citing authors

#	ARTICLE	IF	CITATIONS
1	Tissue sensitivity to thyroid hormones may change over time. <i>European Thyroid Journal</i> , 2022, , .	1.2	4
2	Primary Adrenal Insufficiency in Childhood: Data From a Large Nationwide Cohort. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2021, 106, 762-773.	1.8	25
3	The Role of Different Indexes of Adiposity and Body Composition for the Identification of Metabolic Syndrome in Women with Obesity. <i>Journal of Clinical Medicine</i> , 2021, 10, 1975.	1.0	9
4	Parameters of Glucose Homeostasis in the Recognition of the Metabolic Syndrome in Young Adults with Prader-Willi Syndrome. <i>Journal of Clinical Medicine</i> , 2021, 10, 5635.	1.0	0
5	Accuracy of Different Indexes of Body Composition and Adiposity in Identifying Metabolic Syndrome in Adult Subjects with Prader-Willi Syndrome. <i>Journal of Clinical Medicine</i> , 2020, 9, 1646.	1.0	10
6	IGF1 for the diagnosis of growth hormone deficiency in children and adolescents: a reappraisal. <i>Endocrine Connections</i> , 2020, 9, 1095-1102.	0.8	18
7	Patients with chronic autoimmune thyroiditis are not at higher risk for developing clinically overt thyroid cancer: a 10-year follow-up study. <i>European Journal of Endocrinology</i> , 2020, 183, 317-323.	1.9	9
8	BMI as criterion to start the work-up in obesity. <i>European Journal of Endocrinology</i> , 2020, 183, L11-L12.	1.9	0
9	Indexes of adiposity and body composition in the prediction of metabolic syndrome in obese children and adolescents: Which is the best?. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2019, 29, 1189-1196.	1.1	19
10	Altered Thyroid Function and Structure in Children and Adolescents Who Are Overweight and Obese: Reversal After Weight Loss. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2019, 104, 2757-2765.	1.8	33
11	Influence of Hashimoto Thyroiditis on the Development of Thyroid Nodules and Cancer in Children and Adolescents. <i>Journal of the Endocrine Society</i> , 2019, 3, 607-616.	0.1	29
12	Age at Menarche and Menstrual Abnormalities in Adolescence: Does it Matter? The Evidence from a Large Survey among Italian Secondary Schoolgirls. <i>Indian Journal of Pediatrics</i> , 2019, 86, 34-41.	0.3	15
13	Menstrual Cycle and Headache in Teenagers. <i>Indian Journal of Pediatrics</i> , 2019, 86, 25-33.	0.3	11
14	Bone Geometry, Quality, and Bone Markers in Children with Type 1 Diabetes Mellitus. <i>Calcified Tissue International</i> , 2018, 102, 657-665.	1.5	18
15	The influence of GH treatment on glucose homeostasis in girls with Turner Syndrome: a 7 years study. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2017, 102, jc.2016-3179.	1.8	13
16	A frequent oligogenic involvement in congenital hypothyroidism. <i>Human Molecular Genetics</i> , 2017, 26, 2507-2514.	1.4	107
17	Thyroid function in children and adolescents with Hashimoto's thyroiditis after l-thyroxine discontinuation. <i>Endocrine Connections</i> , 2017, 6, 206-212.	0.8	12
18	Analysis of growth hormone receptor gene expression in tall and short stature children. <i>Journal of Pediatric Endocrinology and Metabolism</i> , 2017, 30, 427-430.	0.4	9

#	ARTICLE	IF	CITATIONS
19	Letter to the Editor: "Association of TSH With Cardiovascular Disease Risk in Overweight and Obese Children During Lifestyle Intervention"; Journal of Clinical Endocrinology and Metabolism, 2017, 102, 4658-4659.	1.8	0
20	Serum $\pm$ -klotho levels are not informative for the evaluation of growth hormone secretion in short children. Journal of Pediatric Endocrinology and Metabolism, 2017, 30, 1055-1059.	0.4	2
21	Pegvisomant-primed growth hormone (GH) stimulation test is useful in identifying true GH deficient children. Hormones, 2017, 13, 291-296.	0.9	2
22	A thicker intima-media carotid wall was found in a cohort of children with "recent onset migraine. Acta Paediatrica, International Journal of Paediatrics, 2016, 105, e577-e581.	0.7	4
23	Cut-off limits of the peak GH response to stimulation tests for the diagnosis of GH deficiency in children and adolescents: study in patients with organic GHD. European Journal of Endocrinology, 2016, 175, 41-47.	1.9	47
