

Pilar Galan

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7997745/pilar-galan-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
504	Polish Consumers' Understanding of Different Front-of-Package Food Labels: A Randomized Experiment.. <i>Foods</i> , 2022 , 11,	4.9	1
503	Impairment of gut microbial biotin metabolism and host biotin status in severe obesity: effect of biotin and prebiotic supplementation on improved metabolism.. <i>Gut</i> , 2022 ,	19.2	5
502	Abstract P1-09-01: Breast and prostate cancer risk associated with nitrites and nitrates from food additives: Results from the NutriNet-Santé cohort. <i>Cancer Research</i> , 2022 , 82, P1-09-01-P1-09-01	10.1	
501	Abstract P1-09-02: Risk of breast and other cancers associated with the consumption of artificial sweeteners: Results from the prospective NutriNet-Santé cohort. <i>Cancer Research</i> , 2022 , 82, P1-09-02-P1-09-02	10.1	2
500	Microbiome and metabolome features of the cardiometabolic disease spectrum.. <i>Nature Medicine</i> , 2022 ,	50.5	4
499	Nitrites and nitrates from food additives and natural sources and cancer risk: results from the NutriNet-Santé cohort.. <i>International Journal of Epidemiology</i> , 2022 ,	7.8	2
498	Caffeine Intake and Its Sex-Specific Association with General Anxiety: A Cross-Sectional Analysis among General Population Adults.. <i>Nutrients</i> , 2022 , 14,	6.7	2
497	Artificial sweeteners and cancer risk: Results from the NutriNet-Santé population-based cohort study.. <i>PLoS Medicine</i> , 2022 , 19, e1003950	11.6	9
496	Nutri-Score in tug-of-war between public health and economic interests in the European Union. <i>Nature Food</i> , 2022 , 3, 181-181	14.4	0
495	Comment on Muzzioli et al. Are Front-of-Pack Labels a Health Policy Tool? <i>Nutrients</i> 2022, 14, 771. <i>Nutrients</i> , 2022 , 14, 2165	6.7	1
494	Associations between untargeted plasma metabolomic signatures and gut microbiota composition in the population of healthy adults. <i>British Journal of Nutrition</i> , 2021 , 126, 982-992	3.6	0
493	Association between positive psychological traits and changes in dietary behaviour related to first COVID-19 lockdown: A general population-based study.. <i>Appetite</i> , 2021 , 105885	4.5	
492	Combinatorial, additive and dose-dependent drug-microbiome associations. <i>Nature</i> , 2021 ,	50.4	11
491	Nutritional risk factors for SARS-CoV-2 infection: a prospective study within the NutriNet-Santé cohort. <i>BMC Medicine</i> , 2021 , 19, 290	11.4	5
490	Nutri-Score: The Most Efficient Front-of-Pack Nutrition Label to Inform Portuguese Consumers on the Nutritional Quality of Foods and Help Them Identify Healthier Options in Purchasing Situations.. <i>Nutrients</i> , 2021 , 13,	6.7	4
489	Exposure to food additive mixtures in 106,000 French adults from the NutriNet-Santé cohort. <i>Scientific Reports</i> , 2021 , 11, 19680	4.9	8
488	International evidence for the effectiveness of the front-of-package nutrition label called Nutri-Score. <i>Central European Journal of Public Health</i> , 2021 , 29, 76-79	1.2	3

487	Diet and physical activity during the coronavirus disease 2019 (COVID-19) lockdown (March-May 2020): results from the French NutriNet-Sant� cohort study. <i>American Journal of Clinical Nutrition</i> , 2021 , 113, 924-938	7	123
486	The inflammatory potential of the diet is prospectively associated with subjective hearing loss. <i>European Journal of Nutrition</i> , 2021 , 60, 3669-3678	5.2	1
485	NMR metabolomic profiles associated with long-term risk of prostate cancer. <i>Metabolomics</i> , 2021 , 17, 32	4.7	2
484	Consumption of dairy products and CVD risk: results from the French prospective cohort NutriNet-Sant�. <i>British Journal of Nutrition</i> , 2021 , 1-11	3.6	2
483	A Comparison of Sugar Intake between Individuals with High and Low Trait Anxiety: Results from the NutriNet-Sant� Study. <i>Nutrients</i> , 2021 , 13,	6.7	2
482	Are foods 'healthy' or 'healthier'? Front-of-pack labelling and the concept of healthiness applied to foods. <i>British Journal of Nutrition</i> , 2021 , 1-5	3.6	5
