613 ext. papers	15,415 ext. citations	5.6 avg, IF	6.06 L-index

#	Paper	IF	Citations
510	Chromosomally normal miscarriage is associated with vaginal dysbiosis and local inflammation.. *BMC Medicine*, **2022**, 20, 38	11.4	1
509	TOGadvisor: the role of online feedback in obstetrics and gynaecology. *The Obstetrician and Gynaecologist*, **2022**, 24, 7-11	0.9	
508	Experiences and well-being of healthcare professionals working in the field of ultrasound in obstetrics and gynaecology as the SARS-CoV-2 pandemic were evolving: a cross-sectional survey study.. *BMJ Open*, **2022**, 12, e051700	3	1
507	Gradient boosted trees with individual explanations: An alternative to logistic regression for viability prediction in the first trimester of pregnancy. *Computer Methods and Programs in Biomedicine*, **2022**, 213, 106520	6.9	1
506	Prognostic factors for post-traumatic stress, anxiety and depression in women after early pregnancy loss: a multi-centre prospective cohort study.. *BMJ Open*, **2022**, 12, e054490	3	0
505	Nucleosome footprinting in plasma cell-free DNA for the pre-surgical diagnosis of ovarian cancer.. *Npj Genomic Medicine*, **2022**, 7, 30	6.2	0
504	Evaluating cut-off levels for progesterone, human chorionic gonadotropin and human chorionic gonadotropin ratio to exclude pregnancy viability in women with a pregnancy of unknown location: A prospective multicenter cohort study. *Acta Obstetricia Et Gynecologica Scandinavica*, **2021**, 101, 46	3.8	0
503	Peripherally-driven myeloid NFkB and IFN/ISG responses predict malignancy risk, survival, and immunotherapy regime in ovarian cancer **2021**, 9,		3
502	Definition and sonographic reporting system for Cesarean scar pregnancy in early pregnancy: modified Delphi method. *Ultrasound in Obstetrics and Gynecology*, **2021**,	5.8	2
501	Re: "Diagnostic Accuracies of the Ultrasound and Magnetic Resonance Imaging ADNEX Scoring Systems for Ovarian Adnexal Mass: Systematic Review and Meta-Analysis". *Academic Radiology*, **2021**, 28, 1643-1644	4.3	0
500	Ultrasound characteristics, serum biochemistry and outcome of ectopic pregnancies presenting during COVID-19 pandemic. *Ultrasound in Obstetrics and Gynecology*, **2021**, 58, 909-915	5.8	
499	A Prospective International Lung Ultrasound Analysis Study in Tertiary Maternity Wards During the Severe Acute Respiratory Syndrome Coronavirus 2 Pandemic. *Journal of Ultrasound in Medicine*, **2021**, 40, 1991-1996	2.9	2
498	Pregnancy and neonatal outcomes of COVID-19: coreporting of common outcomes from PAN-COVID and AAP-SONPM registries. *Ultrasound in Obstetrics and Gynecology*, **2021**, 57, 573-581	5.8	88
497	Miscarriage matters: the epidemiological, physical, psychological, and economic costs of early pregnancy loss. *Lancet, The*, **2021**, 397, 1658-1667	40	78
496	Sporadic miscarriage: evidence to provide effective care. *Lancet, The*, **2021**, 397, 1668-1674	40	9
495	Recurrent miscarriage: evidence to accelerate action. *Lancet, The*, **2021**, 397, 1675-1682	40	21
494	ESGO/ISUOG/IOTA/ESGE Consensus Statement on preoperative diagnosis of ovarian tumors. *Ultrasound in Obstetrics and Gynecology*, **2021**, 58, 148-168	5.8	5

