#	ARTICLE	IF	CITATIONS
1	Somatic symptoms in sleep disturbance. <i>Psychology, Health and Medicine</i> , 2023, 28, 884-894.	2.4	4
2	Psychological models of development of idiopathic environmental intolerances: Evidence from longitudinal population-based data. <i>Environmental Research</i> , 2022, 204, 111774.	7.5	4
3	Three-year prediction of depression and anxiety with a single self-rated health item. <i>Journal of Mental Health</i> , 2022, 31, 402-409.	1.9	9
4	Exposures, Symptoms and Risk Perception among Office Workers in Relation to Nanoparticles in the Work Environment. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5789.	2.6	1
5	Development and evaluation of a questionnaire instrument for chemical intolerance, based on the International Classification of Functioning, Disability and Health. <i>Disability and Rehabilitation</i> , 2021, 43, 1756-1763.	1.8	2
6	No evidence for interactions between modern health worries, negative affect, and somatic symptom distress in general populations. <i>Psychology and Health</i> , 2021, 36, 1384-1396.	2.2	4
7	Somatic symptoms of helplessness and hopelessness. <i>Scandinavian Journal of Psychology</i> , 2021, 62, 393-400.	1.5	5
8	Multiple chemical sensitivity described in the Danish general population: Cohort characteristics and the importance of screening for functional somatic syndrome comorbidityâ€”The DanFunD study. <i>PLoS ONE</i> , 2021, 16, e0246461.	2.5	20
9	Cardiovascular Disease and Mental Distress Among Ethnic Groups in Kyrgyzstan. <i>Frontiers in Public Health</i> , 2021, 9, 489092.	2.7	3
10	Olfaction and Aging: A Review of the Current State of Research and Future Directions. <i>I-Perception</i> , 2021, 12, 204166952110203.	1.4	22
11	The right pick: Does a self-assessment measurement tool correctly identify health care consumers with inadequate health literacy?. <i>Patient Education and Counseling</i> , 2021, , .	2.2	1
12	The beneficial effect over 3 years by pictorial information to patients and their physician about subclinical atherosclerosis and cardiovascular risk: Results from the VIPVIZA randomized clinical trial. <i>American Journal of Preventive Cardiology</i> , 2021, 7, 100199.	3.0	21
13	Health literacy is independently and inversely associated with carotid artery plaques and cardiovascular risk. <i>European Journal of Preventive Cardiology</i> , 2020, 27, 209-215.	1.8	20
14	Severity and prevalence of various types of mental ill-health in a general adult population: age and sex differences. <i>BMC Psychiatry</i> , 2020, 20, 209.	2.6	31
15	Association between somatic symptoms and modern health worries. <i>Journal of Psychosomatic Research</i> , 2020, 135, 110163.	2.6	2
16	Mechanisms underlying nontoxic indoor air health problems: A review. <i>International Journal of Hygiene and Environmental Health</i> , 2020, 226, 113489.	4.3	35
17	Reply to the letter to the editor by Tuuminen et al. (2020), â€œIndoor air nontoxicity should be proven with special techniques prior claiming that it may cause a variety of mental disorders.â€” <i>International Journal of Hygiene and Environmental Health</i> , 2020, 229, 113544.	4.3	0
18	â€œSymptoms associated with environmental factorsâ€•(SAEF) â€œ Towards a paradigm shift regarding â€œidiopathic environmental intoleranceâ€•and related phenomena. <i>Journal of Psychosomatic Research</i> , 2020, 131, 109955.	2.6	19

#	ARTICLE	IF	CITATIONS
19	Modern health worries: A systematic review. <i>Journal of Psychosomatic Research</i> , 2019, 124, 109781.	2.6	20
20	Modern health worries: Deriving two measurement invariant short scales for cross-cultural research with Ant Colony Optimization. <i>PLoS ONE</i> , 2019, 14, e0211819.	2.5	8
21	Associations between hyperacusis and psychosocial work factors in the general population. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 59-65.	2.3	9
