

Tomas Jernberg

List of Publications by Citations

Source: <https://exaly.com/author-pdf/7992490/tomas-jernberg-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
204	Prasugrel achieves greater inhibition of platelet aggregation and a lower rate of non-responders compared with clopidogrel in aspirin-treated patients with stable coronary artery disease. <i>European Heart Journal</i> , 2006 , 27, 1166-73	9.5	465
203	Cardiovascular risk in post-myocardial infarction patients: nationwide real world data demonstrate the importance of a long-term perspective. <i>European Heart Journal</i> , 2015 , 36, 1163-70	9.5	418
202	The Swedish Web-system for enhancement and development of evidence-based care in heart disease evaluated according to recommended therapies (SWEDEHEART). <i>Heart</i> , 2010 , 96, 1617-21	5.1	414
201	N-terminal pro brain natriuretic peptide on admission for early risk stratification of patients with chest pain and no ST-segment elevation. <i>Journal of the American College of Cardiology</i> , 2002 , 40, 437-45	15.1	282
200	Association between adoption of evidence-based treatment and survival for patients with ST-elevation myocardial infarction. <i>JAMA - Journal of the American Medical Association</i> , 2011 , 305, 1677-84	27.4	271
199	Multicenter Evaluation of a 0-Hour/1-Hour Algorithm in the Diagnosis of Myocardial Infarction With High-Sensitivity Cardiac Troponin T. <i>Annals of Emergency Medicine</i> , 2016 , 68, 76-87.e4	2.1	214
198	Acute myocardial infarction: a comparison of short-term survival in national outcome registries in Sweden and the UK. <i>Lancet, The</i> , 2014 , 383, 1305-1312	4.0	202
197	Cystatin C: a novel predictor of outcome in suspected or confirmed non-ST-elevation acute coronary syndrome. <i>Circulation</i> , 2004 , 110, 2342-8	16.7	198
196	Medical Therapy for Secondary Prevention and Long-Term Outcome in Patients With Myocardial Infarction With Nonobstructive Coronary Artery Disease. <i>Circulation</i> , 2017 , 135, 1481-1489	16.7	189
195	Oxygen Therapy in Suspected Acute Myocardial Infarction. <i>New England Journal of Medicine</i> , 2017 , 377, 1240-1249	59.2	186
194	Improved outcomes in patients with ST-elevation myocardial infarction during the last 20 years are related to implementation of evidence-based treatments: experiences from the SWEDEHEART registry 1995-2014. <i>European Heart Journal</i> , 2017 , 38, 3056-3065	9.5	174
193	The Swedish CARDioPulmonary Biolmage Study: objectives and design. <i>Journal of Internal Medicine</i> , 2015 , 278, 645-59	10.8	141
192	Type 2 myocardial infarction in clinical practice. <i>Heart</i> , 2015 , 101, 101-6	5.1	140
191	βBlockers and Mortality After Acute Myocardial Infarction in Patients Without Heart Failure or Ventricular Dysfunction. <i>Journal of the American College of Cardiology</i> , 2017 , 69, 2710-2720	15.1	127
190	N-terminal pro-brain natriuretic peptide in relation to inflammation, myocardial necrosis, and the effect of an invasive strategy in unstable coronary artery disease. <i>Journal of the American College of Cardiology</i> , 2003 , 42, 1909-16	15.1	124
189	Outcomes in patients treated with ticagrelor or clopidogrel after acute myocardial infarction: experiences from SWEDEHEART registry. <i>European Heart Journal</i> , 2016 , 37, 3335-3342	9.5	109
188	Warfarin, kidney dysfunction, and outcomes following acute myocardial infarction in patients with atrial fibrillation. <i>JAMA - Journal of the American Medical Association</i> , 2014 , 311, 919-28	27.4	104

