#	ARTICLE	IF	CITATIONS
1	Antenatal magnesium sulfate to prevent cerebral palsy. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 225-227.	1.4	4
2	Improving the admission temperatures of preterm infants in the neonatal unit. Archives of Disease in Childhood: Education and Practice Edition, 2022, 107, 375-378.	0.3	0
3	#neoTwitter: evaluation of its use within the neonatal-perinatal community. Journal of Perinatology, 2022, 42, 1409-1411.	0.9	3
4	Knowledge of Galactagogue Use During Breastfeeding in Australia: A Cross Sectional Online Survey. Journal of Human Lactation, 2022, 38, 740-748.	0.8	4
5	EBNEO commentary: Foetal surgery for severe left diaphragmatic hernia. Acta Paediatrica, International Journal of Paediatrics, 2022, , .	0.7	0
6	International guidelines regarding the role of IVIG in the management of Rh and ABO mediated haemolytic disease of the newborn. British Journal of Haematology, 2022, , .	1.2	6
7	Effects of COVID-19 pandemic restrictions on an Australian neonatal and paediatric retrieval service. Journal of Paediatrics and Child Health, 2022, , .	0.4	0
8	Safety and efficacy of human milk-based fortifier in enterally fed preterm and/or low birthweight infants: a systematic review and meta-analysis. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2021, 106, 137-142.	1.4	16
9	EBNEO commentaries: An ongoing collaboration advancing evidence-based neonatal care. Acta Paediatrica, International Journal of Paediatrics, 2021, 110, 1398-1400.	0.7	1
10	Closing the evidence to practice gap in neonatal transfusion medicine. Seminars in Fetal and Neonatal Medicine, 2021, 26, 101197.	1.1	8
11	EBNEO Commentary: Red blood cell transfusion thresholds in extremely low birthweight infants. Acta Paediatrica, International Journal of Paediatrics, 2021, 110, 2476-2477.	0.7	0
12	Building a community of practice through social media using the hashtag #neoEBM. PLoS ONE, 2021, 16, e0252472.	1.1	6
13	"I wish I'd had the option": Views about donor human milk among parents with babies born moderate-to preterm. Journal of Paediatrics and Child Health, 2021, 57, 1334-1335.	0.4	0
14	A Quality Improvement Initiative to Reduce Blood Culture Contamination in the Neonatal Unit. Pediatric Quality & Safety, 2021, 6, e413.	0.4	5
15	Impact of human donor milk on maternal milk use at discharge: assessment using control charts. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2021, , fetalneonatal-2020-321416.	1.4	0
16	Red blood cell transfusion thresholds in extremely low birth weight infants II. Acta Paediatrica, International Journal of Paediatrics, 2021, 110, 2658-2659.	0.7	0
17	Tailoring Human Milk Oligosaccharides to Prevent Necrotising Enterocolitis Among Preterm Infants. Frontiers in Nutrition, 2021, 8, 702888.	1.6	8
18	Use and experiences of galactagogues while breastfeeding among Australian women. PLoS ONE, 2021, 16, e0254049.	1.1	19

#	ARTICLE	IF	CITATIONS
19	Early versus delayed introduction of human milk fortification in enterally fed preterm infants: A systematic review and meta-analysis. <i>Journal of Paediatrics and Child Health</i> , 2021, , .	0.4	4
20	Antenatal magnesium sulphate for preventing cerebral palsy: An economic evaluation of the impact of a quality improvement program. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2021, , .	0.4	0
21	Top 10 research priorities for human milk banking and use of donor human milk: A partnership between parents and clinicians. <i>Journal of Paediatrics and Child Health</i> , 2020, 56, 770-776.	0.4	4
22	Does selective evaluation of gastric aspirates in preterm infants influence time to full enteral feeding?. <i>Journal of Paediatrics and Child Health</i> , 2020, 56, 1150-1154.	0.4	1
23	Ranibizumab – The jury is still out. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, , .	0.7	1
24	Fluid Therapy. <i>Clinics in Perinatology</i> , 2020, 47, 515-528.	0.8	4
25	Utilising social media to educate and inform healthcare professionals, policy-makers and the broader community in evidence-based healthcare. <i>BMJ Evidence-Based Medicine</i> , 2019, 24, 87-89.	1.7	10
26	Platelet and red cell transfusions for neonates: lifesavers or Trojan horses?. <i>Expert Review of Hematology</i> , 2019, 12, 797-800.	1.0	16
27	In preterm infants, does fluid restriction, as opposed to liberal fluid prescription, reduce the risk of important morbidities and mortality?. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 860-866.	0.4	17
28	Does early compared to late fortification of human milk for preterm infants improve clinical outcomes?. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 867-872.	0.4	9
29	What clinical practice strategies have been shown to decrease incidence rates of intraventricular haemorrhage in preterm infants?. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 1269-1278.	0.4	8
30	Approaches to understanding and interpreting the risks of red blood cell transfusion in neonates. <i>Transfusion Medicine</i> , 2019, 29, 231-238.	0.5	13
31	What evidence-based strategies have been shown to improve breastfeeding rates in preterm infants?. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 907-914.	0.4	14
32	Are there interventions that improve breastfeeding and the use of breast milk in late preterm infants?. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 477-480.	0.4	4
33	Quality improvement can reduce unintended extubations. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2019, 108, 2305-2306.	0.7	0
34	The practice of transfusion and fluid bolus therapy in neonates. <i>ISBT Science Series</i> , 2019, 14, 90-97.	1.1	0
35	International, multicentre, observational study of fluid bolus therapy in neonates. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 632-639.	0.4	13
36	Cost-effectiveness of universal and targeted newborn screening for congenital cytomegalovirus infection. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 906-906.	0.7	4

