#	ARTICLE	IF	CITATIONS
1	What matters to people with multiple long-term conditions and their carers?. Postgraduate Medical Journal, 2023, 99, 159-165.	0.9	7
2	Frailty among Older Adults and Its Distribution in England. Journal of Frailty & Aging,the, 2022, 11, 1-6.	0.8	10
3	Prevalence of Undernutrition, Frailty and Sarcopenia in Community-Dwelling People Aged 50 Years and Above: Systematic Review and Meta-Analysis. Nutrients, 2022, 14, 1537.	1.7	20
4	Effectiveness of diet, psychological, and exercise therapies for the management of bile acid diarrhoea in adults: A systematic review. Journal of Human Nutrition and Dietetics, 2022, 35, 1087-1104.	1.3	4
5	The accuracy of clinician predictions of survival in the Prognosis in Palliative care Study II (PiPS2): A prospective observational study. PLoS ONE, 2022, 17, e0267050.	1.1	4
6	Adherence to mHealth and Paper-Based Versions of Lifestyle-Integrated Functional Exercise: A Secondary Analysis of Data From the PreventIT Feasibility Randomized Controlled Trial. Journal of Aging and Physical Activity, 2022, , 1-8.	0.5	0
7	A systematic literature review and meta-analysis on digital health interventions for people living with dementia and Mild Cognitive Impairment. International Journal of Geriatric Psychiatry, 2022, 37, .	1.3	14
8	Measurement of Adherence to mHealth Physical Activity Interventions and Exploration of the Factors That Affect the Adherence: Scoping Review and Proposed Framework. Journal of Medical Internet Research, 2022, 24, e30817.	2.1	9
9	One-to-One and Group-Based Teleconferencing for Falls Rehabilitation: Usability, Acceptability, and Feasibility Study. JMIR Rehabilitation and Assistive Technologies, 2021, 8, e19690.	1.1	7
10	Systematic Review of Behaviour Change Theories Implementation in Dietary Interventions for People Who Have Survived Cancer. Nutrients, 2021, 13, 612.	1.7	13
11	How Do Decision Makers and Service Providers Experience Participatory Approaches to Developing and Implementing Physical Activity Interventions with Older Adults? A Thematic Analysis. International Journal of Environmental Research and Public Health, 2021, 18, 2172.	1.2	1
12	The longitudinal relationship between loneliness, social isolation, and frailty in older adults in England: a prospective analysis. The Lancet Healthy Longevity, 2021, 2, e70-e77.	2.0	62
13	Measuring frailty in younger populations: a rapid review of evidence. BMJ Open, 2021, 11, e047051.	0.8	40
14	Fear-of-falling and associated risk factors in persons with rheumatoid arthritis: a 1-year prospective study. BMC Musculoskeletal Disorders, 2021, 22, 260.	0.8	2
15	Association between everyday walking activity, objective and perceived risk of falling in older adults. Age and Ageing, 2021, 50, 1586-1592.	0.7	5
16	Reply to "Comment on: Increases in arm volume predict lymphoedema and quality of life deficits after axillary surgery: a prospective cohort study". British Journal of Cancer, 2021, 124, 1608-1609.	2.9	0
17	Prognostic tools or clinical predictions: Which are better in palliative care?. PLoS ONE, 2021, 16, e0249763.	1.1	29
18	The Prognosis in Palliative care Study II (PiPS2): A prospective observational validation study of a prognostic tool with an embedded qualitative evaluation. PLoS ONE, 2021, 16, e0249297.	1.1	15

#	ARTICLE	IF	CITATIONS
19	Study recruitment factors in advanced cancer: the Prognosis in Palliative care Study II (PiPS2) - a multicentre, prospective, observational cohort project. <i>BMJ Supportive and Palliative Care</i> , 2021, , bmjspcare-2020-002670.	0.8	2
20	New horizons in falls prevention and management for older adults: a global initiative. <i>Age and Ageing</i> , 2021, 50, 1499-1507.	0.7	50
21	Prognostic models of survival in patients with advanced incurable cancer: the PiPS2 observational study. <i>Health Technology Assessment</i> , 2021, 25, 1-118.	1.3	9
22	Hospital-based specialist palliative care compared with usual care for adults with advanced illness and their caregivers: a systematic review. <i>Health Services and Delivery Research</i> , 2021, 9, 1-218.	1.4	2
