#	ARTICLE	IF	CITATIONS
1	Schistosomiasis. Nature Reviews Disease Primers, 2018, 4, 13.	18.1	689
2	World Health Organization Estimates of the Global and Regional Disease Burden of 11 Foodborne Parasitic Diseases, 2010: A Data Synthesis. PLoS Medicine, 2015, 12, e1001920.	3.9	552
3	The public health significance and control of schistosomiasis in China—then and now. Acta Tropica, 2005, 96, 97-105.	0.9	358
4	Soil-Transmitted Helminth Reinfection after Drug Treatment: A Systematic Review and Meta-Analysis. PLoS Neglected Tropical Diseases, 2012, 6, e1621.	1.3	319
5	A Strategy to Control Transmission of <i>Schistosoma japonicum</i> in China. New England Journal of Medicine, 2009, 360, 121-128.	13.9	318
6	Conquering schistosomiasis in China: the long march. Acta Tropica, 2005, 96, 69-96.	0.9	309
7	Potential Impact of Climate Change on Schistosomiasis Transmission in China. American Journal of Tropical Medicine and Hygiene, 2008, 78, 188-194.	0.6	260
8	Clonorchiasis. Lancet, The, 2016, 387, 800-810.	6.3	235
9	Epidemiology of Schistosomiasis in the People's Republic of China, 2004. Emerging Infectious Diseases, 2007, 13, 1470-1476.	2.0	224
10	Schistosomiasis control: experiences and lessons from China. Lancet, The, 2008, 372, 1793-1795.	6.3	192
11	Epidemiology and control of echinococcosis in central Asia, with particular reference to the People's Republic of China. Acta Tropica, 2015, 141, 235-243.	0.9	171
12	Invasive Snails and an Emerging Infectious Disease: Results from the First National Survey on <i>Angiostrongylus cantonensis</i> in China. PLoS Neglected Tropical Diseases, 2009, 3, e368.	1.3	162
13	Neglected tropical diseases: an effective global response to local poverty-related disease priorities. Infectious Diseases of Poverty, 2020, 9, 10.	1.5	158
14	China's new strategy to block <i>Schistosoma japonicum</i> transmission: experiences and impact beyond schistosomiasis. Tropical Medicine and International Health, 2009, 14, 1475-1483.	1.0	143
15	Schistosomiasis Japonica. Advances in Parasitology, 2010, 72, 145-178.	1.4	143
16	Oh my aching gut: irritable bowel syndrome, Blastocystis, and asymptomatic infection. Parasites and Vectors, 2008, 1, 40.	1.0	139
17	The global epidemiology of clonorchiasis and its relation with cholangiocarcinoma. Infectious Diseases of Poverty, 2012, 1, 4.	1.5	136
18	Occurrence of <i>Strongyloides stercoralis</i> in Yunnan Province, China, and Comparison of Diagnostic Methods. PLoS Neglected Tropical Diseases, 2007, 1, e75.	1.3	129

#	ARTICLE	IF	CITATIONS
19	Elimination of tropical disease through surveillance and response. <i>Infectious Diseases of Poverty</i> , 2013, 2, 1.	1.5	129
20	Efficacy of Single-Dose and Triple-Dose Albendazole and Mebendazole against Soil-Transmitted Helminths and <i>Taenia</i> spp.: A Randomized Controlled Trial. <i>PLoS ONE</i> , 2011, 6, e25003.	1.1	125
21	Molecular epidemiology of human <i>Blastocystis</i> in a village in Yunnan province, China. <i>Parasitology International</i> , 2007, 56, 281-286.	0.6	123
22	Ready for malaria elimination: zero indigenous case reported in the People's Republic of China. <i>Malaria Journal</i> , 2018, 17, 315.	0.8	114
23	Emerging Angiostrongyliasis in Mainland China. <i>Emerging Infectious Diseases</i> , 2008, 14, 161-164.	2.0	109
24	A review of geographic information system and remote sensing with applications to the epidemiology and control of schistosomiasis in China. <i>Acta Tropica</i> , 2005, 96, 117-129.	0.9	103
25	China's sustained drive to eliminate neglected tropical diseases. <i>Lancet Infectious Diseases</i> , The, 2014, 14, 881-892.	4.6	100
26	Tick-borne pathogens and associated co-infections in ticks collected from domestic animals in central China. <i>Parasites and Vectors</i> , 2014, 7, 237.	1.0	95
27	Tribendimidine and Albendazole for Treating Soil-Transmitted Helminths, <i>Strongyloides stercoralis</i> and <i>Taenia</i> spp.: Open-Label Randomized Trial. <i>PLoS Neglected Tropical Diseases</i> , 2008, 2, e322.	1.3	95