187	Associations with and prognostic impact of chronic kidney disease in heart failure with preserved, mid-range, and reduced ejection fraction. <i>European Journal of Heart Failure</i> , 2017 , 19, 1606-1614	12.3	86
186	Incidence, temporal trends, and prognostic impact of heart failure complicating acute myocardial infarction. The SWEDEHEART Registry (Swedish Web-System for Enhancement and Development of Evidence-Based Care in Heart Disease Evaluated According to Recommended Therapies): a study	7.9	83
185	Comparison of hospital variation in acute myocardial infarction care and outcome between Sweden and United Kingdom: population based cohort study using nationwide clinical registries. <i>BMJ, The</i> , 2015 , 351, h3913	5.9	77
184	Biochemical indicators of cardiac and renal function in a healthy elderly population. <i>Clinical Biochemistry</i> , 2004 , 37, 210-6	3.5	77
183	Sex Differences in Treatments, Relative Survival, and Excess Mortality Following Acute Myocardial Infarction: National Cohort Study Using the SWEDEHEART Registry. <i>Journal of the American Heart Association</i> , 2017 , 6,	6	74
182	Prevalence and recognition of chronic kidney disease in Stockholm healthcare. <i>Nephrology Dialysis Transplantation</i> , 2016 , 31, 2086-2094	4.3	71
181	Rheumatoid arthritis is associated with a more severe presentation of acute coronary syndrome and worse short-term outcome. <i>European Heart Journal</i> , 2015 , 36, 3413-22	9.5	68
180	Relations between implementation of new treatments and improved outcomes in patients with non-ST-elevation myocardial infarction during the last 20 years: experiences from SWEDEHEART registry 1995 to 2014. <i>European Heart Journal</i> , 2018 , 39, 3766-3776	9.5	65
179	Incidence, predictors and clinical management of hyperkalaemia in new users of mineralocorticoid receptor antagonists. <i>European Journal of Heart Failure</i> , 2018 , 20, 1217-1226	12.3	61
178	Using big data from health records from four countries to evaluate chronic disease outcomes: a study in 114 364 survivors of myocardial infarction. <i>European Heart Journal Quality of Care & Clinical Outcomes</i> , 2016 , 2, 172-183	4.6	60
177	The Use of Very Low Concentrations of High-sensitivity Troponin T to Rule Out Acute Myocardial Infarction Using a Single Blood Test. <i>Academic Emergency Medicine</i> , 2016 , 23, 1004-13	3.4	53
176	International comparisons of the management of patients with non-ST segment elevation acute myocardial infarction in the United Kingdom, Sweden, and the United States: The MINAP/NICOR, SWEDEHEART/RIKS-HIA, and ACTION Registry-GWTG/NCDR registries. <i>International Journal of Cardiology</i> , 2014 , 175, 210-7	3.2	52
175	Prognostic Utility of a Modified HEART Score in Chest Pain Patients in the Emergency Department. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2017 , 10,	5.8	48
174	Implications of Introducing High-Sensitivity Cardiac Troponin T Into Clinical Practice: Data From the SWEDEHEART Registry. <i>Journal of the American College of Cardiology</i> , 2015 , 65, 1655-1664	15.1	48
173	Impact on Long-Term Mortality of Presence of Obstructive Coronary Artery Disease and Classification of Myocardial Infarction. <i>American Journal of Medicine</i> , 2016 , 129, 398-406	2.4	48
172	Association between enrolment in a heart failure quality registry and subsequent mortality-a nationwide cohort study. <i>European Journal of Heart Failure</i> , 2017 , 19, 1107-1116	12.3	47
171	Multimorbidity and survival for patients with acute myocardial infarction in England and Wales: Latent class analysis of a nationwide population-based cohort. <i>PLoS Medicine</i> , 2018 , 15, e1002501	11.6	47
