

# Tomoko Suzuki

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/7860781/tomoko-suzuki-publications-by-year.pdf>

**Version:** 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

41  
papers

654  
citations

16

#	Paper	IF	Citations
41	Phase 2 study of first-line pembrolizumab monotherapy in elderly patients with non-small-cell lung cancer expressing high PD-L1.. <i>Thoracic Cancer</i> , <b>2022</b> ,	3.2	1
40	Does poor spousal health negatively affect own health among elderly retired Japanese couples? A 1-year follow-up study. <i>SSM - Population Health</i> , <b>2021</b> , 16, 100970	3.8	
39	Subtype-specific trends in the clinical picture of primary aldosteronism over a 13-year period. <i>Journal of Hypertension</i> , <b>2021</b> , 39, 2325-2332	1.9	0
38	Malaria rapid diagnostic test (HRP2/pLDH) positivity, incidence, care accessibility and impact of community WASH Action programme in DR Congo: mixed method study involving 625 households. <i>Malaria Journal</i> , <b>2021</b> , 20, 117	3.6	
37	Baseline Plasma Aldosterone Level and Renin Activity Allowing Omission of Confirmatory Testing in Primary Aldosteronism. <i>Journal of Clinical Endocrinology and Metabolism</i> , <b>2020</b> , 105,	5.6	5
36	Local perspectives on Ebola during its tenth outbreak in DR Congo: A nationwide qualitative study. <i>PLoS ONE</i> , <b>2020</b> , 15, e0241120	3.7	4
35	Autistic and Attention Deficit/Hyperactivity Disorder Traits Are Associated with Suboptimal Performance among Japanese University Students. <i>JMA Journal</i> , <b>2020</b> , 3, 216-231	1	0
34	Which autistic traits are related to depressive symptoms in Japanese workers?. <i>Industrial Health</i> , <b>2020</b> , 58, 414-422	2.5	0
33	Historical changes and between-facility differences in adrenal venous sampling for primary aldosteronism in Japan. <i>Journal of Human Hypertension</i> , <b>2020</b> , 34, 34-42	2.6	6
32	Assessing the prevalence of hepatitis B virus infection among health care workers in a referral hospital in Kisantu, Congo DR: a pilot study. <i>Industrial Health</i> , <b>2019</b> , 57, 621-626	2.5	4
31	High Prevalence of Diabetes in Patients With Primary Aldosteronism (PA) Associated With Subclinical Hypercortisolism and Prediabetes More Prevalent in Bilateral Than Unilateral PA: A Large, Multicenter Cohort Study in Japan. <i>Diabetes Care</i> , <b>2019</b> , 42, 938-945	14.6	33
30	Environmental and sociodemographic factors associated with household malaria burden in the Congo. <i>Malaria Journal</i> , <b>2019</b> , 18, 53	3.6	14
29	Predictors of Clinical Success After Surgery for Primary Aldosteronism in the Japanese Nationwide Cohort. <i>Journal of the Endocrine Society</i> , <b>2019</b> , 3, 2012-2022	0.4	14
28	Selenium supplementation in HIV-infected individuals: A systematic review of randomized controlled trials. <i>Clinical Nutrition ESPEN</i> , <b>2019</b> , 34, 1-7	1.3	11
27	Renal impairment is closely associated with plasma aldosterone concentration in patients with primary aldosteronism. <i>European Journal of Endocrinology</i> , <b>2019</b> , 181, 339-350	6.5	16
26	Impact of adrenocorticotrophic hormone stimulation during adrenal venous sampling on outcomes of primary aldosteronism. <i>Journal of Hypertension</i> , <b>2019</b> , 37, 1077-1082	1.9	14
25	Influence of antihypertensive drugs in the subtype diagnosis of primary aldosteronism by adrenal venous sampling. <i>Journal of Hypertension</i> , <b>2019</b> , 37, 1493-1499	1.9	6