24	The Influence of Growth Hormone Treatment on Glucose Homeostasis in GrowthHormone-Deficient Children: A Six-Year Follow-Up Study. Hormone Research in Paediatrics, 2016, 86, 196-200.	0.8	15
25	The effect of two different GH dosages on final height and bone geometry. Italian Journal of Pediatrics, 2016, 42, 5.	1.0	2
26	JAG1 Loss-Of-Function Variations as a Novel Predisposing Event in the Pathogenesis of Congenital Thyroid Defects. Journal of Clinical Endocrinology and Metabolism, 2016, 101, 861-870.	1.8	54
27	Metamorphic thyroid autoimmunity in Down Syndrome: from Hashimoto's thyroiditis to Graves' disease and beyond. Italian Journal of Pediatrics, 2015, 41, 87.	1.0	29
28	Peculiarities of presentation and evolution over time of Hashimoto's thyroiditis in children and adolescents with Down's syndrome. Hormones, 2015, 14, 410-6.	0.9	33
29	Adults with Prader-Willi Syndrome have Weaker Bones: Effect of Treatment with GH and Sex Steroids. Calcified Tissue International, 2015, 96, 160-166.	1.5	26
30	Different Sports in Adolescence: Effect on Lipid Profile, Glucose Metabolism, Body Composition, Bone Density, Bone Quality, Bone Markers, Vascular Function and Structure, Pituitary and Hypothalamic Antibodies. Diabetes Research (Fairfax, Va ), 2015, 1, 97-104.	0.1	0
31	Clinical Aspects of Hashimoto's Thyroiditis. Endocrine Development, 2014, 26, 158-170.	1.3	77
32	Higher Circulating Parathormone is Associated with Smaller and Weaker Bones in Obese Children. Calcified Tissue International, 2014, 95, 1-7.	1.5	19
33	Small metacarpal bones of low quality in obese children. Clinical Endocrinology, 2013, 78, 79-85.	1.2	5
34	Thyroid Function and Obesity. JCRPE Journal of Clinical Research in Pediatric Endocrinology, 2012, 4, 40-4.	0.4	50
35	Frequent TSH Receptor Genetic Alterations with Variable Signaling Impairment in a Large Series of Children with Nonautoimmune Isolated Hyperthyrotropinemia. Journal of Clinical Endocrinology and Metabolism, 2012, 97, E156-E160.	1.8	47
36	Impaired GH Secretion in Patients with SHOX Deficiency and Efficacy of Recombinant Human GH Therapy. Hormone Research in Paediatrics, 2012, 78, 279-287.	0.8	15

#	ARTICLE	IF	CITATIONS
37	Menstrual pattern and menstrual disorders among adolescents: an update of the Italian data. Italian Journal of Pediatrics, 2012, 38, 38.	1.0	84
38	The natural history of the normal/mild elevated TSH serum levels in children and adolescents with Hashimoto's thyroiditis and isolated hyperthyrotropinaemia: a 3-year follow-up. Clinical Endocrinology, 2012, 76, 394-398.	1.2	83
39	Effect of Arginine Infusion on Ghrelin Secretion in Growth Hormone-Sufficient and GH-Deficient Children. International Journal of Endocrinology and Metabolism, 2012, 10, 470-474.	0.3	2
40	Growth hormone secretory pattern in non-obese children and adolescents with Prader-Willi syndrome. Journal of Pediatric Endocrinology and Metabolism, 2011, 24, 477-81.	0.4	24
41	Clinical heterogeneity and diagnostic delay of autoimmune polyendocrinopathy-candidiasis-ectodermal dystrophy syndrome. Clinical Immunology, 2011, 139, 6-11.	1.4	49
42	Central hypothyroidism following chemotherapy for acute lymphoblastic leukemia. Journal of Pediatric Endocrinology and Metabolism, 2011, 24, 903-6.	0.4	10
43	Ghrelin levels are reduced in prepubertal epileptic children under treatment with carbamazepine or valproic acid. Epilepsia, 2010, 51, 312-315.	2.6	28
44	Peculiarities of Graves' disease in children and adolescents with Down's syndrome. European Journal of Endocrinology, 2010, 162, 591-595.	1.9	55
45	Update on Age at Menarche in Italy: Toward the Leveling Off of the Secular Trend. Journal of Adolescent Health, 2010, 46, 238-244.	1.2	95
46	Reassessment of the Growth Hormone Status in Young Adults with Childhood-Onset Growth Hormone Deficiency: Reappraisal of Insulin Tolerance Testing. Journal of Clinical Endocrinology and Metabolism, 2009, 94, 4195-4204.	1.8	58
47	Evaluation of the autoimmune regulator (AIRE) gene mutations in a cohort of Italian patients with autoimmune polyendocrinopathy-candidiasis-ectodermal dystrophy (APECED) and in their relatives. Clinical Endocrinology, 2009, 70, 421-428.	1.2	78