481	Plasma Metabolomics for Discovery of Early Metabolic Markers of Prostate Cancer Based on Ultra-High-Performance Liquid Chromatography-High Resolution Mass Spectrometry. <i>Cancers</i> , 2021 , 13,	6.6	2
480	Trends in breastfeeding practices and mothers' experience in the French NutriNet-Sant� cohort. <i>International Breastfeeding Journal</i> , 2021 , 16, 50	3.8	1
479	Depressive symptoms, fruit and vegetables consumption and urinary 3-indoxylsulfate concentration: a nested case-control study in the French Nutrinet-Sante cohort. <i>European Journal of Nutrition</i> , 2021 , 60, 1059-1069	5.2	3
478	Association between adherence to the French dietary guidelines and the risk of type 2 diabetes. <i>Nutrition</i> , 2021 , 84, 111107	4.8	1
477	Le comportement alimentaire, ses d�terminants et son lien avec la sant� bucco-dentaire : r�sultats biopathologiques chez les seniors inscrits � la cohorte NutriNet-Sant�. <i>Cahiers De Nutrition Et De Dietetique</i> , 2021 , 56, 111-116	0.2	
476	Key Findings of the French BioNutriNet Project on Organic Food-Based Diets: Description, Determinants, and Relationships to Health and the Environment. <i>Advances in Nutrition</i> , 2021 ,	10	2
475	Exome-Wide Association Study Identifies FN3KRP and PGP as New Candidate Longevity Genes. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2021 , 76, 786-795	6.4	4
474	Osmolality-based normalization enhances statistical discrimination of untargeted metabolomic urine analysis: results from a comparative study. <i>Metabolomics</i> , 2021 , 17, 2	4.7	4
473	Randomised controlled trial in an experimental online supermarket testing the effects of front-of-pack nutrition labelling on food purchasing intentions in a low-income population. <i>BMJ Open</i> , 2021 , 11, e041196	3	5
472	The impact of the Nutri-Score front-of-pack nutrition label on purchasing intentions of unprocessed and processed foods: post-hoc analyses from three randomized controlled trials. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 38	8.4	3
471	Relation between Mood and the Host-Microbiome Co-Metabolite 3-Indoxylsulfate: Results from the Observational Prospective NutriNet-Sant� Study. <i>Microorganisms</i> , 2021 , 9,	4.9	2
470	Dietary macronutrient intake according to sex and trait anxiety level among non-diabetic adults: a cross-sectional study. <i>Nutrition Journal</i> , 2021 , 20, 78	4.3	0

469	Glycaemic index, glycaemic load and cancer risk: results from the prospective NutriNet-Santé cohort. <i>International Journal of Epidemiology</i> , 2021 ,	7.8	1
468	Is FOP Nutrition Label Nutri-Score Well Understood by Consumers When Comparing the Nutritional Quality of Added Fats, and Does It Negatively Impact the Image of Olive Oil?. <i>Foods</i> , 2021 , 10,	4.9	1
467	Impact of the Front-of-Pack Label Nutri-Score on the Nutritional Quality of Food Choices in a Quasi-Experimental Trial in Catering.. <i>Nutrients</i> , 2021 , 13,	6.7	1
466	Performance of the Front-of-Pack Nutrition Label Nutri-Score to Discriminate the Nutritional Quality of Foods Products: A Comparative Study across 8 European Countries. <i>Nutrients</i> , 2020 , 12,	6.7	24
465	Transethnic Genome-Wide Association Study Provides Insights in the Genetic Architecture and Heritability of Long QT Syndrome. <i>Circulation</i> , 2020 , 142, 324-338	16.7	27
464	Statin therapy is associated with lower prevalence of gut microbiota dysbiosis. <i>Nature</i> , 2020 , 581, 310-315	5.4	100
463	Associations between consumption of dietary fibers and the risk of cardiovascular diseases, cancers, type 2 diabetes, and mortality in the prospective NutriNet-Santé cohort. <i>American Journal of Clinical Nutrition</i> , 2020 , 112, 195-207	7	21
462	Consumption of ultra-processed foods and the risk of overweight and obesity, and weight trajectories in the French cohort NutriNet-Santé <i>Proceedings of the Nutrition Society</i> , 2020 , 79,	2.9	1