170	Predictors of adverse outcome in patients with myocardial infarction with non-obstructive coronary artery (MINOCA) disease. <i>International Journal of Cardiology</i> , 2018 , 261, 18-23	3.2	46

169	Cardiac Troponin Elevation in Patients Without a Specific Diagnosis. <i>Journal of the American College of Cardiology</i> , 2019 , 73, 1-9	15.1	46
168	Consequences of implementing a cardiac troponin assay with improved sensitivity at Swedish coronary care units: an analysis from the SWEDEHEART registry. <i>European Heart Journal</i> , 2016 , 37, 2417-24	9.5	43
167	External Validation of the DAPT Score in a Nationwide Population. <i>Journal of the American College of Cardiology</i> , 2018 , 72, 1069-1078	15.1	43
166	DETermination of the role of OXYgen in suspected Acute Myocardial Infarction trial. <i>American Heart Journal</i> , 2014 , 167, 322-8	4.9	43
165	All types of atrial fibrillation in the setting of myocardial infarction are associated with impaired outcome. <i>Heart</i> , 2016 , 102, 926-33	5.1	43
164	Association of Weather With Day-to-Day Incidence of Myocardial Infarction: A SWEDEHEART Nationwide Observational Study. <i>JAMA Cardiology</i> , 2018 , 3, 1081-1089	16.2	41
163	Development and external validation of a post-discharge bleeding risk score in patients with acute coronary syndrome: The BleeMACS score. <i>International Journal of Cardiology</i> , 2018 , 254, 10-15	3.2	40
162	Impact of chronic obstructive pulmonary disease on morbidity and mortality after myocardial infarction. <i>Open Heart</i> , 2014 , 1, e000002	3	39
161	Higher mortality after myocardial infarction in patients with severe mental illness: a nationwide cohort study. <i>Journal of Internal Medicine</i> , 2015 , 277, 727-36	10.8	38
160	NT-proBNP in unstable coronary artery disease--experiences from the FAST, GUSTO IV and FRISC II trials. <i>European Journal of Heart Failure</i> , 2004 , 6, 319-25	12.3	38
159	Prevalence and prognostic impact of kidney disease on heart failure patients. <i>Open Heart</i> , 2016 , 3, e000324	3.2	38
158	Comparison Between Ticagrelor and Clopidogrel in Elderly Patients With an Acute Coronary Syndrome: Insights From the SWEDEHEART Registry. <i>Circulation</i> , 2020 , 142, 1700-1708	16.7	37
157	Temporal trends in bleeding events in acute myocardial infarction: insights from the SWEDEHEART registry. <i>European Heart Journal</i> , 2020 , 41, 833-843	9.5	36
156	hsCRP Level and the Risk of Death or Recurrent Cardiovascular Events in Patients With Myocardial Infarction: a Healthcare-Based Study. <i>Journal of the American Heart Association</i> , 2019 , 8, e012638	6	35
155	Association of Resting Heart Rate and Blood Pressure in Late Adolescence With Subsequent Mental Disorders: A Longitudinal Population Study of More Than 1 Million Men in Sweden. <i>JAMA Psychiatry</i> , 2016 , 73, 1268-1275	14.5	32
154	Risk Factors and Markers for Acute Myocardial Infarction With Angiographically Normal Coronary Arteries. <i>American Journal of Cardiology</i> , 2015 , 116, 838-44	3	31
153	The combination of a continuous 12-lead ECG and troponin T; a valuable tool for risk stratification during the first 6 hours in patients with chest pain and a non-diagnostic ECG. <i>European Heart Journal</i> , 2000 , 21, 1464-72	9.5	30
152	Angiotensin-Converting Enzyme Inhibitors and Angiotensin Receptor Blockers in Myocardial Infarction Patients With Renal Dysfunction. <i>Journal of the American College of Cardiology</i> , 2016 , 67, 1687-97	15.1	30

