#	ARTICLE	IF	CITATIONS
1	Family supportive supervision in context: supporting breastfeeding at work among teachers in South Africa. <i>Community, Work and Family</i> , 2023, 26, 118-135.	2.2	4
2	Evolution of prevention of mother to child transmission of HIV policy in Zambia: Application of the policy triangle to understand the roles of actors, process and power. <i>Global Public Health</i> , 2022, 17, 2764-2778.	2.0	0
3	Conflicts of interest are harming maternal and child health: time for scientific journals to end relationships with manufacturers of breast-milk substitutes. <i>BMJ Global Health</i> , 2022, 7, e008002.	4.7	3
4	An exploration of pregnant women and mothers' attitudes, perceptions and experiences of formula feeding and formula marketing, and the factors that influence decision-making about infant feeding in South Africa. <i>BMC Public Health</i> , 2022, 22, 393.	2.9	5
5	I don't know what I should be feeding my child: foodways of primary caregivers of Child Support Grant recipients in South Africa. <i>Global Health Action</i> , 2022, 15, 2014045.	1.9	4
6	They push their products through me: health professionals' perspectives on and exposure to marketing of commercial milk formula in Cape Town and Johannesburg, South Africa – a qualitative study. <i>BMJ Open</i> , 2022, 12, e055872.	1.9	6
7	COVID-19 hospitalization and mortality and hospitalization-related utilization and expenditure: Analysis of a South African private health insured population. <i>PLoS ONE</i> , 2022, 17, e0268025.	2.5	3
8	Questioning the ethics of international research on formula milk supplementation in low-income African countries. <i>BMJ Global Health</i> , 2022, 7, e009181.	4.7	3
9	Optimising scale and deployment of community health workers in Sierra Leone: a geospatial analysis. <i>BMJ Global Health</i> , 2022, 7, e008141.	4.7	5
10	Legislation and Policies for the Right to Maternity Protection in South Africa: A Fragmented State of Affairs. <i>Journal of Human Lactation</i> , 2022, 38, 686-699.	1.6	4
11	The need to incorporate the impact of population ageing into the post-COVID-19 policy and planning reset in Low and Middle Income Countries. <i>Global Health Action</i> , 2021, 14, 1921351.	1.9	8
12	Integrated community case management of childhood illness in low- and middle-income countries. <i>The Cochrane Library</i> , 2021, 2021, CD012882.	2.8	15
13	Optimising geographical accessibility to primary health care: a geospatial analysis of community health posts and community health workers in Niger. <i>BMJ Global Health</i> , 2021, 6, e005238.	4.7	15
14	Assessing national cervical cancer screening guidelines: Results from an HIV testing clinic also screening for cervical cancer and HPV in Soweto, South Africa. <i>PLoS ONE</i> , 2021, 16, e0255124.	2.5	7
15	The substantial burden of non-communicable diseases and HIV-comorbidity amongst adults: Screening results from an integrated HIV testing services clinic for adults in Soweto, South Africa. <i>EClinicalMedicine</i> , 2021, 38, 101015.	7.1	8
16	Breastfeeding advice for reality: Women's perspectives on primary care support in South Africa. <i>Maternal and Child Nutrition</i> , 2020, 16, e12877.	3.0	13
17	An educational intervention to update health workers about HIV and infant feeding. <i>Maternal and Child Nutrition</i> , 2020, 16, e12922.	3.0	4
18	Building back from the ground up: the vital role of communities. <i>BMJ Global Health</i> , 2020, 5, e003928.	4.7	4

#	ARTICLE	IF	CITATIONS
19	Experiences of workplace breastfeeding in a provincial government setting: a qualitative exploratory study among managers and mothers in South Africa. <i>International Breastfeeding Journal</i> , 2020, 15, 100.	2.6	9
20	Use of social media platforms by manufacturers to market breast-milk substitutes in South Africa. <i>BMJ Global Health</i> , 2020, 5, e003574.	4.7	20