23	Implementation of the <i>StandingTall</i> programme to prevent falls in older people: a process evaluation protocol. <i>BMJ Open</i> , 2021, 11, e048395.	0.8	2
24	Identifying older adults with frailty approaching end-of-life: A systematic review. <i>Palliative Medicine</i> , 2021, 35, 1832-1843.	1.3	10
25	What supports and constrains the implementation of multifactorial falls risk assessment and tailored multifactorial falls prevention interventions in acute hospitals? Protocol for a realist review. <i>BMJ Open</i> , 2021, 11, e049765.	0.8	0
26	Effects of Digital Technologies on Older Peopleâ€™s Access to Health and Social Care: Umbrella Review. <i>Journal of Medical Internet Research</i> , 2021, 23, e25887.	2.1	25
27	What supports and constrains the implementation of multifactorial falls risk assessment and tailored multifactorial falls prevention interventions in acute hospitals? Protocol for a realist review. <i>BMJ Open</i> , 2021, 11, e049765.	0.8	4
28	Evaluation of Clinical Practice Guidelines on Fall Prevention and Management for Older Adults. <i>JAMA Network Open</i> , 2021, 4, e2138911.	2.8	121
29	Involving Older Adults in Developing Physical Activity Interventions to Promote Engagement: a Literature Review. <i>Journal of Population Ageing</i> , 2020, 13, 325-345.	0.8	11
30	Measurement of Muscle Mass and Sarcopenia Using Anthropometry, Bioelectrical Impedance, and Computed Tomography in Surgical Patients with Colorectal Malignancy: Comparison of Agreement Between Methods. <i>Nutrition and Cancer</i> , 2020, 72, 1074-1083.	0.9	14
31	The effectiveness and cost-effectiveness of hospital-based specialist palliative care for adults with advanced illness and their caregivers. <i>The Cochrane Library</i> , 2020, 2020, CD012780.	1.5	61
32	Healthy Eating and Active Lifestyle After Bowel Cancer (HEAL ABC): feasibility randomised controlled trial protocol. <i>Pilot and Feasibility Studies</i> , 2020, 6, 176.	0.5	1
33	Map the apps: a rapid review of digital approaches to support the engagement of older adults in strength and balance exercises. <i>BMC Geriatrics</i> , 2020, 20, 483.	1.1	26
34	Digital Technology to Deliver a Lifestyle-Integrated Exercise Intervention in Young Seniorsâ€™The PreventIT Feasibility Randomized Controlled Trial. <i>Frontiers in Digital Health</i> , 2020, 2, 10.	1.5	12
35	Increases in arm volume predict lymphoedema and quality of life deficits after axillary surgery: a prospective cohort study. <i>British Journal of Cancer</i> , 2020, 123, 17-25.	2.9	44
36	Discharging Women with Advanced Ovarian Cancer on Home Parenteral Nutrition: Making and Implementing the Decision. <i>Nutrients</i> , 2020, 12, 166.	1.7	13

#	ARTICLE	IF	CITATIONS
37	Perspectives of ESCAPE-Pain Programme for Older People With Knee Osteoarthritis in the Community Setting. <i>Frontiers in Public Health</i> , 2020, 8, 612413.	1.3	6
38	Smartphone Apps to Support Falls Rehabilitation Exercise: App Development and Usability and Acceptability Study. <i>JMIR MHealth and UHealth</i> , 2020, 8, e15460.	1.8	25
39	Promotion of Physical Activity in Older People Using mHealth and eHealth Technologies: Rapid Review of Reviews. <i>Journal of Medical Internet Research</i> , 2020, 22, e22201.	2.1	65
40	The Association Between Orthogeriatric Co-Management and Mortality Following Hip Fracture. <i>Deutsches A&#x0308;rztblatt International</i> , 2020, 117, 53-59.	0.6	44
41	Evaluation of a web-based, tailored intervention to encourage help-seeking for lung cancer symptoms: a randomised controlled trial. <i>Digital Health</i> , 2020, 6, 205520762092238.	0.9	1
42	Care Home Life and Identity: A Qualitative Case Study. <i>Gerontologist</i> , The, 2019, 59, 655-664.	2.3	37
43	Developing and testing a web-based intervention to encourage early help-seeking in people with symptoms associated with lung cancer. <i>British Journal of Health Psychology</i> , 2019, 24, 31-65.	1.9	10