151	Contemporary use of ticagrelor in patients with acute coronary syndrome: insights from Swedish Web System for Enhancement and Development of Evidence-Based Care in Heart Disease Evaluated According to Recommended Therapies (SWEDEHEART). <i>European Heart Journal - Cardiovascular Pharmacotherapy</i> , 2016 , 2, 5-12	6.4	30
150	Application of the 2019 ESC/EAS dyslipidaemia guidelines to nationwide data of patients with a recent myocardial infarction: a simulation study. <i>European Heart Journal</i> , 2020 , 41, 3900-3909	9.5	28
149	Unstable Angina in the Era of Cardiac Troponin Assays with Improved Sensitivity-A Clinical Dilemma. <i>American Journal of Medicine</i> , 2017 , 130, 1423-1430.e5	2.4	28
148	Incidence, trends, and predictors of ischemic stroke 1 year after an acute myocardial infarction. <i>Stroke</i> , 2014 , 45, 3263-8	6.7	27
147	Oxygen therapy in ST-elevation myocardial infarction. <i>European Heart Journal</i> , 2018 , 39, 2730-2739	9.5	25
146	Association between the use of fondaparinux vs low-molecular-weight heparin and clinical outcomes in patients with non-ST-segment elevation myocardial infarction. <i>JAMA - Journal of the American Medical Association</i> , 2015 , 313, 707-16	27.4	24
145	Plasma potassium ranges associated with mortality across stages of chronic kidney disease: the Stockholm CREAtinine Measurements (SCREAM) project. <i>Nephrology Dialysis Transplantation</i> , 2019 , 34, 1534-1541	4.3	23
144	Reinfarction in Patients with Myocardial Infarction with Nonobstructive Coronary Arteries (MINOCA): Coronary Findings and Prognosis. <i>American Journal of Medicine</i> , 2019 , 132, 335-346	2.4	23
143	Christmas, national holidays, sport events, and time factors as triggers of acute myocardial infarction: SWEDEHEART observational study 1998-2013. <i>BMJ, The</i> , 2018 , 363, k4811	5.9	23
142	Effect of Myocardial Infarction With Nonobstructive Coronary Arteries on Physical Capacity and Quality-of-Life. <i>American Journal of Cardiology</i> , 2017 , 120, 341-346	3	22
141	Low-density lipoprotein cholesterol reduction and statin intensity in myocardial infarction patients and major adverse outcomes: a Swedish nationwide cohort study. <i>European Heart Journal</i> , 2021 , 42, 243-252	9.5	22
140	Socioeconomic status predicts second cardiovascular event in 29,226 survivors of a first myocardial infarction. <i>European Journal of Preventive Cardiology</i> , 2018 , 25, 985-993	3.9	20
139	Prognostic Importance of Sex-Specific Cardiac Troponin T 99(th) Percentiles in Suspected Acute Coronary Syndrome. <i>American Journal of Medicine</i> , 2016 , 129, 880.e1-880.e12	2.4	20
138	Prevalence of Anxiety and Depression Symptoms in Patients with Myocardial Infarction with Non-Obstructive Coronary Arteries. <i>American Journal of Medicine</i> , 2018 , 131, 1118-1124	2.4	20
137	Morbidity and cause-specific mortality in first-time myocardial infarction with nonobstructive coronary arteries. <i>Journal of Internal Medicine</i> , 2019 , 285, 419-428	10.8	20
136	Randomized evaluation of beta blocker and ACE-inhibitor/angiotensin receptor blocker treatment in patients with myocardial infarction with non-obstructive coronary arteries (MINOCA-BAT): Rationale and design. <i>American Heart Journal</i> , 2021 , 231, 96-104	4.9	20
135	Usefulness of plasma N-terminal proatrial natriuretic peptide (proANP) as an early predictor of outcome in unstable angina pectoris or non-ST-elevation acute myocardial infarction. <i>American Journal of Cardiology</i> , 2002 , 89, 64-6	3	19
134	Statistics on mortality following acute myocardial infarction in 842 897 Europeans. <i>Cardiovascular Research</i> , 2020 , 116, 149-157	9.9	19