#	ARTICLE	IF	CITATIONS
37	Does screening for congenital cytomegalovirus at birth improve longer term hearing outcomes?. Archives of Disease in Childhood, 2018, 103, 988-992.	1.0	10
38	Do feeding practices during transfusion influence the risk of developing necrotising enterocolitis in preterm infants?. Journal of Paediatrics and Child Health, 2018, 54, 582-584.	0.4	3
39	A quantitative, risk-based approach to the management of neonatal early-onset sepsis. Acta Paediatrica, International Journal of Paediatrics, 2018, 107, 1474-1475.	0.7	2
40	Quality improvement effort to reduce hypothermia among high-risk infants on a mother-infant unit. Acta Paediatrica, International Journal of Paediatrics, 2018, 107, 1837-1837.	0.7	1
41	Washed versus unwashed red blood cells for transfusion for the prevention of morbidity and mortality in preterm infants. The Cochrane Library, 2016, 2016, CD011484.	1.5	5
42	Adverse effects of red blood cell transfusions in neonates: a systematic review and meta-analysis. Transfusion, 2016, 56, 2773-2780.	0.8	36
43	Neonatal Plasma Transfusion: An Evidence-Based Review. Transfusion Medicine Reviews, 2016, 30, 174-182.	0.9	32
44	Use of intravenous immunoglobulin in neonates at a tertiary academic hospital: a retrospective 11-year study. Transfusion, 2016, 56, 2704-2711.	0.8	10
45	QUESTION 2: Are intravenous fluid boluses beneficial in late preterm or term infants with suspected haemodynamic compromise?. Archives of Disease in Childhood, 2016, 101, 201-202.	1.0	4
46	Temporal changes in blood product usage in preterm neonates born at less than 30 weeks' gestation in Canada. Transfusion, 2015, 55, 1340-1346.	0.8	64
47	A systematic review of transfusion-associated graft-versus-host disease. Blood, 2015, 126, 406-414.	0.6	144
48	Red Blood Cell Transfusions at 21 Days of Age or Older in Previously Transfusion-Naive Very Preterm Infants: Association with Neonatal Outcomes. American Journal of Perinatology, 2015, 32, 1139-1144.	0.6	10
49	Anaemia in the Premature Infant and Red Blood Cell Transfusion: New Approaches to an Age-Old Problem. Current Treatment Options in Pediatrics, 2015, 1, 191-201.	0.2	11
50	How to use: the direct antiglobulin test in newborns. Archives of Disease in Childhood: Education and Practice Edition, 2015, 100, 198-203.	0.3	30
51	How long should umbilical venous catheters remain in place in neonates who require long-term (>7) Tj ETOq1 1 0.784314 0.41 15	0.4	15
52	Innocent until proven guilty: do neonatal red blood cell transfusions really cause posttransfusion hyperbilirubinemia?. Transfusion, 2014, 54, 3014-3015.	0.8	0
53	Fresh-frozen plasma should not be given to nonbleeding premature infants with abnormal coagulation tests. Transfusion, 2014, 54, 1681-1681.	0.8	3
54	Coinfusion of dextrose-containing fluids and red blood cells does not adversely affect in vitro red blood cell quality. Transfusion, 2014, 54, 2068-2076.	0.8	5

#	ARTICLE	IF	CITATIONS
55	Beyond the borderline: Outcomes for inborn infants born at ≤ 500 grams. Journal of Paediatrics and Child Health, 2014, 50, 146-152.	0.4	33
56	Adverse effects of small-volume red blood cell transfusions in the neonatal population. Systematic Reviews, 2014, 3, 92.	2.5	4
57	Systematic Review of Cases of Transfusion Associated Graft-Versus-Host-Disease (TA-GVHD): Analysis of Patient Characteristics and Outcomes. Blood, 2014, 124, 2885-2885.	0.6	1
58	Product Attributes and Donor Factors in Reported Cases of Transfusion-Associated Graft Versus Host Disease: A Systematic Review. Blood, 2014, 124, 2883-2883.	0.6	0
59	“Please call my baby by her name” TM . Acta Paediatrica, International Journal of Paediatrics, 2013, 102, 842-843.	0.7	2
60	Plasma cytokines and markers of endothelial activation increase after packed red blood cell transfusion in the preterm infant. Pediatric Research, 2013, 73, 75-79.	1.1	76
61	Communication skills training in paediatrics. Journal of Paediatrics and Child Health, 2013, 49, 624-628.	0.4	13
62	Should intravenous immunoglobulin be used in infants with isoimmune haemolytic disease due to ABO incompatibility?. Journal of Paediatrics and Child Health, 2013, 49, 1072-1078.	0.4	6
63	Cold case reopened: the missing human inflammatory cytokine response to transfusion. Transfusion, 2013, 53, 1620-1621.	0.8	1
64	Is it safe to co-infuse dextrose-containing fluids with red blood cells?. Journal of Paediatrics and Child Health, 2013, 49, 687-691.	0.4	1
65	Does non-transferrin bound iron contribute to transfusion related immune-modulation in preterms?. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2013, 98, F424-F429.	1.4	42
66	Question 1 * Do feeding practices during transfusion influence the risk of developing necrotising enterocolitis in preterm infants?. Archives of Disease in Childhood, 2013, 98, 386-388.	1.0	14
