#	Paper	IF	Citations
50	Caution, Preprint! Brief Explanations Allow Nonscientists to Differentiate Between Preprints and Peer-Reviewed Journal Articles. <i>Advances in Methods and Practices in Psychological Science</i> , 2022 , 5, 2515-2524	13.3	592110705
49	White Paper: Open Digital Health - accelerating transparent and scalable health promotion and treatment.. <i>Health Psychology Review</i> , 2022 , 1-17	7.1	1
48	Trends in educational disparities in preventive behaviours, risk perception, perceived effectiveness and trust in the first year of the COVID-19 pandemic in Germany.. <i>BMC Public Health</i> , 2022 , 22, 903	4.1	1
47	Development and Validation of the Diet-Related Beliefs of Exercisers Scale. <i>Journal of Sport and Exercise Psychology</i> , 2021 , 43, 115-124	1.5	
46	Exploring Negative Beliefs About Power. <i>Social Psychology</i> , 2021 , 52, 250-263	2.5	1
45	Is your health malleable or fixed? The influence of implicit theories on health-related attitudes and behaviour. <i>Psychology and Health</i> , 2020 , 35, 1421-1439	2.9	5
44	The Multiple Food Test: Development and validation of a new tool to measure food choice and applied nutrition knowledge. <i>Appetite</i> , 2020 , 150, 104647	4.5	8
43	Acceptance and adoption of protective measures during the COVID-19 pandemic: The role of trust in politics and trust in science. <i>Social Psychological Bulletin</i> , 2020 , 15,	2.3	50
42	Consumer perception and behaviour related to low-alcohol wine: do people overcompensate?. <i>Public Health Nutrition</i> , 2020 , 23, 1939-1947	3.3	3
41	Crowdsourcing hypothesis tests: Making transparent how design choices shape research results. <i>Psychological Bulletin</i> , 2020 , 146, 451-479	19.1	42
40	Changing Behavior Using Integrative Self-Control Theory 2020 , 150-163		1
39	Egocentric social network correlates of physical activity. <i>Journal of Sport and Health Science</i> , 2020 , 9, 339-344	8.2	12
38	Consistency and Balancing in Everyday Health Behaviour: An Ecological Momentary Assessment Approach. <i>Applied Psychology: Health and Well-Being</i> , 2019 , 11, 148-169	6.8	58
37	Introducing functional and dysfunctional self-licensing: Associations with indices of (un)successful dietary regulation. <i>Journal of Personality</i> , 2019 , 87, 934-947	4.4	12
36	Executive functions and the self-regulation of eating behavior: A review. <i>Appetite</i> , 2018 , 124, 4-9	4.5	111
35	Putting knowledge into practice: Does information on adverse drug interactions influence people's dosing behaviour?. <i>British Journal of Health Psychology</i> , 2017 , 22, 330-344	8.3	4
34	Whether people believe that overweight is unhealthy depends on their BMI. <i>European Journal of Public Health</i> , 2017 , 27, 781-783	2.1	0

33	Toward a mechanistic understanding of the impact of food insecurity on obesity. <i>Behavioral and Brain Sciences</i> , 2017 , 40, e116	0.9	1
32	The dark side of fluency: Fluent names increase drug dosing. <i>Journal of Experimental Psychology: Applied</i> , 2017 , 23, 231-239	1.8	6
31	Assessing self-control 2017 , 100-111		1
30	The neural correlates of health risk perception in individuals with low and high numeracy. <i>ZDM - International Journal on Mathematics Education</i> , 2016 , 48, 337-350	2	9
29	Does self-prepared food taste better? Effects of food preparation on liking. <i>Health Psychology</i> , 2016 , 35, 500-8	5	12
28	Towards an understanding of adult judgments of synergistic health benefits. <i>British Journal of Health Psychology</i> , 2016 , 21, 204-23	8.3	3
27	Exercise and food compensation: exploring diet-related beliefs and behaviors of regular exercisers. <i>Journal of Physical Activity and Health</i> , 2015 , 12, 322-7	2.5	10
26	Does wine label processing fluency influence wine hedonics?. <i>Food Quality and Preference</i> , 2015 , 44, 12-168	15.8	33