133	A Rule-Out Strategy Based on High-Sensitivity Troponin and HEART Score Reduces Hospital Admissions. <i>Annals of Emergency Medicine</i> , 2019 , 73, 491-499	2.1	18
132	Prognosis in relation to high-sensitivity cardiac troponin T levels in patients with myocardial infarction and non-obstructive coronary arteries. <i>American Heart Journal</i> , 2018 , 200, 60-66	4.9	18
131	High-Sensitivity Cardiac Troponin-Based Strategies for the Assessment of Chest Pain Patients-A Review of Validation and Clinical Implementation Studies. <i>Clinical Chemistry</i> , 2018 , 64, 1572-1585	5.5	18
130	A combination of troponin T and 12-lead electrocardiography: a valuable tool for early prediction of long-term mortality in patients with chest pain without ST-segment elevation. <i>American Heart Journal</i> , 2002 , 144, 804-10	4.9	18
129	From Early Pharmacology to Recent Pharmacology Interventions in Acute Coronary Syndromes: JACC State-of-the-Art Review. <i>Journal of the American College of Cardiology</i> , 2019 , 74, 1618-1636	15.1	17
128	Culprit and Nonculprit Recurrent Ischemic Events in Patients With Myocardial Infarction: Data From SWEDEHEART (Swedish Web System for Enhancement and Development of Evidence-Based Care in Heart Disease Evaluated According to Recommended Therapies). <i>Journal of the American Heart Association</i> , 2018 , 7, e007474	6	17
127	High-sensitivity C-reactive protein and the risk of chronic kidney disease progression or acute kidney injury in post-myocardial infarction patients. <i>American Heart Journal</i> , 2019 , 216, 20-29	4.9	17
126	Prevalence of Subclinical Coronary Artery Atherosclerosis in the General Population. <i>Circulation</i> , 2021 , 144, 916-929	16.7	17
125	Outcomes in patients treated with ticagrelor versus clopidogrel after acute myocardial infarction stratified by renal function. <i>Heart</i> , 2018 , 104, 1575-1582	5.1	16
124	Continuous multilead ST-monitoring identifies patients with unstable coronary artery disease who benefit from extended antithrombotic treatment. <i>European Heart Journal</i> , 2002 , 23, 1093-101	9.5	16
123	Heart failure with normal ejection fraction is uncommon in acute myocardial infarction settings but associated with poor outcomes: a study of 91,360 patients admitted with index myocardial infarction between 1998 and 2010. <i>European Journal of Heart Failure</i> , 2016 , 18, 46-53	12.3	16
122	2020 Update of the quality indicators for acute myocardial infarction: a position paper of the Association for Acute Cardiovascular Care: the study group for quality indicators from the ACVC and the NSTEMI-ACS guideline group. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2021 , 10, 224-233	4.3	15
121	An algorithm for rule-in and rule-out of acute myocardial infarction using a novel troponin I assay. <i>Heart</i> , 2017 , 103, 125-131	5.1	14
120	Long-term versus short-term dual antiplatelet therapy was similarly associated with a lower risk of death, stroke, or infarction in patients with acute coronary syndrome regardless of underlying kidney disease. <i>Kidney International</i> , 2017 , 91, 216-226	9.9	14
119	Long-Term Effects of Oxygen Therapy on Death or Hospitalization for Heart Failure in Patients With Suspected Acute Myocardial Infarction. <i>Circulation</i> , 2018 , 138, 2754-2762	16.7	14
118	Systematic underutilisation of secondary preventive drugs in patients with acute coronary syndrome and reduced renal function. <i>European Journal of Preventive Cardiology</i> , 2017 , 24, 724-734	3.9	13
117	Registry-based randomised clinical trial: efficient evaluation of generic pharmacotherapies in the contemporary era. <i>Heart</i> , 2018 , 104, 1562-1567	5.1	13