28	Extensive Multiparasitism in a Village of Yunnan Province, People's Republic of China, Revealed by a Suite of Diagnostic Methods. <i>American Journal of Tropical Medicine and Hygiene</i> , 2008, 78, 760-769.	0.6	95
29	Multiparasitism. <i>Advances in Parasitology</i> , 2010, 73, 21-50.	1.4	94
30	Potential impact of climate change on schistosomiasis transmission in China. <i>American Journal of Tropical Medicine and Hygiene</i> , 2008, 78, 188-94.	0.6	93
31	Surveillance-response systems: the key to elimination of tropical diseases. <i>Infectious Diseases of Poverty</i> , 2014, 3, 17.	1.5	91
32	Impact of co-infections with enteric pathogens on children suffering from acute diarrhea in southwest China. <i>Infectious Diseases of Poverty</i> , 2016, 5, 64.	1.5	89
33	Asian Schistosomiasis: Current Status and Prospects for Control Leading to Elimination. <i>Tropical Medicine and Infectious Disease</i> , 2019, 4, 40.	0.9	83
34	A Bayesian-based approach for spatio-temporal modeling of county level prevalence of <i>Schistosoma japonicum</i> infection in Jiangsu province, China. <i>International Journal for Parasitology</i> , 2005, 35, 155-162.	1.3	79
35	Assessment of the age-specific disability weight of chronic schistosomiasis japonica. <i>Bulletin of the World Health Organization</i> , 2007, 85, 458-465.	1.5	79
36	Loop-mediated isothermal amplification (LAMP): Early detection of <i>Toxoplasma gondii</i> infection in mice. <i>Parasites and Vectors</i> , 2012, 5, 2.	1.0	78

#	ARTICLE	IF	CITATIONS
37	Elimination of schistosomiasis: the tools required. <i>Infectious Diseases of Poverty</i> , 2017, 6, 158.	1.5	77
38	Effect of floods on the transmission of schistosomiasis in the Yangtze River valley, People's Republic of China. <i>Parasitology International</i> , 2008, 57, 271-276.	0.6	75
39	Important Helminth Infections in Southeast Asia. <i>Advances in Parasitology</i> , 2010, 72, 1-30.	1.4	74
40	The effect of temperature on the extrinsic incubation period and infection rate of dengue virus serotype 2 infection in <i>Aedes albopictus</i> . <i>Archives of Virology</i> , 2014, 159, 3053-3057.	0.9	74
41	Trends of imported malaria in China 2010–2014: analysis of surveillance data. <i>Malaria Journal</i> , 2016, 15, 39.	0.8	71
42	The emergence of angiostrongyliasis in the People's Republic of China: the interplay between invasive snails, climate change and transmission dynamics. <i>Freshwater Biology</i> , 2011, 56, 717-734.	1.2	70
43	An ultra-sensitive assay targeting the circulating anodic antigen for the diagnosis of <i>Schistosoma japonicum</i> in a low-endemic area, People's Republic of China. <i>Acta Tropica</i> , 2015, 141, 190-197.	0.9	69
44	Visceral Leishmaniasis in China: an Endemic Disease under Control. <i>Clinical Microbiology Reviews</i> , 2015, 28, 987-1004.	5.7	69
45	Helminth infections and risk factor analysis among residents in Eryuan county, Yunnan province, China. <i>Acta Tropica</i> , 2007, 104, 38-51.	0.9	66
46	Helminth Infections of the Central Nervous System Occurring in Southeast Asia and the Far East. <i>Advances in Parasitology</i> , 2010, 72, 351-408.	1.4	66
47	Three Gorges Dam and Its Impact on the Potential Transmission of Schistosomiasis in Regions along the Yangtze River. <i>EcoHealth</i> , 2008, 5, 137-148.	0.9	64
48	Co-infection of HIV and intestinal parasites in rural area of China. <i>Parasites and Vectors</i> , 2012, 5, 36.	1.0	64
49	China's 1-3-7 surveillance and response strategy for malaria elimination: Is case reporting, investigation and foci response happening according to plan?. <i>Infectious Diseases of Poverty</i> , 2015, 4, 55.	1.5	61
50	Use of landsat TM satellite surveillance data to measure the impact of the 1998 flood on snail intermediate host dispersal in the lower Yangtze River Basin. <i>Acta Tropica</i> , 2002, 82, 199-205.	0.9	60
51	<i>Angiostrongylus cantonensis</i> : morphological and behavioral investigation within the freshwater snail <i>Pomacea canaliculata</i> . <i>Parasitology Research</i> , 2009, 104, 1351-1359.	0.6	60