22	Subjective Olfactory Loss in Older Adults Concurs with Long-Term Odor Identification Decline. <i>Chemical Senses</i> , 2019, 44, 105-112.	2.0	16
23	Visualization of asymptomatic atherosclerotic disease for optimum cardiovascular prevention (VIPVIZA): a pragmatic, open-label, randomised controlled trial. <i>Lancet, The</i> , 2019, 393, 133-142.	13.7	142
24	Comorbidity of Airway Inflammatory Diseases in Chemical and Building-Related Intolerance. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, 295-300.	1.7	15
25	Prevalence of various environmental intolerances in a Swedish and Finnish general population. <i>Environmental Research</i> , 2018, 161, 220-228.	7.5	36
26	Effects of Task Demands on Olfactory, Auditory, and Visual Event-Related Potentials Suggest Similar Top-Down Modulation Across Senses. <i>Chemical Senses</i> , 2018, 43, 129-134.	2.0	5
27	The role of perceived air pollution and health risk perception in health symptoms and disease: a population-based study combined with modelled levels of PM10. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 581-589.	2.3	53
28	Prevalence of environmental annoyance in a Swedish and Finnish general population: Impact of everyday exposures on affect and behavior. <i>Journal of Environmental Psychology</i> , 2018, 56, 84-90.	5.1	3
29	Physical and chemical trigger factors in environmental intolerance. <i>International Journal of Hygiene and Environmental Health</i> , 2018, 221, 586-592.	4.3	12
30	Intolerance to environmental chemicals and sounds in irritable bowel syndrome: Explained by central sensitization?. <i>Journal of Health Psychology</i> , 2018, 23, 1367-1377.	2.3	11
31	Building-Related Environmental Intolerance and Associated Health in the General Population. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 2047.	2.6	16
32	Characteristics of perceived electromagnetic hypersensitivity in the general population. <i>Scandinavian Journal of Psychology</i> , 2018, 59, 422-427.	1.5	23
33	Comorbidity in Migraine with Functional Somatic Syndromes, Psychiatric Disorders and Inflammatory Diseases: A Matter of Central Sensitization?. <i>Behavioral Medicine</i> , 2017, 43, 91-99.	1.9	28
34	Short-term olfactory sensitization involves brain networks relevant for pain, and indicates chemical intolerance. <i>International Journal of Hygiene and Environmental Health</i> , 2017, 220, 503-509.	4.3	13
35	Effects of Negative Affectivity and Odor Valence on Chemosensory and Symptom Perception and Perceived Ability to Focus on a Cognitive Task. <i>Perception</i> , 2017, 46, 431-446.	1.2	15
36	Comorbidity and Multimorbidity of Asthma and Allergy and Intolerance to Chemicals and Certain Buildings. <i>Journal of Occupational and Environmental Medicine</i> , 2017, 59, 80-84.	1.7	11

#	ARTICLE	IF	CITATIONS
37	APOE-É4 effects on longitudinal decline in olfactory and non-olfactory cognitive abilities in middle-aged and old adults. <i>Scientific Reports</i> , 2017, 7, 1286.	3.3	33
38	Smell Loss Predicts Mortality Risk Regardless of Dementia Conversion. <i>Journal of the American Geriatrics Society</i> , 2017, 65, 1238-1243.	2.6	75
39	Somatic symptoms of anxiety and depression: A population-based study. <i>Mental Health and Prevention</i> , 2017, 6, 57-62.	1.3	7
40	Comorbidity in allergic asthma and allergic rhinitis: functional somatic syndromes. <i>Psychology, Health and Medicine</i> , 2017, 22, 1163-1168.	2.4	11
41	Is Long-term Exposure to Air Pollution Associated with Episodic Memory? A Longitudinal Study from Northern Sweden. <i>Scientific Reports</i> , 2017, 7, 12789.	3.3	22
42	Gene expression profiling in persons with multiple chemical sensitivity before and after a controlled n-butanol exposure session. <i>BMJ Open</i> , 2017, 7, e013879.	1.9	10
43	Psychometric Properties and Normative Data for a Swedish Version of the Modern Health Worries Scale. <i>International Journal of Behavioral Medicine</i> , 2017, 24, 54-65.	1.7	10