21	Level of adult client satisfaction with clinic flow time and services of an integrated non-communicable disease-HIV testing services clinic in Soweto, South Africa: a cross-sectional study. <i>BMC Health Services Research</i> , 2020, 20, 404.	2.2	5
22	A future for the world's children? A WHOâ€“UNICEFâ€“Lancet Commission. <i>Lancet</i> , The, 2020, 395, 605-658.	13.7	551
23	Does peer-navigated linkage to care work? A cross-sectional study of active linkage to care within an integrated non-communicable disease-HIV testing centre for adults in Soweto, South Africa. <i>PLoS ONE</i> , 2020, 15, e0241014.	2.5	4
24	Translating new evidence into clinical practice: a quasi-experimental controlled before-after study evaluating the effect of a novel outreach mentoring approach on knowledge, attitudes and confidence of health workers providing HIV and infant feeding counselling in South Africa. <i>BMJ Open</i> , 2020, 10, e034770.	1.9	0
25	Translating new evidence into clinical practice: a quasi-experimental controlled beforeâ€“after study evaluating the effect of a novel outreach mentoring approach on knowledge, attitudes and confidence of health workers providing HIV and infant feeding counselling in South Africa. <i>BMJ Open</i> , 2020, 10, e034770.	1.9	2
26	Using a mentorship model to localise the Practical Approach to Care Kit (PACK): from South Africa to Ethiopia. <i>BMJ Global Health</i> , 2019, 3, e001108.	4.7	27
27	Low birthweight: will new estimates accelerate progress?. <i>The Lancet Global Health</i> , 2019, 7, e809-e810.	6.3	13
28	Improving breastfeeding practices at scale. <i>The Lancet Global Health</i> , 2019, 7, e292-e293.	6.3	9
29	Demographics and health profile on precursors of non-communicable diseases in adults testing for HIV in Soweto, South Africa: a cross-sectional study. <i>BMJ Open</i> , 2019, 9, e030701.	1.9	9
30	Changes in rates of early exclusive breast feeding in South Africa from 2010 to 2013: data from three national surveys before and during implementation of a change in national breastfeeding policy. <i>BMJ Open</i> , 2019, 9, e028095.	1.9	8
31	Contribution of Maternal Antiretroviral Therapy and Breastfeeding to 24-Month Survival in Human Immunodeficiency Virus-Exposed Uninfected Children: An Individual Pooled Analysis of African and Asian Studies. <i>Clinical Infectious Diseases</i> , 2018, 66, 1668-1677.	5.8	28
32	Roles played by community cadres to support retention in PMTCT Option B+ in four African countries: a qualitative rapid appraisal. <i>BMJ Open</i> , 2018, 8, e020754.	1.9	12
33	What Influences Linkage to Care After Home-Based HIV Counseling and Testing?. <i>AIDS and Behavior</i> , 2018, 22, 722-732.	2.7	17
34	Using a mentorship model to localise the Practical Approach to Care Kit (PACK): from South Africa to Brazil. <i>BMJ Global Health</i> , 2018, 3, e001016.	4.7	19
35	Crossing borders: the PACK experience of spreading a complex health system intervention across low-income and middle-income countries. <i>BMJ Global Health</i> , 2018, 3, e001088.	4.7	21
36	â€“To be a woman is to make a planâ€™: a qualitative study exploring mothersâ€™ experiences of the Child Support Grant in supporting childrenâ€™s diets and nutrition in South Africa. <i>BMJ Open</i> , 2018, 8, e019376.	1.9	9

#	ARTICLE	IF	CITATIONS
37	The Practical Approach to Care Kit (PACK) guide: developing a clinical decision support tool to simplify, standardise and strengthen primary healthcare delivery. <i>BMJ Global Health</i> , 2018, 3, e000962.	4.7	51
38	Addressing the tensions and complexities involved in commissioning and undertaking implementation research in low- and middle-income countries. <i>BMJ Global Health</i> , 2018, 3, e000741.	4.7	8
39	Role of district health management teams in child health strategies. <i>BMJ: British Medical Journal</i> , 2018, 362, k2823.	2.3	20
40	Strengthening the capabilities of families and communities to improve child health in low and middle income countries. <i>BMJ: British Medical Journal</i> , 2018, 362, bmj.k2649.	2.3	10