461	Bulgarian consumers' objective understanding of front-of-package nutrition labels: a comparative, randomized study. <i>Archives of Public Health</i> , 2020 , 78, 35	2.6	5
460	Food additives: distribution and co-occurrence in 126,000 food products of the French market. <i>Scientific Reports</i> , 2020 , 10, 3980	4.9	33
459	Compared to other front-of-pack nutrition labels, the Nutri-Score emerged as the most efficient to inform Swiss consumers on the nutritional quality of food products. <i>PLoS ONE</i> , 2020 , 15, e0228179	3.7	15
458	The genetic history of France. <i>European Journal of Human Genetics</i> , 2020 , 28, 853-865	5.3	4
457	Untargeted plasma metabolomic profiles associated with overall diet in women from the SU.VI.MAX cohort. <i>European Journal of Nutrition</i> , 2020 , 59, 3425-3439	5.2	6
456	Genome-wide association meta-analyses combining multiple risk phenotypes provide insights into the genetic architecture of cutaneous melanoma susceptibility. <i>Nature Genetics</i> , 2020 , 52, 494-504	36.3	39
455	Ultraprocessed Food Consumption and Risk of Type 2 Diabetes Among Participants of the NutriNet-Santé Prospective Cohort. <i>JAMA Internal Medicine</i> , 2020 , 180, 283-291	11.5	127
454	Imidazole propionate is increased in diabetes and associated with dietary patterns and altered microbial ecology. <i>Nature Communications</i> , 2020 , 11, 5881	17.4	29
453	Objective understanding of the Nutri-score front-of-pack label by European consumers and its effect on food choices: an online experimental study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 146	8.4	14
452	Prospective association between organic food consumption and the risk of type 2 diabetes: findings from the NutriNet-Santé cohort study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 136	8.4	10

451	Association between Neu5Gc carbohydrate and serum antibodies against it provides the molecular link to cancer: French NutriNet-Santé study. <i>BMC Medicine</i> , 2020 , 18, 262	11.4	9
450	Effectiveness of Different Front-of-Pack Nutrition Labels among Italian Consumers: Results from an Online Randomized Controlled Trial. <i>Nutrients</i> , 2020 , 12,	6.7	8
449	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort. <i>PLoS Medicine</i> , 2020 , 17, e1003256	11.6	46
448	Total and added sugar intakes, sugar types, and cancer risk: results from the prospective NutriNet-Santé cohort. <i>American Journal of Clinical Nutrition</i> , 2020 , 112, 1267-1279	7	23
447	Association between processed meat intake and asthma symptoms in the French NutriNet-Santé cohort. <i>European Journal of Nutrition</i> , 2020 , 59, 1553-1562	5.2	3
446	Diet-Related Metabolomic Signature of Long-Term Breast Cancer Risk Using Penalized Regression: An Exploratory Study in the SU.VI.MAX Cohort. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2020 , 29, 396-405	4	8
445	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort 2020 , 17, e1003256		
444	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort 2020 , 17, e1003256		
443	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort 2020 , 17, e1003256		
442	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort 2020 , 17, e1003256		
441	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort 2020 , 17, e1003256		
440	Ultra-processed food intake in association with BMI change and risk of overweight and obesity: A prospective analysis of the French NutriNet-Santé cohort 2020 , 17, e1003256		
439	Association of the Dietary Index Underpinning the Label with Oral Health: Preliminary Evidence from a Large, Population-Based Sample. <i>Nutrients</i> , 2019 , 11,	6.7	5
438	Prospective association between several dietary scores and risk of cardiovascular diseases: Is the Mediterranean diet equally associated to cardiovascular diseases compared to National Nutritional Scores?. <i>American Heart Journal</i> , 2019 , 217, 1-12	4.9	10
437	Prospective association between adherence to the MIND diet and subjective memory complaints in the French NutriNet-Santé cohort. <i>Journal of Neurology</i> , 2019 , 266, 942-952	5.5	12