44	Longitudinal Changes in Familiarity, Free and Cued Odor Identification, and Edibility Judgments for Odors in Aging Individuals. <i>Chemical Senses</i> , 2016, 41, bju066.	2.0	8
45	Traffic-Related Air Pollution and Dementia Incidence in Northern Sweden: A Longitudinal Study. <i>Environmental Health Perspectives</i> , 2016, 124, 306-312.	6.0	265
46	Symptom-trigger factors other than allergens in asthma and allergy. <i>International Journal of Environmental Health Research</i> , 2016, 26, 448-457.	2.7	23
47	Psychological symptoms and health-related quality of life in idiopathic environmental intolerance attributed to electromagnetic fields. <i>Journal of Psychosomatic Research</i> , 2016, 84, 8-12.	2.6	18
48	Sleep and sleepiness in environmental intolerances: a population-based study. <i>Sleep Medicine</i> , 2016, 24, 1-9.	1.6	12
49	Experience of living with nonspecific building-related symptoms. <i>Scandinavian Journal of Psychology</i> , 2016, 57, 406-412.	1.5	15
50	Longitudinal changes in odor identification performance and neuropsychological measures in aging individuals.. <i>Neuropsychology</i> , 2016, 30, 87-97.	1.3	25
51	Long-term episodic memory decline is associated with olfactory deficits only in carriers of ApoE-Ñ4. <i>Neuropsychologia</i> , 2016, 85, 1-9.	1.6	46
52	Chemosensory perception, symptoms and autonomic responses during chemical exposure in multiple chemical sensitivity. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 79-88.	2.3	37
53	Characteristics of hyperacusis in the general population. <i>Noise and Health</i> , 2016, 18, 178.	0.5	90
54	Olfactory dysfunction in chronic stroke patients. <i>BMC Neurology</i> , 2015, 15, 199.	1.8	28

#	ARTICLE	IF	CITATIONS
55	Therapists' Experiences of Conducting Cognitive Behavioural Therapy Online vis-À-vis Face-to-Face. <i>Cognitive Behaviour Therapy</i> , 2015, 44, 470-479.	3.5	38
56	Inflammatory Mediator Profiling of n-butanol Exposed Upper Airways in Individuals with Multiple Chemical Sensitivity. <i>PLoS ONE</i> , 2015, 10, e0143534.	2.5	19
57	Chemical Intolerance. <i>Current Rheumatology Reviews</i> , 2015, 11, 167-184.	0.8	65
58	Odor and Noise Intolerance in Persons with Self-Reported Electromagnetic Hypersensitivity. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 8794-8805.	2.6	24
59	Does it Matter How We Pose the Question "How is Your Sense of Smell?" <i>Chemosensory Perception</i> , 2014, 7, 103-107.	1.2	11
60	Brain responses to olfactory and trigeminal exposure in idiopathic environmental illness (IEI) attributed to smells "An fMRI study. <i>Journal of Psychosomatic Research</i> , 2014, 77, 401-408.	2.6	27
61	Olfactory Disorders and Quality of Life—An Updated Review. <i>Chemical Senses</i> , 2014, 39, 185-194.	2.0	650
62	Olfactory Impairment and Subjective Olfactory Complaints Independently Predict Conversion to Dementia: A Longitudinal, Population-Based Study. <i>Journal of the International Neuropsychological Society</i> , 2014, 20, 209-217.	1.8	88
63	Overlap in prevalence between various types of environmental intolerance. <i>International Journal of Hygiene and Environmental Health</i> , 2014, 217, 427-434.	4.3	82
64	Psychological distress in asthma and allergy: the VÅsterbotten Environmental Health Study. <i>Psychology, Health and Medicine</i> , 2014, 19, 316-323.	2.4	35
65	The environmental hypersensitivity symptom inventory: metric properties and normative data from a population-based study. <i>Archives of Public Health</i> , 2013, 71, 18.	2.4	18
66	Normative data for the chemical sensitivity scale for sensory hyperreactivity: the VÅsterbotten environmental health study. <i>International Archives of Occupational and Environmental Health</i> , 2013, 86, 749-753.	2.3	19