116	Hemorrhagic stroke the first 30 days after an acute myocardial infarction: incidence, time trends and predictors of risk. <i>International Journal of Cardiology</i> , 2014 , 176, 133-8	3.2	13

115	Potassium levels and risk of in-hospital arrhythmias and mortality in patients admitted with suspected acute coronary syndrome. <i>International Journal of Cardiology</i> , 2019 , 274, 52-58	3.2	13
114	Association of Metabolic Surgery With Major Adverse Cardiovascular Outcomes in Patients With Previous Myocardial Infarction and Severe Obesity: A Nationwide Cohort Study. <i>Circulation</i> , 2021 , 143, 1458-1467	16.7	13
113	Long-term resource use patterns and healthcare costs after myocardial infarction in a clinical practice setting: results from a contemporary nationwide registry study. <i>European Heart Journal Quality of Care & Clinical Outcomes</i> , 2016 , 2, 291-298	4.6	12
112	Long-term outcomes and secondary prevention after acute coronary events in patients with rheumatoid arthritis. <i>Annals of the Rheumatic Diseases</i> , 2017 , 76, 2017-2024	2.4	12
111	Use of relative survival to evaluate non-ST-elevation myocardial infarction quality of care and clinical outcomes. <i>European Heart Journal Quality of Care & Clinical Outcomes</i> , 2015 , 1, 85-91	4.6	12
110	Risk and predictors of readmission for heart failure following a myocardial infarction between 2004 and 2013: A Swedish nationwide observational study. <i>International Journal of Cardiology</i> , 2017 , 248, 221-226	3.2	11
109	Treatments and Mortality Trends in Cases With and Without Dialysis Who Have an Acute Myocardial Infarction: An 18-Year Nationwide Experience. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2019 , 12, e005879	5.8	10
108	Circadian onset and prognosis of myocardial infarction with non-obstructive coronary arteries (MINOCA). <i>PLoS ONE</i> , 2019 , 14, e0216073	3.7	10
107	Antithrombotic therapy after myocardial infarction in patients with atrial fibrillation undergoing percutaneous coronary intervention. <i>European Heart Journal - Cardiovascular Pharmacotherapy</i> , 2018 , 4, 36-45	6.4	10
106	Coronary plaque burden, as determined by cardiac computed tomography, in patients with myocardial infarction and angiographically normal coronary arteries compared to healthy volunteers: a prospective multicenter observational study. <i>PLoS ONE</i> , 2014 , 9, e99783	3.7	10
105	Comparison between second and third generation troponin T assay in patients with symptoms suggestive of an acute coronary syndrome but without ST segment elevation. <i>Cardiology</i> , 2003 , 100, 29-35	1.6	10
104	Absence of chest pain and long-term mortality in patients with acute myocardial infarction. <i>Open Heart</i> , 2018 , 5, e000909	3	10
103	A user-friendly risk-score for predicting in-hospital cardiac arrest among patients admitted with suspected non ST-elevation acute coronary syndrome - The SAFER-score. <i>Resuscitation</i> , 2017 , 121, 41-48 ⁴		9
102	The association of body mass index, weight gain and central obesity with activity-related breathlessness: the Swedish Cardiopulmonary Bioimage Study. <i>Thorax</i> , 2019 , 74, 958-964	7.3	9
101	Digitalis use and risk of gastrointestinal cancers: A nationwide population-based cohort study. <i>Oncotarget</i> , 2017 , 8, 34727-34735	3.3	9
100	Survival in Patients With Suspected Myocardial Infarction With Nonobstructive Coronary Arteries: A Comprehensive Systematic Review and Meta-Analysis From the MINOCA Global Collaboration. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2021 , 14, e007880	5.8	9
