

Hao Ji

List of Publications by Citations

Source: <https://exaly.com/author-pdf/7905784/hao-ji-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
31	The long noncoding RNA SPRY4-IT1 increases the proliferation of human breast cancer cells by upregulating ZNF703 expression. <i>Molecular Cancer</i> , 2015 , 14, 51	42.1	122
30	Long noncoding RNA CRNDE promotes colorectal cancer cell proliferation via epigenetically silencing DUSP5/CDKN1A expression. <i>Cell Death and Disease</i> , 2017 , 8, e2997	9.8	108
29	Long noncoding AGAP2-AS1 is activated by SP1 and promotes cell proliferation and invasion in gastric cancer. <i>Journal of Hematology and Oncology</i> , 2017 , 10, 48	22.4	91
28	HOTTIP: a critical oncogenic long non-coding RNA in human cancers. <i>Molecular BioSystems</i> , 2016 , 12, 3247-3253		66
27	Long non-coding RNA FOXP4-AS1 is an unfavourable prognostic factor and regulates proliferation and apoptosis in colorectal cancer. <i>Cell Proliferation</i> , 2017 , 50,	7.9	64
26	A Novel lncRNA, LINC00460, Affects Cell Proliferation and Apoptosis by Regulating KLF2 and CUL4A Expression in Colorectal Cancer. <i>Molecular Therapy - Nucleic Acids</i> , 2018 , 12, 684-697	10.7	61
25	Long non-coding RNA Loc554202 regulates proliferation and migration in breast cancer cells. <i>Biochemical and Biophysical Research Communications</i> , 2014 , 446, 448-53	3.4	58
24	Long non-coding RNA Loc554202 induces apoptosis in colorectal cancer cells via the caspase cleavage cascades. <i>Journal of Experimental and Clinical Cancer Research</i> , 2015 , 34, 100	12.8	54
23	Colorimetric detection of hepatitis B virus (HBV) DNA based on DNA-templated copper nanoclusters. <i>Analytica Chimica Acta</i> , 2016 , 909, 101-8	6.6	53
22	Long non-coding RNA SNHG17 is an unfavourable prognostic factor and promotes cell proliferation by epigenetically silencing P57 in colorectal cancer. <i>Molecular BioSystems</i> , 2017 , 13, 2350-2361		51
21	RREB1-induced upregulation of the lncRNA AGAP2-AS1 regulates the proliferation and migration of pancreatic cancer partly through suppressing ANKRD1 and ANGPTL4. <i>Cell Death and Disease</i> , 2019 , 10, 207	9.8	49
20	Long non-coding RNA SNHG15 inhibits P15 and KLF2 expression to promote pancreatic cancer proliferation through EZH2-mediated H3K27me3. <i>Oncotarget</i> , 2017 , 8, 84153-84167	3.3	48
19	The long noncoding RNA HOXA transcript at the distal tip promotes colorectal cancer growth partially via silencing of p21 expression. <i>Tumor Biology</i> , 2016 , 37, 7431-40	2.9	45
18	The pseudogene derived from long non-coding RNA DUXAP10 promotes colorectal cancer cell growth through epigenetically silencing of p21 and PTEN. <i>Scientific Reports</i> , 2017 , 7, 7312	4.9	34
17	Long non-coding RNA IRAIN suppresses apoptosis and promotes proliferation by binding to LSD1 and EZH2 in pancreatic cancer. <i>Tumor Biology</i> , 2016 , 37, 14929-14937	2.9	33
16	Overexpressed long noncoding RNA affects the cell cycle, proliferation, and apoptosis of pancreatic cancer partly through suppressing RND3 and MT2A. <i>OncoTargets and Therapy</i> , 2019 , 12, 1043-1057	4.4	27
15	Long Non-Coding RNA SH3PXD2A-AS1 Promotes Cell Progression Partly Through Epigenetic Silencing P57 and KLF2 in Colorectal Cancer. <i>Cellular Physiology and Biochemistry</i> , 2018 , 46, 2197-2214	3.9	26

14	A dual-signal strategy for the solid detection of both small molecules and proteins based on magnetic separation and highly fluorescent copper nanoclusters. <i>Biosensors and Bioelectronics</i> , 2017 , 90, 534-541	11.8	25
13	Long noncoding RNA MAPKAPK5-AS1 promotes colorectal cancer proliferation by partly silencing p21 expression. <i>Cancer Science</i> , 2019 , 110, 72-85	6.9	22
12	Upregulation of lncRNA LINC00460 Facilitates GC Progression through Epigenetically Silencing CCNG2 by EZH2/LSD1 and Indicates Poor Outcomes. <i>Molecular Therapy - Nucleic Acids</i> , 2020 , 19, 1164-1175	10.7	19
11	Long noncoding-RNA component of mitochondrial RNA processing endoribonuclease is involved in the progression of cholangiocarcinoma by regulating microRNA-217. <i>Cancer Science</i> , 2019 , 110, 2166-2179	6.9	19
10	Gambogic acid alters chemosensitivity of breast cancer cells to Adriamycin. <i>BMC Complementary and Alternative Medicine</i> , 2015 , 15, 181	4.7	15
9	Fabrication of calix[4]arene derivative monolayers to control orientation of antibody immobilization. <i>International Journal of Molecular Sciences</i> , 2014 , 15, 5496-507	6.3	15
8	A novel lncRNA, LL22NC03-N64E9.1, represses KLF2 transcription through binding with EZH2 in colorectal cancer. <i>Oncotarget</i> , 2017 , 8, 59435-59445	3.3	15
7	Long noncoding RNA SNHG6 promotes proliferation and angiogenesis of cholangiocarcinoma cells through sponging miR-101-3p and activation of E2F8. <i>Journal of Cancer</i> , 2020 , 11, 3002-3012	4.5	13
6	Surface plasmon resonance sensor for norepinephrine using a monolayer of a calix[4]arene crown ether. <i>Mikrochimica Acta</i> , 2015 , 182, 1757-1763	5.8	6
5	Determination of Transcription Nuclear Factor-Kappa B Using an Electrochemical, DNA-Based Nanoswitch. <i>Analytical Letters</i> , 2014 , 47, 2691-2698	2.2	4
4	Direct electrochemical sensing of Ephepylendiamine based on perovskite-type nanomaterial LaNiTiO ₃ Fe ₃ O ₄ . <i>Journal of Solid State Electrochemistry</i> , 2014 , 18, 1973-1979	2.6	2
3	SP1 induced long non-coding RNA AGAP2-AS1 promotes cholangiocarcinoma proliferation via silencing of CDKN1A. <i>Molecular Medicine</i> , 2021 , 27, 10	6.2	2
2	Long non-coding RNAs and cancer mechanisms: Immune cells and inflammatory cytokines in the tumor microenvironment. 2022 , 39, 108		1
1	Long intergenic non-protein-coding RNA 467 promotes tumor progression and angiogenesis via the microRNA-128-3p/vascular endothelial growth factor C axis in colorectal cancer.. <i>Bioengineered</i> , 2022 , 13, 12392-12408	5.7