67	The role of perceived pollution and health risk perception in annoyance and health symptoms: a population-based study of odorous air pollution. <i>International Archives of Occupational and Environmental Health</i> , 2013, 86, 367-374.	2.3	119
68	Impact of Health-Risk Perception on Odor Perception and Cognitive Performance. <i>Chemosensory Perception</i> , 2013, 6, 190-197.	1.2	10
69	Effects of FESS and additional fluticasone propionate nasal drops on psychological well-being in nasal polyposis with asthma. <i>Acta Oto-Laryngologica</i> , 2013, 133, 939-943.	0.9	6
70	Psychometric evaluation and normative data for a Swedish version of the Patient Health Questionnaire 15-item Somatic Symptom Severity Scale. <i>Scandinavian Journal of Psychology</i> , 2013, 54, 112-117.	1.5	46
71	Stress and odor sensitivity in persons with noise sensitivity. <i>Noise and Health</i> , 2013, 15, 173.	0.5	24
72	Metric properties and normative data for brief noise and electromagnetic field sensitivity scales. <i>Scandinavian Journal of Public Health</i> , 2013, 41, 293-301.	2.3	14

#	ARTICLE	IF	CITATIONS
73	Self-image in adolescents with deliberate self-harm behavior. <i>PsyCh Journal</i> , 2013, 2, 209-216.	1.1	4
74	Psychometric evaluation and normative data for the Karolinska Sleep Questionnaire. <i>Sleep and Biological Rhythms</i> , 2013, 11, 216-226.	1.0	139
75	Psychometric evaluation and normative data of the Swedish version of the 10-item perceived stress scale. <i>Scandinavian Journal of Psychology</i> , 2013, 54, 502-507.	1.5	156
76	The influence of health-risk perception and distress on reactions to low-level chemical exposure. <i>Frontiers in Psychology</i> , 2013, 4, 816.	2.1	28
77	Is Loss in Odor Sensitivity Inevitable to the Aging Individual? A Study of "Successfully Aged" Elderly. <i>Chemosensory Perception</i> , 2012, 5, 188-196.	1.2	26
78	Chemosensory attention, habituation and detection in women and men. <i>International Journal of Psychophysiology</i> , 2011, 79, 316-322.	1.0	24
79	Evaluation of auditory, visual and olfactory event-related potentials for comparing interspersed- and single-stimulus paradigms. <i>International Journal of Psychophysiology</i> , 2011, 81, 252-262.	1.0	12
80	Unawareness of Olfactory Dysfunction and its Association with Cognitive Functioning in Middle Aged and Old Adults. <i>Archives of Clinical Neuropsychology</i> , 2011, 26, 260-269.	0.5	97
81	Gender Differences in Nasal Chemesthesis: A Study of Detection and Perceived Intensity. <i>Chemosensory Perception</i> , 2011, 4, 25-31.	1.2	7
82	The Experience of Living With Sensory Hyperreactivity: Accessibility, Financial Security, and Social Relationships. <i>Health Care for Women International</i> , 2011, 32, 686-707.	1.1	26
83	Effects of smell loss on daily life and adopted coping strategies in patients with nasal polyposis with asthma. <i>Acta Oto-Laryngologica</i> , 2011, 131, 826-832.	0.9	66
84	Chemosensory interaction: acquired olfactory impairment is associated with decreased taste function. <i>Journal of Neurology</i> , 2010, 257, 1303-1308.	3.6	114
85	Evaluation of a Swedish version of the Quick Environmental Exposure and Sensitivity Inventory. <i>International Archives of Occupational and Environmental Health</i> , 2010, 83, 95-104.	2.3	18
86	Coping strategies, social support and responsibility in chemical intolerance. <i>Journal of Clinical Nursing</i> , 2010, 19, 2162-2173.	3.0	26
87	Symptoms, personality traits, and stress in people with mobile phone-related symptoms and electromagnetic hypersensitivity. <i>Journal of Psychosomatic Research</i> , 2010, 68, 37-45.	2.6	72
88	Odor identification impairment in carriers of ApoE- ϵ 4 is independent of clinical dementia. <i>Neurobiology of Aging</i> , 2010, 31, 567-577.	3.1	70
89	Odor Identification Deficit as a Predictor of Five-Year Global Cognitive Change: Interactive Effects with Age and ApoE- ϵ 4. <i>Behavior Genetics</i> , 2009, 39, 496-503.	2.1	57