44	Attitudes Towards Adapted Lifestyle-Integrated Functional Exercise Developed for 60-70-Year-Olds: Perceptions of Participants and Trainers. <i>Gerontology</i> , 2019, 65, 599-609.	1.4	7
45	Development of a clinical prediction model for the onset of functional decline in people aged 65-75 years: pooled analysis of four European cohort studies. <i>BMC Geriatrics</i> , 2019, 19, 179.	1.1	24
46	Implementing behaviour change theory and techniques to increase physical activity and prevent functional decline among adults aged 61-70: The PreventIT project. <i>Progress in Cardiovascular Diseases</i> , 2019, 62, 147-156.	1.6	42
47	Moving beyond "safety" versus "autonomy": a qualitative exploration of the ethics of using monitoring technologies in long-term dementia care. <i>BMC Geriatrics</i> , 2019, 19, 145.	1.1	21
48	The Adapted Lifestyle-Integrated Functional Exercise Program for Preventing Functional Decline in Young Seniors: Development and Initial Evaluation. <i>Gerontology</i> , 2019, 65, 362-374.	1.4	32
49	Protocol for the PreventIT feasibility randomised controlled trial of a lifestyle-integrated exercise intervention in young older adults. <i>BMJ Open</i> , 2019, 9, e023526.	0.8	34
50	The effectiveness and cost-effectiveness of strength and balance Exergames to reduce falls risk for people aged 55% years and older in UK assisted living facilities: a multi-centre, cluster randomised controlled trial. <i>BMC Medicine</i> , 2019, 17, 49.	2.3	79
51	PERCEPTIONS OF EXERGAMES FOR FALLS PREVENTION AMONG SENIORS AND THERAPISTS IN ASSISTED LIVING FACILITIES. <i>Innovation in Aging</i> , 2019, 3, S59-S60.	0.0	0
52	164 Increasing Uptake and Adherence in Falls Prevention Interventions. <i>Age and Ageing</i> , 2019, 48, iv34-iv39.	0.7	0
53	Can smartphone technology be used to support an effective home exercise intervention to prevent falls amongst community dwelling older adults?: the TOGETHER feasibility RCT study protocol. <i>BMJ Open</i> , 2019, 9, e028100.	0.8	7
54	Dietary interventions for adult cancer survivors. <i>The Cochrane Library</i> , 2019, 2019, .	1.5	29

#	ARTICLE	IF	CITATIONS
55	Palliative home parenteral nutrition in patients with ovarian cancer and malignant bowel obstruction: experiences of women and family caregivers. <i>BMC Palliative Care</i> , 2019, 18, 120.	0.8	33
56	Dietary interventions for cancer survivors. <i>Proceedings of the Nutrition Society</i> , 2019, 78, 135-145.	0.4	6
57	Individualising breast cancer treatment to improve survival and minimise complications in older women: a research programme including the PLACE RCT. <i>Programme Grants for Applied Research</i> , 2019, 7, 1-260.	0.4	1
58	Efficacy of the Otago Exercise Programme to reduce falls in community-dwelling adults aged 65-80 years old when delivered as group or individual training. <i>Journal of Advanced Nursing</i> , 2018, 74, 1700-1711.	1.5	27
59	Reading from the Black Box: What Sensors Tell Us about Resting and Recovery after Real-World Falls. <i>Gerontology</i> , 2018, 64, 90-95.	1.4	9
60	Multiple influences on participating in physical activity in older age: Developing a social ecological approach. <i>Health Expectations</i> , 2018, 21, 239-248.	1.1	76
61	42-...Bittersweet life in the face of loss: the experience of parenteral nutrition for women with ovarian cancer and their relatives. <i>BMJ Supportive and Palliative Care</i> , 2018, 8, 375.2-376.	0.8	2
62	Home parenteral nutrition for people with inoperable malignant bowel obstruction. <i>The Cochrane Library</i> , 2018, 8, CD012812.	1.5	30
63	The Prognosis in Palliative care Study II (PiPS2): study protocol for a multi-centre, prospective, observational, cohort study. <i>BMC Palliative Care</i> , 2018, 17, 101.	0.8	9
64	Home parenteral nutrition for people with inoperable malignant bowel obstruction: a systematic review. <i>Clinical Nutrition</i> , 2018, 37, S74-S75.	2.3	1
65	A prospective cohort study measuring cost-benefit analysis of the Otago Exercise Programme in community dwelling adults with rheumatoid arthritis. <i>BMC Health Services Research</i> , 2018, 18, 574.	0.9	4