436	Association of diet quality and physical activity with healthy ageing in the French NutriNet-Santé cohort. <i>British Journal of Nutrition</i> , 2019 , 122, 93-102	3.6	2
435	Plasma Metabolomic Signatures Associated with Long-term Breast Cancer Risk in the SU.VI.MAX Prospective Cohort. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2019 , 28, 1300-1307	4	15
434	Ultra-processed food intake and risk of cardiovascular disease: prospective cohort study (NutriNet-Santé) <i>BMJ, The</i> , 2019 , 365, l1451	5.9	240

433	The Inflammatory Potential of the Diet is Directly Associated with Incident Depressive Symptoms Among French Adults. <i>Journal of Nutrition</i> , 2019 , 149, 1198-1207	4.1	11
432	Prospective association between ultra-processed food consumption and incident depressive symptoms in the French NutriNet-Santé cohort. <i>BMC Medicine</i> , 2019 , 17, 78	11.4	59
431	Estimating sodium intake from spot urine samples at population level: a validation and application study in French adults. <i>British Journal of Nutrition</i> , 2019 , 122, 186-194	3.6	1
430	Associations between usual diet and gut microbiota composition: results from the Milieu Intérieur cross-sectional study. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 1472-1483	7	41
429	The associations of anthropometric, behavioural and sociodemographic factors with circulating concentrations of IGF-I, IGF-II, IGFBP-1, IGFBP-2 and IGFBP-3 in a pooled analysis of 16,024 men from 22 studies. <i>International Journal of Cancer</i> , 2019 , 145, 3244-3256	7.5	9
428	Improvement of diet sustainability with increased level of organic food in the diet: findings from the BioNutriNet cohort. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 1173-1188	7	25
427	Association between an individual dietary index based on the British Food Standard Agency Nutrient Profiling System and asthma symptoms. <i>British Journal of Nutrition</i> , 2019 , 122, 63-70	3.6	3
426	Consumers' Responses to Front-of-Pack Nutrition Labelling: Results from a Sample from The Netherlands. <i>Nutrients</i> , 2019 , 11,	6.7	26
425	A meta-analysis of genome-wide association studies identifies multiple longevity genes. <i>Nature Communications</i> , 2019 , 10, 3669	17.4	102
424	Ability of the Nutri-Score front-of-pack nutrition label to discriminate the nutritional quality of foods in the German food market and consistency with nutritional recommendations. <i>Archives of Public Health</i> , 2019 , 77, 28	2.6	24
423	Sugary drink consumption and risk of cancer: results from NutriNet-Santé prospective cohort. <i>BMJ, The</i> , 2019 , 366, l2408	5.9	77
422	Association between dietary fibre intake and asthma (symptoms and control): results from the French national e-cohort NutriNet-Santé. <i>British Journal of Nutrition</i> , 2019 , 122, 1040-1051	3.6	10
421	Combination of Healthy Lifestyle Factors on the Risk of Hypertension in a Large Cohort of French Adults. <i>Nutrients</i> , 2019 , 11,	6.7	12
420	Front-of-Pack Labeling and the Nutritional Quality of Students' Food Purchases: A 3-Arm Randomized Controlled Trial. <i>American Journal of Public Health</i> , 2019 , 109, 1122-1129	5.1	11
419	Association Between Adherence To The French Dietary Guidelines And Lower Resting Heart Rate, Longer Diastole Duration, And Lower Myocardial Oxygen Consumption. The NUTRIVASC Study. <i>Vascular Health and Risk Management</i> , 2019 , 15, 463-475	4.4	2
418	Urinary pesticide concentrations in French adults with low and high organic food consumption: results from the general population-based NutriNet-Santé. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2019 , 29, 366-378	6.7	26
417	A Collaborative Analysis of Individual Participant Data from 19 Prospective Studies Assesses Circulating Vitamin D and Prostate Cancer Risk. <i>Cancer Research</i> , 2019 , 79, 274-285	10.1	17