493	ESGO/ISUOG/IOTA/ESGE Consensus Statement on preoperative diagnosis of ovarian tumours. *Facts, Views & Vision in ObGyn*, **2021**, 13, 107-130	1.4	1
492	ESGO/ISUOG/IOTA/ESGE Consensus Statement on pre-operative diagnosis of ovarian tumors. *International Journal of Gynecological Cancer*, **2021**, 31, 961-982	3.5	7
491	Typical ultrasound features of various endometrial pathologies described using International Endometrial Tumor Analysis (IETA) terminology in women with abnormal uterine bleeding. *Ultrasound in Obstetrics and Gynecology*, **2021**, 57, 164-172	5.8	12
490	Differences in post-traumatic stress, anxiety and depression following miscarriage or ectopic pregnancy between women and their partners: multicenter prospective cohort study. *Ultrasound in Obstetrics and Gynecology*, **2021**, 57, 141-148	5.8	9
489	Authors' reply Re: Implications for the future of Obstetrics and Gynaecology following the COVID-19 pandemic: a commentary. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2021**, 128, 616-617	3.7	1
488	Ultrasound, macroscopic and histological features of malignant ovarian tumors. *International Journal of Gynecological Cancer*, **2021**, 31, 150-151	3.5	
487	External validation of models to predict the outcome of pregnancies of unknown location: a multicentre cohort study. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2021**, 128, 552-562	3.7	4
486	Pregnancy and neonatal outcomes in COVID-19: study protocol for a global registry of women with suspected or confirmed SARS-CoV-2 infection in pregnancy and their neonates, understanding natural history to guide treatment and prevention. *BMJ Open*, **2021**, 11, e041247	3	9
485	An Evaluation of the Effectiveness of Image-based Texture Features Extracted from Static B-mode Ultrasound Images in Distinguishing between Benign and Malignant Ovarian Masses. *Ultrasonic Imaging*, **2021**, 43, 124-138	1.9	2
484	Evaluation of the Tramline Sign in the Prediction of Placenta Accreta Spectrum and Perioperative Outcomes in Anterior Placenta Previa. *Ultraschall in Der Medizin*, **2021**,	3.8	1
483	Changes in circulating kisspeptin levels during each trimester in women with antenatal complications. *Journal of Clinical Endocrinology and Metabolism*, **2021**,	5.6	3
482	Response to: Correspondence on "ESGO/ISUOG/IOTA/ESGE Consensus Statement on pre-operative diagnosis of ovarian tumors" by Thomassin-Nagarra et al. *International Journal of Gynecological Cancer*, **2021**, 31, 1396-1397	3.5	
481	Performance of plasma kisspeptin as a biomarker for miscarriage improves with gestational age during the first trimester. *Fertility and Sterility*, **2021**, 116, 809-819	4.8	5
480	Ultrasound evaluation of ovarian masses and assessment of the extension of ovarian malignancy. *British Journal of Radiology*, **2021**, 94, 20201375	3.4	2
479	Consensus on revised definitions of morphological uterus sonographic assessment (MUSA) features of adenomyosis: results of a modified Delphi procedure. *Ultrasound in Obstetrics and Gynecology*, **2021**,	5.8	7
478	Evaluating the use of telemedicine in gynaecological practice: a systematic review. *BMJ Open*, **2020**, 10, e039457	3	9
477	The potential use of urinary hCG measurements in the management of pregnancies of unknown location. *Human Fertility*, **2020**, 1-8	1.9	
476	Peri-implantation urinary hormone monitoring distinguishes between types of first-trimester spontaneous pregnancy loss. *Paediatric and Perinatal Epidemiology*, **2020**, 34, 495-503	2.7	7

475   ISUOG Consensus Statement on rationalization of early-pregnancy care and provision of ultrasonography in context of SARS-CoV-2. *Ultrasound in Obstetrics and Gynecology*, **2020**, 55, 871-878   5.8   16

474   ISUOG Consensus Statement on rationalization of gynecological ultrasound services in context of SARS-CoV-2. *Ultrasound in Obstetrics and Gynecology*, **2020**, 55, 879-885   5.8   12

473   Insights into the hyperglycosylation of human chorionic gonadotropin revealed by glycomics analysis. *PLoS ONE*, **2020**, 15, e0228507   3.7   4

472   Micronized vaginal progesterone to prevent miscarriage: a critical evaluation of randomized evidence. *American Journal of Obstetrics and Gynecology*, **2020**, 223, 167-176   6.4   46

471   O-RADS US Risk Stratification and Management System: A Consensus Guideline from the ACR Ovarian-Adnexal Reporting and Data System Committee. *Radiology*, **2020**, 294, 168-185   20.5   93

470   Changing predictor measurement procedures affected the performance of prediction models in clinical examples. *Journal of Clinical Epidemiology*, **2020**, 119, 7-18   5.7   12

