#	ARTICLE	IF	CITATIONS
1	Daily expression of workaholism and family outcomes: The buffering and magnifying effects of economic resources. <i>Stress and Health</i> , 2023, 39, 74-86.	2.6	1
2	Perceived barriers to mental healthcare among spouses of military service members.. <i>Psychological Services</i> , 2022, 19, 396-405.	1.5	6
3	Chronicling moral distress among healthcare providers during the COVID-19 pandemic: A longitudinal analysis of mental health strain, burnout, and maladaptive coping behaviours. <i>International Journal of Mental Health Nursing</i> , 2022, 31, 111-127.	3.8	34
4	A comparative analysis on fertility success among physician specialties. <i>Academic Emergency Medicine</i> , 2022, 29, 792-794.	1.8	3
5	Neglecting physician desires to teach at an academic medical facility: A mixed method investigation of the consequences. <i>Medical Teacher</i> , 2022, 44, 1044-1050.	1.8	2
6	Psychosocial safety climate and stigma: Reporting stress-related concerns at work. <i>Stress and Health</i> , 2021, 37, 488-503.	2.6	7
7	Living to work: The role of occupational calling in response to challenge and hindrance stressors. <i>Work and Stress</i> , 2021, 35, 111-131.	4.5	14
8	Job Demands and Resources among Healthcare Professionals during Virus Pandemics: A Review and Examination of Fluctuations in Mental Health Strain during COVID-19. <i>Applied Psychology</i> , 2021, 70, 120-149.	7.1	45
9	Enhancing the practice of medicine with embedded multi-disciplinary researchers in a model of change. <i>Healthcare</i> , 2021, 8, 100492.	1.3	1
10	Perceived resilience and social connection as predictors of adjustment following occupational adversity.. <i>Journal of Occupational Health Psychology</i> , 2021, 26, 339-349.	3.3	10
11	Perceiving a Calling as a Predictor of Future Work Attitudes: The Moderating Role of Meaningful Work. <i>Journal of Career Assessment</i> , 2020, 28, 187-201.	2.5	28
12	Determinants of mental and physical health treatment-seeking among military personnel. <i>British Journal of Psychiatry</i> , 2020, 217, 420-426.	2.8	25
13	Occupational Health Science in the Time of COVID-19: Now more than Ever. <i>Occupational Health Science</i> , 2020, 4, 1-22.	1.6	155
14	Is Commitment to One's Profession Always a Good Thing? Exploring the Moderating Role of Occupational Commitment in the Association Between Work Events and Occupational Health. <i>Journal of Career Assessment</i> , 2020, 28, 551-570.	2.5	7
15	Development and Initial Evaluation of a Dynamic Marksmanship Battery: Sensitivity to Vestibular Disturbances Relevant to Return-to-Duty. <i>Military Behavioral Health</i> , 2020, 8, 274-282.	0.8	0
16	LINKS Training and Unit Support for Mental Health: a Group-randomized Effectiveness Trial. <i>Prevention Science</i> , 2020, 21, 784-794.	2.6	2
17	Perceived unit climate of support for mental health as a predictor of stigma, beliefs about treatment, and help-seeking behaviors among military personnel.. <i>Psychological Services</i> , 2020, 17, 141-150.	1.5	19
18	The Role of Social Support in Treatment Seeking Among Soldiers. <i>Occupational Health Science</i> , 2019, 3, 337-361.	1.6	3

#	ARTICLE	IF	CITATIONS
19	Savoring as a Moderator of the Daily Demands and Psychological Capital Relationship: A Daily Diary Study. <i>Journal of Positive Psychology</i> , 2019, 14, 641-648.	4.0	7
20	Newcomer engagement and performance strategies in a high-risk occupational context.. <i>Sport, Exercise, and Performance Psychology</i> , 2019, 8, 334-351.	0.8	4
21	Testing the effects of using a behavioral health provider to deliver a routine post-deployment assessment for soldiers returning from combat.. <i>Psychological Services</i> , 2019, 16, 651-656.	1.5	1
22	Unit training to increase support for military personnel with mental health problems. <i>Work and Stress</i> , 2018, 32, 281-296.	4.5	15
23	Integrating new soldiers: The role of leaders and unit members. <i>Military Psychology</i> , 2018, 30, 131-141.	1.1	6
24	Integrating coping and recovery: Review and recommendations for future research. <i>Journal of Applied Biobehavioral Research</i> , 2018, 23, e12156.	2.0	1
25	Common mental disorders among US army aviation personnel: Prevalence and return to duty. <i>Journal of Clinical Psychology</i> , 2018, 74, 2173-2186.	1.9	11
26	Savouring as a moderator of the combat exposureâ€“mental health symptoms relationship. <i>Stress and Health</i> , 2018, 34, 582-588.	2.6	10
27	Occupational stress and mental health symptoms: Examining the moderating effect of work recovery strategies in firefighters.. <i>Journal of Occupational Health Psychology</i> , 2018, 23, 443-456.	3.3	55
28	Coping Strategies as Moderators of the Association Between Combat Exposure and Posttraumatic Stress Disorder Symptoms. <i>Journal of Traumatic Stress</i> , 2017, 30, 491-501.	1.8	21
29	Computerized Tests of Team Performance and Crew Coordination Suitable for Military/Aviation Settings. <i>Aerospace Medicine and Human Performance</i> , 2017, 88, 722-729.	0.4	1
30	Enhancing the Meaningfulness of Work for Astronauts on Long Duration Space Exploration Missions. <i>Aerospace Medicine and Human Performance</i> , 2017, 88, 779-783.	0.4	7
31	The role of personality traits and barriers to mental health treatment seeking among college students.. <i>Psychological Services</i> , 2017, 14, 513-523.	1.5	21
32	How the potential benefits of active combat events may partially offset their costs.. <i>International Journal of Stress Management</i> , 2017, 24, 156-172.	1.2	3
33	Resilience at the Interface: Novel Contexts and Neglected Methods. <i>Proceedings - Academy of Management</i> , 2017, 2017, 11975.	0.1	0
34	How Much Do We Really Know About Employee Resilience?. <i>Industrial and Organizational Psychology</i> , 2016, 9, 378-404.	0.6	258
35	Determinants of mental health treatment seeking among soldiers who recognize their problem: implications for high-risk occupations. <i>Work and Stress</i> , 2016, 30, 318-336.	4.5	25
36	Correlates and reasons for mental health treatment dropout among active duty soldiers.. <i>Psychological Services</i> , 2016, 13, 356-363.	1.5	15

#	ARTICLE	IF	CITATIONS
37	Effective and ineffective coping strategies in a low-autonomy work environment.. Journal of Occupational Health Psychology, 2016, 21, 154-168.	3.3	42
38	Implicit and Explicit Attitudes Toward Mental Health Treatment. Journal of Social and Clinical Psychology, 2016, 35, 45-63.	0.5	9
39	Employee mental health treatment seeking: Perceptions of responsibility and resilience. Journal of Workplace Behavioral Health, 2016, 31, 1-18.	1.4	4
40	Soldier Recommendations for Improving Mental Health Treatment Seeking in the Military. Military Behavioral Health, 2016, 4, 100-107.	0.8	4
41	The role of different stigma perceptions in treatment seeking and dropout among active duty military personnel.. Psychiatric Rehabilitation Journal, 2015, 38, 142-149.	1.1	74
