive Intestinal Peptide Induces an Immunosuppressant Microenvironment in the Maternal-Fetal Interface of Non-Obese Diabetic Mice and Improves Early Pregnancy Outcome. American Journal of Reproductive Immunology, 2014, 71, 120-130.	1.2	19