469   IDEAL study: magnetic resonance imaging for suspected deep endometriosis assessment prior to laparoscopy is as reliable as radiological imaging as a complement to transvaginal ultrasonography. *Ultrasound in Obstetrics and Gynecology*, **2020**, 56, 255-266   5.8   3

468   Natural history of pregnancy-related enhanced myometrial vascularity following miscarriage. *Ultrasound in Obstetrics and Gynecology*, **2020**, 55, 676-682   5.8   8

467   Posttraumatic stress, anxiety and depression following miscarriage and ectopic pregnancy: a multicenter, prospective, cohort study. *American Journal of Obstetrics and Gynecology*, **2020**, 222, 367.e1-367.e22   6.4   47

466   Ultrasound-based risk model for preoperative prediction of lymph-node metastases in women with endometrial cancer: model-development study. *Ultrasound in Obstetrics and Gynecology*, **2020**, 56, 443-452   5.8   2

465   Assessment of protein biomarkers for preoperative differential diagnosis between benign and malignant ovarian tumors. *Gynecologic Oncology*, **2020**, 159, 811-819   4.9   4

464   Association between hyperemesis gravidarum and psychological symptoms, psychosocial outcomes and infant bonding: a two-point prospective case-control multicentre survey study in an inner city setting. *BMJ Open*, **2020**, 10, e039715   3   3

463   Implications for the future of Obstetrics and Gynaecology following the COVID-19 pandemic: a commentary. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2020**, 127, 1318-1323   3.7   11

462   Validation of models to diagnose ovarian cancer in patients managed surgically or conservatively: multicentre cohort study. *BMJ, The*, **2020**, 370, m2614   5.9   16

461   The association between vaginal bacterial composition and miscarriage: a nested case-control study. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2020**, 127, 264-274   3.7   39

460   First-trimester intrauterine hematoma and pregnancy complications. *Ultrasound in Obstetrics and Gynecology*, **2020**, 55, 536-545   5.8   2

459   Triaging women with pregnancy of unknown location using two-step protocol including M6 model: clinical implementation study. *Ultrasound in Obstetrics and Gynecology*, **2020**, 55, 105-114   5.8   12

458   Insights into the hyperglycosylation of human chorionic gonadotropin revealed by glycomics analysis **2020**, 15, e0228507

457	Insights into the hyperglycosylation of human chorionic gonadotropin revealed by glycomics analysis **2020**, 15, e0228507		
456	Insights into the hyperglycosylation of human chorionic gonadotropin revealed by glycomics analysis **2020**, 15, e0228507		
455	Insights into the hyperglycosylation of human chorionic gonadotropin revealed by glycomics analysis **2020**, 15, e0228507		
454	Sex differences in fetal growth and immediate birth outcomes in a low-risk Caucasian population. *Biology of Sex Differences*, **2019**, 10, 48	9.3	18
453	Niche definition and guidance for detailed niche evaluation. *Acta Obstetricia Et Gynecologica Scandinavica*, **2019**, 98, 1351-1352	3.8	4
452	Early-pregnancy events and subsequent antenatal, delivery and neonatal outcomes: prospective cohort study. *Ultrasound in Obstetrics and Gynecology*, **2019**, 54, 530-537	5.8	10
451	Risk of complications in patients with conservatively managed ovarian tumours (IOTA5): a 2-year interim analysis of a multicentre, prospective, cohort study. *Lancet Oncology, The*, **2019**, 20, 448-458	21.7	55
450	Diagnostic protocols for the management of pregnancy of unknown location: a systematic review and meta-analysis. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2019**, 126, 190-198	3.7	20
449	Evaluation of machine learning methods with Fourier Transform features for classifying ovarian tumors based on ultrasound images. *PLoS ONE*, **2019**, 14, e0219388	3.7	12
448	Burnout, well-being and defensive medical practice among obstetricians and gynaecologists in the UK: cross-sectional survey study. *BMJ Open*, **2019**, 9, e030968	3	24
447	Establishment of vaginal microbiota composition in early pregnancy and its association with subsequent preterm prelabor rupture of the fetal membranes. *Translational Research*, **2019**, 207, 30-43	11	58
446	Conventional and modern markers of endometrial receptivity: a systematic review and meta-analysis. *Human Reproduction Update*, **2019**, 25, 202-223	15.8	129
445	Sonographic examination of uterine niche in non-pregnant women: a modified Delphi procedure. *Ultrasound in Obstetrics and Gynecology*, **2019**, 53, 107-115	5.8	64
444	Use of biomedical photonics in gynecological surgery: a uterine transplantation model. *Future Science OA*, **2018**, 4, FSO286	2.7	2
443	Caesarean scar pregnancy in the UK: a national cohort study. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2018**, 125, 1663-1670	3.7	36
442	Ultrasound characteristics of endometrial cancer as defined by International Endometrial Tumor Analysis (IETA) consensus nomenclature: prospective multicenter study. *Ultrasound in Obstetrics and Gynecology*, **2018**, 51, 818-828	5.8	40
441	Ovarian-Adnexal Reporting Lexicon for Ultrasound: A White Paper of the ACR Ovarian-Adnexal Reporting and Data System Committee. *Journal of the American College of Radiology*, **2018**, 15, 1415-1429	3.5	55
440	Evaluation of tramline sign for prenatal diagnosis of abnormally invasive placenta using three-dimensional ultrasound and Crystal Vue rendering technology. *Ultrasound in Obstetrics and Gynecology*, **2018**, 52, 403-404	5.8	6