41	Approaches and strategies used in the training and supervision of Health Extension Workers (HEWs) delivering integrated community case management (iCCM) of childhood illness in Ethiopia: a qualitative rapid appraisal. <i>African Health Sciences</i> , 2018, 18, 188.	0.7	9
42	Will the current National Strategic Plan enable South Africa to end AIDS, Tuberculosis and Sexually Transmitted Infections by 2022?. <i>Southern African Journal of HIV Medicine</i> , 2018, 19, 796.	0.9	10
43	In Utero ART Exposure and Birth and Early Growth Outcomes Among HIV-Exposed Uninfected Infants Attending Immunization Services: Results From National PMTCT Surveillance, South Africa. <i>Open Forum Infectious Diseases</i> , 2017, 4, ofx187.	0.9	46
44	South-Africa (Goodstart III) trial: community-based maternal and newborn care economic analysis. <i>Health Policy and Planning</i> , 2017, 32, i53-i63.	2.7	8
45	Allergy and infant feeding guidelines in the context of resource-constrained settings. <i>Journal of Allergy and Clinical Immunology</i> , 2017, 139, 455-458.	2.9	9
46	Self donors woke up tomorrow and said we can't fund you, what would we do? A health system dynamics analysis of implementation of PMTCT option B+ in Uganda. <i>Globalization and Health</i> , 2017, 13, 51.	4.9	14
47	Costs of implementing integrated community case management (iCCM) in six African countries: implications for sustainability. <i>Journal of Global Health</i> , 2017, 7, 010403.	2.7	16
48	Ending preventable child deaths in South Africa: What role can ward-based outreach teams play?. <i>South African Medical Journal</i> , 2016, 106, 672.	0.6	8
49	Reduction in child mortality in Ethiopia: analysis of data from demographic and health surveys. <i>Journal of Global Health</i> , 2016, 6, 020401.	2.7	19
50	The "community" in community case management of childhood illnesses in Malawi. <i>Global Health Action</i> , 2016, 9, 29177.	1.9	15
51	Which New Health Technologies Do We Need to Achieve an End to HIV/AIDS?. <i>PLoS Biology</i> , 2016, 14, e1002372.	5.6	12
52	Does adjusting for recall in trend analysis affect coverage estimates for maternal and child health indicators? An analysis of DHS and MICS survey data. <i>Global Health Action</i> , 2016, 9, 32408.	1.9	15
53	Strategies to improve male involvement in PMTCT Option B+ in four African countries: a qualitative rapid appraisal. <i>Global Health Action</i> , 2016, 9, 33507.	1.9	28
54	The dynamic relationship between cash transfers and child health: can the child support grant in South Africa make a difference to child nutrition?. <i>Public Health Nutrition</i> , 2016, 19, 356-362.	2.2	11

#	ARTICLE	IF	CITATIONS
55	An assessment of quality of home-based HIV counseling and testing performed by lay counselors in a rural sub-district of KwaZulu-Natal, South Africa. <i>Sahara J</i> , 2016, 13, 188-196.	0.7	5
56	Feasibility of community level interventions for pre-eclampsia: perspectives, knowledge and task-sharing from Nigeria, Mozambique, Pakistan and India. <i>Reproductive Health</i> , 2016, 13, 125.	3.1	5
57	Nigerâ€™s Child Survival Success, Contributing Factors and Challenges to Sustainability: A Retrospective Analysis. <i>PLoS ONE</i> , 2016, 11, e0146945.	2.5	11
58	Population-level effectiveness of PMTCT Option A on early mother-to-child (MTCT) transmission of HIV in South Africa: implications for eliminating MTCT. <i>Journal of Global Health</i> , 2016, 6, 020405.	2.7	33
59	Approaches to Evaluate the Impact of Community-Based Delivery Strategies. <i>American Journal of Tropical Medicine and Hygiene</i> , 2016, 94, 1433-1433.	1.4	0
60	The role of "hidden" community volunteers in community-based health service delivery platforms: examples from sub-Saharan Africa. <i>Global Health Action</i> , 2015, 8, 27214.	1.9	34