66	Assessing the feasibility of mobilisation of C0-C3 cervical segments to reduce headache in migraineurs. <i>International Journal of Therapy and Rehabilitation</i> , 2018, 25, 382-394.	0.1	3
67	What are colorectal cancer survivors' preferences for dietary advice? A best-worst discrete choice experiment. <i>Journal of Cancer Survivorship</i> , 2017, 11, 782-790.	1.5	18
68	Implementing monitoring technologies in care homes for people with dementia: A qualitative exploration using Normalization Process Theory. <i>International Journal of Nursing Studies</i> , 2017, 72, 60-70.	2.5	60
69	Pre-operative oral nutritional supplementation with dietary advice versus dietary advice alone in weight-losing patients with colorectal cancer: single-blind randomized controlled trial. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2017, 8, 437-446.	2.9	60
70	Conceptualizing a Dynamic Fall Risk Model Including Intrinsic Risks and Exposures. <i>Journal of the American Medical Directors Association</i> , 2017, 18, 921-927.	1.2	35
71	Degenerative inter-vertebral disc disease osteochondrosis intervertebralis in Europe: prevalence, geographic variation and radiological correlates in men and women aged 50 and over. <i>Rheumatology</i> , 2017, 56, 1189-1199.	0.9	11
72	The effectiveness and cost-effectiveness of inpatient specialist palliative care in acute hospitals for adults with advanced illness and their caregivers. <i>The Cochrane Library</i> , 2017, . .	1.5	4

#	ARTICLE	IF	CITATIONS
73	Mobile Health Applications to Promote Active and Healthy Ageing. <i>Sensors</i> , 2017, 17, 622.	2.1	151
74	Six key topics informal carers of patients with breathlessness in advanced disease want to learn about and why: MRC phase I study to inform an educational intervention. <i>PLoS ONE</i> , 2017, 12, e0177081.	1.1	42
75	Clinicians' Views of Educational Interventions for Carers of Patients With Breathlessness Due to Advanced Disease: Findings From an Online Survey. <i>Journal of Pain and Symptom Management</i> , 2017, 53, 265-271.	0.6	13
76	The Role of Web-Based Health Information in Help-Seeking Behavior Prior to a Diagnosis of Lung Cancer: A Mixed-Methods Study. <i>Journal of Medical Internet Research</i> , 2017, 19, e189.	2.1	20
77	Web Use for Symptom Appraisal of Physical Health Conditions: A Systematic Review. <i>Journal of Medical Internet Research</i> , 2017, 19, e202.	2.1	49
78	Falls. , 2017, , 373-382.		4
79	Widening access to online health education for lung cancer. , 2016, , .		4
80	Review of how we should define (and measure) adherence in studies examining older adults' participation in exercise classes. <i>BMJ Open</i> , 2016, 6, e011560.	0.8	119
81	Developing the FARSEEING Taxonomy of Technologies: Classification and description of technology use (including ICT) in falls prevention studies. <i>Journal of Biomedical Informatics</i> , 2016, 61, 132-140.	2.5	7
82	The impact of preventive measures on the burden of femoral fractures " a modelling approach to estimating the impact of fall prevention exercises and oral bisphosphonate treatment for the years 2014 and 2025. <i>BMC Geriatrics</i> , 2016, 16, 75.	1.1	15
83	A comprehensive fracture prevention strategy in older adults: The European union geriatric medicine society (EUGMS) statement. <i>European Geriatric Medicine</i> , 2016, 7, 519-525.	1.2	12
84	Older Adults™ Uptake and Adherence to Exercise Classes: Instructors™ Perspectives. <i>Journal of Aging and Physical Activity</i> , 2016, 24, 119-128.	0.5	71
85	Strategies designed to help healthcare professionals to recruit participants to research studies. <i>The Cochrane Library</i> , 2016, 2016, .	1.5	25
86	963...Use of ict technology & campaigning to accelerate the dissemination of falls prevention evidence across Europe. <i>Injury Prevention</i> , 2016, 22, A342.3-A343.	1.2	0
87	A feasibility study to prevent falls in older people who are sight impaired: the VIP2UK randomised controlled trial. <i>Trials</i> , 2016, 17, 464.	0.7	27