52	Spatial epidemiology in zoonotic parasitic diseases: insights gained at the 1st International Symposium on Geospatial Health in Lijiang, China, 2007. <i>Parasites and Vectors</i> , 2009, 2, 10.	1.0	60
53	Relationship between the transmission of <i>Schistosomiasis japonica</i> and the construction of the Three Gorge Reservoir. <i>Acta Tropica</i> , 2002, 82, 147-156.	0.9	58
54	Historical Patterns of Malaria Transmission in China. <i>Advances in Parasitology</i> , 2014, 86, 1-19.	1.4	58

#	ARTICLE	IF	CITATIONS
55	Tools to Support Policy Decisions Related to Treatment Strategies and Surveillance of Schistosomiasis Japonica towards Elimination. <i>PLoS Neglected Tropical Diseases</i> , 2011, 5, e1408.	1.3	57
56	Prioritizing research for "One health - One world". <i>Infectious Diseases of Poverty</i> , 2012, 1, 1.	1.5	57
57	Current epidemiological profile and features of visceral leishmaniasis in people's republic of China. <i>Parasites and Vectors</i> , 2012, 5, 31.	1.0	56
58	Efficacy and Safety of Tribendimidine Against <i>Clonorchis sinensis</i> . <i>Clinical Infectious Diseases</i> , 2013, 56, e76-e82.	2.9	55
59	Spatio-Temporal Distribution of Malaria in Yunnan Province, China. <i>American Journal of Tropical Medicine and Hygiene</i> , 2009, 81, 503-509.	0.6	55
60	Preventing the transmission of American trypanosomiasis and its spread into non-endemic countries. <i>Infectious Diseases of Poverty</i> , 2015, 4, 60.	1.5	54
61	Human <i>Angiostrongylus</i> Outbreak in Dali, China. <i>PLoS Neglected Tropical Diseases</i> , 2009, 3, e520.	1.3	53
62	Tackling air pollution and extreme climate changes in China: Implementing the Paris climate change agreement. <i>Environment International</i> , 2016, 95, 152-156.	4.8	53
63	The effect of temperature on the development of <i>Angiostrongylus cantonensis</i> (Chen 1935) in <i>Pomacea canaliculata</i> (Lamarck 1822). <i>Parasitology Research</i> , 2006, 99, 583-587.	0.6	52
64	Bayesian Spatio-Temporal Modeling of <i>Schistosoma japonicum</i> Prevalence Data in the Absence of a Diagnostic "Gold" Standard. <i>PLoS Neglected Tropical Diseases</i> , 2008, 2, e250.	1.3	52
65	A new surveillance and response tool: Risk map of infected <i>Oncomelania hupensis</i> detected by Loop-mediated isothermal amplification (LAMP) from pooled samples. <i>Acta Tropica</i> , 2015, 141, 170-177.	0.9	52
66	Approaches being used in the national schistosomiasis elimination programme in China: a review. <i>Infectious Diseases of Poverty</i> , 2017, 6, 55.	1.5	52
67	Quantifying Quality of Life and Disability of Patients with Advanced Schistosomiasis Japonica. <i>PLoS Neglected Tropical Diseases</i> , 2011, 5, e966.	1.3	51
68	An Outbreak of Human Fascioliasis <i>gigantica</i> in Southwest China. <i>PLoS ONE</i> , 2013, 8, e71520.	1.1	51
69	Remote sensing and spatial statistical analysis to predict the distribution of <i>Oncomelania hupensis</i> in the marshlands of China. <i>Acta Tropica</i> , 2005, 96, 205-212.	0.9	50
70	Bayesian geostatistical modelling of soil-transmitted helminth survey data in the People's Republic of China. <i>Parasites and Vectors</i> , 2013, 6, 359.	1.0	50
71	Effect of temperature on the development of <i>Schistosoma japonicum</i> within <i>Oncomelania hupensis</i> , and hibernation of <i>O. hupensis</i> . <i>Parasitology Research</i> , 2007, 100, 695-700.	0.6	49
72	Evaluation of Immunoassays for the Diagnosis of <i>Schistosoma japonicum</i> Infection Using Archived Sera. <i>PLoS Neglected Tropical Diseases</i> , 2011, 5, e949.	1.3	49

#	ARTICLE	IF	CITATIONS
73	Enhancing collaboration between China and African countries for schistosomiasis control. <i>Lancet Infectious Diseases</i> , 2016, 16, 376-383.	4.6	49
74	Extensive multiparasitism in a village of Yunnan province, People's Republic of China, revealed by a suite of diagnostic methods. <i>American Journal of Tropical Medicine and Hygiene</i> , 2008, 78, 760-9.	0.6	49
75	Human babesiosis, an emerging tick-borne disease in the People's Republic of China. <i>Parasites and Vectors</i> , 2014, 7, 509.	1.0	48