61	Linkage to care following a home-based HIV counselling and testing intervention in rural South Africa. <i>Journal of the International AIDS Society</i> , 2015, 18, 19843.	3.0	65
62	A systematic review of community-to-facility neonatal referral completion rates in Africa and Asia. <i>BMC Public Health</i> , 2015, 15, 989.	2.9	35
63	Assessment of Malawiâ€™s success in child mortality reduction through the lens of the Catalytic Initiative Integrated Health Systems Strengthening programme: Retrospective evaluation. <i>Journal of Global Health</i> , 2015, 5, 020412.	2.7	15
64	Valuing and Sustaining (or Not) the Ability of Volunteer Community Health Workers to Deliver Integrated Community Case Management in Northern Ghana: A Qualitative Study. <i>PLoS ONE</i> , 2015, 10, e0126322.	2.5	17
65	A Cost-Effectiveness Analysis of a Home-Based HIV Counselling and Testing Intervention versus the Standard (Facility Based) HIV Testing Strategy in Rural South Africa. <i>PLoS ONE</i> , 2015, 10, e0135048.	2.5	41
66	Missed Opportunities along the Prevention of Mother-to-Child Transmission Services Cascade in South Africa: Uptake, Determinants, and Attributable Risk (the SAPMTCTE). <i>PLoS ONE</i> , 2015, 10, e0132425.	2.5	64
67	Early Initiation of Antiretroviral Therapy Among Young Children. <i>Journal of Acquired Immune Deficiency Syndromes</i> (1999), 2015, 70, e70-e71.	2.1	0
68	Effect of an integrated community-based package for maternal and newborn care on feeding patterns during the first 12 weeks of life: a cluster-randomized trial in a South African township. <i>Public Health Nutrition</i> , 2015, 18, 2660-2668.	2.2	24
69	First population-level effectiveness evaluation of a national programme to prevent HIV transmission from mother to child, South Africa. <i>Journal of Epidemiology and Community Health</i> , 2015, 69, 240-248.	3.7	82
70	Effects of early feeding on growth velocity and overweight/obesity in a cohort of HIV unexposed South African infants and children. <i>International Breastfeeding Journal</i> , 2015, 10, 14.	2.6	13
71	Costs of Promoting Exclusive Breastfeeding at Community Level in Three Sites in South Africa. <i>PLoS ONE</i> , 2014, 9, e79784.	2.5	13
72	Child Support Grant access and receipt among 12-week-old infants in an urban township setting in South Africa. <i>Global Health Action</i> , 2014, 7, 25310.	1.9	4

#	ARTICLE	IF	CITATIONS
73	Severe events in the first 6 months of life in a cohort of HIV unexposed infants from South Africa: effects of low birthweight and breastfeeding status. <i>Tropical Medicine and International Health</i> , 2014, 19, 1162-1169.	2.3	7
74	Social circumstances that drive early introduction of formula milk: an exploratory qualitative study in a peri-urban South African community. <i>Maternal and Child Nutrition</i> , 2014, 10, 102-111.	3.0	30
75	Early infant feeding practices in three African countries: the PROMISE-EBF trial promoting exclusive breastfeeding by peer counsellors. <i>International Breastfeeding Journal</i> , 2014, 9, 19.	2.6	37
76	Goodstart: a cluster randomised effectiveness trial of an integrated, community-based package for maternal and newborn care, with prevention of mother-to-child transmission of HIV in a South African township. <i>Tropical Medicine and International Health</i> , 2014, 19, 256-266.	2.3	74
77	Growth effects of exclusive breastfeeding promotion by peer counsellors in sub-Saharan Africa: the cluster-randomised PROMISE EBF trial. <i>BMC Public Health</i> , 2014, 14, 633.	2.9	33
78	The child support grant and adolescent risk of HIV infection in South Africa. <i>The Lancet Global Health</i> , 2014, 2, e199.	6.3	1
79	Assessment of the uptake of neonatal and young infant referrals by community health workers to public health facilities in an urban informal settlement, KwaZulu-Natal, South Africa. <i>BMC Health Services Research</i> , 2013, 13, 47.	2.2	42
80	Nutrition of Infants and HIV. , 2013, , 175-188.		0