416	Some Differences in Nutritional Biomarkers are Detected Between Consumers and Nonconsumers of Organic Foods: Findings from the BioNutriNet Project. <i>Current Developments in Nutrition</i> , 2019 , 3, nzy090	0.4	6

415	Sociodemographic correlates of eating disorder subtypes among men and women in France, with a focus on age. <i>Journal of Epidemiology and Community Health</i> , 2019 , 73, 56-64	5.1	5
414	Quantitative assessment of dietary supplement intake in 77,000 French adults: impact on nutritional intake inadequacy and excessive intake. <i>European Journal of Nutrition</i> , 2019 , 58, 2679-2692	5.2	6
413	Saturated, mono- and polyunsaturated fatty acid intake and cancer risk: results from the French prospective cohort NutriNet-Santé. <i>European Journal of Nutrition</i> , 2019 , 58, 1515-1527	5.2	18
412	A genome wide association study identifies new genes potentially associated with eyelid sagging. <i>Experimental Dermatology</i> , 2019 , 28, 892-898	4	4
411	Comparing nutritional, economic, and environmental performances of diets according to their levels of greenhouse gas emissions. <i>Climatic Change</i> , 2018 , 148, 155-172	4.5	31
410	Associations of Omega-3 Fatty Acid Supplement Use With Cardiovascular Disease Risks: Meta-analysis of 10 Trials Involving 77 917 Individuals. <i>JAMA Cardiology</i> , 2018 , 3, 225-234	16.2	403
409	NMR metabolomic signatures reveal predictive plasma metabolites associated with long-term risk of developing breast cancer. <i>International Journal of Epidemiology</i> , 2018 , 47, 484-494	7.8	28
408	The Inflammatory Potential of the Diet at Midlife Is Associated with Later Healthy Aging in French Adults. <i>Journal of Nutrition</i> , 2018 , 148, 437-444	4.1	14
407	Association Between Adherence to the Mediterranean Diet at Midlife and Healthy Aging in a Cohort of French Adults. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2018 , 73, 347-354	6.4	24
406	Prospective association between adherence to the Mediterranean diet and risk of depressive symptoms in the French SU.VI.MAX cohort. <i>European Journal of Nutrition</i> , 2018 , 57, 1225-1235	5.2	24
405	Déterminants et corrélats de la consommation d'aliments issus de l'agriculture biologique. Résultats du projet BioNutriNet. <i>Cahiers De Nutrition Et De Dietetique</i> , 2018 , 53, 43-52	0.2	4
404	Total and specific dietary polyphenol intakes and 6-year anthropometric changes in a middle-aged general population cohort. <i>International Journal of Obesity</i> , 2018 , 42, 310-317	5.5	13
403	Red and processed meat intake and cancer risk: Results from the prospective NutriNet-Santé cohort study. <i>International Journal of Cancer</i> , 2018 , 142, 230-237	7.5	57
402	Differential Associations of Walking and Cycling with Body Weight, Body Fat and Fat Distribution - the ACTI-Cité Project. <i>Obesity Facts</i> , 2018 , 11, 221-231	5.1	1
401	Mindfulness Is Associated with the Metabolic Syndrome among Individuals with a Depressive Symptomatology. <i>Nutrients</i> , 2018 , 10,	6.7	1
400	The Mediating Role of Overweight and Obesity in the Prospective Association between Overall Dietary Quality and Healthy Aging. <i>Nutrients</i> , 2018 , 10,	6.7	3
399	Adherence to National Dietary Guidelines in Association with Oral Health Impact on Quality of Life. <i>Nutrients</i> , 2018 , 10,	6.7	9
398	Associations between dietary scores with asthma symptoms and asthma control in adults. <i>European Respiratory Journal</i> , 2018 , 52,	13.6	25

397	Association between a pro plant-based dietary score and cancer risk in the prospective NutriNet-santé cohort. <i>International Journal of Cancer</i> , 2018 , 143, 2168-2176	7.5	14
396	Circadian nutritional behaviours and cancer risk: New insights from the NutriNet-santé prospective cohort study: Disclaimers. <i>International Journal of Cancer</i> , 2018 , 143, 2369-2379	7.5	31
395	Association Between Alexithymia and Risk of Incident Cardiovascular Diseases in the SUPplémentation en Vitamines et MinÉraux AntioXydants (SU.VI.MAX) Cohort. <i>Psychosomatic Medicine</i> , 2018 , 80, 460-467	3.7	2