385   Malignant Disease of the Vulva and the Vagina **2018**, 835-857

384   Premalignant and Malignant Disease of the Cervix **2018**, 858-875

383   Surgical and Medical Management of Epithelial Ovarian Cancer **2018**, 884-904

382   Contraception and Sterilization **2018**, 939-953   0

381   Sexual Dysfunction **2018**, 954-966

380   Rape and Sexual Assault and Female Genital Mutilation **2018**, 967-983

379   Ethical Dilemmas in Obstetrics and Gynaecology **2018**, 985-998

378   The Law and the Obstetrician and Gynaecologist **2018**, 999-1007

377   Hypertensive Disorders **2018**, 71-84

376   Evidence-based Medicine in Obstetrics and Gynaecology **2018**, 1008-1014

375   Use of Laser Speckle Contrast Analysis during pelvic surgery in a uterine transplantation model. *Future Science OA*, **2018**, 4, FSO324   2.7   1

374   The potential value of activin B and fibronectin for the triage of pregnancies of unknown location and prediction of first trimester viability. *Australasian Journal of Ultrasound in Medicine*, **2018**, 21, 138-146   0.6

373   First International Consensus Report on Adnexal Masses: Management Recommendations. *Journal of Ultrasound in Medicine*, **2017**, 36, 849-863   2.9   46

372   An automated technique for potential differentiation of ovarian mature teratomas from other benign tumours using neural networks classification of 2D ultrasound static images: a pilot study **2017**,   2

371   Clinical Utility of Risk Models to Refer Patients with Adnexal Masses to Specialized Oncology Care: Multicenter External Validation Using Decision Curve Analysis. *Clinical Cancer Research*, **2017**, 23, 5082-5090   12.0   26

370   The first-trimester fetal central nervous system: a novel ultrasonographic perspective. *American Journal of Obstetrics and Gynecology*, **2017**, 217, 220-221   6.4   5

369   Doctors' perception of support and the processes involved in complaints investigations and how these relate to welfare and defensive practice: a cross-sectional survey of the UK physicians. *BMJ Open*, **2017**, 7, e017856   3   18

368   Validation and updating of risk models based on multinomial logistic regression. *Diagnostic and Prognostic Research*, **2017**, 1, 2   5.5   13