81	Reduction in child mortality in Niger. <i>Lancet, The</i> , 2013, 381, 24-25.	13.7	2
82	Free formula milk in the prevention of mother-to-child transmission programme: voices of a peri-urban community in South Africa on policy change. <i>Health Policy and Planning</i> , 2013, 28, 761-768.	2.7	12
83	Eliminating mother-to-child HIV transmission in South Africa. <i>Bulletin of the World Health Organization</i> , 2013, 91, 70-74.	3.3	139
84	Effect of home based HIV counselling and testing intervention in rural South Africa: cluster randomised trial. <i>BMJ, The</i> , 2013, 346, f3481-f3481.	6.0	76
85	Value of a mobile information system to improve quality of care by community health workers. <i>South African Journal of Information Management</i> , 2013, 15, .	0.8	21
86	Knowledge of HIV status prior to a community HIV counseling and testing intervention in a rural district of south Africa: results of a community based survey. <i>BMC Infectious Diseases</i> , 2012, 12, 73.	2.9	42
87	Early cessation of breastfeeding amongst women in South Africa: an area needing urgent attention to improve child health. <i>BMC Pediatrics</i> , 2012, 12, 105.	1.7	78
88	Mother's perceptions and experiences of infant feeding within a community-based peer counselling intervention in South Africa. <i>Maternal and Child Nutrition</i> , 2012, 8, 448-458.	3.0	54
89	Exclusive breastfeeding promotion by peer counsellors in sub-Saharan Africa (PROMISE-EBF): a cluster-randomised trial. <i>Lancet, The</i> , 2011, 378, 420-427.	13.7	219
90	Implications of the new WHO guidelines on HIV and infant feeding for child survival in South Africa. <i>Bulletin of the World Health Organization</i> , 2011, 89, 62-67.	3.3	67

#	ARTICLE	IF	CITATIONS
91	Moving from vertical to integrated child health programmes: experiences from a multi-country assessment of the Child Health Days approach in Africa. <i>Tropical Medicine and International Health</i> , 2010, 15, 296-305.	2.3	56
92	“Peer but Not Peer” Considering the Context of Infant Feeding Peer Counseling in a High HIV Prevalence Area. <i>Journal of Human Lactation</i> , 2009, 25, 427-434.	1.6	25
93	Improving the coverage of the PMTCT programme through a participatory quality improvement intervention in South Africa. <i>BMC Public Health</i> , 2009, 9, 406.	2.9	89
94	Operational Effectiveness of Guidelines on Complete Breast-Feeding Cessation to Reduce Mother-to-Child Transmission of HIV: Results From a Prospective Observational Cohort Study at Routine Prevention of Mother-to-Child Transmission Sites, South Africa. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2009, 50, 521-528.	2.1	19
95	Operational effectiveness and 36 week HIV-free survival in the South African programme to prevent mother-to-child transmission of HIV-1. <i>Aids</i> , 2007, 21, 509-516.	2.2	62
96	Effectiveness of the WHO/UNICEF guidelines on infant feeding for HIV-positive women: results from a prospective cohort study in South Africa. <i>Aids</i> , 2007, 21, 1791-1797.	2.2	93
97	Missed opportunities for participation in prevention of mother to child transmission programmes: Simplicity of nevirapine does not necessarily lead to optimal uptake, a qualitative study. <i>AIDS Research and Therapy</i> , 2007, 4, 27.	1.7	42
98	Community-Based Situation Analysis of Maternal and Neonatal Care in South Africa to Explore Factors that Impact Utilization of Maternal Health Services. <i>Journal of Midwifery and Women's Health</i> , 2007, 52, 342-350.	1.3	54
99	Preventing HIV transmission to children: Quality of counselling of mothers in South Africa. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2005, 94, 357-363.	1.5	85
100	Health system constraints to optimal coverage of the prevention of mother-to-child HIV transmission programme in South Africa: lessons from the implementation of the national pilot programme. <i>African Health Sciences</i> , 2005, 5, 213-8.	0.7	58