99	Effect of Oxygen Therapy on Cardiovascular Outcomes in Relation to Baseline Oxygen Saturation. <i>JACC: Cardiovascular Interventions</i> , 2020 , 13, 502-513	5	9
98	Clinical and research implications of serum versus plasma potassium measurements. <i>European Journal of Heart Failure</i> , 2019 , 21, 536-537	12.3	9

97	Association between cardiometabolic disease and severe COVID-19: a nationwide case-control study of patients requiring invasive mechanical ventilation. <i>BMJ Open</i> , 2021 , 11, e044486	3	9
96	Incidence of, Associations With and Prognostic Impact of Worsening Renal Function in Heart Failure With Different Ejection Fraction Categories. <i>American Journal of Cardiology</i> , 2019 , 124, 1575-1583	3	8
95	Quantitation of 87 Proteins by nLC-MRM/MS in Human Plasma: Workflow for Large-Scale Analysis of Biobank Samples. <i>Journal of Proteome Research</i> , 2017 , 16, 3242-3254	5.6	8
94	Annual report SWEDEHEART 2012. <i>Scandinavian Cardiovascular Journal</i> , 2014 , 48 Suppl 63, 2-133	2	8
93	Acceleration of kidney function decline after incident hospitalization with cardiovascular disease: the Stockholm CREATinine Measurements (SCREAM) project. <i>European Journal of Heart Failure</i> , 2020 , 22, 1790-1799	12.3	8
92	Myocardial infarction and peripheral arterial disease: Treatment patterns and long-term outcome in men and women results from a Swedish nationwide study. <i>European Journal of Preventive Cardiology</i> , 2019 , 2047487319893046	3.9	8
91	Incidence, associated outcomes, and predictors of upper gastrointestinal bleeding following acute myocardial infarction: a SWEDEHEART-based nationwide cohort study. <i>European Heart Journal - Cardiovascular Pharmacotherapy</i> , 2021 ,	6.4	8
90	Cardiac Troponins and Their Prognostic Importance in Patients with Suspected Acute Coronary Syndrome and Renal Dysfunction. <i>Clinical Chemistry</i> , 2017 , 63, 1409-1417	5.5	7
89	Abdominal obesity and the risk of recurrent atherosclerotic cardiovascular disease after myocardial infarction. <i>European Journal of Preventive Cardiology</i> , 2020 , 27, 1944-1952	3.9	7
88	Myocardial Infarction with Nonobstructive Coronary Arteries: The Importance of Achieving Secondary Prevention Targets. <i>American Journal of Medicine</i> , 2018 , 131, 524-531.e6	2.4	7
87	Dyskalemias and adverse events associated with discharge potassium in acute myocardial infarction. <i>American Heart Journal</i> , 2018 , 205, 53-62	4.9	7
86	Lipid levels achieved after a first myocardial infarction and the prediction of recurrent atherosclerotic cardiovascular disease. <i>International Journal of Cardiology</i> , 2019 , 296, 1-7	3.2	7
85	Glucagon-like peptide-1 receptor agonists and the risk of cardiovascular events in diabetes patients surviving an acute myocardial infarction. <i>European Heart Journal - Cardiovascular Pharmacotherapy</i> , 2021 , 7, 104-111	6.4	7
84	Incidence and Predictors of Out-of-Hospital Cardiac Arrest Within 90 Days After Myocardial Infarction. <i>Journal of the American College of Cardiology</i> , 2020 , 76, 2926-2936	15.1	7
83	Sex-specific effects of implementing a high-sensitivity troponin I assay in patients with suspected acute coronary syndrome: results from SWEDEHEART registry. <i>Scientific Reports</i> , 2020 , 10, 15227	4.9	7
82	Long-term mortality in patients with ischaemic heart failure revascularized with coronary artery bypass grafting or percutaneous coronary intervention: insights from the Swedish Coronary Angiography and Angioplasty Registry (SCAAR). <i>European Heart Journal</i> , 2021 , 42, 2657-2664	9.5	7