367	Factors to consider in pregnancy of unknown location. *Womenjs Health*, **2017**, 13, 27-33	3	11
366	Psychological morbidity associated with hyperemesis gravidarum: a systematic review and meta-analysis. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2017**, 124, 20-30	3.7	53
365	Ambulatory versus inpatient management of severe nausea and vomiting of pregnancy: a randomised control trial with patient preference arm. *BMJ Open*, **2017**, 7, e017566	3	15
364	Pregnancy of Unknown Location **2017**, 33-38		
363	We need to change the culture around complaints procedures. *BMJ, The*, **2017**, 359, j5313	5.9	
362	Validation of the Performance of International Ovarian Tumor Analysis (IOTA) Methods in the Diagnosis of Early Stage Ovarian Cancer in a Non-Screening Population. *Diagnostics*, **2017**, 7,	3.8	25
361	Evaluation of Pregnancy Viability **2017**, 197-214		
360	Automatic segmentation and measurements of gestational sac using static B-mode ultrasound images **2016**,		2
359	Can risk factors, clinical history and symptoms be used to predict risk of ectopic pregnancy in women attending an early pregnancy assessment unit?. *Ultrasound in Obstetrics and Gynecology*, **2016**, 48, 656-662	5.8	6
358	Systematic approach to sonographic evaluation of the pelvis in women with suspected endometriosis, including terms, definitions and measurements: a consensus opinion from the International Deep Endometriosis Analysis (IDEA) group. *Ultrasound in Obstetrics and Gynecology*, **2016**, 48, 318-32	5.8	310
357	Flawed external validation study of the ADNEX model to diagnose ovarian cancer. *Gynecologic Oncology Reports*, **2016**, 18, 49-50	1.3	6
356	Doctors' experiences and their perception of the most stressful aspects of complaints processes in the UK: an analysis of qualitative survey data. *BMJ Open*, **2016**, 6, e011711	3	30
355	The clinical performance of the M4 decision support model to triage women with a pregnancy of unknown location as at low or high risk of complications. *Human Reproduction*, **2016**, 31, 1425-35	5.7	15
354	Age-related differences in the sonographic characteristics of endometriomas. *Human Reproduction*, **2016**, 31, 1723-31	5.7	29
353	Interobserver agreement in assessment of polycystic ovarian morphology using pattern recognition. *Ultrasound in Obstetrics and Gynecology*, **2016**, 47, 652-3	5.8	2
352	Managing pregnancy of unknown location based on initial serum progesterone and serial serum hCG levels: development and validation of a two-step triage protocol. *Ultrasound in Obstetrics and Gynecology*, **2016**, 48, 642-649	5.8	38
351	Predicting the risk of malignancy in adnexal masses based on the Simple Rules from the International Ovarian Tumor Analysis group. *American Journal of Obstetrics and Gynecology*, **2016**, 214, 424-437	6.4	131
350	Morcellation and risk of malignancy in presumed ovarian fibromas/fibrothecomas. *Lancet Oncology, The*, **2016**, 17, 273-274	21.7	7

349	Cutting GMC investigations must not simply devolve problems elsewhere. *BMJ, The*, **2016**, 353, i2445	5.9	2
348	Refining Ovarian Cancer Test accuracy Scores (ROCkeTS): protocol for a prospective longitudinal test accuracy study to validate new risk scores in women with symptoms of suspected ovarian cancer. *BMJ Open*, **2016**, 6, e010333	3	7
347	Post-traumatic stress, anxiety and depression following miscarriage or ectopic pregnancy: a prospective cohort study. *BMJ Open*, **2016**, 6, e011864	3	73
346	Evaluating the risk of ovarian cancer before surgery using the ADNEX model: a multicentre external validation study. *British Journal of Cancer*, **2016**, 115, 542-8	8.7	38
345	A missed opportunity for excellence: the NICE guideline on the diagnosis and initial management of ectopic pregnancy and miscarriage. *Journal of Family Planning and Reproductive Health Care*, **2015**, 41, 13-9		4
344	Defining safe criteria to diagnose miscarriage: prospective observational multicentre study. *BMJ, The*, **2015**, 351, h4579	5.9	48
343	A spline-based tool to assess and visualize the calibration of multiclass risk predictions. *Journal of Biomedical Informatics*, **2015**, 54, 283-93	10.2	42
342	Accuracy of ultrasonography performed by examiners with varied training and experience in predicting specific pathology of adnexal masses. *Ultrasound in Obstetrics and Gynecology*, **2015**, 45, 605-12	5.8	17
341	The role of ultrasonography in the diagnosis and management of early pregnancy complications. *The Obstetrician and Gynaecologist*, **2015**, 17, 173-181	0.9	8
340	Diagnosing adnexal tumours before surgery: a critical appraisal of recent evidence. *The Obstetrician and Gynaecologist*, **2015**, 17, 163-171	0.9	1
339	Authors' reply to Fountain and colleagues. *BMJ, The*, **2015**, 351, h5852	5.9	
338	Terms, definitions and measurements to describe sonographic features of myometrium and uterine masses: a consensus opinion from the Morphological Uterus Sonographic Assessment (MUSA) group. *Ultrasound in Obstetrics and Gynecology*, **2015**, 46, 284-98	5.8	268
337	Dharmasena case illustrates what is wrong with complaints procedures. *BMJ, The*, **2015**, 350, h1130	5.9	
336	The impact of complaints procedures on the welfare, health and clinical practise of 7926 doctors in the UK: a cross-sectional survey. *BMJ Open*, **2015**, 5, e006687	3	94
335	Reply: Diagnostic and management modalities in early tubal pregnancy with focus on safety. *Human Reproduction Update*, **2015**, 21, 693	15.8	
334	The characteristic ultrasound features of specific types of ovarian pathology (review). *International Journal of Oncology*, **2015**, 46, 445-58	4.4	51
333	Intra-cavitary uterine pathology in women with abnormal uterine bleeding: a prospective study of 1220 women. *Facts, Views & Vision in ObGyn*, **2015**, 7, 17-24	1.4	16
332	Practical guidance for applying the ADNEX model from the IOTA group to discriminate between different subtypes of adnexal tumors. *Facts, Views & Vision in ObGyn*, **2015**, 7, 32-41	1.4	16