88	The FARSEEING real-world fall repository: a large-scale collaborative database to collect and share sensor signals from real-world falls. <i>European Review of Aging and Physical Activity</i> , 2016, 13, 8.	1.3	67
89	A comprehensive fracture prevention strategy in older adults: The European Union Geriatric Medicine Society (EUGMS) statement. <i>Journal of Nutrition, Health and Aging</i> , 2016, 20, 647-652.	1.5	65
90	The clinical and cost effectiveness of a Breathlessness Intervention Service for patients with advanced non-malignant disease and their informal carers: mixed findings of a mixed method randomised controlled trial. <i>Trials</i> , 2016, 17, 185.	0.7	94

#	ARTICLE	IF	CITATIONS
91	An exploration of food and the lived experience of individuals after treatment for colorectal cancer using a phenomenological approach. <i>Journal of Human Nutrition and Dietetics</i> , 2016, 29, 137-145.	1.3	25
92	Effectiveness of Non-Pharmacological Interventions to Prevent Falls in Older People: A Systematic Overview. The SENATOR Project ÖNTOP Series. <i>PLoS ONE</i> , 2016, 11, e0161579.	1.1	48
93	Development of Prognosis in Palliative care Study (PiPS) predictor models to improve prognostication in advanced cancer: prospective cohort study. <i>BMJ Supportive and Palliative Care</i> , 2015, 5, 390-398.	0.8	23
94	The role of computed tomography in evaluating body composition and the influence of reduced muscle mass on clinical outcome in abdominal malignancy: a systematic review. <i>European Journal of Clinical Nutrition</i> , 2015, 69, 1079-1086.	1.3	87
95	Pretreatment health measures and complications after surgical management of elderly women with breast cancer. <i>British Journal of Surgery</i> , 2015, 102, 653-667.	0.1	11
96	Development and evaluation of an intervention to support family caregivers of people with cancer to provide home-based care at the end of life: A feasibility study. <i>European Journal of Oncology Nursing</i> , 2015, 19, 154-161.	0.9	25
97	The causes of falls: views of older people with visual impairment. <i>Health Expectations</i> , 2015, 18, 2021-2031.	1.1	31
98	WHAT DO INFORMAL CARERS WANT TO LEARN ABOUT BREATHLESSNESS IN ADVANCED DISEASE AND HOW DO THEY WANT TO LEARN IT?. <i>BMJ Supportive and Palliative Care</i> , 2015, 5, 107.1-107.	0.8	1
99	Vertebral Scheuermann's disease in Europe: prevalence, geographic variation and radiological correlates in men and women aged 50 and over. <i>Osteoporosis International</i> , 2015, 26, 2509-2519.	1.3	19
100	Why are older women not having surgery for breast cancer? A qualitative study. <i>Psycho-Oncology</i> , 2015, 24, 1036-1042.	1.0	20
101	Dietary interventions for adult cancer survivors. <i>The Cochrane Library</i> , 2014, , .	1.5	4
102	Fall incidence in Germany: results of two population-based studies, and comparison of retrospective and prospective falls data collection methods. <i>BMC Geriatrics</i> , 2014, 14, 105.	1.1	74
103	Is lack of surgery for older breast cancer patients in the UK explained by patient choice or poor health? A prospective cohort study. <i>British Journal of Cancer</i> , 2014, 110, 573-583.	2.9	47
104	Multiple Levels of Influence on Older Adults' Attendance and Adherence to Community Exercise Classes. <i>Gerontologist</i> , The, 2014, 54, 599-610.	2.3	88
105	Falls Prevention and the Value of Exercise. <i>Clinical Nursing Research</i> , 2014, 23, 94-110.	0.7	19
106	Is a specialist breathlessness service more effective and cost-effective for patients with advanced cancer and their carers than standard care? Findings of a mixed-method randomised controlled trial. <i>BMC Medicine</i> , 2014, 12, 194.	2.3	155
107	Older adults' perceptions of technologies aimed at falls prevention, detection or monitoring: A systematic review. <i>International Journal of Medical Informatics</i> , 2014, 83, 416-426.	1.6	154
108	How does mental physical multimorbidity express itself in lived time and space? A phenomenological analysis of encounters with depression and chronic physical illness. <i>Social Science and Medicine</i> , 2014, 118, 108-118.	1.8	25