48	TSH and endothelial function in children. European Journal of Pediatrics, 2008, 167, 355-356.	1.3	5
49	The Italian National Survey for Prader-Willi syndrome: An epidemiologic study. American Journal of Medical Genetics, Part A, 2008, 146A, 861-872.	0.7	81
50	Pegvisomant-primed GH stimulation test. Clinical Endocrinology, 2008, 68, 951-956.	1.2	5
51	Thyroid Function and Structure Are Affected in Childhood Obesity. Journal of Clinical Endocrinology and Metabolism, 2008, 93, 4749-4754.	1.8	94
52	Prematurity May Be a Risk Factor for Thyroid Dysfunction in Childhood. Journal of Clinical Endocrinology and Metabolism, 2007, 92, 155-159.	1.8	38
53	The advantage of measuring spontaneous growth hormone (GH) secretion compared with the insulin tolerance test in the diagnosis of GH deficiency in young adults. Clinical Endocrinology, 2007, 67, 78-84.	1.2	10
54	Identification of New Variants of Human BMP15 Gene in a Large Cohort of Women with Premature Ovarian Failure. Journal of Clinical Endocrinology and Metabolism, 2006, 91, 1976-1979.	1.8	196

#	ARTICLE	IF	CITATIONS
55	Normal Range of Calcitonin in Children Measured by a Chemiluminescent Two-Site Immunometric Assay. <i>Hormone Research in Paediatrics</i> , 2006, 66, 17-20.	0.8	20
56	The natural history of euthyroid Hashimoto's thyroiditis in children. <i>Journal of Pediatrics</i> , 2006, 149, 827-832.	0.9	139
57	TGB Deficiency: description of two novel mutations associated with complete TBG deficiency and review of the literature. <i>Journal of Molecular Medicine</i> , 2006, 84, 864-871.	1.7	24
58	Improvement of Cardiac Performance and Cardiovascular Risk Factors in Children with GH Deficiency after Two Years of GH Replacement Therapy: An Observational, Open, Prospective, Case-Control Study. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2006, 91, 1288-1295.	1.8	62
59	Non-alcoholic fatty liver disease in obese children evaluated by magnetic resonance imaging. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 833-837.	0.7	78
60	Influence of two different GH dosage regimens on final height, bone geometry and bone strength in GH-deficient children. <i>European Journal of Endocrinology</i> , 2006, 154, 479-482.	1.9	12
61	DAX1 and X-linked adrenal hypoplasia congenita: clinical and molecular analysis in five patients. <i>European Journal of Endocrinology</i> , 2006, 154, 685-689.	1.9	42
62	Non-alcoholic fatty liver disease in obese children evaluated by magnetic resonance imaging. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2006, 95, 833-837.	0.7	3
63	Thyrotropin receptor gene mutations and TSH resistance: variable expressivity in the heterozygotes. <i>Clinical Endocrinology</i> , 2005, 63, 146-151.	1.2	60
64	SRD5A2 gene analysis in an Italian population of under-masculinized 46,XY subjects. <i>Clinical Endocrinology</i> , 2005, 63, 375-380.	1.2	55
65	Altered Thyroid and Adrenal Function in Children Born at Term and Preterm, Small for Gestational Age. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2004, 89, 6320-6324.	1.8	52
66	Ghrelin Secretion in Childhood Is Refractory to the Inhibitory Effect of Feeding. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2004, 89, 1662-1665.	1.8	45
67	Is Growth Hormone Treatment in Young Children Safe for the Heart?. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2004, 89, 5271-5272.	1.8	0
68	Insulin sensitivity in Turner's syndrome: influence of GH treatment. <i>European Journal of Endocrinology</i> , 2004, 151, 351-354.	1.9	23
69	Insulin sensitivity in growth hormone-deficient children: influence of replacement treatment. <i>Clinical Endocrinology</i> , 2004, 61, 473-477.	1.2	18
70	Bone metabolism in patients with anorexia nervosa and amenorrhea. <i>Bone Abstracts</i> , 0, , .	0.0	1
71	Clinical and genetic findings of an Italian series of patients with ACTH resistance syndromes. <i>Endocrine Abstracts</i> , 0, , .	0.0	0
72	Primary adrenal insufficiency in children: results from a large nationwide cohort. <i>Endocrine Abstracts</i> , 0, , .	0.0	0