90	"Taste Strips" A rapid, lateralized, gustatory bedside identification test based on impregnated filter papers. <i>Journal of Neurology</i> , 2009, 256, 242-248.	3.6	354

#	ARTICLE	IF	CITATIONS
91	Development and evaluation of a category ratio scale with semantic descriptors: The Environmental Annoyance Scale. <i>Scandinavian Journal of Psychology</i> , 2009, 50, 93-100.	1.5	10
92	Attention bias and sensitization in chemical sensitivity. <i>Journal of Psychosomatic Research</i> , 2009, 66, 407-416.	2.6	52
93	The Idiopathic Environmental Intolerance Symptom Inventory: Development, Evaluation, and Application. <i>Journal of Occupational and Environmental Medicine</i> , 2009, 51, 838-847.	1.7	51
94	Independence of Odor Quality and Absolute Sensitivity in a Study of Aging. <i>Chemosensory Perception</i> , 2008, 1, 24-33.	1.2	14
95	Prevalence and risk factors for chemical sensitivity and sensory hyperreactivity in teenagers. <i>International Journal of Hygiene and Environmental Health</i> , 2008, 211, 690-697.	4.3	43
96	Affective picture processing: An integrative review of ERP findings. <i>Biological Psychology</i> , 2008, 77, 247-265.	2.2	1,334
97	Complaints of olfactory disorders: epidemiology, assessment and clinical implications. <i>Current Opinion in Allergy and Clinical Immunology</i> , 2008, 8, 10-15.	2.3	144
98	Clinical experience with patients with olfactory complaints, and their quality of life. <i>Acta Oto-Laryngologica</i> , 2007, 127, 167-174.	0.9	104
99	Intolerance to ambient odors at an early stage of pregnancy. <i>Scandinavian Journal of Psychology</i> , 2007, 48, 339-343.	1.5	18
100	Substance and tongue-region specific loss in basic taste-quality identification in elderly adults. <i>European Archives of Oto-Rhino-Laryngology</i> , 2007, 264, 285-289.	1.6	49
101	Prevalence of parosmia: the SkÅrvalde population-based studies. <i>Rhinology</i> , 2007, 45, 50-3.	1.3	13
102	Laterality of the Olfactory Event-Related Potential Response. <i>Chemical Senses</i> , 2006, 31, 699-704.	2.0	23
103	Relationship Between Self-Reported Odor Intolerance and Sensitivity to Inhaled Capsaicin. <i>Chest</i> , 2006, 129, 1623-1628.	0.8	64
104	Olfactory disorders and their consequences for quality of life. <i>Acta Oto-Laryngologica</i> , 2005, 125, 116-121.	0.9	315
105	Chemosensory perception and event-related potentials in self-reported chemical hypersensitivity. <i>International Journal of Psychophysiology</i> , 2005, 55, 243-255.	1.0	38
106	Environmental odor intolerance in pregnant women. <i>Physiology and Behavior</i> , 2005, 84, 175-179.	2.1	26
107	Olfactory and chemosomatosensory function in pregnant women assessed with event-related potentials. <i>Physiology and Behavior</i> , 2005, 86, 252-257.	2.1	22
108	Demographic and Cognitive Predictors of Cued Odor Identification: Evidence from a Population-based Study. <i>Chemical Senses</i> , 2004, 29, 547-554.	2.0	172

#	ARTICLE	IF	CITATIONS
109	Gender Differences in Chemosensory Perception and Event-related Potentials. <i>Chemical Senses</i> , 2004, 29, 629-637.	2.0	85
110	A Longitudinal Descriptive Study of Self-reported Abnormal Smell and Taste Perception in Pregnant Women. <i>Chemical Senses</i> , 2004, 29, 391-402.	2.0	83
111	Prevalence of self-reported poor odor detection sensitivity: the SkÅrde population-based study. <i>Acta Oto-Laryngologica</i> , 2004, 124, 1171-1173.	0.9	43
112	Prevalence of Olfactory Dysfunction: The SkÅrde Population-Based Study. <i>Laryngoscope</i> , 2004, 114, 733-737.	2.0	445
113	Normative data for the chemical sensitivity scale. <i>Journal of Environmental Psychology</i> , 2004, 24, 399-403.	5.1	34
114	A short chemical sensitivity scale for assessment of airway sensory hyperreactivity. <i>International Archives of Occupational and Environmental Health</i> , 2004, 77, 249-254.	2.3	79