25	A self-determination theory approach to adultsThealthy body weight motivation: A longitudinal study focussing on food choices and recreational physical activity. <i>Psychology and Health</i> , 2015 , 30, 924-48	2.9	35
24	Fluency of pharmaceutical drug names predicts perceived hazardousness, assumed side effects and willingness to buy. <i>Journal of Health Psychology</i> , 2014 , 19, 1241-9	3.1	25
23	Public perception of carbon capture and storage (CCS): A review. <i>Renewable and Sustainable Energy Reviews</i> , 2014 , 38, 848-863	16.2	190
22	Predictors of risk and benefit perception of carbon capture and storage (CCS) in regions with different stages of deployment. <i>International Journal of Greenhouse Gas Control</i> , 2014 , 25, 23-32	4.2	38
21	Capturing eating behavior where the action takes place: a comment on McKee et al. <i>Annals of Behavioral Medicine</i> , 2014 , 48, 289-90	4.5	5
20	I cooked it myself: Preparing food increases liking and consumption. <i>Food Quality and Preference</i> , 2014 , 33, 14-16	5.8	62
19	Crowdsourcing novel childhood predictors of adult obesity. <i>PLoS ONE</i> , 2014 , 9, e87756	3.7	27
18	Time for change? Food choices in the transition to cohabitation and parenthood. <i>Public Health Nutrition</i> , 2014 , 17, 2730-9	3.3	28
17	Physical activity as a moderator of the association between emotional eating and BMI: evidence from the Swiss Food Panel. <i>Psychology and Health</i> , 2014 , 29, 1062-80	2.9	28
16	Consumer-perceived risks and choices about pharmaceuticals in the environment: a cross-sectional study. <i>Environmental Health</i> , 2013 , 12, 45	6	10

15	The effect of figures in CCS communication. <i>International Journal of Greenhouse Gas Control</i> , 2013 , 16, 83-90	4.2	15
14	Importance of cooking skills for balanced food choices. <i>Appetite</i> , 2013 , 65, 125-31	4.5	259
13	A consumer segmentation of nutrition information use and its relation to food consumption behaviour. <i>Food Policy</i> , 2013 , 42, 71-80	5	41
12	Cognitive and affective determinants of generic drug acceptance and use: cross-sectional and experimental findings. <i>Health Psychology and Behavioral Medicine</i> , 2013 , 1, 5-14	2.2	5
11	Fit in 50 years: participation in high school sports best predicts one's physical activity after age 70. <i>BMC Public Health</i> , 2013 , 13, 1100	4.1	33
10	The Role of Convictions and Trust for Public Protest Potential in the Case of Carbon Dioxide Capture and Storage (CCS). <i>Human and Ecological Risk Assessment (HERA)</i> , 2012 , 18, 919-932	4.9	24
9	Fear and anger: antecedents and consequences of emotional responses to mobile communication. <i>Journal of Risk Research</i> , 2012 , 15, 435-446	4.2	18
8	Mobile Communication in the Public Mind: Insights from Free Associations Related to Mobile Phone Base Stations. <i>Human and Ecological Risk Assessment (HERA)</i> , 2012 , 18, 649-668	4.9	7
7	Communication of CCS monitoring activities may not have a reassuring effect on the public. <i>International Journal of Greenhouse Gas Control</i> , 2011 , 5, 1674-1679	4.2	16
6	The impact of specific information provision on base station siting preferences. <i>Journal of Risk Research</i> , 2011 , 14, 703-715	4.2	7
5	Adapting communication to the public's intuitive understanding of CCS 2011 , 1, 83-91		15
4	Conjoint Measurement of Base Station Siting Preferences. <i>Human and Ecological Risk Assessment (HERA)</i> , 2010 , 16, 825-836	4.9	16
3	Examining the relationship between affect and implicit associations: implications for risk perception. <i>Risk Analysis</i> , 2010 , 30, 1116-28	3.9	45
2	Acceptance and Adoption of Protective Measures During the COVID-19 Pandemic: The Role of Trust in Politics and Trust in Science		13
1	The Perception of Infection Risks during the Early and Later Outbreak of COVID-19 in Germany: Consequences and Recommendations		15