394	MTHFR 677C -TT genotype modulates the effect of a 5-year supplementation with B-vitamins on homocysteine concentration: The SU.FOL.OM3 randomized controlled trial. <i>PLoS ONE</i> , 2018 , 13, e0193332	3.7	10
393	Obesity and Migraine: Effect Modification by Gender and Perceived Stress. <i>Neuroepidemiology</i> , 2018 , 51, 25-32	5.4	8
392	Prospective association between combined healthy lifestyles and risk of depressive symptoms in the French NutriNet-Santé cohort. <i>Journal of Affective Disorders</i> , 2018 , 238, 554-562	6.6	15
391	Association between organic food consumption and metabolic syndrome: cross-sectional results from the NutriNet-Santé study. <i>European Journal of Nutrition</i> , 2018 , 57, 2477-2488	5.2	28
390	Unsaturated Fatty Acid Intakes During Midlife Are Positively Associated with Later Cognitive Function in Older Adults with Modulating Effects of Antioxidant Supplementation. <i>Journal of Nutrition</i> , 2018 , 148, 1938-1945	4.1	14
389	Macronutrient Intake in Relation to Migraine and Non-Migraine Headaches. <i>Nutrients</i> , 2018 , 10,	6.7	7
388	Association of Frequency of Organic Food Consumption With Cancer Risk: Findings From the NutriNet-Santé Prospective Cohort Study. <i>JAMA Internal Medicine</i> , 2018 , 178, 1597-1606	11.5	74
387	Impact of Front-of-Pack Nutrition Labels on Portion Size Selection: An Experimental Study in a French Cohort. <i>Nutrients</i> , 2018 , 10,	6.7	17
386	How Healthy Lifestyle Factors at Midlife Relate to Healthy Aging. <i>Nutrients</i> , 2018 , 10,	6.7	25
385	A locus at 7p14.3 predisposes to refractory celiac disease progression from celiac disease. <i>European Journal of Gastroenterology and Hepatology</i> , 2018 , 30, 828-837	2.2	16
384	Prospective association between adherence to dietary recommendations and incident depressive symptoms in the French NutriNet-Santé cohort. <i>British Journal of Nutrition</i> , 2018 , 120, 290-300	3.6	12
383	Fasting and weight-loss restrictive diet practices among 2,700 cancer survivors: results from the NutriNet-Santé cohort. <i>International Journal of Cancer</i> , 2018 , 143, 2687-2697	7.5	6
382	Long-term association between the dietary inflammatory index and cognitive functioning: findings from the SU.VI.MAX study. <i>European Journal of Nutrition</i> , 2017 , 56, 1647-1655	5.2	49
381	Major Change in Body Weight over 5 Years and Total Sleep Time: Investigation of Effect Modification by Sex and Obesity in a Large e-Cohort. <i>International Journal of Behavioral Medicine</i> , 2017 , 24, 493-500	2.6	5
380	Prospective association between consumption frequency of organic food and body weight change, risk of overweight or obesity: results from the NutriNet-Santé study. <i>British Journal of Nutrition</i> , 2017 , 117, 325-334	3.6	32

379	Prospective association between body mass index at midlife and healthy aging among French adults. <i>Obesity</i> , 2017 , 25, 1254-1262	8	5
378	Dyslipidemia as a Potential Moderator of the Association between Hearing Loss and Depressive Symptoms. <i>Journal of Nutrition, Health and Aging</i> , 2017 , 21, 1291-1298	5.2	4
377	Modifications in dietary and alcohol intakes between before and after cancer diagnosis: Results from the prospective population-based NutriNet-Santé cohort. <i>International Journal of Cancer</i> , 2017 , 141, 457-470	7.5	15
376	Genome-wide association study of glioma subtypes identifies specific differences in genetic susceptibility to glioblastoma and non-glioblastoma tumors. <i>Nature Genetics</i> , 2017 , 49, 789-794	36.3	163
375	The Inflammatory Potential of the Diet Is Associated with Depressive Symptoms in Different Subgroups of the General Population. <i>Journal of Nutrition</i> , 2017 , 147, 879-887	4.1	37
374	Dietary intakes and diet quality according to levels of organic food consumption by French adults: cross-sectional findings from the NutriNet-Santé Cohort Study. <i>Public Health Nutrition</i> , 2017 , 20, 638-648	3.3	32