24	Clinical and biochemical outcomes after adrenalectomy and medical treatment in patients with unilateral primary aldosteronism. <i>Journal of Hypertension</i> , <b>2019</b> , 37, 1513-1520	1.9	27
23	Accuracy of adrenal computed tomography in predicting the unilateral subtype in young patients with hypokalaemia and elevation of aldosterone in primary aldosteronism. <i>Clinical Endocrinology</i> , <b>2018</b> , 88, 645-651	3.4	34
22	Significance of Computed Tomography and Serum Potassium in Predicting Subtype Diagnosis of Primary Aldosteronism. <i>Journal of Clinical Endocrinology and Metabolism</i> , <b>2018</b> , 103, 900-908	5.6	48
21	Prevalence of Cardiovascular Disease and Its Risk Factors in Primary Aldosteronism: A Multicenter Study in Japan. <i>Hypertension</i> , <b>2018</b> , 71, 530-537	8.5	81
20	Correlation Between Lateralization Index of Adrenal Venous Sampling and Standardized Outcome in Primary Aldosteronism. <i>Journal of the Endocrine Society</i> , <b>2018</b> , 2, 893-902	0.4	17
19	Serum selenium levels in tuberculosis patients: A systematic review and meta-analysis. <i>Journal of Trace Elements in Medicine and Biology</i> , <b>2018</b> , 50, 257-262	4.1	6
18	The Occurrence of Apparent Bilateral Aldosterone Suppression in Adrenal Vein Sampling for Primary Aldosteronism. <i>Journal of the Endocrine Society</i> , <b>2018</b> , 2, 398-407	0.4	18
17	Development and validation of subtype prediction scores for the workup of primary aldosteronism. <i>Journal of Hypertension</i> , <b>2018</b> , 36, 2269-2276	1.9	23
16	Clinical Characteristics and Postoperative Outcomes of Primary Aldosteronism in the Elderly. <i>Journal of Clinical Endocrinology and Metabolism</i> , <b>2018</b> , 103, 3620-3629	5.6	22
15	Obesity as a Key Factor Underlying Idiopathic Hyperaldosteronism. <i>Journal of Clinical Endocrinology and Metabolism</i> , <b>2018</b> , 103, 4456-4464	5.6	28
14	Reassessment of the cosyntropin stimulation test in the confirmatory diagnosis and subtype classification of primary aldosteronism. <i>Clinical Endocrinology</i> , <b>2017</b> , 86, 170-176	3.4	3
13	The reciprocal relationship between sickness presenteeism and psychological distress in response to job stressors: evidence from a three-wave cohort study. <i>Journal of Occupational Health</i> , <b>2017</b> , 59, 552-561	2.3	9
12	Subtype prediction of primary aldosteronism by combining aldosterone concentrations in the left adrenal vein and inferior vena cava: a multicenter collaborative study on adrenal venous sampling. <i>Journal of Human Hypertension</i> , <b>2017</b> , 32, 12-19	2.6	9
11	Adrenal Venous Sampling in Patients With Positive Screening but Negative Confirmatory Testing for Primary Aldosteronism. <i>Hypertension</i> , <b>2016</b> , 67, 1014-9	8.5	15
10	Bilateral aldosterone suppression and its resolution in adrenal vein sampling of patients with primary aldosteronism: analysis of data from the WAVES-J study. <i>Clinical Endocrinology</i> , <b>2016</b> , 85, 696-702	3.4	13
9	Relationship between sickness presenteeism (WHO-HPQ) with depression and sickness absence due to mental disease in a cohort of Japanese workers. <i>Journal of Affective Disorders</i> , <b>2015</b> , 180, 14-20	6.6	38
8	Importance of contralateral aldosterone suppression during adrenal vein sampling in the subtype evaluation of primary aldosteronism. <i>Clinical Endocrinology</i> , <b>2015</b> , 83, 462-7	3.4	30
7	Optimum position of left adrenal vein sampling for subtype diagnosis in primary aldosteronism. <i>Clinical Endocrinology</i> , <b>2015</b> , 83, 768-73	3.4	30

6	Shortened saline infusion test for subtype prediction in primary aldosteronism. <i>Endocrine</i> , <b>2015</b> , 50, 802-6	7
5	Optimal cutoff values of WHO-HPQ presenteeism scores by ROC analysis for preventing mental sickness absence in Japanese prospective cohort. <i>PLoS ONE</i> , <b>2014</b> , 9, e111191	3.7 22
4	Japanese dietary pattern consistently relates to low depressive symptoms and it is modified by job strain and worksite supports. <i>Journal of Affective Disorders</i> , <b>2013</b> , 150, 490-8	6.6 41
3	Preparation and Evaluation of the Administrative Drug information-Sheets For Medication Brought to the Hospital by Inpatients. <i>Iryo Yakugaku (Japanese Journal of Pharmaceutical Health Care and Sciences)</i> , <b>2009</b> , 35, 177-182	0.1 2
2	Factors Influencing Adherence in Outpatients Using Beclomethasone Dipropionate Inhaler for Bronchial Asthma. <i>Iryo Yakugaku (Japanese Journal of Pharmaceutical Health Care and Sciences)</i> , <b>2007</b> , 33, 221-228	0.1 2
1	Characterization of the Japanese Scoring System for Bronchial Asthma in Children. <i>Kitakanto Medical Journal</i> , <b>2003</b> , 53, 179-184	0