331	Automated characterisation of ultrasound images of ovarian tumours: the diagnostic accuracy of a support vector machine and image processing with a local binary pattern operator. *Facts, Views & Vision in ObGyn*, **2015**, 7, 7-15	1.4	11
330	Pregnancy of Unknown Location **2015**, 19-26		
329	Imaging techniques for the pre-surgical diagnosis of adnexal tumours. *Best Practice and Research in Clinical Obstetrics and Gynaecology*, **2014**, 28, 683-95	4.6	32
328	Prevalence, potential risk factors for development and symptoms related to the presence of uterine niches following Cesarean section: systematic review. *Ultrasound in Obstetrics and Gynecology*, **2014**, 43, 372-82	5.8	209
327	Presurgical diagnosis of adnexal tumours using mathematical models and scoring systems: a systematic review and meta-analysis. *Human Reproduction Update*, **2014**, 20, 449-62	15.8	115
326	Ectopic pregnancy prediction in women with a pregnancy of unknown location: data beyond 48 h are necessary. *Human Reproduction*, **2014**, 29, 441-7	5.7	9
325	Triaging pregnancies of unknown location: the performance of protocols based on single serum progesterone or repeated serum hCG levels. *Human Reproduction*, **2014**, 29, 938-45	5.7	32
324	Strategies to diagnose ovarian cancer: new evidence from phase 3 of the multicentre international IOTA study. *British Journal of Cancer*, **2014**, 111, 680-8	8.7	72
323	Diagnosing ectopic pregnancy and current concepts in the management of pregnancy of unknown location. *Human Reproduction Update*, **2014**, 20, 250-61	15.8	130
322	Letter to the Editor JMIG on the Article "Cesarean scar defects: an underrecognized cause of abnormal uterine bleeding and other gynecologic complications" (2013;20; 562-572). *Journal of Minimally Invasive Gynecology*, **2014**, 21, 498-9	2.2	
321	Authors' reply to Candido-dos-Reis. *BMJ, The*, **2014**, 349, g6691	5.9	
320	NICE guidance on place of birth falls short of neutrality. *BMJ, The*, **2014**, 349, g7776	5.9	1
319	Are serum HE4 or ROMA scores useful to experienced examiners for improving characterization of adnexal masses after transvaginal ultrasonography?. *Ultrasound in Obstetrics and Gynecology*, **2014**, 43, 89-97	5.8	24
318	UKEPSS: The UK Early Pregnancy Surveillance Service for uncommon disorders of early pregnancy and acute gynaecology. *The Obstetrician and Gynaecologist*, **2014**, 16, 226-227	0.9	4
317	Use of a pocket-sized ultrasound machine (PUM) for routine examinations in the third trimester of pregnancy. *Ultrasound in Obstetrics and Gynecology*, **2014**, 44, 64-8	5.8	7
316	Evaluating the risk of ovarian cancer before surgery using the ADNEX model to differentiate between benign, borderline, early and advanced stage invasive, and secondary metastatic tumours: prospective multicentre diagnostic study. *BMJ, The*, **2014**, 349, g5920	5.9	194
315	Reply: Niche risk factor for uterine rupture?. *Ultrasound in Obstetrics and Gynecology*, **2014**, 44, 371-2	5.8	3
314	Automated classification of static ultrasound images of ovarian tumours based on decision level fusion **2014**,		4
